## THE CONTINUOUS REVISION PROGRAM

Florida long followed the practice of publishing the entire body of general law in force after each regular biennial legislative session. With the advent of annual sessions following the adoption of the Florida Constitution as revised in 1968, this practice was necessarily altered. Thereafter, the *Florida Statutes* has been published biennially following each odd-year regular session, and a Supplement is published following each even-year regular session. The Supplement contains the full text of each section amended or added during that session, together with the catchlines of sections repealed or transferred or otherwise affected. Despite this change in practice, the principal advantage of the Florida system remains: It provides an up-to-date, authoritative statement of the general law for use by practitioners, judges, legislators, and other interested persons. The following paragraphs identify and explain the principal attributes and consequences of the Florida program that should be of interest to all who use the *Florida Statutes*.

**Biennial adoption of the Florida Statutes.**—A vitally important part of the continuous statutory revision program is the enactment of the biennial adoption act during each odd-year regular session. This act amends ss. 11.2421, 11.2422, 11.2424, and 11.2425. It prospectively adopts as an official document the edition of the *Florida Statutes* to be published following that session. Perhaps more important, it adopts as the official statute law of the state those portions of that edition that are carried forward from the preceding regular edition.

As a result of the biennial adoption act, together with the standing provision of s. 11.242(5)(c) directing that the laws of a general and permanent nature enacted during the current session be meshed into the standing law and published as part of the *Florida Statutes*, each regular edition of the *Florida Statutes* contains matter having different evidential consequences: The portions carried forward from the preceding regular edition are the official law of the state and therefore constitute the best evidence of what the law is. The portions resulting from sessions occurring subsequent to the preceding odd-year regular session (i.e., the preceding even-year session, the current odd-year session, and any special sessions) are made prima facie evidence of the law in all courts of the state. Of course, during the period a provision is characterized as prima facie evidence, the enrolled act stands as the best evidence of the law as to the matter dealt with and would prevail in event of conflict.

**Some consequences.**—The Florida continuous statutory revision system has some significant consequences. For one, the task of the statutory researcher is greatly simplified in that he need examine only the current edition of the *Florida Statutes*, including the Supplement, if any, and the session law volumes for the period since publication of the preceding regular edition. Any law of a "general and permanent nature" enacted prior to that time which does not appear in the current edition stands repealed, both by the logic of the system and by the operation of s. 11.2422. See *National Bank of Jacksonville v. Williams*, 38 Fla. 305, 20 So. 931 (1896).

Another beneficial result of the Florida system is that the biennial adoption of the *Florida Statutes* is viewed as curing title defects that existed in the act as originally passed. See *State v. Lee*, 22 So.2d 804 (Fla. 1945). Thus, general legislation remains susceptible to attack on this ground only during the period between its original enactment and its subsequent adoption as the official law of the state two years or three years later, depending upon whether the original enactment occurred in an odd or even year.

**Construction of acts enacted during the same session.**—It occasionally happens that the Legislature enacts two or more bills that relate to the same provision of the *Florida Statutes*. In such cases, the editors must find the legislative intent from the best evidence available. When the provisions of two amendatory acts are not mutually inconsistent, the language is meshed and full effect is given to both acts. On the other hand, when the provisions of two amendatory statutes are in irreconcilable conflict, the editors apply the usual canons of statutory construction in determining which version to publish, inserting a note calling attention to the conflict and setting forth the alternative text pending resolution of the conflict by further legislative action. See also s. 1.04, F.S.

When an act purports to amend a section of the *Florida Statutes* which an earlier act has repealed, the course to be followed depends on whether the substance of the amendatory act makes sense standing alone. If it does not, it is omitted along with the repealed provision; if it does make sense standing alone, the amended or added portion of the amendatory act is published as a new enactment. Of course, if an act repeals a provision which an earlier act purported to amend, the amended provision is deleted.

## ADDITIONAL FEATURES OF THE FLORIDA STATUTES

**Arrangement of chapters and titles.**—The object of any arrangement of compiled statutes is to facilitate the finding of the law. There are two methods of arrangement in general use in the United States: The "logical," or "topical," grouping of related subjects, as used in many digests; and the "alphabetical" arrangement, as used in legal encyclopedias. Florida has followed the majority of states in adopting the former of these arrangements.

The Numerical Title and Chapter Index printed in the front part of Volumes 1, 2, and 3 provides a quick reference to the chapters grouped under the logical title system. It lists groups of related subjects in a general subject field and lists in numerical order all chapters assigned. Some chapters have been divided into parts based on logical organization or related subject matter.

**Numbering system.**—The sections of the *Florida Statutes* are identified by decimal numbers. Having first been arranged by subject matter, the chapters of the *Florida Statutes* are each assigned a whole number which appears to the left of the decimal point in each number that identifies a section. The section within the chapter is then identified by the whole decimal number, including the digits appearing to the right of the decimal point. Thus, s. 16.01 would identify a section in chapter 16 of the *Statutes*.

The principal advantage of the decimal numbering system is its infinite flexibility. A new section can always be inserted between any two existing sections. For example, a new section to be inserted between ss. 16.12 and 16.13 could be assigned any number from 16.121 through 16.129 without using more than three digits to the right of the decimal point. This is because, in the decimal numbering system, 16.12 is the same as 16.120 and 16.13 is the same as 16.130. If the zeros are added, it can easily be seen that 16.125, for example, comes in between 16.120 and 16.130.

As a corollary to this discussion of the decimal numbering system, it should be emphasized that the number of a section has no significance other than to indicate its location. In other words, a section that is identified by a number containing four digits to the right of the decimal point is of no less dignity or importance than a section having a number with only two or three digits to the right of the decimal point.

The hierarchical arrangement of textual subdivisions is indicated by various designations. Thus, chapters are indicated by whole arabic numbers; sections, by numbers containing a decimal point; subsections, by whole arabic numbers enclosed by parentheses; paragraphs, by lowercase letters enclosed by parentheses; subparagraphs, by whole arabic numbers followed by a period; and sub-subparagraphs, by lowercase letters followed by a period. Subdivisions beyond the sub-subparagraph are not ordinarily used.

**Finding the law.**—There are two general methods for finding those sections of the *Florida Statutes* that deal with a particular subject matter. The choice of which to use on any particular occasion should be determined by the preference of the searcher and the degree of his familiarity with the *Statutes* and the indexing systems contained therein. One who has considerable familiarity with the body of law being searched may save some time by simply using the chapter outline which appears at the beginning of the appropriate chapter. The proper chapter can usually be located by use of either the Numerical Title and Chapter Index or the Alphabetical Index to Chapter Titles located at the front of Volumes 1, 2, and 3. One who is less familiar with the subject matter, or who is conducting a more wide-ranging search, will probably prefer to use the general index which is located in Volume 4.

**History notes.**—Every section is followed by a history note containing citations to the section and chapter number of the act that created the section and of each subsequent amendatory act. For an explanation of citations to early compilations, see the following segment of this Preface.

**Cross-references.**—Cross-references appear in the *Florida Statutes* in two forms. Whenever it might be helpful to the users of the *Statutes*, the editors insert notes immediately following the history notes containing references to related or qualifying sections.

Cross-references, both specific and general, also appear as incorporated into the text of the *Statutes* by legislative enactment, and a word of caution concerning such specific references is in order. Florida follows the rule of construction that is applied in most other jurisdictions, that a specific reference to a statute in effect incorporates the language of that statute as it existed at the time the reference was enacted, unaffected by any subsequent amendment or repeal of the incorporated statute. *Williams v. State*, 125 So. 358 (Fla. 1930); *Overstreet v. Blum*, 227 So.2d 197 (Fla. 1969).

It is true that this rule often disappoints any popular expectation that such references are to the current text of the incorporated statute which may therefore be immediately consulted, but this is apparently unavoidable. Consequently, when users of the *Florida Statutes* encounter an internal reference to a specific statute that appears to be of critical importance to the meaning of the incorporating section, they will be well-advised to find and read the language actually incorporated.

On the other hand, the rule concerning a general reference to the body of law relating to a specified subject matter, without reference to a specific statute, is different in that a general reference is understood as including any subsequent amendment or repeal of the referenced body of law. *Williams v. State*, *ibid.*; *State ex rel. Springer v. Smith*, 189 So.2d 846 (Fla. 1966).

**Table of section changes.**—A table of changes to sections of the *Florida Statutes* is located at the front of Volumes 1, 2, and 3, printed on yellow paper. This table shows: (1) the sections, by number, that have been changed in any way and (2) whether the change consisted of an amendment, a repeal, a transfer, or an addition. It is a convenient device for pinpointing changes to a given segment of the general law.

**Tracing table.**—A table tracing all general laws enacted since 1919 into the *Florida Statutes* is located in Volume 4. The word "omitted" indicates that the act or section of an act was not of a "general and permanent nature." For the text of an omitted provision, consult the appropriate volume of the *Laws of Florida*.

Immediately following the tracing table for general laws enacted by the legislative process is a special table tracing various provisions of the Constitution of 1885, as amended, into the *Florida Statutes*. This conversion of constitutional provisions into statutory law occurred pursuant to the provisions of s. 10, Article XII of the Constitution as revised in 1968.

**Table of repealed and transferred sections.**—Immediately preceding the General Index in Volume 4 is a table showing repealed and transferred sections. Whenever a section is repealed or transferred to a new location in the *Statutes*, the former section number becomes inactive and will not be used again. Such numbers are then listed in this table, along with the chapter number of the session law which effected the repeal or transfer or the year in which the section number was changed in the course of revision. The entry for a transferred section also includes the new location of the section. For the text of the repealed or transferred section or the content of its history note, consult the edition of the *Statutes* prior to the repeal or transfer. The table is of primary utility to the researcher who is interested in the movement of the law as well as its current content.

**Miscellaneous materials.**—Section 11.242(4) authorizes the inclusion in the published edition of the *Florida Statutes*, in addition to the general laws as adopted and enacted, the Florida Constitution, and complete indexes, "such other matters, notes, data, and other material as may be deemed necessary or admissible by the joint committee for reference, convenience or interpretation." The various items published under this authority are located in Volume 4 and are identified in the table of contents at the front of each volume.

## FORMER REVISIONS AND COMPILATIONS

The laws of general application of the territory of Florida and of the State of Florida have either been compiled unofficially or revised under authority of law and adopted as official statutes in the following publications: *Duval's Compilation of Territorial Laws, 1840* (compilation); *Thompson's Digest, 1847* (compilation); *Bush's Digest, 1872* (compilation); *McClellan's Digest, 1881* (compilation); *Revised Statutes (R.S.) 1892* (revision enacted as a law); *General Statutes (G.S.) 1906* (revision enacted as a law); *Revised General Statutes (R.G.S.) 1920* (revision enacted as a law); *Compiled General Laws (C.G.L.) 1927* (compilation unofficial); revision of 1940 and the beginning of the continuous revision system; adoption of the official 1940 revision in 1941 (F.S. 1941); the *Florida Statutes* of 1949 (F.S. 1949) (consolidation of 1941 statutes and supplements printed during the war years in 1943, 1945, 1947); and *Florida Statutes* of 1951, 1953, 1955, 1957, 1959, 1961, 1963, 1965, 1967, 1969, 1971, 1973, 1975, and 1977.

## THE STATUTORY REVISION DIVISION

By chapter 22012, Laws of Florida, 1943, the Legislature created a permanent statutory revision and legislative drafting and reference department under the supervision and control of the Attorney General. The principal functions of this department were to publish the general laws of the state and to maintain a bill drafting department and legislative reference library. In 1949 the Legislature established the Legislative Council and Legislative Reference Bureau as an arm of the Legislature and completely separate from the Attorney General. By chapter 67-472, Laws of Florida, the Legislature removed the Statutory Revision Department from the office of the Attorney General and established it as a part of the Legislative Reference Bureau under the supervision of the Legislative Council. By chapter 69-52, Laws of Florida, the Legislative Reference Bureau was renamed the Legislative Service Bureau, and the Statutory Revision Department became the Statutory Revision Service within the bureau and its work was made subject to the supervision of the Joint Legislative Management Committee, which replaced the Legislative Council. In 1971, by order of the Joint Legislative Management Committee, the statutory revision and indexing functions were consolidated in a new division of the Joint Legislative Management Committee, the Division of Statutory Revision and Indexing. The division was renamed the Division of Statutory Revision in 1978.

The powers, duties, and functions of the Statutory Revision Division are set out in s. 11.242. In general, they are: (1) to conduct a systematic and continuing study of the statutes and laws of the state to reduce their number and bulk; remove inconsistencies, redundancies, and unnecessary repetitions; and otherwise improve their clarity and facilitate their correct and proper interpretation; (2) to publish the *Florida Statutes*; and (3) to index various publications of the Joint Legislative Management Committee.

Section 11.242(5) defines the limits of the editorial license that is available to the Statutory Revision Division in preparing the *Florida Statutes*. Pursuant to this section, the division has broad authority over the arrangement and grammatical structure of the *Statutes*. Although the statute provides that the product of the division's work shall constitute only prima facie evidence of the law until it has subsequently been formally adopted, the Statutory Revision Division nonetheless traditionally exercises its editorial prerogatives with self-restraint. It believes its mandate to be to produce the *Statutes* in usable and literate form, but strictly within the framework of the legislative intent.

The reviser's office is a clearinghouse where lawyers, judges, legislators, and administrators may help to improve the statutory law of the state. Persons calling attention to errors, omissions, conflicts, and other defects in the law can be a material help in administering Florida's continuous revision program.

JANE REYNOLDS HARRIS, Director  
Division of Statutory Revision

(3) "State bonded warehouse" means any licensed warehouse used to store alcoholic beverages.

water. It is the intent of this subsection that the volume and weight tables for standard ethyl alcohol and distilled water as established by the National Bureau of Standards shall be conclusive regardless of the actual weight, which variance from the weight of distilled water is due to the adding of sugar, flavoring, or other ingredients used in making the final product.

(5) "Intoxicating beverage" and "intoxicating liquor" mean only those alcoholic beverages containing more than 3.2 percent of alcohol by weight.

(6) "The Beverage Law" means chapters 561, 562, 563, 564, 565, 567, and 568.

(10) "Discount in the usual course of business" means a cash or spirituous or vinous beverage merchandise discount given pursuant to an agreement made at the time of sale. However, such agreement shall not result in an accrued, accumulated, or retroactive discount. The same discounts shall be offered to all vendors buying similar quantities. Any discount which is in violation of this section shall be considered an arrangement for financial assistance by gift.

(11) "Licensed premises" means not only rooms where alcoholic beverages are stored or sold by the licensee, but also all other rooms in the building which are so closely connected therewith as to admit of free passage from drink parlor to other rooms over which the licensee has some dominion or control and shall also include all of the area embraced within the sketch, appearing on or attached to the application for the license involved and designated as such on said sketch, in addition to that included or designated by general law.

#### **561.20 Limitation of number of licenses issued.—**

(1) No license under s. 565.02(1)(a)-(f), inclusive, shall be issued so that the number of such licenses within the limits of the territory of any county shall exceed one such license to each 2500 residents, or major fraction thereof, within such county, as shown by the last regular statewide census, either federal or state, of such county. However, such limitation shall not prohibit the issuance of at least three licenses in any county that may approve the sale of intoxicating liquors in such county.

(2)(a) No such limitation of the number of licenses as herein provided shall henceforth prohibit the issuance of a special license to:

1. Any bona fide hotel, motel, or motor court of not less than 100 guest rooms;

2. Any condominium accommodation of which no less than 100 condominium units are wholly rentable to transients and which is licensed under the provisions of chapter 509, except that the license shall be issued only to the person or corporation which operates the hotel or motel operation and not to the association of condominium owners; or

3. Any restaurant having 2,500 square feet of service area and equipped to serve 150 persons full-course meals at one time, and deriving at least 51 percent of its gross revenue from the sale of food and nonalcoholic beverages. However, any license heretofore issued to any such hotel, motel, motor court, or restaurant or hereafter issued to any such hotel, motel, or motor court, including a condominium accommodation, under the general law shall not be moved to a new location, such licenses being valid only on the premises of such hotel, motel, motor court, or restaurant. Licenses issued to hotels, motels, motor courts, or restaurants under the general law and held by such hotels, motels, motor courts, or restaurants on May 24, 1947, shall be counted in the quota limitation contained in subsection (1). Any license issued for any hotel, motel, or motor court under the provisions of this law shall be issued only

to the owner of said hotel, motel, or motor court or, in the event the hotel, motel, or motor court is leased, to the lessee of the hotel, motel, or motor court, and the license shall remain in the name of said owner or lessee so long as the license is in existence. Any special license now in existence heretofore issued under the provisions of this law cannot be renewed except in the name of the owner of the hotel, motel, motor court, or restaurant or, in the event the hotel, motel, motor court, or restaurant is leased, in the name of the lessee of the hotel, motel, motor court, or restaurant in which the license is located and must remain in the name of said owner or lessee so long as the license is in existence. Any license issued under this section shall be marked "Special," and nothing herein provided shall limit, restrict, or prevent the issuance of a special license for any restaurant or motel which shall hereafter meet the requirements of the law existing immediately prior to the effective date of this act, if construction of such restaurant has commenced prior to the effective date of this act and is completed within 30 days thereafter, or if an application is on file for such special license at the time this act takes effect; and any such licenses issued under this proviso may be annually renewed as now provided by law. Nothing herein shall prevent an application for transfer of a license to a bona fide purchaser of any hotel, motel, motor court, or restaurant by the purchaser of such facility or the transfer of such license pursuant to law. Restaurants that are a part of, or serve, publicly owned or leased airports are exempt from the provisions of this paragraph regarding minimum size and seating capacity.

(b) Any county in which special licenses were issued under the provisions of s. 561.20(2)(b) in effect prior to the effective date of this act shall continue to qualify for such licenses pursuant to those provisions in effect prior to the effective date of this act, and shall not be affected by the provisions of paragraph (a) of this subsection.

(c) In addition to any special licenses that may be issued under the provisions of paragraph (a), the division is hereby authorized to issue special licenses to qualified applicants who own or lease bowling establishments having 12 or more lanes and all necessary equipment to operate same. Any license issued for any bowling establishment under the provisions of this paragraph shall be issued only to the owner of said bowling establishment or, in the event the bowling establishment is leased, to the lessee of the bowling establishment, and the license shall remain in the name of said owner or lessee so long as the license is in existence. Any such license issued under this paragraph shall not be moved to a new location and shall not be transferred in any manner whatsoever. No license issued pursuant to this paragraph shall permit the licensee to sell alcoholic beverages by the package for off-the-premises consumption. The provisions of this paragraph shall not preclude any bowling establishment from holding a beverage license issued pursuant to any other provision of this section.

(d) Any board of county commissioners may be issued a special license which shall be issued in the name of the county and be applicable only in and for

facilities owned and operated by the county and in which the sale and consumption of alcoholic beverages is not otherwise prohibited. The license may be transferred from one qualified county facility to another upon written notification to the department.

(e) The owner of a hotel, motel, or motor court may lease his restaurant operation to another corporation, individual, or business association that, upon meeting the requirements for a restaurant license set forth in this chapter, may operate independently of the hotel, motel, or motor court and be permitted to provide room service for alcoholic and intoxicating beverages within such hotel, motel, or motor court in which the restaurant is located.

(3) The limitation upon the number of such licenses to be issued as herein provided shall not apply to existing licenses or to the renewal or transfer of such licenses, but upon the revocation of any existing license no renewal thereof or new license therefore shall be issued contrary to the limitation herein prescribed. However, the beverage director may reissue a license under s. 565.02(1)(b) to any qualified applicant within any municipality in which there is only one license, which formerly had an additional license which has heretofore been revoked, and which has sufficient population as shown by the last regular statewide federal census to warrant the additional license. The transfer permitted herein shall not include the change in location of any licensed premises as provided in s. 561.33 of the Beverage Law when such change of location will increase the number of licenses contrary to the limitation upon the number of such licenses as herein provided.

(4) The limitations herein prescribed shall not affect or repeal any existing or future local or special act relating to the limitation by population and exceptions or exemptions from such limitation by population of such licenses within any incorporated city or town or county that may be in conflict herewith.

(5) Provisions of subsections (2) and (4) as amended by chapter 57-773, Laws of Florida, shall take effect January 1, 1958, and shall apply only to those places of business licensed to operate after January 1, 1958, and shall in no manner repeal or nullify any license issued under provisions of law which are now operating or will operate prior to the effective date January 1, 1958, and all such places of business shall be exempt from the provisions of this law so long as they are in continuous operation.

(6) When additional licenses are available by reason of an increase in population, no person, firm, or corporation already holding a liquor license shall be permitted to own or have any interest, directly or indirectly, in any such additional licenses, or when additional licenses are available by reason of a county permitting the sale of intoxicating beverages when the same is prohibited, no person, firm, or corporation will be permitted to own or have any interest, directly or indirectly, in more than one license. This limitation is enacted pursuant to the police power of the state, for the express purpose of promoting the public health, morals, and welfare. This limitation shall only apply when a license is originally issued after first becoming available and shall not apply to subsequent transfers of such licenses from

the original purchaser thereof, or to renewals of such licenses.

(7)(a) There shall be no limitation as to the number of licenses issued pursuant to s. 565.02(4). However, any licenses issued under this section shall be limited to:

1. Subordinate lodges or clubs of national fraternal or benevolent associations;

2. Golf clubs and tennis clubs municipally or privately owned or leased;

3. Nonprofit corporations or clubs devoted to promoting community, municipal, or county development or any phase of community, municipal, or county development;

4. Clubs fostering and promoting the general welfare and prosperity of members of showmen and amusement enterprises;

5. Clubs assisting, promoting, and developing subordinate lodges or clubs of national fraternal or benevolent associations; and

6. Clubs promoting, developing, and maintaining cultural relations of people of the same nationality.

(b) Any chartered or incorporated club owning or leasing and maintaining any bona fide regular, standard golf course consisting of at least nine holes, with clubhouse, locker rooms, and attendant golf facilities and comprising in all at least 70 acres of land owned or leased by such club may be issued a license under s. 565.02(4), but failure of such club to maintain golf course and golf facilities shall be grounds for revocation of license.

(c) Any chartered or incorporated club owning or leasing and maintaining any bona fide tennis club or 4-wall indoor racquetball club consisting of not less than 10 regulation-size tennis courts or 10 regulation-size 4-wall indoor racquetball courts, with clubhouse facilities, pro shop, locker rooms, and attendant tennis or racquetball facilities, all located on a contiguous tract of land owned or leased by such club, may be issued a license under s. 565.02(4), but failure of such club to maintain such courts and facilities shall be grounds for revocation of any such license so issued.

(8) In addition to any licenses that may be issued to restaurants under the provisions of this section, the division is hereby authorized to issue special licenses to qualified applicants whose applications have been approved by the Inter-American Center Authority for use within the confines of the Inter-American Cultural and Trade Center; provided, however, that any such license issued pursuant to this subsection shall not permit the licensee to sell alcoholic beverages by the package for off-premises consumption.

(9) In addition to any licenses that may be issued under the provisions of this chapter, the division is hereby authorized to issue special licenses to any county which has a population of at least one million persons according to the latest federal census and which owns and operates airport facilities pursuant to chapters 125 and 332, for transfer to qualified applicants who have secured approval from the board of county commissioners of such county for use within the confines of such airport facilities. Such licenses shall not be valid in any location beyond the confines of the terminal facilities of the airport. In

the event of expiration or revocation of such licenses, such licenses shall revert to the board of county commissioners automatically, by operation of law. However, no special license issued pursuant to this subsection shall permit the county or its transferee to sell alcoholic beverages by the package for off-premises consumption.

(10) In addition to any licenses that may be issued under the provisions of this chapter, the division is authorized to issue a special license to any marketing association of horse breeders organized under the laws of the state. Such license shall be applicable only in and for facilities used by the association for public auction of its products. No license issued pursuant to this subsection shall permit the licensee to sell alcoholic beverages by the package for off-premises consumption. The provisions of this subsection shall not preclude any cooperative marketing association of horse breeders from holding a license issued pursuant to any other provision of this chapter.

(2) No manufacturer, rectifier, or distiller, manufacturing, rectifying, or distilling spirituous liquors, in any state other than Florida, shall be granted a renewal of a license theretofore held as a distributor or exporter.

(3) If the applicant for a distributor's or exporter's license or renewal thereof shall be an individual or copartnership, such individual or copartnership shall be deemed within the provisions of subsections (1) or (2), as the case may be, in the event the individual or any member of the copartnership is interested or connected, directly or indirectly, with any corporation which is engaged directly or indirectly or through any subsidiary or affiliate corporation, including any stock ownership as set forth in subsection (4), in manufacturing, rectifying, or distilling spirituous liquors in any state other than this state. It is the intent of this subsection that if any individual or any member of such copartnership within 6 months next preceding the making of an application hereunder has been interested or connected as provided by this subsection, then such individual or such member of the copartnership shall be prima facie presumed to be so interested or connected with such corporation at the time of the making of the application and such prima facie presumption shall continue until overcome by the applicant.

(4) If the applicant for a distributor's or exporter's license, or for the renewal thereof, shall be a corporation, such corporation shall be deemed within the provisions of subsections (1) and (2), as the case may be, when such corporation is affiliated with, directly or indirectly any other corporation which is engaged in manufacturing, rectifying, or distilling spirituous liquors in any state other than Florida, or when such applicant corporation is controlled by, or the majority of stock therein is owned by, another corporation, which latter corporation is engaged, directly or indirectly, in manufacturing, rectifying, or distilling spirituous liquors in any state other than this state.

(5) Notwithstanding any of the provisions of the foregoing subsections, any corporation which holds a license as a distributor on June 3, 1947, shall be entitled to a renewal thereof, provided such corporation shall comply with all of the provisions of the Beverage Law of Florida, as amended, and of this section and shall establish by satisfactory evidence to the board of county commissioners of the county wherein the original license was issued that during the 6-month period next preceding its application for such renewal, that, of the total volume of its sales of

Forms for such applications shall be provided by the division. Every such application shall set forth clear and detailed information necessary and sufficient to establish the right of the applicant under the provisions of this section to receive or renew its license, as the case may be. The information herein required to be set forth shall be in addition to any information required to be set forth by any other provision of applicable law. Any application failing to comply fully with the provisions of this section shall be denied.

#### **561.27 Renewing license.**—

(1) A licensee under the Beverage Law shall be entitled to a renewal of his annual license from year to year, as a matter of course, on or before September 30 by presenting the license for the previous year or satisfactory evidence of its loss or destruction to the division and by paying the annual license tax and giving any bond required of such licensee under the Beverage Law.

(2) A license may be renewed subsequent to September 30 of each year only upon making to the division a delinquent application for approval, accompanied by an affidavit stating that no sales of alcoholic beverages have been made subsequent to September 30, and upon payment of a penalty of \$5 for each month or fraction of a month of delinquency, or upon payment of a penalty of 5 percent of the license fee, whichever amount is the greater. All licenses not renewed within 60 days of September 30 will be canceled by the division unless such license is involved in litigation; however, the division may

allow a licensee to renew the license subsequent to the 60-day period after good and sufficient cause for the delinquency has been shown to the division by the licensee.

(2) The division, or any employee designated by it, shall have the power and authority to examine into the business, books, records, and accounts of any licensee, and to issue subpoenas to said licensee or any other person from whom information is desired and to take depositions of witnesses within or without of the state. The provisions of the civil law of the state in relation to enforcing obedience to a subpoena lawfully issued by a judge or other person duly authorized to issue subpoenas under the laws of Florida, to issue subpoenas in civil cases, shall apply to a subpoena issued by the division, or any employee designated by it, as authorized in this section, and may be enforced by writ of attachment to be issued by the division, or any employee designated by it, for such witness to compel him to attend before the division,

or any employee designated by it, and give his testimony and to bring and produce such books, papers and documents as may be required for examination, and the division, or any employee designated by it, may punish any willful refusal to so appear or give testimony by citation of any witness before the circuit court who shall punish such witness for contempt as in cases of refusal to obey the orders and process of the circuit court. The division may in such cases pay such attendance and mileage fees as are permitted to be paid to witnesses in civil cases appearing before the circuit court.

(3) The division may impose a civil penalty against a licensee for any violation mentioned in the Beverage Law, or any rule issued pursuant thereto, not to exceed \$1,000 for violations arising out of a single transaction. However, no one shall be entitled as a matter of right to a transfer of a license when revocation or suspension proceedings have been instituted against a licensee, and transfer of license in any such case shall be within the discretion of the division. **561.42 Tied house evil; financial aid and assistance to vendor by manufacturer or distributor prohibited; procedure for enforcement; exception.**—

(1) No licensed manufacturer or distributor of any of the beverages herein referred to shall have any financial interest, directly or indirectly, in the establishment or business of any vendor licensed under the Beverage Law, nor shall such licensed manufacturer or distributor assist any vendor by any gifts or loans of money or property of any description or by the giving of any rebates of any kind whatsoever. No licensed vendor shall accept, directly or indirectly, any gift or loan of money or property of any description or any rebates from any such licensed man-

ufacturer or distributor; provided, however, that this shall not apply to any bottles, barrels, or other containers necessary for the legitimate transportation of such beverages, or advertising materials, and shall not apply to the extension of credit, for liquors sold, made strictly in compliance with the provisions of this section.

(2) Credit for the sale of liquors may be extended to any vendor up to but not including the tenth day after the calendar week within which such sale was made.

(3) In cases where payment for sales to a vendor is not made by the 10th day succeeding the calendar week in which such sale was made, the distributor who made such sale shall, within 3 days, notify the division in writing of such fact, and the division, upon receipt of such notice, shall, after compliance with the proceedings hereinafter mentioned, declare in writing to such vendor and to all manufacturers and distributors within the state that all further sales to such vendor are prohibited until such time as the division shall certify in writing that such vendor has fully paid for all liquors previously purchased. However, if a distributor received payment within the 3-day period following the tenth day succeeding the calendar week in which the sale was made, the distributor, if notification to the division has not already been made, shall not be required to notify the division. Payments so made within the 3-day period shall not constitute a violation of this section.

(4) Before the division shall so declare, and prohibit such sales to such vendor, it shall, within 2 days after receipt of such notice, give written notice to such vendor by mail of the receipt by the division of such notification of delinquency and such vendor shall be directed to forthwith make payment thereof, or upon failure to do so, to show cause before the division why further sales to such vendor shall not be prohibited. Good and sufficient cause to prevent such action by the division may be made by showing payment, failure of consideration, or any other defense which would be considered sufficient in a common-law action. The vendor shall have 5 days after receipt of such notice within which to show such cause, and he may demand a hearing thereon, provided he does so in writing within said 5 days, such written demand to be delivered to the division either in person or by due course of mail within such 5 days. If no such demand for hearing be made, the division shall thereupon declare in writing to such vendor and to all manufacturers and distributors within the state that all further sales to such vendor are prohibited until such time as the division shall certify in writing that such vendor has fully paid for all liquors previously purchased. In the event such prohibition of sales and declaration thereof to the vendor, manufacturers, and distributors is ordered by the division, the vendor may seek review of such decision by the Department of Business Regulation within 5 days. In the event application for such review is filed within such time, such prohibition of sales shall not be made, published, or declared until final disposition of such review by the department.

(5) Upon receipt by the division from the distributor of the notice of nonpayment provided for by

subsection (3), the division shall forthwith notify such delinquent vendor and all distributors in the state that no further purchases or sales of liquor by or to such vendor, except for cash, shall be made until good cause be shown by such vendor as heretofore provided for. No liquor shall be purchased by such vendor or sold to him by any distributor, except for cash, from and after such notification by the division and until such cause be shown as is provided for in subsection (4). In the event no good cause be shown, then all further sales, for cash or credit are hereby prohibited after such declaration in writing by the division is sent to such vendor and distributors and until all delinquent accounts have been paid.

(6) Nothing herein shall be taken to forbid the giving of trade discounts in the usual course of business upon wine and liquor sales.

(7) The extension or receiving of credits in violation of this section shall be considered as an arrangement for financial assistance and shall constitute a violation of the Beverage Act and any maneuver, shift, or device of any kind by which credit is extended contrary to the provisions of this section shall be considered a violation of the Beverage Act.

(8) The division may establish rules and require reports to enforce the herein established limitation upon credits and other forms of assistance. Nothing herein shall be taken to affect the provisions for cash sales of wines or beer as are provided in s. 562.21 or provisions of s. 563.08, but shall govern all other sales of intoxicating liquors.

(9) The term "advertising materials" as used in this section shall not include outside signs so located as to be connected with or appertaining to the vendor's licensed premises.

(10) No manufacturer or distributor of the beverages herein referred to shall directly or indirectly give, lend, rent, sell, or in any other manner furnish to a vendor any outside sign, printed, painted, electric, or otherwise; nor shall any vendor display any sign advertising any brand of alcoholic beverages on the outside of his licensed premises or on any lot of ground of which the licensed premises are situate, or on any building of which the licensed premises are a part.

(11) A vendor may display in the interior of his licensed premises, including the window or windows thereof, neon, electric, or other signs, including window painting and decalcomanias applied to the surface of the interior or exterior of such windows, and posters, placards, and other advertising material advertising the brand or brands of alcoholic beverages sold by him, whether visible or not from the outside of the licensed premises, but no vendor shall display in the window or windows of his licensed premises more than one neon, electric, or similar sign, advertising the product of any one manufacturer.

(12) Any manufacturer or distributor may give, lend, furnish, or sell to a vendor who sells the products of such manufacturer or distributor neon or electric signs, window painting and decalcomanias, posters, placards, and other advertising material

herein authorized to be used or displayed by the vendor in the interior of his licensed premises.

**561.421 Temporary convention permits.**—In convention halls, coliseums, and similar type buildings where there is an existing beverage license, upon the approval of the incorporated city, town, or board of county commissioners, the director may, in his discretion, issue a permit for not more than 5 calendar days for the display by manufacturers or distributors of products licensed under the Beverage Law; and may authorize consumption of such beverages on the premises only.

**History.**—s. 1, ch. 71-100; s. 1, ch. 72-230.

**561.422 Nonprofit civic organizations, temporary permits.**—Upon the filing of an application and payment of a fee of \$25 per day the director may issue a permit authorizing a bona fide nonprofit civic organization to sell alcoholic beverages for consumption on the premises only, for a period not to exceed 1 day, subject to any state law or municipal or county ordinances regulating the time for selling such beverages. However, any such civic organization shall be issued only one such permit per calendar year.

**History.**—s. 1, ch. 72-380.

**561.423 Beer and malt beverages; in-store servicing authorized.**—Nothing in s. 561.42 or any other provision of the Beverage Law shall prohibit a distributor of beer or malt beverages from providing in-store servicing of beer or malt beverages sold by such distributors. "In-store servicing" as used herein means quality control procedures, to wit: Rotation of malt beverages on the vendor's shelves, rotation and placing of malt beverages in vendor's coolers, proper stacking and maintenance of appearance and display of malt beverages on vendor's shelves, and price-stamping of malt beverages in vendor's licensed premises.

**History.**—s. 1, ch. 75-143.

**561.424 Vinous beverages; in-store servicing authorized.**—

(1) It is the finding of the Legislature that the in-store servicing of wine by a distributor is a necessary part of a distributor's function and responsibility to a vendor. It is further the finding of the Legislature that the in-store servicing of wine by a distributor is not intended by the distributor to induce a vendor to purchase wine from the distributor nor does the distributor intend to provide any financial assistance to a vendor by providing such in-store servicing to the vendor. In addition, it is the finding of the Legislature that in-store servicing of wine by a distributor is a normal trade or business practice which has substantially contributed to the increase in sales of wine resulting in a substantial benefit to the state by increased tax revenues resulting from the increased sales, and therefore is not a rendering of financial assistance to a vendor or an inducement to purchase wine.

(2) Nothing in s. 561.42 or any other provision of the alcoholic beverage law shall prohibit a distribu-

tor of wine from providing in-store servicing of wine sold by such distributor to a vendor. "In-store servicing" as used herein means: placing the wine on the vendor's shelves and maintaining the appearance and display of said wine on the vendor's shelves in the vendor's licensed premises; placing the wine not so shelved or displayed in a storage area designated by the vendor, which is located in the vendor's licensed premises; rotation of vinous beverages; and price stamping of vinous beverages in vendor's licensed premises. This section shall not apply to distilled spirits.

**History.**—s. 3, ch. 77-192.

**561.43 Dry counties; manufacturers' or distributors' licenses; exemptions.**—

(1) No license shall be issued to a manufacturer, distributor, or exporter for the operation of a manufacturing or distributing plant or exporting establishment in any county where the sale of intoxicating liquors, wines, and beers is prohibited, except:

(a) To manufacturers of wines or wines and cordials;

(b) To distillers of alcoholic or spirituous liquors made exclusively from citrus fruits, citrus fruit products or citrus fruit byproducts, agricultural products and byproducts;

(c) To manufacturers of beer whose plants are licensed at the time the county in which such plants are located votes to prohibit the sale of intoxicating beverages therein under the local option provisions of the Constitution of Florida.

(d) To rectifiers and blenders of alcoholic or spirituous liquors mixed exclusively with citrus fruit products or citrus fruit byproducts, agricultural products, or agricultural byproducts.

**561.49 No tax on out-of-state sales.**—The excise taxes provided for in this chapter shall be paid as to all such beverages sold within this state. No excise tax shall be required to be paid by manufacturers, distributors, or exporters as to the sale of beverages which are actually delivered by such manufacturer, distributor, or exporter to persons outside the state when such deliveries are actually made outside the state in places where the sale of such beverages is authorized by law to persons authorized by the laws of the places where such delivery is made to purchase and receive such beverages in such places. The burden shall always be on the manufacturer, distributor, or exporter to show to the satisfaction of the division by bill of lading of a common carrier or other satisfactory evidence that delivery was made outside the state in accordance with the laws of the place of delivery.

72-230.

**561.50 One state tax payment and reports.—**

There shall be only one state tax paid as to each gallon or fraction thereof of beverage sold under the Beverage Law, and no other excise tax shall be levied directly or indirectly. Said tax shall be computed from the reports, books, and records of manufacturers and distributors, and the amount so computed shall be remitted with the report required by s. 561.55 to the division at intervals of 1 month, on or before the tenth of each month, for all beverages sold during the previous calendar month, and such payment of tax shall accompany the report required by s. 561.55. If the monthly tax liability of a manufacturer or distributor exceeds the amount of the bond furnished for payment of taxes, the division may require payment each Monday of the tax on the sales for the previous week.

**561.506 Payment of tax by wholesaler.—**

(1) For 11 months beginning with the tax collection payment due the division on August 10, 1969, each wholesaler shall remit the tax due, plus a prepayment in the amount of 16.4 percent of the tax due to the division. Up to 10 percent of the total payment may be made in the form of revenue stamps previously purchased.

(2) Beginning August 10, 1971, each wholesaler may deduct from his monthly tax collection payment an amount not to exceed 2 percent of the prepaid amount to his credit as of June 11, 1970, which amount shall include any unamortized stamps.

(1) Manufacturers, distributors, and exporters shall each keep a complete and accurate record and make reports showing the amount of beverages manufactured or sold within the state and to whom sold; also, of all beverages imported from beyond the limits of the state and to whom sold; also, all beverages exported beyond the limits of the state, to whom sold, the place where sold and the address of the person to whom sold. Manufacturers, distributors, and exporters shall make full and complete report by the 10th day of each month for the previous calendar month. Said report shall be made out in triplicate, two copies of which shall be sent to the division,

Where deliveries are made by a vendor, manufacturer, distributor, or exporter away from his place of business, such deliveries shall be made only in vehicles to which are conspicuously attached vehicle plates or decals as herein defined. The division shall have prepared annually vehicle plates or decals suitable to be attached to such vehicles, with the words, Beverage Vehicle No. ...., which may be obtained by any licensee upon payment of a fee of \$1 to the division.

When a license is revoked by the division, it may prohibit or permit a license to be issued for the location of the place of business formerly operated under such revoked license. The maximum period of time that any such license shall be prohibited by the division from any such place of business shall be 2 years from the succeeding October 1 following such revocation.

(1) The return of the board aforesaid to the clerk of the circuit court shall be taken and considered as the state's petition or libel in rem for the forfeiture of the property therein described, of which the circuit court of the county shall have jurisdiction, without regard to value. The said return shall be sufficient as said petition or libel notwithstanding the fact that it may contain no formal prayer or demand for forfeiture, it being the intention of the legislature that forfeiture may be decreed without a formal prayer or demand therefor. The said return shall be subject to amendment at any time before final hearing, provided that copies thereof shall be served upon all persons, firms, or corporations who may have filed a claim prior to such amendment.

(2) Upon the filing of said return the clerk of the circuit court shall issue a citation, directed to all persons, firms, and corporations owning, having or claiming an interest in or lien upon the seized property, giving notice of the seizure and directing that all persons, firms, or corporations owning, having, or claiming an interest therein, or lien thereon, to file their claim to, on, or in said property within the time fixed in said citation, as to persons, firms, and corporations not personally served, and within 20 days from personal service of said citation, when personal service is had.

(3) The said citation may be in, or substantially in, the following form:

A copy of the petition shall be served with the process when personally served. Personal service of process may be made in the same manner as a summons in chancery.

(5) If the value of the property seized is shown by the board's return to have an appraised value of \$400 or less, the above citation shall be served by posting at three public places in the county, one of which shall be the front door of the courthouse; if the value of the property is shown by the board's return to have an approximate value of more than \$400, the citation shall be published once a week for 3 consecutive weeks in some newspaper of general publication published in the county, if there be such a newspaper published in the county, and if not, then said notice of such publication shall be made by certificate of the clerk if publication is made by posting and by affidavit as provided in chapter 50, if made by publication in a newspaper, which affidavit or certificate shall be filed and become a part of the record in the cause. Failure of the record to show proof of such publication shall not affect any judgment made in the cause unless it shall affirmatively appear that no such publication was made.

**History.**—s. 14, ch. 19301, 1939; CGL 1940 Supp. 4151(271w); s. 26, ch. 25359, 1949; s. 5, ch. 28073, 1953; s. 2, ch. 72-230; s. 8, ch. 73-299.

**562.401 Delivery of property to claimant.—**

Any person, firm, or corporation filing a claim in the cause, which claim shall state fully his right, title, claim, or interest in and to the seized property, may, at any time after said claim is filed with the clerk of the court, obtain possession of the seized property by filing a petition therefor with the board of county commissioners and posting with said board, to be approved by it, a surety bond, payable to the Governor of the state, in twice the amount of the value of the said property as fixed in the board's return to the Clerk of the Circuit Court, with a corporate surety duly authorized to transact business in this state as surety, conditioned upon his paying to the board of county commissioners the value of the property together with costs of the proceeding if judgment of forfeiture be entered by the court. Upon the posting of such bond with the board and the release of the property to the applicant the cause shall proceed to final judgment in the same manner as it would have had no such bond been filed, except that any exception to be issued in the cause pursuant to judgment may run against and be enforced against the person posting said bond and his surety.

**History.**—s. 6, ch. 28073, 1953; s. 2, ch. 72-230.

**562.402 Proceeding when no claim filed.—**

When no claim is filed in the cause within the time required, the clerk shall enter a default against all persons, firms, and corporations owning, claiming, or having an interest in and to the property seized, and the cause may then proceed in the same manner as a common law cause after default, and final judgment shall be entered therein ex parte, except as may be herein otherwise provided.

**History.**—s. 7, ch. 28073, 1953; s. 2, ch. 72-230.

**562.403 Proceeding when claim filed.—**

When one or more claims are filed in the cause, the cause shall be tried upon the issues made thereby with the petition for forfeiture with any affirmative defenses being deemed denied without further pleading. Judgment by default shall be entered against all other persons, firms, and corporations owning, claiming, or having an interest in and to the property seized, after which the cause shall proceed as in other common law cases; except any claimant shall prove to the satisfaction of the court that he did not know or have any reason to believe, at the time his right, title, interest, or lien arose, that the property was being used for or in connection with the violation of any of the statutes or laws of this state prohibiting the manufacture of or traffic in illicit moonshine whiskey, and further that at said time there was no reasonable reason to believe that the said property might be used for such purpose. Where the owner or user of the property has been convicted of a violation of the statutes and laws of this state prohibiting the manufacture of or traffic in illicit moonshine whiskey, such conviction shall be prima facie evidence that each claimant had reason to believe that the property might be used for or in connection with a violation of such statutes and laws, and the burden of proof shall be upon such claimant to satisfy the court that he was without knowledge of such conviction, providing, however, the prima facie presumption of knowledge of a previous conviction of a

violation of this law shall only apply to a subsequent proceeding involving the forfeiture of a motor vehicle when owned by such previous offender and upon which a lien is held by the same licensee involved in the first claim proceedings. Trial of all such causes shall be without a jury, except in such cases as a trial by jury may be guaranteed by the state constitution and in such cases trial by jury shall be deemed waived unless demanded in the claim filed.

**History.**—s. 8, ch. 28073, 1953; s. 2, ch. 72-230.

**562.404 Attorney for board of county commissioners to represent state.—**

Upon the filing of the board's return with the clerk of the circuit court the said clerk shall furnish the attorney for the board of county commissioners with a copy thereof and the said attorney shall represent the state in the forfeiture proceeding. The Department of Legal Affairs shall represent the state in all appeals from judgments of forfeiture. The state may appeal from any judgment denying forfeiture in whole or in part or that may be otherwise adverse to the state.

**History.**—s. 9, ch. 28073, 1953; s. 1, ch. 59-293; ss. 11, 35, ch. 69-106; s. 2, ch. 72-230.

**562.405 Judgment of forfeiture.—**

On final hearing the return of the board to the clerk of the circuit court shall be taken as prima facie evidence that the property seized was or had been used in, or in connection with, the violation of the statutes and laws of this state prohibiting the manufacture of or traffic in illicit moonshine whiskey in this state and shall be sufficient predicate for a judgment of forfeiture in the absence of other proofs and evidence. The burden shall be upon the claimants to show that the property was not so used, if so used, that they had no knowledge of such violation and no reason to believe that the seized property was or would be used for the violation of such statutes and laws. Where such property is encumbered by a lien or retained title agreement under circumstances wherein the lienholder had no knowledge that the property was or would be used in violating such statutes and laws, and no reasonable reason to believe that it might be so used, then the court may declare a forfeiture of all other rights, titles and interests, subject, however, to the lien of such innocent lienholder, or may direct the payment of such lien from the proceeds of any sale of the said property. The proceedings and the judgment of forfeiture shall be in rem and shall be primarily against the property itself. Upon the entry of a judgment of forfeiture the court shall determine the disposition to be made of the property, which may include the destruction thereof, the sale thereof, the allocation thereof to some governmental function or use, or otherwise as the court may determine. Sales of such property shall be at public sale to the highest and best bidder therefor for cash after 2 weeks' public notice as the court may direct. Where the property has been delivered to a claimant upon the posting of a bond, the court shall determine the value of the property or portion thereof subject to forfeiture and shall enter judgment against the principal and surety of the bond in such amount for which execution shall issue in the usual manner. Upon the application of any claimant the court may fix the value of the forfeitable interest or interests in

the seized property and permit such claimant to redeem the said property upon the payment of a sum equal to said value which sum shall be disposed of as would the proceeds of a sale of the said property under a judgment of forfeiture.

**History.**—s. 10, ch. 28073, 1953; s. 2, ch. 72-230.

**562.406 Fees for services.**—Fees for services required hereunder shall be the same as provided for sheriffs and clerks for like and similar services in other cases and matters.

**History.**—s. 12, ch. 28073, 1953; s. 2, ch. 72-230.

**562.407 Disposition of proceeds of forfeiture.**—All sums received from sale or other disposition of the seized property shall be paid into the county fine and forfeiture fund and shall become a part thereof; however, in instances where the seizure is by a municipal police officer within the limits of any municipality having an ordinance requiring such vehicles, vessels, or conveyances to be forfeited, the city attorney shall act in behalf of the city in lieu of the state attorney and shall proceed to forfeit the property as herein provided, and all sums received therefrom shall go into the general operating fund of the city.

**History.**—s. 11, ch. 28073, 1953; s. 2, ch. 72-230.

**562.408 Exercise of police power.**—It is deemed by the Legislature that this law is necessary for the more efficient and proper enforcement of the statutes and laws of this state prohibiting the manufacture of, or traffic in, illicit moonshine whiskey and a lawful exercise of the police power of the state for the protection of the public welfare, health, safety, and morals of the people of the state. All the provisions of this law shall be liberally construed for the accomplishment of these purposes.

**History.**—s. 4, ch. 72-230.

**Note.**—Former s. 561.09(1).

#### **564.045 Registration as primary American source of supply.—**

(1) **DEFINITION.**—"Primary American source of supply" means the manufacturer, vintner, winery, or owner of vinous beverages at the time same become a marketable product, or bottler, or the exclusive agent of any such person, who, if the product cannot be secured directly from the manufacturer by an American distributor, is the source closest to the manufacturer in the channel of commerce from whom the product can be secured by an American distributor, or who, if the product can be secured directly from the manufacturer by an American distributor, is the manufacturer.

(2) **TAX CONTROL REGISTRATION REQUIRED.**—For purposes of tax revenue control, beginning January 1, 1979, no person, firm, corporation, or other entity which is the primary American source of supply as defined herein may sell, offer for sale, accept orders for sale, ship, or cause to be shipped into this state any vinous beverages to any distributor within the state without having first registered as a primary American source of supply on forms provided by, and in such manner as prescribed by, the division.

(3) **CERTAIN INTERSTATE AND FOREIGN SHIPMENTS PROHIBITED.**—Beginning January 1, 1979, no holder of a distributor's license as classified by s. 561.14(2) may ship or cause to be shipped into this state, or accept delivery from another state or a foreign country of, any vinous beverages except directly from a primary American source of supply, registered as such as required herein for the brand of vinous beverages being shipped.

(4) **PRIVATE LABELS.**—Nothing herein shall prohibit the ownership by vendors of brand names of distilled spirits and vinous beverages commonly known as private labels; provided, that such ownership and use thereof does not otherwise violate the Beverage Law.

(5) **WITHDRAWAL OF REGISTERED BRAND OR LABEL.**—No brand or label registered hereunder or any brand or label of wine may be withdrawn from any distributor after it has been sold by a manufacturer to any distributor unless good cause for its withdrawal is shown by the manufacturer. Withdrawal of a registered brand or label by a manufacturer shall be permitted only if written notice is sent by certified mail to any distributor carrying the manufacturer's brand or label to the division prior to its withdrawal. If no objection is lodged with the division by a distributor carrying the brand or label intended to be withdrawn within the time as herein-after set forth, the brand or label may be withdrawn without a showing of good cause 60 days after the division's receipt of the manufacturer's notice of intent to withdraw. Any distributor carrying the brand or label or line who objects to its withdrawal shall file its written objection by certified mail with the division and the manufacturer within 60 days from its receipt of the manufacturer's notice of intent to withdraw. The distributor's objection shall be deemed a petition for declaratory statement, must comply with the division's administrative rule for such petitions, and shall be disposed of thereby. In rendering its decision, the division shall consider the reasons given by the manufacturer to justify the withdrawal and the distributor's reasons against the withdrawal. If the division determines that good cause to justify the withdrawal is absent, the division may prohibit the brand or label from being withdrawn, and failure on the part of the manufacturer so prohibited to ship the distributor a reasonable amount of the brand sought to be withdrawn will result in the withdrawal from sale in this state of all its brands. All distributors carrying a particular brand or label of spirituous or vinous beverages as of July 1, 1978, shall be deemed to be the distributors for the manufacturers of such brands or labels. No other distributors may be appointed by any manufacturer or representative of a manufacturer to carry the brands or labels already distributed on July 1, 1978, unless the division first approves the withdrawal from the existing distributor pursuant to this act. The purchase of any spirituous or vinous beverages by any licensed wholesaler or distributor from any manufacturer who has not complied with the provisions of this subsection is prohibited.

Provided, that qualified distributors and manufacturers may sell to other qualified distributors or manufacturers such wine in any size containers. Any person convicted of a violation of this section shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

*Note.*—Former s. 561.01(6).

**565.02 License fees; vendors; clubs; caterers and others.**—

(1) The following state license taxes shall apply to vendors who are permitted to sell any alcoholic beverages regardless of alcoholic content:

(a) Vendors operating places of business where beverages are sold only in sealed containers for consumption off the premises where sold, an amount equal to 75 percent of the amount of the license tax for vendors in the same county as provided in paragraphs (b), (c), (d), (e), and (f).

(b) Vendors operating places of business where consumption on the premises is permitted in counties having a population of over 100,000, according to the latest state or federal census, \$1,750.

(c) Vendors operating places of business where consumption on the premises is permitted in counties having a population over 75,000 and not over 100,000, according to the latest state or federal census, \$1,500.

(d) Vendors operating places of business where consumption on the premises is permitted in counties having a population of over 50,000 and not over 75,000, according to the latest state or federal census, \$1,250.

(f) Vendors operating places of business where

consumption on the premises is permitted in counties having a population of 25,000 or less, according to the latest state or federal census, \$600.

(g) Vendors operating places of business where consumption on the premises is permitted and which have more than three permanent separate locations serving alcoholic beverages for consumption on the licensed premises shall pay in addition to the license tax imposed in paragraphs (b), (c), (d), (e), and (f), \$1,000. However, such permanent separate locations shall not include service bars not accessible to the public or portable or temporary bars being used for a single occasion or event. Golf club license holders may operate service bars or portable or temporary bars on the grounds contiguous to their licensed premises and shall pay \$100 for a certified copy of the club license, which shall be posted on the bar. The area contiguous to the licensed premises shall be considered an extension of the licensed premises upon payment of the fee, posting of the certified copy of the license, and notation of such extension upon the sketch accompanying the original license application.

(2) Any operator of railroads or sleeping cars in this state may obtain a license to sell the beverages mentioned in the Beverage Law on passenger trains on the payment of an annual license tax of \$2,500, said tax to be paid to the division. Such license shall authorize the holder thereof to keep for sale and sell all beverages mentioned in the Beverage Law upon any dining, club, parlor, buffet, or observation car operated by it in this state, but said beverages may be sold only to passengers upon said cars, and must be served for consumption thereon. It is unlawful for such licensees to purchase or sell any liquor except in miniature bottles of not more than 2 ounces. Every such license shall be good throughout the state. No license shall be required, or tax levied by any municipality or county, for the privilege of selling such beverages for consumption in such cars. Such beverages shall be sold only on cars in which are posted certified copies of the licenses issued to such operator. Such certified copies of such licenses shall be issued by the division upon the payment of a tax of \$10.

(3)(a) Operators of steamships and steamship lines, buses and bus lines, airplanes and airlines engaged in interstate commerce or plying between fixed terminals and upon fixed schedules in this state may obtain licenses to sell the beverages mentioned in the Beverage Law on steamships, buses, and airplanes operated by such operators on payment of an annual license tax of \$1,100, said tax to be paid to the division. Such licenses shall authorize the holders thereof to keep for sale and sell all beverages mentioned in the Beverage Law upon any steamship, bus, or airplane operated by such operators in this state, but said beverages may be sold only to passengers upon such steamships, buses and airplanes and may be served only for consumption thereon. It is unlawful for such licensees to purchase for resale any liquor except in miniature bottles of not more

than 2 ounces or liquor in individual containers of not less than one-fifth of 1 gallon. Such sales shall be permitted only while said steamships, buses, and airplanes are in transit and shall not be permitted while such steamships are moored at docks or wharves in ports of this state, while said buses are at stations, or while airplanes are in airports. Every such license shall be good throughout the state. No license shall be required or tax levied by any municipality or county for the privilege of selling such beverages for consumption on such steamships, buses, or airplanes. Such beverages shall be sold only on steamships, buses, and airplanes in which are posted certified copies of the license issued to their operators. Certified copies of such license shall be issued by the division upon payment of a fee of \$25 for each certified copy. However, this paragraph shall not apply to operators of pleasure or excursion boats not having regular round trip runs of more than 100 miles in each direction, but operators of such pleasure or excursion boats may obtain a license, with such boats being designated as their place of business, upon compliance with all the laws relating to vendors operating places of business where consumption on the premises is permitted. Also, no license to sell the beverages herein defined shall be issued to the operator of any boat which plies upon or is anchored upon the waters of any lake within this state.

(b) Operators of railroads, sleeping cars, steamships, buses, and airplanes licensed under this section shall not be required to obtain their beverages from licensees under the Beverage Law, but such operators shall keep strict account of all such beverages sold within this state and shall make monthly reports to the division on the forms prepared and furnished by the division. Said operators are hereby required to pay an excise tax for said beverages sold within this state as to which such excise tax has not theretofore been paid, equal to the tax assessed against manufacturers and distributors. Said operators shall pay said tax monthly to the division at the same time they furnish the reports hereinabove provided for. Said reports shall be filed on or before the 15th day of each month for sales for the previous calendar month.

(4) Persons associated together as a chartered or incorporated club, including social clubs incorporated by orders of circuit judges after their charters have been found to be for objects authorized by law and approved by said judges as organized for lawful purposes and not for the purpose of evading license taxes on dealers in beverages defined herein, which such organizations are bona fide clubs, and at the time of application for license hereunder shall have been in continuous active existence and operation for a period of not less than 2 years in the county where they exist, shall before serving or distributing to their members or nonresident guests the beverages defined herein, whether such service or distribution be made upon contribution to the club of money or by check or other device, pay an annual state license tax of \$400. However, any golf club operated by or on behalf of any incorporated municipality in this state, and any veterans' or fraternal organization of national scope, need not have been, or need

not be, in continuous active existence or operation for any required period of time prior to an application for license hereunder. The payment of such club license tax shall authorize the service and distribution to members and nonresident guests of the club only, and such service and distribution to said members and nonresident guests shall not be deemed sales within the meaning of the law in this state, but any service or distribution to anyone other than a member or nonresident guest of such licensed club shall be deemed a sale, and any officer, member, or employee of any such licensed club who shall sell or distribute or serve any such beverages to any person other than a member or nonresident guest of such club for money or other value shall be deemed guilty of selling such beverages without a license and shall be punished as provided by law. The holders of golf club licenses may sell alcoholic beverages to those other than members and their nonresident guests on days when the club is open to the public. For each such day of service to nonmembers, the club shall obtain from the division for a fee of \$50 an extension of its license to permit such sales. Such license extensions shall be limited to one event per year, not to exceed five consecutive days. Any officer of any such club which has not paid such license who shall knowingly permit such service or distribution by such club of the beverages herein defined to members or nonresident guests of such club shall, upon conviction thereof, be punished as herein provided. However, this paragraph shall not apply to clubs organized or used for the purpose of evading the payment of the license tax on vendors of such beverages, but such club shall be subject to the payment of the license tax imposed by the Beverage Law upon vendors. The president, vice president, secretary, or treasurer, or officers of corresponding duties by any name they may be called, of any club required by this section to pay a license tax, shall be required to see that such license tax shall be paid and in default thereof shall each be personally liable to the punishment provided by the Beverage Law for nonpayment of the license hereby required. Clubs not authorized to obtain licenses under this subsection or which do not obtain licenses under this subsection may, if they comply with this provision of the Beverage Law, obtain licenses as vendors. Clubs obtaining such club licenses shall not purchase any beverage herein defined from anyone other than a distributor or vendor licensed under the Beverage Law, nor shall such clubs dispense or serve any beverages defined herein unless such beverages shall have been purchased by such club from such licensed distributor or vendor; nor shall they dispense or serve any such beverage on which a tax is required by the Beverage Law unless such beverage tax has been paid as required by said law. Such club license cannot be transferred in any manner whatsoever.

(5) Caterers at horse and dog racetracks and jai alai frontons may obtain licenses upon the payment of an annual state license tax of \$675. Such caterers' licenses shall permit sales only within the enclosure wherein such races or jai alai games are conducted, and such licensees shall be permitted to sell only during the period beginning 10 days before and ending 10 days after racing or jai alai under the authori-

ty of the Division of Pari-mutuel Wagering of the Department of Business Regulation is conducted at such race track or jai alai fronton. Except as in this subsection otherwise provided, caterers licensed hereunder shall be treated as vendors licensed to sell by the drink the beverages mentioned herein and shall be subject to all the provisions hereof relating to such vendors.

(6) State-chartered legal entities not for profit organized principally for the purpose of supporting or managing the affairs of a symphony orchestra may obtain licenses upon the payment of an annual license tax of \$400. Such licenses shall permit sales only within the enclosure wherein such symphony normally and regularly performs and in which enclosure alcoholic beverages are otherwise authorized, and such licensees shall be permitted to sell only during the hours in which the symphony premises are in use for a cultural event under the auspices or authorization of the licensee. The issuing of a license under this section shall not be subject to any quota or limitation, except that the license shall be issued only to an entity supporting a well-recognized symphony whose reputation is known generally in the state or region of operation. Except as otherwise provided in this subsection, entities licensed hereunder shall be treated as vendors licensed to sell by the drink the beverages mentioned herein and shall be subject to all the provisions hereof relating to such vendors.

1. If engaged in the business of distilling spirituous liquors and nothing else, a state license tax of \$4,000.

2. If engaged in the business of rectifying and blending spirituous liquors and nothing else, a state license tax of \$4,000.

(b) Persons licensed hereunder in the business of distilling spirituous liquors may also engage in the business of rectifying and blending spirituous liquors without the payment of an additional license tax.

(2) Distributors authorized to do business under the Beverage Law, unless otherwise provided, shall pay a state license tax of \$4,000 for each and every establishment or branch they may operate or conduct in the state. However, in counties having a population of 15,000 or less according to the latest state or federal census, the state license tax for a restricted license shall be \$1,000, but the holder of such a license shall be permitted to sell only to vendors and distributors licensed in the same county, and such license shall contain such restrictions. In such counties, licenses without such restrictions may be obtained as in other counties, but the tax for a license without such restrictions shall be the same as in

other counties. Warehouses of a licensed distributor used solely for storage and located in the county in which the license is issued to such distributor shall not be construed to be separate establishments or branches.

(3) Each exporter, as defined in s. 561.14(4), shall pay an annual state license tax of \$500 for each and every establishment or branch that such exporter may operate or conduct in this state.

#### 565.095 Registration as primary American source of supply.—

(1) DEFINITION.—“Primary American source of supply” means the manufacturer, rectifier, or owner of spirituous liquors at the time same become a marketable product, or bottler, or the exclusive agent of any such person, who, if the product cannot be secured directly from the manufacturer by an American distributor, is the source closest to the manufacturer in the channel of commerce from whom the product can be secured by an American distributor, or who, if the product can be secured directly from the manufacturer by an American distributor, is the manufacturer.

(2) TAX CONTROL REGISTRATION REQUIRED.—For purposes of tax revenue control, beginning January 1, 1979, no person, firm, corporation, or other entity which is the primary American

source of supply as defined herein may sell, offer for sale, accept orders for sale, ship, or cause to be shipped into this state any spirituous liquors to any distributor within the state without having first registered as a primary American source of supply on forms provided by, and in such manner as prescribed by, the division.

(3) CERTAIN INTERSTATE AND FOREIGN SHIPMENTS PROHIBITED.—Beginning January 1, 1979, no holder of a distributor's license as classified by s. 561.14(2) may ship or cause to be shipped into this state, or accept delivery of from another state or a foreign country, any spirituous liquors except directly from a primary American source of supply, registered as such as required herein for the brand of spirituous liquors being shipped.

(5) WITHDRAWAL OF REGISTERED BRAND OR LABEL.—No brand or label registered hereunder or any brand or label of wine may be withdrawn from any distributor after it has been sold by a manufacturer to any distributor unless good cause for its withdrawal is shown by the manufacturer. Withdrawal of a registered brand or label by a manufacturer shall be permitted only if written notice is sent by certified mail to any distributor carrying the manufacturer's brand or label to the division prior to its withdrawal. If no objection is lodged with the division by a distributor carrying the brand or label intended to be withdrawn within the time as hereinafter set forth, the brand or label may be withdrawn without a showing of good cause 60 days after the division's receipt of the manufacturer's notice of intent to withdraw. Any distributor carrying the brand or label or line who objects to its withdrawal shall file its written objection by certified mail with the division and the manufacturer within 60 days from its receipt of the manufacturer's notice of intent to withdraw. The distributor's objection shall be deemed a petition for declaratory statement, must comply with the division's administrative rule for such petitions, and shall be disposed of thereby. In rendering its decision, the division shall consider the reasons given by the manufacturer to justify the withdrawal and the distributor's reasons against the withdrawal. If the division determines that good cause to justify the withdrawal is absent, the division may prohibit the brand or label from being withdrawn, and failure on the part of the manufacturer so prohibited to ship the distributor a reasonable amount of the brand sought to be withdrawn will result in the withdrawal from sale in this state of all its brands. All distributors carrying a particular brand or label of spirituous or vinous beverages as of July 1, 1978 shall be deemed to be the distributors for the manufacturers of such brands or labels. No other distributors may be appointed by any manufacturer or representative of a manufacturer to carry the brands or labels already distributed on July 1, 1978 unless the division first approves the withdrawal from the existing distributor pursuant to this act.

(1) The board of county commissioners of each county shall order an election to decide whether the sale of intoxicating liquors, wines, or beer shall be prohibited in said county and if not prohibited, to decide the method of sale, upon the presentation to said board at a regular or special meeting, of a written application asking for such a determination in the county in which said application is made signed by one-fourth of the registered voters of the county. The signature of each registered voter shall be personally signed to such application; provided, however, a copy of said petition shall be dated and filed with the clerk of the circuit court of the county in which such election is to be held prior to procuring the signature of any registered voter thereon; and such petition must be completed and presented to the board of county commissioners within 120 days from the date said copy of said petition is originally filed with the clerk of the circuit court; and if not so done, said petition shall be held to be invalid.

**573.01 Short title.**—Part I of this chapter may be known and cited as the "Florida Celery and Sweet Corn Marketing Law."

*History.*—s. 1, ch. 59-133; s. 1, ch. 59-283.

**573.02 Legislative findings; declaration of policy.**—This law is passed:

(1) Because it is hereby declared that the marketing of celery and sweet corn grown in Florida in excess of reasonable and normal market demands therefor; disorderly marketing of such commodity; improper preparation for market and lack of uniform grading and classification; unfair methods of competition in the marketing of such commodity; and the inherent inability of individual producers to maintain present markets, or to develop new and larger markets for Florida grown celery and sweet corn result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state.

Such conditions and the accompanying waste jeopardize the future continued production of adequate celery and sweet corn food supply for the people of this and other states, and prevent agricultural producers from obtaining a fair return from their labor, their farms, and the celery and sweet corn which they produce. As a consequence, the purchasing power of such producers has been in the past, and in all likelihood will continue to be in the future, unless such conditions are remedied, low in relation to that of persons engaged in other gainful occupations within this state. Celery and sweet corn producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of other citizens of this state.

(2) Because the conditions herein before described and set forth vitally concern the health, peace, safety, and general welfare of the people of this state, and it is hereby declared to be the policy of this state to aid agricultural producers in preventing economic waste in the marketing of their agricultural commodities, to develop more efficient and equitable methods in the marketing of agricultural commodities, and to aid agricultural producers in restoring and maintaining their purchasing power at a more adequate, equitable, and reasonable level.

(3) The marketing of celery and sweet corn within this state is hereby declared to be affected with a public interest. The provisions of this law are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state.

*History.*—s. 1, ch. 59-133; s. 1, ch. 59-283.

**573.03 Purposes.**—The purposes of this part are:

The department, after receiving the recommendation of the advisory council, shall fix the rate of assessment per container of celery or sweet corn or some other equitable basis. The department shall prescribe the rules and regulations with respect to the assessment and collection of such funds.

(3) Any money so collected shall be deposited in

Notice of any such regulation issued by the department shall be given to all producers and handlers directly affected, in addition to any other notice required by law.

(5) The department shall have full authority and power to review and consider all facts available to it and to determine in its sole discretion, who is a producer or handler under the terms of this act, what period or periods are appropriate and just in fixing allotments or other regulations pertaining to, affecting or controlling the handling of commodities dealt with, and to make all other decisions and determinations reasonably necessary or appropriate to render effective the terms of any marketing order and to promote the objectives of this act.

(4) No person shall be excused from attending and testifying or from producing documentary evidence before the department, or its duly authorized or designated representative or representatives, in obedience to the subpoena of the department on the ground or the reason that the testimony or evidence,

(1) Every person who violates any provision of this law, or any provision of any marketing agreement or order duly issued by the department hereunder, shall be guilty of a misdemeanor of the first degree, punishable as provided in s. 775.083. (2) Upon the filing of a verified complaint charging a violation of any provision of this law, or of any provision of any marketing order issued by the department hereunder, or of any provision of any marketing agreement enforced by the department hereunder, and prior to institution of any court proceedings authorized hereinafter, the department may, in its discretion, refer the matter to the Department of Legal Affairs or a prosecuting attorney of this state having jurisdiction for action pursuant to the provisions of this law or proceed to consider the charges set forth in such verified complaint.

(3) If the department finds that no violation has occurred, it shall forthwith dismiss such complaint.

(4) If the department finds that a violation has occurred, it shall so enter its findings and notify the parties to such complaint. Should the defendant or defendants thereafter fail, neglect, or refuse to desist from such violation within the time specified by the department, the department may thereupon file a complaint against such defendant or defendants in a court of competent jurisdiction, as set forth herein-after.

(5) The Department of Legal Affairs or any prosecuting attorney of this state having jurisdiction may, upon his own initiative, and shall upon complaint of any person, if after investigation, he believes the violation to have occurred, bring an action in the name of the state in any court of competent jurisdiction within the state against any person violating any provision of this law or of any marketing order duly issued by the department hereunder or any marketing agreement enforced by the department.

(6) The several circuit courts of the state, sitting in chancery, are hereby vested with jurisdiction specifically to enforce and to enjoin and restrain any person from violating any provisions of this law, or of any marketing order duly issued by the depart-

ment hereunder or any marketing agreement enforced by the department, in any proceeding brought by the department in any of said circuit courts; and in any such proceeding it shall not be necessary for the department to allege or prove that an adequate remedy at law does not exist. The said circuit courts may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and upon final hearing, if final decree be in favor of the department, the court shall permanently enjoin the defendant or defendants from further violations. Any such final decree in favor of the department shall provide that the defendant or defendants pay it reasonable costs of such suit, including reasonable attorney's fees to be fixed by the court. Any such action may be commenced either in the county where the defendant resides, or in the county where any other defendant resides, if more than one defendant, or in the county where any act of omission, or part thereof, complained of occurred.

(7) It shall be a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, for:

**573.50 Short title.**—Part II of this chapter may be known and cited as the "Florida Foliage Plant Marketing Law."

**History.**—s. 1, ch. 63-126.

**573.51 Legislative findings; declaration of policy.**—This act is passed:

(1) Because the marketing of foliage plants in Florida in excess of reasonable and normal market demands therefor, disorderly marketing of the commodity, improper preparation for market and lack of uniform grading and classification, unfair methods of competition in the marketing of foliage plants and the inherent inability of individual producers to maintain present markets or to develop new and larger markets for Florida-grown foliage plants result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions and the accompanying waste jeopardize the future continued production of adequate supplies of foliage plants for the people of this state and other states, and prevent foliage plant producers from obtaining a fair return from their labor, farms and products. As a consequence, the purchasing power of the producers has been, in the past, and in all likelihood will continue to be in the future, low in relation to that of persons engaged in other gainful occupations within this state, unless such conditions are remedied. Foliage plant producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of the other citizens of this state.

(2) Because these conditions vitally concern the health, peace, safety and general welfare of the people of this state, it is hereby declared to be the policy of this state to aid foliage plant producers in preventing economic waste in the marketing of their commodity, to develop more efficient and equitable methods in the marketing of foliage plants, and to aid foliage plant producers in restoring and maintaining their purchasing power at a more adequate, equitable, and reasonable level.

(3) In the exercise of the police power of this state to promote and protect the public health, peace, safety, and general welfare of the people, the marketing of foliage plants within this state is hereby declared to be affected with a public interest.

**History.**—s. 2, ch. 63-126.

**573.52 Purposes.**—The purposes of this act are:

- (1) To enable foliage plant producers of this state, with the aid of the state, to correlate more effectively the marketing of their foliage plants with market demands therefor.
- (2) To establish and maintain orderly marketing of foliage plants.
- (3) To provide methods for the maintenance of present markets, or for the development of new and larger markets for foliage plants grown in Florida.
- (4) To provide for uniform grading and proper preparation of foliage plants for market.
- (5) To eliminate or reduce economic waste in the marketing of foliage plants grown in Florida.
- (6) To prevent, modify, or eliminate trade barriers which obstruct the free flow of foliage plants to market.

(4) Provisions establishing or providing for establishing, with respect to foliage plants, either as delivered by producers to handlers, or as handled or otherwise prepared for market, or as marketed by producers or handlers:

(a) Grading standards of quality, condition, size, shape, maturity, pack, or any other criteria for indicating desirability of foliage plants, which standards may include minimum standards, provided the standards shall not be established below any minimum prescribed by law for this commodity.

(b) Uniform inspection, grading of, and proper labeling of foliage plants in accordance with the standards so established.

(c) Fix the size, weight, capacity, dimensions, or pack of the containers which may be used in the packaging, transportation, sale, shipment, or other handling of foliage plants.

(5) Provisions for the establishment of surplus, stabilization, or byproduct pools for foliage plants or of any grade, size, quality, or condition and providing for the sale of the commodity in any pool and for the equitable distribution among the persons participating of the net returns derived from the sale of the commodity. Whenever the marketing order authorizes the establishment of any pool or pools, the de-

partment shall have power to receive the commodity from each producer or handler and to handle the same according to the grade, size, quality, or condition and to account to each producer or handler participating upon a pro rata basis for the net proceeds derived from the sale.

(6) Provisions incidental to and not inconsistent with the terms, conditions, and provisions specified and necessary to effectuate the other provisions of the marketing order.

History.—s. 17, ch. 63-126; ss. 14, 35, ch. 69-106; s. 2, ch. 78-341.

#### **573.67 Cooperation with other governments.**

—The department is hereby authorized to confer with and cooperate with the legally constituted authorities of other states and of the United States, for the purposes of obtaining uniformity in the administration of federal and state marketing regulations, licenses or orders, and the department is authorized to conduct joint hearings, issue joint or concurrent marketing orders, and may exercise any administrative authority to effect such uniformity of administration and regulation.

History.—s. 18, ch. 63-126; ss. 14, 35, ch. 69-106.

**573.68 Limited marketing orders.**—A marketing order issued by the department may be limited in application by prescribing the marketing areas or portions of the state in which a particular order shall be effective; provided that no marketing order shall be issued by the department unless it embraces all persons of a like class who are engaged in a specific and distinctive agricultural industry or trade within the prescribed marketing area or portion of the state in which a particular order shall be effective.

History.—s. 19, ch. 63-126; ss. 14, 35, ch. 69-106.

**573.69 Marketing agreement.**—In order to effectuate the declared policy of part II of this chapter, the department shall have the power to enter into marketing agreements, which agreements may contain any of those provisions contained in s. 573.66 with distributors, producers, and others engaged in the handling of foliage plants regulating the handling of the commodity, which marketing agreements shall be binding upon the signatories exclusively. The execution of a marketing agreement shall in no manner affect the issuance, administration, or enforcement of any marketing order. The department may issue a marketing order without executing a marketing agreement, or may execute a marketing agreement and issue a marketing order covering the same commodity.

History.—s. 20, ch. 63-126; ss. 14, 35, ch. 69-106; s. 6, ch. 78-95.

#### **573.70 Assessment; funds; audit; loans.**

(1) To provide funds to defray the necessary expenses incurred by the department in the formulation, issuance, administration, and enforcement of any marketing order, every person engaged in the production, distributing, or handling of foliage plants within this state, and directly affected by any marketing order, shall pay to the department at such times and in such installments as the department may prescribe, such person's pro rata share of necessary expenses. Each person's share of expenses shall be that proportion which the total volume of

foliage plants produced, distributed, or handled by the person during the current marketing season, or part thereof covered by such marketing order, is of the total volume of the commodity produced, distributed, or handled by all such persons during the same current marketing season or part thereof. The department, after receiving the recommendations of the advisory council, shall fix the rate of assessment on the volume of foliage plants sold or some other equitable basis. For convenience of collection, upon request of the department, handlers of the commodity shall pay any producer assessments. Handlers paying assessments for and on behalf of any producers shall at their discretion, collect the producer assessments from any moneys owed by the handlers to the producers.

(2) The department may require every producer, distributor, or handler directly affected by any marketing order to deposit with it in advance cash or sufficient bond based upon the estimated volume of foliage plants to be handled during the period or periods covered by the marketing order to defray the costs involved in the formulation, issuance, administration, and enforcement of any marketing order. At the close of each marketing season during which the marketing order is effective, the sum so deposited shall be adjusted to the amount which is chargeable against the producer, distributor, or handler upon the basis of the volume of foliage plants handled during the period or periods. The department shall prescribe rules and regulations with respect to the assessment and collection of these funds.

(3) Any money so collected shall be used to defray the actual expenses incurred by the department with respect to the foliage plant marketing order. Any moneys remaining in the fund, at the discretion of the department, may be refunded at the close of any marketing season upon a pro rata basis to all persons from whom the funds were collected. Upon termination by the department of any marketing order, all moneys remaining and not required to defray the expenses of the order shall be returned by the department upon a pro rata basis to all persons from whom the funds were collected.

(4) In the event of levying and collecting of assessments for each fiscal year in which assessment funds are received by the department, the department shall cause to be made a thorough annual audit of the books and accounts by a certified public accountant, the audit to be completed within 60 days after the end of the fiscal year. The department and all producers and handlers covered by the marketing order shall be properly advised of the details of the annual official audit of the accounts as shown by the certified public accountant within 30 days of the audit.

(5) Any assessment levied, in the specified amount as may be determined by the department, shall constitute a personal debt of every person so assessed and shall be due and payable to the department; the department may file a complaint against any person or persons in a state court of competent jurisdiction for the collection of the assessment.

**History.**—s. 21, ch. 63-126; ss. 14, 35, ch. 69-106; s. 224, ch. 71-377.

In order to effectuate the declared purposes of this act, the department is authorized to issue, administer, and enforce the provisions of any marketing agreement or order, regulating producer marketing and handling of foliage plants in the primary channel of trade.

(2) The department shall have the power to establish general rules and regulations for uniform application to all marketing orders and marketing agreements as may be necessary to facilitate the administration and enforcement of the marketing orders and agreements. These general rules shall not be applicable to the provisions of this act relative to posting, publications, and effective date. General rules shall be mailed to the advisory council for each marketing order or marketing agreement in active operation.

(3) Upon recommendation of the advisory council concerned, the department shall have the power to establish administrative rules and regulations for each marketing order or marketing agreement issued and made effective as may be necessary to facilitate the administration and enforcement of each order or agreement.

#### **573.72 Exemptions.—**

(1) The department may adopt the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

(2) The department may issue certificates of exemption to any applicant who applies for an exemption and furnishes adequate evidence to the department, that by reason of a marketing order, the applicant has been adversely affected, unduly burdened or the result of the marketing order is confiscatory by reason of acts beyond the applicant's control or by acts beyond reasonable expectation.

(3) The department shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemption.

**History.**—s. 23, ch. 63-126; ss. 14, 35, ch. 69-106; s. 225, ch. 71-377.

**573.73 Termination of orders.—**The department shall suspend or terminate the marketing order or any provision of the marketing order, whenever it finds the provision or order does not tend to effectuate the declared purposes of part II of this chapter, within the standards and subject to the limitations and restrictions herein imposed and it further finds upon a referendum called by the department that 51 percent of the producers who are engaged within the state in the production of foliage plants for market, covered by the marketing order, and who produce for market more than 51 percent

of the volume of foliage plants produced within the state for market are opposed to the marketing order; provided the suspension or termination shall not be effective until the expiration of the current marketing season. If the department finds that the termination of any marketing order is requested in writing by more than 51 percent of the producers who are engaged within the state in the production of foliage plants for market, covered by the marketing order, and who produce for market more than 51 percent of the volume of the commodity produced within the state for market, covered by the order, and the department further finds the marketing order obstructs or does not tend to carry out the declared policy and purposes of part II of this chapter, it shall terminate or suspend for a specified period the marketing order or provision thereof; provided the termination shall be effective only if announced on or before the date, prior to the end of the current marketing period, as may be specified in the order.

**History.**—s. 24, ch. 63-126; ss. 14, 35, ch. 69-106.

**573.74 Inspections.**—Any authorized inspector or other authorized person discharging his duties in the checking of compliance with the provisions of any marketing order may enter and inspect any premises, enclosure, building, or conveyance where he has reason to believe any foliage plants subject to a marketing order are produced, stored, being prepared for market or marketed, and inspect or cause to be inspected the representative samples of the commodity as may be necessary to determine whether or not any lot of foliage plants is in compliance with applicable regulations of any marketing order.

**History.**—s. 25, ch. 63-126.

**573.75 Maintenance and production of records.**—

(1) The department may require any and all persons directly affected by and subject to the provisions of any marketing order to maintain books and records reflecting their operations under the marketing order, and to furnish to the department or its duly authorized or designated representative or representatives any information as may be from time to time requested by them relating to operations under the marketing order and to permit the inspection by the department or its duly authorized or designated representative or representatives of such portions of the books and records as relate to operations under the marketing order.

(2) Information obtained by any person shall be confidential and shall not be disclosed by him to any other person except to a person with like right to obtain it, or any attorney employed to give legal advice or by court order.

(3) The department or its duly authorized or designated representative or representatives may hold hearings, take testimony, administer oaths, subpoena witnesses, and issue subpoenas for the production of books, records, or documents relevant and material to the subject matter of the hearings.

(4) No person shall be excused from attending and testifying or from producing documentary evidence before the department, or its duly authorized or designated representative or representatives, in obedience to the subpoena of the department on the

ground or the reason that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture. But no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may be so required to testify, or produce evidence, documentary or otherwise, before the department in obedience to a subpoena issued; provided, no natural person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

(1) Every person who violates any provision of part II of this chapter, or any provision of any marketing agreement or order duly issued by the department shall be guilty of a misdemeanor of the first degree, punishable as provided in s. 775.083. Each day during which any of the violations above referred to continue after the department has issued a cease and desist order against the violator shall constitute a separate offense. Any fine imposed by a court of competent jurisdiction shall be transmitted by the clerk of such court to the department to be used to defray the cost of administering the respective marketing order or agreement.

(2) Upon the filing of a verified complaint with the department charging a violation of any provision of part II of this chapter, or of any provision of any marketing order issued by the department, or of any provision of any marketing agreement enforced by the department, and prior to institution of any court proceedings authorized, the department may refer the matter to the Department of Legal Affairs or a prosecuting attorney of this state having jurisdiction for action pursuant to the provisions of part II of this chapter or proceed to consider the charges set forth in such verified complaint.

(3) If the department finds no violation has occurred, it shall forthwith dismiss the complaint.

(4) If the department finds a violation has occurred, it shall so enter its findings and notify the parties to the complaint. Should the defendant or defendants thereafter fail, neglect, or refuse to desist from the violation within the time specified by the department, the department may thereupon file a complaint against the defendant or defendants in a court of competent jurisdiction.

(5) The Department of Legal Affairs, or any prosecuting attorney of this state having jurisdiction, may upon his own initiative and shall upon complaint of any person, if after investigation, it believes the violation to have occurred, bring an action in the name of the state in any court of competent jurisdiction within the state against any person violating any provision of part II of this chapter or any marketing order duly issued by the department or any marketing agreement enforced by the department.

(6) The several circuit courts of the state, sitting in chancery, are hereby vested with jurisdiction specifically to enforce and to enjoin and restrain any person from violating any provisions of part II of this chapter, or of any marketing order duly issued by the department or any marketing agreement enforced by the department in any of the circuit courts;

and in any such proceeding it shall not be necessary for the department to allege or prove that an adequate remedy at law does not exist. The circuit courts may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and upon final hearing, if final decree be in favor of the department, it shall provide that the defendant or defendants pay it reasonable costs of each suit, including reasonable attorneys' fees to be fixed by the court. These actions may be commenced either in the county where the defendant resides, if more than one defendant, or in the county where any act or part thereof, complained of occurred.

(7) The provisions of part II of this chapter shall not be applicable to retailers of agricultural commodities except to the extent that any retailer also engages in the processing or distributing of agricultural commodities as defined in part II of this chapter.

(8) It shall be a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, for:

(a) Any person to willfully render or furnish a false or fraudulent report, statement or record required by the department, or any marketing agreement or marketing order effective thereunder.

**573.801 Short title.**—Part III of this chapter may be known and cited as the "Florida Watermelon Marketing Law."

**History.**—s. 1, ch. 63-292.

**573.802 Legislative findings; declaration of policy.**—This law is passed:

(1) Because the marketing of watermelons in Florida in excess of reasonable and normal market demands therefor, disorderly marketing of such commodity, improper preparation for market and lack of uniform grading and classification, unfair methods of competition, and the inherent inability of individual producers to maintain present markets or to develop new and larger markets for Florida-grown watermelons result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions jeopardize the continued production of adequate supplies of watermelons for the people of this state and other states, and prevent watermelon producers from obtaining a fair return from their labor, their farms, and their products. As a consequence, the purchasing power of such producers has been low in relation to that of persons engaged in other gainful occupations within this state and in all likelihood will continue to be so in the future, unless these conditions are remedied. Watermelon producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of the other citizens of this state.

(2) Because these conditions vitally concern the health, peace, safety, and general welfare of the people of this state, it is hereby declared to be the policy of this state to aid watermelon producers in preventing economic waste in the marketing of their commodity, to develop more efficient and equitable methods in the marketing of watermelons, and to aid watermelon producers in restoring and maintaining their purchasing power at a more adequate, equitable and reasonable level.

(3) The marketing of watermelons within this state is declared to be affected with a public interest. The provisions of part III of this chapter are enacted in the exercise of the police powers of this state for the purpose of protecting the public health, peace, safety, and general welfare of the people.

**History.**—s. 2, ch. 63-292.

**573.803 Purposes.**—The purposes of part III of this chapter are:

(1) To enable watermelon producers of this state, with the aid of the state, to correlate more effectively the marketing of their watermelons with market demands therefor.

(2) To establish and maintain orderly marketing of watermelons.

(3) To provide for uniform grading and proper preparation of watermelons for market.

(4) To provide methods for the maintenance of

present markets, or for the development of new and larger markets for watermelons grown in Florida.

(5) To eliminate or reduce economic waste in the marketing of watermelons grown in Florida.

(6) To prevent, modify or eliminate trade barriers which obstruct the free flow of watermelons to market.

History.—s. 3, ch. 63-292.

(1) The provisions are necessary in order to effect a reasonable correlation of the supply of watermelons affected with market demands therefor and the marketing order or amendments thereto will tend to reestablish or maintain a level of prices for watermelons which will provide a purchasing power for this commodity adequate to maintain enough producers to provide the quantities and qualities of wa-

termelons necessary to fulfill the normal requirements of consumers.

(2) The marketing order or amendments thereto will tend to approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for watermelons.

(3) The marketing order or amendments thereto are in conformity with the provisions of part III of this chapter and will tend to effectuate the declared purposes and policies of part III of this chapter.

(4) The purchasing power of consumers as indicated by reports and indexes.

(5) The level of prices of other commodities which compete with or are utilized as substitutes for watermelons.

(6) The level of prices of watermelons, in relation to services and articles which farmers commonly buy.

(7) Hardship resulting to any watermelon producer by the issuance of any proposed marketing order which cannot be remedied under the provision of s. 573.823.

**573.811 Procedure for referendum.**—

(1) With respect to any referendum conducted under the provisions of part III of this chapter, the department shall, before calling and announcing a referendum, fix, determine, and publicly announce, at least 15 days in advance of the date on which ballots and copies of the proposed order shall be mailed to all agricultural producers or handlers affected who are in the state and whose names and addresses are known, the date by which ballots must be returned to the department. Ballots and copies of the proposed order may be obtained from county agricultural agents' offices in the marketing area by producers or handlers not receiving them by mail.

(2) It shall be the duty of producers or handlers affected, who vote in the referendum to send their marked ballots to the department, which shall have the ballots counted by qualified and impartial personnel in its office, and the department shall within 10 days after the closing date for submitting ballots in any referendum, certify in writing and publish the results in a newspaper of general circulation in

(2) No marketing order or amendments thereto directly affecting and regulating producers shall become effective unless and until the department finds that the order has been approved by ballot by the producers covered by the marketing order, who during a representative period determined by the department produced not less than 75 percent of the volume of watermelons covered by the marketing order, and who total by number not less than 75 percent of the watermelon producers so covered by the marketing order, as provided in subsection (3).

(2) Provisions for carrying on research studies in the production or distribution of watermelons and for the expenditure of moneys for such purposes. In any research in production or distribution carried on hereunder, the department upon recommendation of the advisory council shall select the research project or projects to be carried on. These projects may be carried out by any research agency the department determines, based upon recommendations of the advisory council.

(3) Provisions relating to the prohibition of unfair trade practices. (4) Provisions establishing or providing for establishing, with respect to watermelons, either as delivered by producers to handlers, or as handled or otherwise prepared for market, or as marketed by producers or handlers:

(a) Grading standards of quality, condition, size, shape, maturity, pack, or any other criteria for indicating desirability of watermelons which standards may include minimum standards, provided the standards shall not be established below any minimum standards prescribed by law for this commodity.

(b) Uniform inspection, grading of, and proper labeling of watermelons in accordance with the standards so established.

(c) Fixing the size, weight, capacity, dimensions, or pack of the containers which may be used in the packaging, transportation, sale, shipment, or other handling of watermelons.

(5) Provisions for the establishment of surplus, stabilization, or byproduct pools for watermelons or of any grade, size, quality, or condition, and providing for the sale of the commodity in any pool and for the equitable distribution among the persons participating of the net returns derived from the sale of the commodity. Whenever the marketing order authorizes the establishment of any pool or pools, the department shall have power to receive the commodity from each producer or handler and to handle the same according to the grade, size, quality, or condition and to account to each producer or handler participating upon a pro rata basis for the net proceeds derived from the sale.

(6) Provisions incidental to and not inconsistent with the terms, conditions, and provisions specified

and necessary to effectuate the other provisions of such marketing order.

**History.**—s. 17, ch. 63-292; ss. 14, 35, ch. 69-106; s. 3, ch. 78-341.

**573.819 Limited marketing orders.**—A marketing order issued by the department may be limited in application by prescribing the marketing areas or portions of the state in which a particular order shall be effective; provided that no marketing order shall be issued by the department unless it embraces all persons of a like class who are engaged in a specific and distinctive agricultural industry or trade within the prescribed marketing area or portion of the state in which a particular order shall be effective. The provisions of part III of this chapter shall not apply to any part of the state west of the Apalachicola River.

**History.**—s. 19, ch. 63-292; ss. 14, 35, ch. 69-106.

The execution of a marketing agreement shall in no manner affect the issuance, administration, or enforcement of any marketing order. **History.**—s. 20, ch. 63-292; ss. 14, 35, ch. 69-106; s. 6, ch. 78-95.

**573.821 Assessment; funds; audit; loans.**—

(1) Every person engaged in the production, distributing, or handling of watermelons within this state, and directly affected by any marketing order, shall pay to the department at such times and in such installments as the department may prescribe, such person's pro rata share of necessary expenses, to provide funds to defray the necessary expenses incurred by the department in the formulation, issuance, administration, and enforcement of any marketing order. Each person's share of such expenses shall be that proportion which the total volume of watermelons produced, distributed, or handled by the person during the current marketing season, or part thereof covered by such marketing order, is of the total volume of the commodity produced, distrib-

uted, or handled by all such persons during the same current marketing season or part thereof. The department, after receiving the recommendations of the advisory council, shall fix the rate of assessment on the volume of watermelons sold or some other equitable basis. For convenience of collection, upon request of the department, handlers of the commodity shall pay producer assessments. Handlers paying assessments for and on behalf of any producers shall at their discretion, collect the producer assessments from any moneys owed by the handlers to the producers.

(2) The department may require every producer, distributor, or handler directly affected by any marketing order to deposit with it in advance cash or sufficient bond based upon the estimated volume of watermelons to be handled during the period or periods covered by the marketing order to defray the costs involved in the formulation, issuance, administration, and enforcement of any marketing order. At the close of each marketing season during which the marketing order is effective, the sum so deposited shall be adjusted to the amount which is chargeable against the producer, distributor, or handler upon the basis of the volume of watermelons handled during the period or periods. The department shall prescribe the rules and regulations with respect to assessment and collection of these funds.

(3) Any money so collected shall be used to defray actual expenses incurred by the department. Any moneys remaining in the fund, at the discretion of the department, may be refunded at the close of any marketing season upon a pro rata basis to all persons from whom the funds were collected. Upon termination by the department of any marketing order, all moneys remaining and not required to defray the expenses of the order shall be returned by the department upon a pro rata basis to all persons from whom the funds were collected.

(4) In the event of the levying and collecting of assessments, as provided herein, for each fiscal year in which assessment funds are received by the department, the department shall cause to be made a thorough annual audit of the books and accounts by a certified public accountant, such audit to be completed within 60 days after the end of the fiscal year. The department and all producers and handlers covered by the marketing order shall be properly advised of the details of the annual official audit of the accounts as shown by the certified public accountant within 30 days of such audit.

(5) Any assessment levied, in the specified amount as may be determined by the department, shall constitute a personal debt of every person so assessed and shall be due and payable to the department; the department may file a complaint against any person or persons in a state court of competent jurisdiction for the collection of the assessment.

These general rules shall not be applicable to the provisions of part III of this chapter relative to posting, publications and effective date. General rules shall be mailed to the advisory council for each marketing order or marketing agreement in active operation.

(3) Upon recommendation of the advisory council concerned, the department shall have power to establish administrative rules and regulations for each marketing order or marketing agreement issued and made effective as may be necessary to facilitate the administration and enforcement of each order or agreement.

*History.*—s. 22, ch. 63-292; ss. 14, 35, ch. 69-106.

(2) The department may issue certificates of exemption to any applicant who applies for an exemption and furnishes adequate evidence to the department, that by reason of a marketing order, the applicant has been adversely affected, unduly burdened or the result of the marketing order is confiscatory by reason of acts beyond the applicant's control or by acts beyond reasonable expectation.

gaged within the state in the production of watermelons for market, covered by the marketing order, and who produce for market more than 51 percent of the volume of such commodity produced within the state for market are opposed to the said marketing order; provided that the suspension or termination shall not be effective until the expiration of the current marketing season. If the department finds that the termination of any marketing order is requested in writing by more than 51 percent of the producers who are engaged within the state in the production of watermelons for market, covered by the marketing order, and who produce for market more than 51 percent of the volume of such commodity produced within the state for market, covered by the order, and the department further finds the marketing order obstructs or does not tend to carry out the declared policy and purposes of part III of this chapter it shall terminate or suspend for a specified period the marketing order or provision thereof; provided that the termination shall be effective only if announced on or before the date, prior to the end of the current marketing period, as may be specified in the order.

**History.**—s. 24, ch. 63-292; ss. 14, 35, ch. 69-106.

**History.**—s. 25, ch. 63-292.

**573.826 Maintenance and production of records.**—

(1) The department may require any and all persons directly affected by and subject to the provisions of any marketing order to maintain books and records reflecting their operations under the marketing order, and to furnish to the department or its duly authorized or designated representative or representatives any information as may be from time to time requested by them relating to operations under said marketing order and to permit the inspection by the department or its duly authorized or designated representative or representatives of such portions of the books and records as relate to operations under the marketing order.

**573.830 Short title.**—Part IV of this chapter may be known and cited as the "Florida Soybean Marketing Law."

**History.**—s. 1, ch. 70-258.

### **573.831 Legislative findings; declaration of policy.**—

(1) This law is passed:

(a) Because the marketing of soybeans in Florida in excess of reasonable and normal market demands therefor, disorderly marketing of such commodity, unfair methods of competition, and the inherent inability of individual producers to maintain present markets or to develop new and larger markets for Florida-produced soybeans result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions jeopardize the continued production of adequate supplies of soybeans for the people of this state and other states and prevent soybean producers from obtaining a fair return from their labor, their farms, and their products. As a consequence, the purchasing power of such producers has been low in relation to that of persons engaged in other gainful occupations within this state and in all likelihood will continue to be so in the future unless these conditions are remedied. Soybean producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of the other citizens of this state.

(b) Because these conditions vitally concern the health, peace, safety, and general welfare of the people of this state, it is hereby declared to be the policy of this state to aid soybean producers in preventing economic waste in the marketing of their commodity, to develop more efficient and equitable methods in the marketing of soybeans, and to aid soybean producers in restoring and maintaining their purchasing power at a more adequate, equitable, and reasonable level.

(2) The marketing of soybeans within this state is declared to be affected with a public interest. The provisions of this part are enacted in the exercise of the police powers of this state for the purpose of protecting the public health, peace, safety, and general welfare of the people.

**History.**—s. 2, ch. 70-258.

### **573.832 Purposes.**—The purposes of this part are:

(1) To enable soybean producers of this state, with the aid of the state, to correlate more effectively the marketing of their soybeans with market demands therefor.

(2) To establish and maintain orderly marketing of soybeans.

(3) To provide methods for the maintenance of present markets, or for the development of new and larger markets, for soybeans produced in Florida.

(4) To eliminate or reduce economic waste in the marketing of soybeans in Florida.

(5) To prevent, modify, or eliminate trade barriers which obstruct the free flow of soybeans to market.

History.—s. 3, ch. 70-258.

**573.833 Definitions.**—As used in this part:

(1) "Department" means the Department of Agriculture and Consumer Services.

(2) "Person" means an individual, firm, partnership, corporation, association, business trust, legal representative, or any other business unit.

(3) "Soybean" means all varieties and types of soybeans (*Glycine max*).

(4) "Producer" means any person engaged within this state in a proprietary capacity in the business of producing or causing to be produced, soybeans for market.

(6) "Handler" is synonymous with "shipper" and means any person, except a common or contract carrier of soybeans owned by another person, engaged within this state as a buyer or distributor in the business of buying or distributing soybeans in the primary channel of trade.

(7) "Distributor" means any person who engages in the operation of selling, marketing, or distributing, in the primary channel of trade, soybeans which he has produced, purchased or acquired from a producer, or is marketing on behalf of a producer, whether as owner, agent, employee, broker, or otherwise, but shall not include a retailer.

(8) "Buyer" means the person or organization, or agent for the person or organization, who buys, purchases, or takes possession of soybeans as one of the steps in the marketing of soybeans.

(16) "Administrative rules" means rules applicable to a particular marketing order or agreement, issued and made effective by the department upon recommendation of the advisory council concerned, to provide methods and procedures to facilitate the administration and enforcement of the marketing order or agreement. Rules may include, but shall not be limited to, methods and procedures for the purpose of explaining or clarifying the provisions of the marketing order or agreement; providing information to producers and handlers subject to the provisions of the marketing order or agreement; and other similar procedural and explanatory provisions to enable such producers and handlers better to understand the program and their respective obligations thereunder and thereby assist in obtaining cooperation and compliance.

History.—s. 4, ch. 70-258; s. 6, ch. 78-95.

**573.834 Required consent by industry.**—No marketing order or amendment directly or indirectly affecting or regulating soybeans in the primary channel of trade of this state shall become effective unless the marketing order or amendment thereto has been consented to by a majority of producers or handlers of such commodity in Florida, as provided in s. 573.841.

History.—s. 5, ch. 70-258.

**573.835 Petition of producers.**—Upon the application or petition of 10 or more producers who state they have reason to believe that the issuance of a marketing order will tend to effectuate the declared policy of this part, the department shall give due notice of, and an opportunity for, a public hearing upon a proposed marketing order.

History.—s. 6, ch. 70-258.

**573.836 Petitioner's expense.**—Prior to the issuance of any marketing order, the department shall require applicants to deposit with it such amounts as the department may deem necessary to defray the expenses of preparing and making effective such marketing order. These funds shall be received, deposited, and disbursed by the department. Any balance remaining shall be returned to the petitioners if the proposed order does not become effective. If such proposed order does become effective, the total amount deposited may be refunded from the funds collected under the order upon the recommendation of the advisory council and approval of the department.

History.—s. 7, ch. 70-258.

**573.837 Public hearing.**—Due notice of any hearing shall be given to all persons who may be directly affected by any action of the department. These hearings shall be open to the public. All testimony shall be received under oath and a full and complete record of all proceedings at any hearing shall be made and filed by the department in the Mayo Building, Tallahassee. All interested persons shall have a period of not less than 7 days following the public hearing for filing written briefs with the department concerning such action.

History.—s. 8, ch. 70-258.

**573.838 Findings; required to issue order.**—After such notice and hearing, the department shall issue a marketing order if it finds and sets forth that the order will tend to accomplish the objectives and purposes of this part and that:

(1) The provisions are necessary in order to effect a reasonable correlation of the supply of soybeans affected with market demands therefor and the marketing order or amendments thereto will tend to re-establish or maintain a level of prices for soybeans which will provide a purchasing power for this commodity adequate to maintain enough producers to provide the quantities and qualities of soybeans necessary to fulfill the normal requirements of consumers.

(2) The marketing order or amendments thereto will tend to approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for soybeans.

(3) The marketing order or amendments thereto are in conformity with the provisions of this part and will tend to effectuate the declared purposes and policies of this part.

(4) The marketing order or amendments thereto will protect the interests of consumers of soybeans by exercising the powers of this part only to such extent as is necessary to establish the equality of purchasing power described in subsection (1).

History.—s. 9, ch. 70-258.

**573.839 Criteria considered in making findings.**—In making the findings set forth in s. 573.838, the department shall take into consideration all facts available with respect to:

(1) The quantity of soybeans available for distribution.

(2) The quantity of soybeans normally required by consumers.

(3) The cost of producing soybeans as determined by available records, statistics, and surveys.

(4) The purchasing power of consumers as indicated by reports and indexes.

(5) The level of prices of other commodities which compete with or are utilized as substitutes for soybeans.

(6) The level of prices of soybeans in relation to services and articles which farmers commonly buy.

(7) Hardship resulting to any soybean producer by the issuance of any proposed marketing order which cannot be remedied under s. 573.852.

History.—s. 10, ch. 70-258.

#### **573.840 Procedure for referendum.**—

(1) With respect to any referendum conducted under this part, the department shall, before calling and announcing a referendum, fix, determine, and publicly announce, at least 15 days in advance of the date on which ballots and copies of the proposed order shall be mailed to all agricultural producers or handlers affected who are in the state and whose names and addresses are known, the date by which ballots must be returned to the department. Ballots and copies of the proposed order may be obtained from county agricultural agents' offices in the marketing area by producers or handlers not receiving them by mail.

(2) It shall be the duty of producers or handlers affected who vote in the referendum to send their marked ballots to the department, which shall have the ballots counted by qualified and impartial personnel of the department, and the department shall within 10 days after the closing date for submitting ballots in any referendum, certify in writing and publish the results in a newspaper of general circulation in the state and in such other newspapers as the department may prescribe.

History.—s. 11, ch. 70-258.

#### **573.841 Referendum.**—

(1) No marketing order or amendments directly affecting handlers shall become effective unless the department finds that the order has been approved by ballot by the handlers covered by the marketing order who, during a representative period determined by the department, handled no less than 51 percent of the volume of soybeans produced or marketed within the production or marketing area covered by the order, as provided in subsection (3).

(2) No marketing order or amendments thereto directly affecting and regulating producers shall become effective unless the department finds that the order has been approved by ballot by the producers covered by the marketing order who, during a representative period determined by the department, produced not less than 51 percent of the acreage of soybeans covered by the marketing order and who total by number not less than 65 percent of the soybean producers so covered by the marketing order, as provided in subsection (3).

(3) All percentages determined by the department as required in this section shall be computed on the basis of persons voting in the referendum.

History.—s. 12, ch. 70-258.

**573.842 Notice of effective date of marketing order.**—Before the issuance of any marketing order, or any suspension, amendment, or termination thereof, a notice shall be posted on a public bulletin board to be maintained by the department in the Division of Marketing, and a copy of the notice shall be published in a newspaper of general circulation in the state and in such other newspaper or newspapers as the department may prescribe. Notices published in the newspaper or newspapers shall be sent by first-class mail by the department to those newspapers designated by it the same date that the notice is posted on the aforesaid bulletin board, with instructions to publish the same as a legal advertisement the first day after receipt of the notice as such newspapers' policies for publishing legal advertisements provide. No marketing order, or any suspension, amendment, or termination thereof, shall become effective until the termination of a period of 5 days from the date of posting and publication. It shall also be the duty of the department to mail a copy of the notice of said issuance to every person who files with the department a written request for such notice.

*History.*—s. 13, ch. 70-258.

**573.843 Advisory council.**—

The advisory council shall assist the department in the administration of any marketing order. Members of the advisory council and their alternates shall be appointed by the department. The number of producers, handlers, or distributors upon any advisory council shall be such number of producers, handlers, or distributors as the department finds necessary to assist properly in the administration of the order, but the majority of the members and alternate members of any advisory council shall be producers.

(2) No member or alternate member of any advisory council shall receive a salary, but shall be reimbursed for traveling expenses as provided in s. 112.061. The department may authorize the advisory council to employ necessary personnel, including professional and technical services, fix their compensation and terms of employment, and to incur expenses to be paid by the department from moneys collected as herein provided, as the department may deem necessary and proper to enable the advisory council to perform properly its authorized duties.

*History.*—s. 14, ch. 70-258; s. 1, ch. 70-439; s. 4, ch. 78-323.

**573.845 Same; exemption from liability.**—The members and alternate members of any advisory council duly appointed by the department, including employees of the council, shall not be held responsible individually in any way whatsoever to any producer, distributor, or other handler or any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act of any other member of any council.

*History.*—s. 16, ch. 70-258; s. 1, ch. 70-439; s. 4, ch. 78-323.

*Note.*—Repealed by s. 4, ch. 78-323, effective October 1, 1981, except for the possible effect of laws affecting this section prior to that date.

**573.846 Possible subjects of marketing orders.**—Subject to the restrictions and limitations set forth herein, any marketing order issued by the department may contain any of the following provisions for regulating, or providing methods for regulating, producer marketing or the handling or any other of the operations of processing or distributing by handlers of soybeans within this state, but no others:

(1) Provisions for the establishment of plans and programs for advertising and sales promotion to maintain present markets or to create new or larger markets for soybeans grown in Florida. The department is hereby authorized to prepare, issue, administer, and enforce plans and programs for promoting the sale of soybeans. Any such plan or program shall be directed toward increasing the sale of the commodity without reference to a private brand or trade name.

(2) Provisions for carrying on research studies in the production or distribution of soybeans and for the expenditure of moneys for such purposes. In any research in production or distribution carried on hereunder, the department, upon recommendation of the advisory council, shall select the research project or projects to be carried on. These projects may be carried out by any research agency the department determines, based upon recommendations of the advisory council.

(3) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices now prohibited by law applicable to the distribution or handling of soybeans within this state, the department is authorized to include in any marketing order issued provisions designed to correct any trade practices affecting the distributing or handling of soybeans within this state which the department finds are unfair and detrimental to the effectuation of the declared purposes of this part, after a hearing in which all interested persons are given an opportunity to be heard.

(4) Provisions incidental to and not inconsistent

with the terms, conditions, and provisions specified and necessary to effectuate the other provisions of such marketing order.

History.—s. 17, ch. 70-258; s. 4, ch. 78-341.

**573.847 Cooperation with other governments.**—The department is authorized to confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, or orders, and the department is authorized to conduct joint hearings, issue joint or concurrent marketing orders, and exercise any administrative authority prescribed by this part to effect uniformity of administration and regulation.

History.—s. 18, ch. 70-258.

**573.848 Limited marketing orders.**—A marketing order issued by the department may be limited in application by prescribing the marketing areas or portions of the state in which a particular order shall be effective. However, no marketing order shall be issued by the department unless it embraces all persons of a like class who are engaged in a specific and distinctive agricultural industry or trade within the prescribed marketing area or portion of the state in which a particular order shall be effective.

History.—s. 19, ch. 70-258.

**573.849 Marketing agreement.**—In order to effectuate the declared policy of this part, the department shall have the power to enter into marketing agreements which may contain any of those provisions contained in s. 573.846 with distributors, producers, and others engaged in the handling of soybeans, regulating the handling of the commodity, and which shall be binding upon the signatories thereto exclusively. The execution of a marketing agreement shall not affect the issuance, administration, or enforcement of any marketing order. The department may issue a marketing order without executing a marketing agreement, or may execute a marketing agreement and issue a marketing order covering the same commodity.

History.—s. 20, ch. 70-258; s. 6, ch. 78-95.

**573.850 Assessment; funds; audit; loans.**—

(1) Every person engaged in the production, distribution, or handling of soybeans within this state and directly affected by any marketing order shall pay to the department at such times and in such installments as the department may prescribe such person's pro rata share of necessary expenses to provide funds to defray the necessary expenses incurred by the department in the formulation, issuance, administration, and enforcement of any marketing order. Each person's share of such expenses shall be that proportion which the total volume of soybeans produced, distributed, or handled by the person during the current marketing season, or part thereof covered by such marketing order, is of the total volume of the commodity produced, distributed, or handled by all such persons during the same current marketing season or part thereof. The department, after receiving the recommendations of the advisory

council, shall fix the rate of assessment on the volume of soybeans sold or some other equitable basis. Such assessment shall not exceed 1 cent per bushel of soybeans subject to a marketing order or marketing agreement issued pursuant to this part. For convenience of collection and upon request of the department, handlers of the commodity shall pay producer assessments. Handlers paying assessments for and on behalf of any producers may collect the producer assessments from any moneys owed by the handlers to the producers.

(2) The department may require every producer, distributor, or handler directly affected by any marketing order to deposit with it in advance cash or sufficient bond based upon the estimated volume of soybeans to be handled during the period or periods covered by the marketing order to defray the costs involved in the formulation, issuance, administration, and enforcement of any marketing order. At the close of each marketing season during which the marketing order is effective the sum so deposited shall be adjusted to the amount which is chargeable against the producer, distributor, or handler upon the basis of the volume of soybeans handled during the period or periods. The department shall prescribe the rules and regulations with respect to assessment and collection of these funds.

(3) Any money so collected by the department shall be used to defray the actual expenses incurred by the department with respect to the soybean marketing order. Any moneys remaining in the fund, at the discretion of the department, may be refunded at the close of any marketing season upon a pro rata basis to all persons from whom the funds were collected. Upon termination by the department of any marketing order, all moneys remaining and not required to defray the expenses of the order shall be returned by the department upon a pro rata basis to all persons from whom the funds were collected.

(4) In the event of the levying and collecting of assessments, for each fiscal year in which assessment funds are received by the department, the department shall cause to be made a thorough annual audit of the books and accounts by a certified public accountant, and such audit shall be completed within 60 days after the end of the fiscal year. The department and all producers and handlers covered by the marketing order shall be properly advised of the details of the annual official audit of the accounts as shown by the certified public accountant within 30 days after completion of such audit.

(5) Any assessment levied in the specified amount as may be determined by the department shall constitute a personal debt of every person so assessed and shall be due and payable to the department. The department may file a complaint against any person or persons in a state court of competent jurisdiction for the collection of the assessment.

History.—s. 21, ch. 70-258; s. 1, ch. 70-439; s. 233, ch. 71-377.

**573.851 Department; powers and duties.**—

(1) The department shall administer and enforce the provisions of this part within the Division of Marketing. In order to effectuate the declared purposes of this part, the department is authorized to issue, administer, and enforce the provisions of any marketing agreement or order regulating producer

marketing and handling of soybeans in the primary channel of trade.

(2) The department shall have power to establish general rules and regulations for uniform application to all marketing orders and marketing agreements as may be necessary to facilitate the administration and enforcement of the marketing orders and agreements. These general rules shall not be applicable to the provisions of this part relative to posting, publications, and effective date. General rules shall be mailed to the advisory council for each marketing order or marketing agreement in active operation.

(3) Upon recommendation of the advisory council concerned, the department shall have power to establish administrative rules and regulations for each marketing order or marketing agreement issued and made effective as may be necessary to facilitate the administration and enforcement of each order or agreement.

(4) Upon recommendation of the advisory council concerned, the department shall have power to issue and make effective seasonal marketing regulations authorized by the provisions of any marketing order or marketing agreement necessary to carry out and make effective the purposes and provisions of any marketing order or agreement. Notice of any regulations issued by the department shall be given to all producers and handlers directly affected.

(5) Upon finding that any regulation issued pursuant to the provisions of a marketing order imposes an unfair burden upon any person or group, the department shall exempt such person or group from the provisions of such regulation, and, upon finding that any regulation in effect under a marketing order does not tend to accomplish the purpose of this part, the department shall suspend or terminate such regulation.

*History.*—s. 22, ch. 70-258.

**573.852 Assessment refund.**—Any person who has sold soybeans and had an assessment deducted from the sale price under terms of a marketing order issued pursuant to this part may by application in writing to the department secure a refund in the amount deducted. Such refund shall be payable only when the application shall have been mailed to the department within 60 days after the deduction. Application forms shall be made available and may be secured from the department, and each application shall have attached thereto an invoice of the sale. The department shall have 30 days from date of receipt to remit the refund. This section shall not be construed to require participation under any such marketing order, and any person who sells soybeans and does not desire to participate under such order shall be exempt from the assessment deductions herein referred to if such person notifies the department of such desire not less than 30 days prior to such sale.

*History.*—s. 23, ch. 70-258; s. 1, ch. 70-439.

**573.853 Termination of orders.**—The department shall suspend or terminate the marketing order or any provision of the marketing order whenever it finds the provision or order does not tend to effectuate the declared purposes of this part, within

the standards and subject to the limitations and restrictions herein imposed and it further finds upon a referendum called by the department that 51 percent of the producers who are engaged within the state in the production of soybeans for market, covered by the marketing order, and who produce for market more than 51 percent of the volume of such commodity produced within the state for market are opposed to the said marketing order; provided that the suspension or termination shall not be effective until the expiration of the current marketing season. If the department finds that the termination of any marketing order is requested in writing by more than 51 percent of the producers who are engaged within the state in the production of soybeans for market, covered by the marketing order, and who produce for market more than 51 percent of the volume of such commodity produced within the state for market, covered by the order, and the department further finds the marketing order obstructs or does not tend to carry out the declared policy and purposes of this part it shall terminate or suspend for a specified period the marketing order or provision thereof; provided that the termination shall be effective only if announced on or before the date, prior to the end of the current marketing period, as may be specified in the order.

*History.*—s. 24, ch. 70-258; s. 153, ch. 71-355.

**573.854 Inspections.**—Any authorized inspector or other authorized person discharging his duties in the checking of compliance with the provisions of any marketing order may enter and inspect any premises, enclosure, building, or conveyance when he has reason to believe any soybeans subject to a marketing order are produced, stored, being prepared for market, or marketed and inspect or cause to be inspected representative samples of the commodity as may be necessary to determine whether or not any lot of soybeans is in compliance with applicable regulations of any marketing order.

*History.*—s. 25, ch. 70-258.

**573.855 Maintenance and production of records.**—

(1) The department may require all persons directly affected by and subject to the provisions of any marketing order to maintain books and records reflecting their operations under the marketing order, to furnish to the department or its duly authorized or designated representative any information which may, from time to time, be requested by them relating to operations under said marketing order, and to permit the inspection by the department or its duly authorized or designated representative of such portions of the books and records as relate to operations under the marketing order.

(2) Information obtained by any person shall be confidential and shall not be disclosed by him to any other person except to a person with like right to obtain it or to any attorney employed to give legal advice or by court order.

(3) The department or its duly authorized or designated representative may hold hearings, take testimony, administer oaths, subpoena witnesses, and issue subpoenas for the production of books, records,

or documents relevant and material to the subject matter of the hearings.

(4) No person shall be excused from attending and testifying or from producing documentary evidence before the department or its duly authorized or designated representative in obedience to the subpoena of the department on the ground or for the reason that the testimony or evidence, documentary or otherwise, required of it may tend to incriminate him or subject him to a penalty or forfeiture. But no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which he may be so required to testify or produce evidence, documentary or otherwise, before the department in obedience to a subpoena issued pursuant to this section. No natural person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

**History.**—s. 26, ch. 70-258.

#### **573.856 Penalties; violation; hearings.—**

(1) Every person who violates any provision of this part or any provision of any marketing agreement or order duly issued by the department shall be guilty of a misdemeanor, and upon conviction, shall be punished by a fine of not less than \$200 or more than \$10,000. Each day during which any of the violations above referred to continue after the department has issued a cease and desist order against the violator shall constitute a separate offense. Any fine imposed by a court of competent jurisdiction shall be transmitted by the clerk of such court to the department.

(2) Upon the filing of a verified complaint with the department charging a violation of any provision of this part, of any marketing order issued by the department hereunder, or of any marketing agreement enforced by the department, and prior to institution of any court proceedings authorized, the department may refer the matter to the Department of Legal Affairs or a prosecuting attorney of this state having jurisdiction for action pursuant to the provisions of this part or proceed to consider the charges set forth in such verified complaint.

(3) If the department finds that no violation has occurred, it shall forthwith dismiss the complaint.

(4) If the department finds that a violation has occurred, it shall enter its findings and notify the parties to the complaint. Should the defendant or defendants thereafter fail, neglect, or refuse to desist from the violation within the time specified by the department, the department may thereupon file a complaint against the defendant or defendants in a court of competent jurisdiction.

(5) The Department of Legal Affairs or any prosecuting attorney of this state having jurisdiction may upon his own initiative, and shall upon complaint of any person, if, after investigation, he believes the violation to have occurred, bring an action in the name of the state in any court of competent jurisdiction within the state against any person violating any provision of this part or any marketing order duly issued by the department under this part or other marketing agreement enforced by the department under this part.

(6) The several circuit courts of the state are

hereby vested with jurisdiction specifically to enforce, and to enjoin and restrain any person from violating, any provisions of this part or of any marketing order duly issued by the department or any marketing agreement enforced by the department. In any such proceeding, it shall not be necessary for the department to allege or prove that an adequate remedy at law does not exist. Circuit courts may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and upon final hearing, if final decree be in favor of the department, it shall provide that the defendant or defendants pay its reasonable costs of each suit, including reasonable attorneys' fees to be fixed by the court. Action may be commenced either in the county where the defendant resides, where any defendant resides, if more than one defendant, or where any act of omission, or part thereof, complained of occurred.

(7) The provisions of this part shall not be applicable to retailers of agricultural commodities except to the extent that any retailer also engages in the processing or distributing of agricultural commodities as defined in this part.

(8) It shall be a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, for:

(a) Any person willfully to render or furnish a false or fraudulent report, statement, or record required by the department or any marketing agreement or marketing order effective thereunder.

(b) Any person engaged in the handling of any soybeans or in the wholesale or retail trade thereof to fail or refuse to furnish to the department or its duly authorized agents, upon request, information concerning the name and address of the persons from whom he has received any soybeans regulated by a marketing order issued and in effect hereunder and the quantity of the commodity so received.

(6) "Handler" is synonymous with "shipper" and means any person, except a common or contract carrier of flue-cured tobacco owned by another person, engaged within this state as a buyer or distributor in the business of buying or distributing flue-cured tobacco in the primary channel of trade.

(7) "Distributor" means any person who engages in the operation of selling, marketing, or distributing, in the primary channel of trade, flue-cured tobacco which he has produced, purchased, or acquired from a producer, or is marketing on behalf of a producer, whether as owner, agent, employee, broker, or otherwise, but shall not include a retailer.

**573.862 Petitioner's expense.**—Prior to the issuance of any marketing order, the department shall require applicants to deposit with it such amounts as the department may deem necessary to defray the expenses of preparing and making effective such marketing order. These funds shall be received, deposited, and disbursed by the department. Any balance remaining shall be returned to the petitioners if the proposed order does not become effective. History.—s. 7, ch. 70-345.

**573.864 Findings; required to issue order.**—After such notice and hearing, the department shall issue a marketing order if it finds and sets forth that the order will tend to accomplish the objectives and purposes of this part and that:

(1) The provisions are necessary in order to effect a reasonable correlation of the supply of flue-cured tobacco affected with market demands therefor and the marketing order or amendments thereto will tend to reestablish or maintain a level of prices for flue-cured tobacco which will provide a purchasing power for this commodity adequate to maintain enough producers to provide the quantities and qualities of flue-cured tobacco necessary to fulfill the normal requirements of consumers.

(2) The marketing order or amendments thereto will tend to approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for flue-cured tobacco.

(3) The marketing order or amendments thereto are in conformity with the provisions of this part and will tend to effectuate the declared purposes and policies of this part.

(4) The marketing order or amendments thereto will protect the interests of consumers of flue-cured tobacco by exercising the powers of this part only to such extent as is necessary to establish the equality of purchasing power described in subsection (1).

History.—s. 8, ch. 70-345.

**573.865 Criteria considered in making findings.**—In making the findings set forth in s. 573.864, the department shall take into consideration all facts available with respect to:

(1) The quantity of flue-cured tobacco available for distribution.

(2) The quantity of flue-cured tobacco normally required by consumers.

(3) The cost of producing flue-cured tobacco as determined by available records, statistics, and surveys.

(4) The purchasing power of consumers as indicated by reports and indexes.

(5) The level of prices of other commodities which compete with or are utilized as substitutes for flue-cured tobacco.

(6) The level of prices of flue-cured tobacco in relation to services and articles which farmers commonly buy.

(7) Hardship resulting to any flue-cured tobacco producer by the issuance of any proposed marketing order which cannot be remedied under s. 573.878.

History.—s. 9, ch. 70-345.

**573.866 Procedure for referendum.**—

(1) With respect to any referendum conducted under this part, the department shall, before calling and announcing a referendum, fix, determine, and publicly announce, at least 15 days in advance of the date on which ballots and copies of the proposed order shall be mailed to all agricultural producers or handlers affected who are in the state and whose names and addresses are known, the date by which ballots must be returned to the department. Ballots and copies of the proposed order may be obtained from county agricultural agents' offices in the marketing area by producers or handlers not receiving them by mail.

(2) It shall be the duty of producers or handlers affected who vote in the referendum to send their marked ballots to the department, which shall have the ballots counted by qualified and impartial personnel of the department, and the department shall, within 10 days after the closing date for submitting ballots in any referendum, certify in writing and publish the results in a newspaper of general circulation in the state and in such other newspapers as the department may prescribe.

History.—s. 10, ch. 70-345.

**573.867 Referendum.**—

(1) No marketing order or amendments directly affecting handlers shall become effective unless the department finds that the order has been approved by ballot by the handlers covered by the marketing order who, during a representative period deter-

mined by the department, handled no less than 51 percent of the volume of flue-cured tobacco produced or marketed within the production or marketing area covered by the order, as provided in subsection (3).

(2) No marketing order or amendments thereto directly affecting and regulating producers shall become effective until the department finds that the order has been approved by ballot by the producers covered by the marketing order who, during a representative period determined by the department, produced not less than 51 percent of the acreage of flue-cured tobacco covered by the marketing order and who total by number not less than 65 percent of the flue-cured tobacco producers so covered by the marketing order, as provided in subsection (3).

(3) All percentages determined by the department as required in this section shall be computed on the basis of persons voting in the referendum.

**History.**—s. 11, ch. 70-345.

**573.868 Notice of effective date of marketing order.**—Before the issuance of any marketing order, or any suspension, amendment, or termination thereof, a notice shall be posted on a public bulletin board to be maintained by the department in the Division of Marketing, and a copy of the notice shall be published in a newspaper of general circulation in the state and such other newspaper or newspapers as the department may prescribe. Notices published in the newspaper or newspapers shall be sent by first-class mail by the department to those newspapers designated by it the same date that the notice is posted on the aforesaid bulletin board, with instructions to publish the same as a legal advertisement the first day after receipt of the notice as such newspapers' policies for publishing legal advertisements provide. No marketing order or any suspension, amendment, or termination thereof shall become effective until the termination of a period of 5 days from the date of posting and publication. It shall also be the duty of the department to mail a copy of the notice of said issuance to every person who files with the department a written request for such notice.

**History.**—s. 12, ch. 70-345.

**573.869 Advisory council.**—

(1) Any marketing order issued shall provide in it a method for the selection of an advisory council and the term of office of the councilmen. The advisory council shall assist the department in the administration of any marketing order. Members of the advisory council and their alternates shall be appointed by the department. The number of producers, handlers, or distributors upon any advisory council shall be such number of producers, handlers, or distributors as the department finds necessary to assist properly in the administration of the order, but the majority of the members and alternate members of any advisory council shall be producers.

(2) No member or alternate member of any advisory council shall receive a salary, but shall be reimbursed for traveling expenses as provided in s. 112.061. The department may authorize the advisory council to employ necessary personnel, including professional and technical services, fix their com-

pensation and terms of employment, and incur expenses to be paid by the department from moneys collected as herein provided, as the department may deem necessary and proper to enable the advisory council to perform properly its authorized duties.

(4) To assist the department in the assessment of members of the industry and in the collection of funds to cover expenses incurred by the department in the administration of the marketing order.

**573.871 Same; exemption from liability.**—The members and alternate members of any advisory council duly appointed by the department, including employees of the council, shall not be held responsible individually in any way whatsoever to any producer, distributor, or other handler or any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act of any other member of any council.

**History.**—s. 15, ch. 70-345; s. 1, ch. 70-439; s. 4, ch. 78-323.

**Note.**—Repealed by s. 4, ch. 78-323, effective October 1, 1981, except for the possible effect of laws affecting this section prior to that date.

**573.872 Possible subjects of marketing orders.**—Subject to the restrictions and limitations set forth herein, any marketing order issued by the department may contain any of the following provisions, but no others, for regulating, or providing methods for regulating, producer marketing, the handling, or any other of the operations of processing or distributing by handlers of flue-cured tobacco within this state:

(1) Provisions for the establishment of plans and programs for advertising and sales promotion to maintain present markets or to create new or larger markets for flue-cured tobacco grown in Florida. The department is authorized to prepare, issue, administer, and enforce plans and programs for promoting the sale of flue-cured tobacco. Any such plan or program shall be directed toward increasing the sale of the commodity without reference to a private brand or trade name.

(2) Provisions for carrying on research studies in the production or distribution of flue-cured tobacco and for the expenditure of moneys for such purposes.

In any research in production or distribution carried on hereunder, the department, upon recommendation of the advisory council, shall select the research project or projects to be carried on. These projects may be carried out by any research agency the department determines, based upon recommendations of the advisory council.

(3) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices now prohibited by law which apply to the distribution or handling of flue-cured tobacco within this state, the department is authorized to include in any marketing order issued provisions designed to correct any trade practices affecting the distributing or handling of flue-cured tobacco within this state which the department finds are unfair and detrimental to the effectuation of the declared purposes of this part after a hearing in which all interested persons are given an opportunity to be heard.

(4) Provisions incidental to and not inconsistent with the terms, conditions, and provisions specified and necessary to effectuate the other provisions of such marketing order.

History.—s. 16, ch. 70-345; s. 5, ch. 78-341.

**573.873 Cooperation with other governments.**—The department is authorized to confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, or orders, and the department is authorized to conduct joint hearings, issue joint or concurrent marketing orders, and exercise any administrative authority prescribed by this part to effect uniformity of administration and regulation.

History.—s. 17, ch. 70-345.

**573.874 Limited marketing orders.**—A marketing order issued by the department may be limited in application by prescribing the marketing areas or portions of the state in which a particular order shall be effective. However, no marketing order shall be issued by the department unless it embraces all persons of a like class who are engaged in a specific and distinctive agricultural industry or trade within the prescribed marketing area or portion of the state in which a particular order shall be effective.

History.—s. 18, ch. 70-345.

**573.875 Marketing agreement.**—In order to effectuate the declared policy of this part, the department shall have the power to enter into marketing agreements which may contain any of those provisions contained in s. 573.872 with distributors, producers, and others engaged in the handling of flue-cured tobacco, regulating the handling of the commodity, and which shall be binding upon the signatories thereto exclusively. The execution of a marketing agreement shall not affect the issuance, administration, or enforcement of any marketing order. The department may issue a marketing order without executing a marketing agreement, or may execute a

marketing agreement and issue a marketing order covering the same commodity.

History.—s. 19, ch. 70-345; s. 6, ch. 78-95.

**573.876 Assessment; funds; audit; loans.**—

(1) Every person engaged in the production, distribution, or handling of flue-cured tobacco within this state and directly affected by any marketing order shall pay to the department at such times and in such installments as the department may prescribe such person's pro rata share of necessary expenses to provide funds to defray the necessary expenses incurred by the department in the formulation, issuance, administration, and enforcement of any marketing order. Each person's share of such expenses shall be that proportion which the total volume of flue-cured tobacco produced, distributed, or handled by the person during the current marketing season, or part thereof covered by such marketing order, is of the total volume of the commodity produced, distributed, or handled by all such persons during the same current marketing season or part thereof. The department, after receiving the recommendations of the advisory council, shall fix the rate of assessment on the number of acres or pounds of tobacco produced. Such assessment shall not exceed \$2 per acre or 10 cents per 100 pounds of flue-cured tobacco subject to a marketing order or marketing agreement issued pursuant to this part. For convenience of collection and upon request of the department, handlers of the commodity shall pay producer assessments. Handlers paying assessments for and on behalf of any producers may collect the producer assessments from any moneys owed by the handlers to the producers.

(2) The department may require every producer, distributor, or handler directly affected by any marketing order to deposit with it in advance cash or sufficient bond based upon the number of acres of flue-cured tobacco to be handled during the period or periods covered by the marketing order, to defray the costs involved in the formulation, issuance, administration, and enforcement of any marketing order. At the close of each marketing season during which the marketing order is effective, the sum so deposited shall be adjusted to the amount which is chargeable against the producer, distributor, or handler upon the basis of the acres of flue-cured tobacco handled during the period or periods. The department shall prescribe the rules and regulations with respect to assessment and collection of these funds.

(3) Any money so collected by the department shall be used to defray the actual expenses incurred by the department with respect to the flue-cured tobacco marketing order. Any moneys remaining in the fund, at the discretion of the department, may be refunded at the close of any marketing season upon a pro rata basis to all persons from whom the funds were collected. Upon termination by the department of any marketing order, all moneys remaining and not required to defray the expenses of the order shall be returned by the department upon a pro rata basis to all persons from whom the funds were collected.

(4) In the event of the levying and collecting of assessments, for each fiscal year in which assessment funds are received by the department, the department shall cause to be made a thorough annual

audit of the books and accounts by a certified public accountant, and such audit shall be completed within 60 days after the end of the fiscal year. The department and all producers and handlers covered by the marketing order shall be properly advised of the details of the annual official audit of the accounts as shown by the certified public accountant within 30 days of such audit.

(5) Any assessment levied in the specified amount as may be determined by the department, shall constitute a personal debt of every person so assessed and shall be due and payable to the department. The department may file a complaint against any person or persons in a state court of competent jurisdiction for the collection of the assessment.

*History.*—s. 20, ch. 70-345; s. 1, ch. 70-439; s. 236, ch. 71-377; s. 1, ch. 75-127.

#### **573.877 Department; powers and duties.—**

(1) The department shall administer and enforce the provisions of this part within the Division of Marketing. In order to effectuate the declared purposes of this part, the department is authorized to issue, administer, and enforce the provisions of any marketing agreement or order regulating producer marketing and handling of flue-cured tobacco in the primary channel of trade.

(2) The department shall have power to establish general rules and regulations for uniform application to all marketing orders and marketing agreements as may be necessary to facilitate the administration and enforcement of the marketing orders and agreements. These general rules shall not be applicable to the provisions of this part relative to posting, publications, and effective date. General rules shall be mailed to the advisory council for each marketing order or marketing agreement in active operation.

(3) Upon recommendation of the advisory council concerned, the department shall have power to establish administrative rules and regulations for each marketing order or marketing agreement issued and made effective as may be necessary to facilitate the administration and enforcement of each order or agreement.

(4) Upon recommendation of the advisory council concerned, the department shall have power to issue and make effective seasonal marketing regulations authorized by the provisions of any marketing order or marketing agreement necessary to carry out and make effective the purposes and provisions of any marketing order or agreement. Notice of any regulations issued by the department shall be given to all producers and handlers directly affected.

(5) Upon finding that any regulation issued pursuant to the provisions of a marketing order imposes an unfair burden upon any person or group, the department shall exempt such person or group from the provisions of such regulation, and, upon finding that any regulation in effect under a marketing order does not tend to accomplish the purpose of this part, the department shall suspend or terminate such regulation.

*History.*—s. 21, ch. 70-345.

#### **573.878 Exemptions.—**

(1) The advisory council may adopt, with approval of the department, procedures pursuant to which certificates of exemption will be issued to producers and handlers.

(2) The advisory council may issue certificates of exemption to any applicant who applies for an exemption.

*History.*—s. 22, ch. 70-345.

**573.879 Termination of orders.**—The department shall suspend or terminate the marketing order or any provision of the marketing order, whenever it finds the provision or order does not tend to effectuate the declared purposes of this part, within the standards and subject to the limitations and restrictions herein imposed and it further finds upon a referendum called by the department that 51 percent of the producers who are engaged within the state in the production of flue-cured tobacco for market, covered by the marketing order, and who produce for market more than 51 percent of the volume of such commodity produced within the state for market are opposed to the said marketing order; provided that the suspension or termination shall not be effective until the expiration of the current marketing season. If the department finds that the termination of any marketing order is requested in writing by more than 51 percent of the producers who are engaged within the state in the production of flue-cured tobacco for market, covered by the marketing order, and who produce for market more than 51 percent of the volume of such commodity produced within the state for market, covered by the order, and the department further finds the marketing order obstructs or does not tend to carry out the declared policy and purposes of this part, it shall terminate or suspend for a specified period the marketing order or provision thereof; provided that the termination shall be effective only if announced on or before the date, prior to the end of the current marketing period, as may be specified in the order, and all remaining funds shall be returned to the persons or groups who provided them on a pro rata basis.

*History.*—s. 23, ch. 70-345; s. 153, ch. 71-355.

**573.880 Inspections.**—Any authorized inspector or other authorized person discharging his duties in the checking of compliance with the provisions of any marketing order may, in the presence of the owner or an authorized representative of the individual or group who owns the premises, enter and inspect any premises, enclosure, building, or conveyance when he has reason to believe any flue-cured tobacco subject to a marketing order is produced, stored, being prepared for market, or marketed and inspect or cause to be inspected representative samples of the commodity as may be necessary to determine whether or not any lot of flue-cured tobacco is in compliance with applicable regulations of any marketing order.

*History.*—s. 24, ch. 70-345.

**573.881 Maintenance and production of records.—**

(1) The department may require all persons directly affected by and subject to the provisions of any marketing order to maintain books and records reflecting their operations under the marketing order, to furnish to the department or its duly authorized or designated representative any information which may from time to time be requested by it relating to operations under said marketing order, and to permit the inspection by the department or its duly authorized or designated representative or representatives of such portions of the books and records as relate to operations under the marketing order.

(2) Information obtained by any person shall be confidential and shall not be disclosed by him to any other person except to a person with like right to obtain it or to any attorney employed to give legal advice thereto or by court order.

(3) The department or its duly authorized or designated representative may hold hearings, take testimony, administer oaths, subpoena witnesses, and issue subpoenas for the production of books, records, or documents relevant and material to the subject matter of the hearings.

(4) No person shall be excused from attending and testifying or from producing documentary evidence before the department or its duly authorized or designated representative in obedience to the subpoena of the department on the ground or for the reason that the testimony or evidence, documentary or otherwise, required of it may tend to incriminate him or subject him to a penalty or forfeiture. But no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which he may be so required to testify or produce evidence, documentary or otherwise, before the department in obedience to a subpoena issued pursuant to this section. No natural person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

(5) No person who has received a certificate of exemption shall be required, prosecuted, subpoenaed, or otherwise forced to testify or to produce documentary or other evidence before the department or any representative of the department.

History.—s. 25, ch. 70-345.

**573.882 Penalties; violation; hearings.—**

(1) Any person who violates any provision of this part or any provision of any marketing agreement or order duly issued by the department is guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than \$200 or more than \$10,000. Each day during which any of the violations above referred to continue after the department has issued a cease and desist order against the violator shall constitute a separate offense. Any fine imposed and collected by a court of competent jurisdiction shall be transmitted by the clerk of such court to the department for deposit.

(2) Upon the filing of a verified complaint with the department charging a violation of any provision of this part, of any marketing order issued by the department hereunder, or of any marketing agreement enforced by the department, and prior to insti-

tution of any court proceedings authorized, the department may refer the matter to the Department of Legal Affairs or a prosecuting attorney of this state having jurisdiction for action pursuant to the provisions of this part or proceed to consider the charges set forth in such verified complaint.

(3) If the department finds that no violation has occurred, it shall forthwith dismiss the complaint.

(4) If the department finds that a violation has occurred, it shall enter its findings and notify the parties to the complaint. Should the defendant or defendants thereafter fail, neglect, or refuse to desist from the violation within the time specified by the department, the department may thereupon file a complaint against the defendant or defendants in a court of competent jurisdiction.

(5) The Department of Legal Affairs or any prosecuting attorney of this state having jurisdiction may upon his own initiative, and shall upon complaint of any person, if, after investigation, he believes the violation to have occurred, bring an action in the name of the state in any court of competent jurisdiction within the state against any person violating any provision of this part, any marketing order duly issued by the department, or any marketing agreement enforced by the department under the terms of this part.

(6) The several circuit courts of the state are hereby vested with jurisdiction specifically to enforce, and to enjoin and restrain any person from violating, any provisions of this part, any marketing order duly issued by the department under this part, or any marketing agreement enforced by the department in any circuit court; and in any such proceeding it shall not be necessary for the department to allege or prove that an adequate remedy at law does not exist. Circuit courts may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and upon final hearing, if final decree be in favor of the department, it shall provide that the defendant or defendants pay it reasonable costs of each suit, including reasonable attorneys' fees to be fixed by the court. Action may be commenced either in the county where the defendant resides, where any other defendant resides, if more than one defendant, or where any act of omission, or part thereof, complained of occurred.

(7) The provisions of this part shall not be applicable to retailers of agricultural commodities except to the extent that any retailer also engages in the processing or distributing of agricultural commodities as defined in this part.

(8) It shall be a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, for:

(a) Any person willfully to render or furnish a false or fraudulent report, statement, or record required by the department or any marketing agreement or marketing order effective thereunder.

(b) Any person engaged in the handling of any flue-cured tobacco or in the wholesale or retail trade thereof to fail or refuse to furnish to the department or its duly authorized agents, upon request, information concerning the name and address of the persons from whom he has received any flue-cured tobacco regulated by a marketing order issued and in effect

hereunder and the quantity of the commodity so received.

(1) Provisions for the establishment of plans and programs for advertising and sales promotion to maintain present markets or to create new or larger markets for peanuts grown in Florida. The department is authorized to prepare, issue, administer, enter into contracts for, and enforce plans and programs for promoting the sale of peanuts. Any such plan or program shall be directed toward increasing the sale of the commodity without reference to a private brand or trade name.

(2) Provisions for carrying on research studies in the production or distribution of peanuts and for the expenditure of moneys for such purposes. In any research in production or distribution carried on hereunder, the department, upon recommendation of the advisory council, shall select the research project or projects to be carried on. These projects may be carried out by any research agency the department determines, based upon recommendations of the advisory council.

(3) Provisions for carrying on educational projects better to inform Florida peanut growers of the latest research data and legislation directly affecting the economic standing of producers of Florida peanuts.

(4) Provisions incidental to, and not inconsistent with, the terms, conditions, and provisions specified and necessary to effectuate the other provisions of such marketing order.

*History.*—s. 16, ch. 72-135.

**573.899 Cooperation with other governments.**—The department is authorized to confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, or orders.

*History.*—s. 17, ch. 72-135.

**573.90 Limited marketing orders.**—A marketing order issued by the department may be limited in application by prescribing the marketing areas or portions of the state in which a particular order shall be effective, except that no marketing order shall be issued by the department unless it embraces all persons of a like class who are engaged in a specific and distinctive agricultural industry or trade within the prescribed marketing area or portion of the state in which a particular order shall be effective.

*History.*—s. 18, ch. 72-135.

**573.901 Marketing agreement.**—In order to effectuate the declared policy of this part, the department shall have the power to enter into marketing agreements, which agreements may contain any of those provisions contained in s. 573.898, with distributors, producers, and others engaged in the handling

of peanuts, regulating the handling of the commodity, which marketing agreements shall be binding upon the signatories thereto exclusively. The execution of a marketing agreement shall in no manner affect the issuance, administration, or enforcement of any marketing order. The department may issue a marketing order without executing a marketing agreement, or may execute a marketing agreement and issue a marketing order covering the same commodity.

*History.*—s. 19, ch. 72-135; s. 6, ch. 78-95.

**573.902 Assessment; funds; audit.**—

(1) Every person engaged in the production, distribution, or handling of peanuts within this state and directly affected by any marketing order shall pay to the department, at such times and in such installments as the department may prescribe, such person's pro rata share of necessary expenses to provide funds to defray the necessary expenses incurred by the department in the formulation, issuance, administration, and enforcement of any marketing order. Each person's share of such expenses shall be that proportion which the total volume of peanuts produced, distributed, or handled by the person during the current marketing season, or part thereof covered by such marketing order, is of the total volume of the commodity produced, distributed, or handled by all such persons during the same current marketing season or part thereof. The department, after receiving the recommendations of the advisory council, shall fix the rate of assessment on the number of tons of peanuts produced or some other equitable basis. Such assessment shall not exceed \$2 per ton of peanuts subject to a marketing order or marketing agreement issued pursuant to this part. For convenience of collection, upon request of the department, handlers of the commodity shall pay producer assessments. Handlers paying assessments for and on behalf of any producers shall, at their discretion, collect the producer assessments from any moneys owed by the handlers to the producers.

(2) The department may require every producer, distributor, or handler directly affected by any marketing order to deposit with it in advance cash or sufficient bond, based upon the number of tons of peanuts to be handled during the period or periods covered by the marketing order, to defray the costs involved in the formulation, issuance, administration, and enforcement of any marketing order. At the close of each marketing season during which the marketing order is effective, the sum so deposited shall be adjusted to the amount which is chargeable against the producer, distributor, or handler upon the basis of the tons of peanuts handled during the period or periods.

(3) Any money so collected shall be deposited in the general inspection trust fund of the state treasury. All moneys so collected shall be used, and are hereby appropriated, to defray the actual expenses incurred by the department as to each such marketing order. At the close of each fiscal period, the department shall, at its discretion and upon the recommendation of the advisory council, either refund all or a portion of any money which remains in such fund, upon a pro rata basis, to all persons from whom such funds were collected during the last fiscal peri-

od or carry all or a portion of such money over into the next succeeding fiscal period if the department finds that such money is required to defray subsequent expenses under the marketing order for which the funds were collected. Upon termination by the department of any such marketing order, all moneys remaining and not required by the department to defray the expenses of such order shall be returned by the department upon a pro rata basis to all persons from whom such funds were collected during the last fiscal period during which said funds were collected.

(4) Any assessment levied hereunder, in such specified amount as may be determined by the department pursuant to the provisions of this law, shall constitute a personal debt of every person so assessed and shall be due and payable to the department when payment is called for by the department. In the event of failure of such person or persons to pay any such assessment upon the date determined by the department, the department may file a complaint against such person or persons in a state court of competent jurisdiction for the collection thereof as provided in this law.

History.—s. 20, ch. 72-135.

#### **573.903 Department; powers and duties.—**

(1) The department shall administer and enforce the provisions of this part within the Division of Marketing. In order to effectuate the declared purposes of this part, the department is authorized to issue, administer, and enforce the provisions of any marketing agreement or order regulating producer marketing and handling of peanuts in the primary channel of trade.

(2) The department shall have power to establish general rules and regulations for uniform application to all marketing orders and marketing agreements as may be necessary to facilitate the administration and enforcement of the marketing orders and agreements. These general rules shall not be applicable to the provisions of this part relative to posting, publications, and effective date.

(3) Upon recommendation of the advisory council concerned, the department shall have power to establish administrative rules and regulations for each marketing order or marketing agreement issued and made effective as may be necessary to facilitate the administration and enforcement of each order or agreement.

(4) Upon recommendation of the advisory council concerned, the department shall have power to issue and make effective seasonal marketing regulations authorized by the provisions of any marketing order or marketing agreement necessary to carry out and make effective the purposes and provisions of any marketing order or agreement. Notice of any regulations issued by the department shall be given to all producers and handlers directly affected.

(5) Upon finding that any regulation issued pursuant to the provisions of a marketing order imposes an unfair burden upon any person or group, the department shall exempt such person or group from the provisions of such regulation, and, upon a find-

ing that any regulation in effect under a marketing order does not tend to accomplish the purpose of this part, the department shall suspend or terminate such regulation.

History.—s. 21, ch. 72-135.

**573.904 Exemptions.**—The department shall by rule adopt procedures by which certificates of exemption may be issued to producers and handlers and issue certification of exemption to any qualified applicant who complies with such rules or procedures adopted. This section shall not be construed to require participation under any such marketing order, and any person who sells peanuts and does not desire to participate under such order shall be exempt from the assessment deductions herein referred to if such person notifies the department of such desire in writing not less than 30 days prior to such sale.

History.—s. 22, ch. 72-135.

**573.905 Termination of orders.**—The department shall suspend or terminate the marketing order or any provision of the marketing order whenever it finds the provision or order does not tend to effectuate the declared purposes of this part within the standards and subject to the limitations and restrictions herein imposed and it further finds, upon a referendum called by it, that 51 percent of the producers who are engaged within the state in the production of peanuts covered by the marketing order and who produce more than 51 percent of the volume of such commodity produced within the state are opposed to the said marketing order. The suspension or termination shall not be effective until the expiration of the current marketing season. If the department finds that the termination of any marketing order is requested in writing by more than 51 percent of the producers who are engaged within the state in the production of peanuts covered by the marketing order and who produce more than 51 percent of the volume of such commodity produced within the state covered by the order and the department further finds the marketing order obstructs or does not tend to carry out the declared policy and purposes of this part, it shall terminate or suspend for a specified period the marketing order or provision thereof. The termination shall be effective only if announced on or before the date, prior to the end of the current marketing period, specified in the order.

History.—s. 23, ch. 72-135; s. 153, ch. 73-333.

**573.906 Inspections.**—Any authorized inspector or other authorized person discharging his duties in the checking of compliance with the provisions of any marketing order may enter and inspect any premises, enclosure, building, or conveyance where he has reason to believe any peanuts subject to a marketing order are produced, stored, being prepared for market, or marketed and inspect or cause to be inspected representative samples of the commodity as may be necessary to determine whether or

not any lot of peanuts is in compliance with applicable regulations of any marketing order.

History.—s. 24, ch. 72-135.

#### **573.907 Maintenance and production of records.—**

(1) The department may require any and all persons directly affected by and subject to the provisions of any marketing order to maintain books and records reflecting their operations under the marketing order, to furnish to the department or its duly authorized or designated representative or representatives any information as may be from time to time requested by it relating to operations under said marketing order, and to permit the inspection by the department or its duly authorized or designated representative or representatives of such portions of the books and records as relate to operations under the marketing order.

(2) Information obtained by any person shall be confidential and shall not be disclosed by him to any other person except to a person with like right to obtain it or any attorney employed to give legal advice or by court order.

(3) The department or its duly authorized or designated representative or representatives may hold hearings, take testimony, administer oaths, subpoena witnesses, and issue subpoenas for the production of books, records, or documents relevant and material to the subject matter of the hearings.

History.—s. 25, ch. 72-135.

#### **573.908 Penalties; violation; hearings.—**

(1) Any person who violates any provision of this part or any provision of any marketing agreement or order duly issued by the department is guilty of a misdemeanor of the first degree and shall be punished as provided by ss. 775.082 and 775.083. Each day during which any of the violations above referred to continue after the department has issued a cease and desist order against the violator shall constitute a separate offense. Any fine imposed by a court of competent jurisdiction shall be transmitted by the clerk of such court to the department for deposit in the appropriate account.

(2) Upon the filing of a verified complaint with the department charging a violation of any provision of this part, of any provision of any marketing order issued by the department hereunder, or of any provision of any marketing agreement enforced by the department, the department may, prior to institution of any court proceedings authorized, refer the matter to the Department of Legal Affairs or to a prosecuting attorney of this state having jurisdiction for action pursuant to the provisions of this part or proceed to consider the charges set forth in such verified complaint.

(3) If the department finds that no violation has occurred, it shall forthwith dismiss the complaint.

(4) If the department finds that a violation has occurred, it shall enter its findings and notify the parties to the complaint. Should the defendant or defendants thereafter fail, neglect, or refuse to desist from the violation within the time specified by the department, the department may thereupon file a complaint against the defendant or defendants in a court of competent jurisdiction.

(5) The Department of Legal Affairs, or any prosecuting attorney of this state having jurisdiction, may upon its own initiative and shall upon complaint of any person, if after investigation it believes the violation to have occurred, bring an action in the name of the state in any court of competent jurisdiction within the state against any person violating any provision of this part, any marketing order duly issued by the department, or any marketing agreement enforced by the department.

(6) The several circuit courts of the state, sitting in chancery, are hereby vested with jurisdiction specifically to enforce and to enjoin and restrain any person from violating any provisions of this part, of any marketing order duly issued by the department or any marketing agreement enforced by the department in any circuit court; and in any such proceeding, it shall not be necessary for the department to allege or prove that an adequate remedy at law does not exist. Circuit courts may issue a temporary restraining order and preliminary injunction as in other actions for injunctive relief, and upon final hearing, if final decree be in favor of the department, it shall provide that the defendant or defendants pay its reasonable costs of each suit, including reasonable attorneys' fees to be fixed by the court. Action may be commenced either in the county where the defendant resides, in the county where any other defendant resides, if more than one defendant, or in the county where any act of omission complained of, or part thereof, occurred.

(7) The provisions of this part shall not be applicable to retailers of agricultural commodities except to the extent that any retailer also engages in the processing or distributing of agricultural commodities as defined in this part.

(8) It shall be a misdemeanor for:

(a) Any person willfully to render or furnish a false or fraudulent report, statement, or record required by the department or any marketing agreement or marketing order effective thereunder.

(b) Any person engaged in the handling of any peanuts or in the wholesale or retail trade thereof to fail or refuse to furnish to the department or its duly authorized agents, upon request, information concerning the name and address of the persons from whom he has received any peanuts regulated by a marketing order issued and in effect hereunder and the quantity of the commodity so received.

Mixed fertilizer containing a total of 5 percent or less of total nitrogen (N), available phosphoric acid ( $P_2O_5$ ), and soluble potash ( $K_2O$ ) may be guaranteed in other than whole percentages; however, a minimum guarantee shall be established by rule.

(13) "Guaranteed analysis":

4. Water Soluble Organic Nitrogen  
(and/or Urea Nitrogen)..... percent
5. Water Insoluble Nitrogen ..... percent
6. Available Phosphoric Acid ( $P_2O_5$ ) ..... percent
7. Soluble Potash ( $K_2O$ ) ..... percent

When urea is present it may be guaranteed as urea nitrogen or as water soluble organic nitrogen at the option of the registrant. When urea-formaldehyde is present, not more than 33 percent of the total nitrogen from this source may be claimed as urea nitrogen or water soluble organic nitrogen.

(b) "Secondary plant nutrients."—When a secondary plant nutrient is guaranteed, claimed, or advertised, the guarantee shall be expressed as the element (excluding liming materials and gypsum). Sulphur is to be specified as either "free" or "combined." Magnesium shall be guaranteed as to both total magnesium and water soluble magnesium. Minimum guarantees authorized for specialty fertilizer shall be established by rule of the department.

(c) "Other plant nutrient materials when sold as such."—

1. Unacidulated mineral phosphatic materials, basic slag, bone meal, and other phosphatic materials shall be guaranteed as to both total and available phosphoric acid, and, in addition thereto, unacidulated mineral phosphatic materials and basic slag shall be guaranteed as to degree of fineness.

(17) "Misbranded."—A commercial fertilizer is deemed to be misbranded:

(a) If its labeling is false or misleading in any particular. If a commercial fertilizer is alleged to be misbranded because the labeling is false or misleading there shall be taken into account the extent to which the labeling fails to prominently and conspicuously reveal facts relative to the proportions or absence of certain ingredients or other facts concerning ingredients which are of material interest to consumers.

(b) If it is sold, offered for sale, or distributed under the name of another fertilizer.

(c) If it is not labeled as required by law or rules prescribed under this chapter.

(d) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(e) If any constituent in whole or in part has been omitted.

(f) If its contents fail to meet the guaranteed analysis as expressed on the labeling under which it is sold, in excess of authorized tolerances.

(g) If it contains any poisonous, deleterious, or nonnutritive ingredient in sufficient amount to render it injurious to plants when used in accordance with directions for use on the label, or, if there are no directions given, when used in a generally acceptable manner.

This shall not apply to the guaranteed analysis as defined in this chapter. When the term "organic" is used, it must be clearly indicated that it refers only to the nitrogen or other applicable portion of the fertilizer.

(a) "Natural organic" is a by-product from processing of animal or vegetable substances that contain sufficient plant nutrients to be of value as fertilizers.

(b) "Synthetic organic" is a material that is manufactured chemically (by synthesis) from its elements or other chemicals, as contrasted to those found ready-made in nature.

Nitrogen in the form of nitrate nitrogen shall be classified as "nitrate nitrogen." Nitrogen in the form of "ammoniacal nitrogen" shall be so classified.

(31) Words importing the singular number may extend and be applied to several persons or things, and words importing the plural number may include the singular.

#### 576.021 Registration.—

(1) Each commercial fertilizer shall be registered before being offered for sale or sold in this state. Upon approval by the department, a copy of the registration and a registration number series shall be furnished to the applicant. The application shall include the following information:

(a) The net weight of packages if sold only in packages of 25 pounds or less.

(b) The brand.

- (c) The guaranteed analysis.
- (d) The name and street address of the registrant.
- (e) The sources from which the nitrogen, phosphorous, and potassium are derived.
- (f) The sources of secondary plant nutrients if guaranteed, claimed, or advertised.

(2) No one shall be required to register any brand of commercial fertilizer which is already registered under this chapter by another person, provided the commercial fertilizer is in the original and unbroken container.

(3) Any change in or deviation from the information filed with the department upon registration of commercial fertilizer shall require a separate registration. The addition of secondary plant nutrients or authorized pesticides to a registered mixed fertilizer shall not require separate registration as long as such additions do not in any way change or qualify other requirements of the registration previously made. However, this exemption from separate registration shall not apply to specialty fertilizer.

(4) Registration may be handled by telegraph or telephone prior to delivery of the commercial fertilizer.

**History.**—s. 1, ch. 65-348; ss. 14, 35, ch. 69-106; s. 2, ch. 76-35.

#### **576.031 Labeling.—**

(1) Any commercial fertilizer distributed in this state in containers shall have placed on or affixed to the immediate and outside container, if there be one, a label setting forth in clearly legible and conspicuous form the information required in s. 576.021(1)(b)-(f), and the net weight.

(2) If distributed in bulk, five labels containing the information required in s. 576.021(1)(b)-(f), shall accompany delivery and be supplied to the purchaser at time of delivery with the delivery ticket which shall show the certified net weight.

(3) Each label shall bear the Florida registration number, provided the department may relieve a registrant of this requirement if the registrant has less than five registrations on file with the department.

(4) The form of the label shall be as prescribed by technical regulations.

**History.**—s. 1, ch. 65-348; ss. 14, 35, ch. 69-106.

#### **576.041 Inspection fees; records; bond.—**

(1) Every registrant shall pay to the department an inspection fee in the amount of 25 cents per ton for commercial fertilizer sold in the state, except raw ground phosphate rock, soft phosphate, colloidal phosphate, phosphatic clays and all other untreated phosphatic materials, gypsum, hydrated lime, limestone, and dolomite when sold or used for agricultural purposes, on which inspection fee shall be 10 cents per ton. However, there shall be paid by each registrant inspection fees in the amount of not less than \$50 annually for commercial fertilizer, except raw ground phosphate rock, soft phosphate, colloidal phosphate, phosphatic clays and all other untreated phosphatic materials, gypsum, hydrated lime, limestone, and dolomite when sold or used for agricultural purposes, on which inspection fees shall be not less than \$25 annually. All fees paid to the department, as herein provided, shall be paid by it into the State

Treasury to be placed in the General Inspection Trust Fund.

(2) Before the registration of a commercial fertilizer, the manufacturer or dealer shall make application to the department for a permit to report monthly the tonnage of commercial fertilizer sold in the state and make payment of inspection fee therefor. The issuance of permit is conditioned upon the applicant's maintaining records and a bookkeeping system that will accurately indicate the tonnage of commercial fertilizer sold by the registrant and consent to examination of his records and books by the department or its representative for a verification of the correctness of tonnage reports and inspection fees. Tonnage reports of sales and payment of inspection fee shall be made monthly on forms furnished by the department and submitted on or before the fifteenth day of the month succeeding the month covered by the reports. If the report is not filed and the inspection fee paid on the date due or if the report of tonnage is false, the amount of inspection fee due is subject to a penalty of 10 percent which may be added to the inspection fee due and constitutes a debt and becomes a claim and lien against the surety bond which is required as hereinafter provided. Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided herein shall constitute sufficient cause for revocation of the permit and also for cancellation of all registrations on file for the registrant.

(3) In order to guarantee faithful performance of the provisions of subsection (2), the applicant for permit shall furnish to the department a surety bond in the amount of \$1,000, executed by some corporate surety company authorized to do business in Florida. The department shall examine and approve as to sufficiency all such bonds before acceptance. When the registrant ceases operation said bond shall be returned, provided there are no outstanding fees due and payable.

(4) In order to obtain information that will facilitate the collection of inspection fees and serve other useful purposes relating to fertilizer, the department may require manufacturers, registrants, and dealers to report movements of commercial fertilizer.

**History.**—s. 1, ch. 65-348; ss. 2, 3, ch. 67-213; ss. 14, 35, ch. 69-106.

#### **576.051 Inspection, sampling, analysis.—**

(1) Agents of the department are authorized to enter upon any public or private premise or carrier during regular business hours in the performance of their duties relating to commercial fertilizers and records pertaining to same.

(2) The department or its agent, is authorized and directed to sample, test, inspect, and make analyses of commercial fertilizer sold or offered for sale within this state within the provisions of this law and rules adopted hereunder, at time and place and to such an extent as it may deem necessary to determine whether such commercial fertilizers are in compliance with the provision of this law.

(3) The official analysis shall be made from the official sample. The department or its authorized agent, before making said official analysis, shall take a sufficient portion from the official sample for check analysis and shall place the same in a bottle sealed and identified by number, date, and initials of

the person preparing it. A sealed and identified sample, herein called "official check sample," shall be kept until the analysis is completed on the official sample. However, the registrant may obtain upon request a portion of said official sample. Upon completion of the analysis of the official sample, a true copy of the certificate of analysis shall be mailed to the registrant of the commercial fertilizer from which the official sample was taken and also to the dealer or agent, if any, and purchaser, if known. This certificate of analysis shall show all determinations of plant nutrient and pesticides that are claimed or guaranteed as specified in s. 576.011(11). If the official analysis conforms with the provisions of this law, the official check sample may be destroyed. If the official analysis does not conform with the provisions of this law, then the official check sample shall be retained for a period of 90 days from the date of the certificate of analysis of the official sample, and if within said time the manufacturer of the commercial fertilizer from which the official sample was taken, upon receipt of certificates, shall make demand for analysis of this official check sample by a referee chemist, a portion of the said official check sample sufficient for analysis shall be sent to a referee chemist mutually acceptable to the department and the registrant for analysis at the expense of the registrant. The referee chemist, upon completion of his analysis, shall forward to the department and to the manufacturer a certificate of analysis bearing a proper identification mark or number, and said certificate of analysis shall be verified by an affidavit of the person or laboratory making the analysis. If said certificate of analysis checks within three-tenths of 1 actual percent with the state chemist's analysis on each element for which analysis was made, then the mean average of the two analyses shall be accepted as final and binding on all concerned. However, if the referee's certificate of analysis shows a variation in any one or more elements for which an analysis was made greater than three-tenths of 1 actual percent, a portion of the official check sample sufficient for analysis shall be submitted to a second referee chemist mutually acceptable to the department and to the registrant from which the official sample was taken, upon demand of either of them at the expense of the party or parties requesting the referee analysis. The second referee chemist, upon completion of his analysis, shall make a certificate and report as provided above for the first referee chemist. The mean average of the two certificates of analysis nearest in conformity shall be accepted as final and binding on all concerned.

(4) The department, in determining for administrative purposes whether any commercial fertilizer is deficient in plant nutrient, shall be guided solely by the official sample as defined in s. 576.011(17) and obtained and analyzed as provided for in subsections (2) and (3) of this section.

(5) Certificates of analysis shall be admissible in any court or other legal procedure.

(6) If any error occurs in analyzing commercial fertilizer or reporting same, a corrected report shall be immediately prepared and furnished to the registrant and purchaser.

(7) In drawing any official sample and in making

any analysis the officially adopted methods and terminology of the Association of Official Analytical Chemists shall be used. In cases not covered by such officially adopted methods and terminology, the department shall, as soon as practicable, adopt and publish appropriate methods and terminology. In any instance in which the officially adopted methods and terminology of the Association of Official Analytical Chemists are not applicable to conditions, circumstances, or cases in the state, then the department shall, with the approval of the technical council, adopt by regulation methods and terminology which shall be official in the state.

**576.055 Deconing.**—The department may adopt, by rule, scientifically approved procedures and methods which would require each in-state manufacturer of commercial fertilizer to incorporate specified procedures designed to avoid coning during the loading of bulk mixed fertilizer into transport vehicles to reduce separation and segregation of fertilizer components intended for delivery to a purchaser. Rules adopted pursuant to this section shall be the official methods and terminology of the Association of Official Analytical Chemists or other such nationally recognized testing authorities.

**History.**—s. 2, ch. 79-204.

**576.061 Plant nutrient tolerances, deficiencies, and penalties.**—

(1) Tolerances shall be set by the department in technical rules and regulations.

(2) Deficiencies and penalties shall be as follows: When the commercial value of a mixed fertilizer which has been found to be deficient in primary plant nutrient equals or exceeds the amount guaranteed by the manufacturer, no penalty shall be assessed, provided no element of primary plant nutrient is deficient more than one-half of 1 percent when the guarantee does not exceed 10 percent nor more than 1 percent when the guarantee exceeds 10 percent. If the commercial value found fails to equal or exceed that which is guaranteed, a penalty shall be assessed based on the deficiency found, but in no instance shall the penalty be less than \$10. No overage in any secondary plant nutrient shall compensate for a deficiency in primary plant nutrient nor of another secondary plant nutrient. Where a deficiency is found in any plant nutrient, the buyer shall be entitled to collect an amount from the registrant of three times the commercial value of the deficiency found.

(3)(a) In tobacco brands of mixed commercial fertilizer, penalty for an excess of chlorine of more than 25 percent of the guarantee, a penalty of 100 percent of the commercial value of said mixed fertilizer shall be assessed. No penalty shall be assessed for an excess of chlorine of less than 25 percent of the guarantee and in no case shall a penalty be assessed unless the chlorine present is 1 percent or more.

(b) In brands of commercial fertilizer other than tobacco brands the penalty for excess in chlorine shall be one-eighth the penalties as set forth above for excess in tobacco brands.

(c) Within 60 days from the date of issuance of a

certificate of analysis from the state chemist and the notice of penalties assessed under the provisions of this chapter, a registrant shall make payment in full to the consumer, in cash, or by credit memo if and to the extent the consumer is indebted to the registrant or dealer. Any registrant who fails to make settlement in full to the consumer within the 60 days shall be liable for interest on the penalty of 1.5 percent per month from the date of issuance of the certificate of analysis. If a registrant demands an analysis of the official check sample by a referee chemist as provided in s. 576.051(3), the 60-day settlement requirement established by this paragraph shall be temporarily suspended pending a final determination. When the final and binding analysis has been established as provided in s. 576.051(3), it shall be the responsibility of the department to determine the amount of penalty, if any, due to the consumer and to notify in writing the registrant and the consumer of the final determination. The registrant shall have 10 days from the date of receipt of the final determination from the department to make settlement with the consumer and shall notify the department in writing of the terms of the settlement.

(d) If any fertilizer is found to be of short weight by an inspector of the department, the registrant within 30 days after receipt of notice of such short weight, shall make payment to the department an amount of three times the commercial value of the shortage to the consumer. Said penalty shall be deposited to the credit of the General Inspection Trust Fund from which there shall be paid to the consumer the amount of said penalty.

(e) In any case wherein the registrant, dealer or agent fails or refuses to make such payment to the consumer within the time required, the consumer may institute legal proceedings against such registrant, dealer or agent for recovery of penalties as in this chapter provided. Any judgment against a registrant, dealer or agent shall be double the amount of the penalty and shall include a reasonable attorney's fee and costs.

(f) Where a deficiency is found in a sample drawn from a lot of fertilizer in the hands of a "dealer" or "agency" said "dealer" or "agency" shall collect the amount due under said deficiency from the manufacturer and shall within 60 days pay to each person purchasing fertilizer from said lot his proportionate share of the amount collected and shall notify the department in writing that such payment has been made; provided, that, as to any individual sale by a dealer or agent of commercial fertilizer subject to penalties for deficiencies and such dealer or agent is unable to ascertain or determine the purchaser of such lot of fertilizer, then and in such case the dealer or agent shall pay the proportionate amount of penalties on such sale to the department to be placed in the State Treasury to the credit of the General Inspection Trust Fund.

(4) When it is determined by the department that a commercial fertilizer has been distributed without labeling as required under s. 576.031, there shall be paid to the department a penalty in the amount of \$10. Proceeds from any such penalty pay-

ments shall be deposited by the department in the General Inspection Trust Fund.

**History.**—s. 1, ch. 65-348.

**576.085 Minimum plant nutrient content.**—No one shall register any mixed fertilizer of which the primary plant nutrient constitutes less than 16 percent. (1) Each distributor of commercial feed shall obtain a master registration before his brands are distributed in Florida. The application for master registration shall be submitted to the department on forms furnished by the department and shall be accompanied by a label for each brand being distributed. A label to cover each new brand or to cover each change in labeling shall be mailed to the department at the time such new or changed brand is distributed in Florida. Said form shall provide that applicant will comply with labeling, inspection fee payment and all other provisions of this chapter and regulation hereunder. The application shall cover all branches listed by the distributor and be signed by the owner, a partner of a partnership, or an authorized officer or agent of a corporation. (2) A customer-formula feed shall be distributed only to the customer who requested it and shall not be redistributed.

(3) Failure of any distributor to comply with registration shall be considered prima facie evidence of an attempt to violate this chapter, and the department shall have full authority to sample, analyze and assess penalties where deficiencies are found for any feed distributed in Florida prior to registration.

(4) The department is empowered to refuse or to cancel the master registration of any distributor who violates or fails to comply with any of the provisions of this chapter or regulations hereunder, or for other good cause shown.

(b) The name and principal address of the distributor.

(c) The brand name or product name under which the commercial feed is distributed.

(d) The guaranteed analysis, listing the minimum percentage of crude protein, minimum percentage of crude fat, and maximum percentage of crude fiber, and, when more than 10 percent mineral ingredients are present, the minimum or maximum percentages of mineral elements or compounds as provided by regulation. Vitamin ingredients, when guaranteed, shall be shown in amounts and terms provided by regulation. For mineral feeds the list shall include the following: Maximum or minimum

percentages of calcium (Ca), phosphorus (P), salt (NaCl), iron (Fe), copper (Cu), cobalt (Co), manganese (Mn), and flourine (F) if ingredients used as sources of any of these constituents are declared. All mixtures containing mineral or vitamin ingredients, generally regarded as dietary factors essential for the normal nutrition of animals, and which are sold or represented for the primary purpose of supplying these minerals or vitamins as additions to rations in which these same mineral or vitamin factors may be deficient, shall be classified as mineral or vitamin supplements. The department may by regulation limit the use of active drug ingredients in commercial feeds and prescribe the labeling to be used to insure safe usage of such medicated feeds. Other nutritional substances or elements determinable by laboratory methods may be guaranteed by permission of or shall be guaranteed at the request of the department as may be provided by regulation. Products sold solely as mineral or vitamin supplements and guaranteed as specified in this section need not show guarantees for protein, fat and fiber.

(2) When a commercial feed is distributed in this state in bags or other containers, the label shall be placed on or affixed to the container; when a commercial feed is distributed in bulk the label shall accompany delivery and be furnished to the purchaser at time of delivery.

(3) There shall be paid to the department the amount of \$10 as penalty for the distribution of any commercial feed that is not accompanied with labeling required under this chapter, as may be determined by the department, and proceeds from any such penalty payments shall be deposited by the department in the General Inspection Trust Fund.

**580.061 Inspection fees, payment thereof; enforcement; reporting system and bond requirement.—**

(1)(a) Each registrant or distributor of commercial feeds distributed in Florida shall make application to the department for a permit to report the tonnage of commercial feeds sold and pay the inspection fee of 25 cents per ton as in this chapter provided. The issuance of all permits will be conditioned on the applicant satisfying the department that he has a good bookkeeping system and keeps such records as may be necessary to indicate accurately the tonnage of commercial feeds sold in this state and as are satisfactory to the department and granting the authorized representatives of the department permission to examine such records and verify the tonnage statement. The tonnage report shall be monthly, quarterly, semiannually, or annually as determined by the department, and the inspection fee shall be due and payable on or before the 20th day of the

month covering the tonnage and kind of commercial feeds sold during the preceding reporting period. The report shall be on forms furnished by the department and shall show the number of tons of each type of feed as shown on the forms so furnished. If the report is not filed and the inspection fee paid on the date due or if the report of tonnage be false, the amount of inspection fee due is subject to a penalty of 10 percent or \$10, whichever is greater. Such penalty may be added to the inspection fee due and constitutes a debt and becomes a claim and lien against the surety bond which is required as herein-after provided. Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided herein shall constitute sufficient cause for revocation of the permit and also for cancellation of the master registration on file for the permittee. In order to guarantee faithful performance with the provisions of this chapter, each applicant for permit shall post with the department a surety bond in such amount as shall be required by the department to cover fees for any given reporting period, which amount shall not be less than \$1,000, surety bond to be executed by a corporate surety company authorized to do business in Florida. The department shall approve all such bonds before acceptance.

(b) In the event the permittee for any reason discontinues operating under the provisions of subsection (1)(a), the said bond posted by the permittee as provided therein, shall continue in full force and effect. However, in the event of such discontinuance of operation, the permittee may by written notice of such discontinuance to the department setting forth the date of such discontinuance, in which event said bond shall remain in force and effect for a period of 6 months thereafter for the filing of any claim or claims against the same; and after such period of 6 months the bond shall stand canceled except as to such claim or claims as have been filed prior thereto.

(2) There shall be paid to the department for all commercial feed distributed in this state an inspection fee at the rate of 25 cents per ton; provided, that sales of commercial feeds to manufacturers or exchanges between them are hereby exempted if the commercial feeds so sold or exchanged are used solely in the manufacture of feeds which are registered; provided, further, that invoices for such sales or exchanges show the following: "For mixing in registered brands only"; and provided, further, that such sales or exchanges shall be supported by a written purchase order or confirmation of purchase, which in form shall be subject to the approval of the department, signed by the manufacturer to whom such feeds are invoiced, showing that such feeds were purchased for use solely in the manufacture of feeds which are registered. A registrant may be exempted from subsection (1)(a) if he submits a written statement that all sales made are to registered manufacturers and exemption from inspection fee payment is made on all shipments as herein provided. All fees collected by the department under this chapter shall be paid to the State Treasurer to the credit of the General Inspection Trust Fund. The department may employ all help necessary to carry out and enforce the provisions of this chapter and may desig-

nate any such employee to perform any duties necessary to carry out the terms of this chapter. All expenses and salaries shall be paid out of the General Inspection Trust Fund.

**580.071 Adulteration.**—No person shall distribute an adulterated commercial feed or feedstuff. A commercial feed or feedstuff shall be deemed to be adulterated:

(1) If it contains any poisonous, deleterious, or nonnutritive ingredient in sufficient amount to render it injurious to the health of the animal fed or to man using food produced by animals being fed in accordance with directions for use on the label.

(2) If any valuable constituent has been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor.

(3) If its composition or quality falls below or differs from that which it is purported or is represented to possess by its labeling.

(4) If it contains added hulls, screenings, straw, cobs, or other high fiber material unless the name of each such material is stated on the label.

(5) If it contains a pesticide chemical, chemical additive, or drug in an amount in excess of the permissible tolerances established by the department.

**580.081 Misbranding.**—No person shall distribute misbranded commercial feed or feedstuffs. A commercial feed or feedstuff shall be deemed to be misbranded:

(1) If its labeling is false or misleading in any particular.

(2) If it is distributed under the name of another commercial feed or feedstuff.

(3) If it is not labeled as required in s. 580.051 and in regulations prescribed under this chapter.

(4) If it purports to be, or is represented as, a commercial feed or feedstuff for which a definition of identity and standard of quality has been prescribed by regulation unless it conforms to such definition and standard.

(5) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not prominently placed thereon with such conspicuousness as compared with other words, statements, designs, or devices in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

**History.**—s. 8, ch. 29755, 1955; s. 7, ch. 61-440; s. 3, ch. 79-66.

**580.091 Inspection; sampling; analysis.**—

(1) It shall be the duty of the department, which may act through its authorized agent, to sample and inspect commercial feeds and feedstuffs distributed within this state at such time and place to such an extent as it may deem necessary to determine whether such commercial feeds or feedstuffs are in compliance with the applicable provisions of this chapter. The department, through its agent, is authorized to enter upon any public or business prem-

ises and in any vehicle of transport during regular business hours in order to have access to commercial feeds or feedstuffs and records relating to their transportation and sale, subject to the applicable provisions of this chapter and the rules pertaining thereto.

(2) It shall be the duty of the department to draw and to have analyses made of official and special samples.

(3) The methods of sampling and analysis shall be those adopted by the department.

(4) The department, in determining for administrative purposes whether a sample of commercial feed or feedstuff is in compliance with the applicable provisions of this chapter, shall be guided solely by the official sample as defined in s. 580.031(13) and obtained and analyzed as provided for in subsections (1), (2), and (3).

(5) When the inspection and analysis of an official sample indicate a commercial feed or feedstuff has been adulterated or misbranded, the results of analysis shall be forwarded by the department to the guarantor and the purchaser. On request, within 30 days from the date of report, the department shall furnish to the guarantor a portion of the sample concerned for check analysis. If requested by the guarantor within 60 days from the date of report, the department shall forward other portions of said sample to two referee chemists agreed upon by the department and the guarantor. The analysis fees of the referee chemists shall be paid by the guarantor. The average of analyses reported by the department and the two referee chemists shall become the official analysis.

or a court of competent jurisdiction. The department shall release the commercial feed or feedstuff so withdrawn when the provisions and regulations have been complied with and all costs and expenses incurred in the withdrawal have been paid; provided that with the permission of the department any lot of commercial feed or feedstuff under said stop-sale, stop-use, removal, or hold order may be sold as such to a consumer who shall sign a statement professing that he, the consumer, had knowledge of the same at the time of purchase. If compliance is not obtained within a reasonable time, the department shall begin proceedings for condemnation.

(2) **CONDEMNATION AND CONFISCATION.**

—Any lot of commercial feed or feedstuff not in compliance with the applicable provisions of this chapter, or regulations hereunder, shall be subject to seizure on complaint of the department to the circuit judge or circuit court of the circuit in which the commercial feed or feedstuff is located. In the event the court finds the commercial feed or feedstuff to be in violation of the applicable provisions of this chapter, or regulations hereunder, and orders the condemnation of said commercial feed or feedstuff, it shall be disposed of in the manner provided by the circuit judge or circuit court in the order of condemnation; provided, that in no instance shall the disposition of the commercial feed or feedstuff be ordered by the court without first giving the claimant an opportunity to apply to the court for release of the commercial feed or feedstuff or for permission to process or relabel the commercial feed or feedstuff to bring it into compliance with the applicable provisions of this chapter.

**581.031 Department; powers and duties.—**  
The department shall have the following powers and duties:

(1) To make all rules governing nurseries and the movement of nursery stock therein as may be necessary in the eradication, control, or prevention of the dissemination of plant pests or noxious weeds.

(2) To make and publish standard grades for nursery stock.

(3) To make rules governing the grading, marking, sale, and distribution of nursery stock by nurserymen, dealers, and agents.

(4) To provide rules under which nursery stock may be brought into this state from other states, territories, and foreign countries.

(5) To make such rules with reference to plants and plant products while in transit through this state as may be deemed necessary to prevent the introduction into and dissemination within this state of plant pests and noxious weeds.

(6) To declare a plant pest or noxious weed to be a nuisance as well as any plant or other thing infested or infected therewith or that has been exposed to infestation or infection and therefore likely to communicate same.

(7) To declare a quarantine against any area, place, nursery, grove, orchard, county or counties within this state, other states, territories, foreign countries or portion thereof in reference to plant pests or noxious weeds and prohibit the movement within this state from other states, territories, or foreign countries of all plants, plant products, or other things from such quarantined places or areas which are likely to carry such plant pests or noxious weeds if such quarantine is determined, after due investigation, to be necessary in order to protect the agricultural and horticultural interests of this state. In such cases, the quarantine may be made absolute or rules may be adopted prescribing the method and manner under which the prohibited articles may be moved into or within, sold, or otherwise disposed of in this state.

(8) To make and publish reasonable rules governing the application for, and issuance and revocation of, certificates of inspection.

(9) To enter into cooperative arrangements with any person, municipality, county, and other depart-

ment of this state and boards, officers, and authorities of other states and the United States for inspection with reference to plant pests and noxious weeds for the control and eradication thereof and contribute a just proportionate share of the expenses incurred under such arrangements.

(10) To publish at regular intervals, to be determined by it, an official organ of the department for public distribution. It may from time to time publish and distribute to the public such further information as may be deemed necessary.

(11) To revoke certificates of inspection to nurserymen, dealers, and agents in the state.

(12) To purchase all necessary materials, supplies, office and field equipment and other things and make such other expenditures as may be essential and necessary in carrying out the provisions of this chapter within the limits of the amount appropriated by law.

(13) To enforce the provisions of this chapter by writ of injunction in the proper court as well as by criminal proceedings.

(14) To test nursery stock to determine freedom from specific diseases and to register such stock. Nursery stock found free of the diseases for which it was tested may be propagated by the department, if authorized by the owner, and reproductive parts distributed in limited quantities to qualified persons for further propagation under procedures prescribed by the department when recommended by the industry concerned. The department may prescribe standards and procedures for the propagation and distribution of new or superior strains of plants when not provided for by other agencies and upon recommendation of the industry concerned. The department may prescribe a fee for such services, provided the fee shall not exceed the cost of the services rendered, and may sell at a reasonable price any plant or plant part that may result from the propagation of tested plants as sources of propagating material for distribution to the industry. Also, the department may sell in the best interest of the state any fruit produced incidental to such propagation.

(15) To inspect, or cause to be inspected by duly authorized representatives, plants, plant products, or other things and substances that may, in its opinion, be capable of disseminating or carrying plant pests or noxious weeds, and for this purpose shall have power to enter into or upon any place and to open any bundle, package, or other container containing, or thought to contain, plants or plant products or other things capable of disseminating or carrying plant pests or noxious weeds.

(16) To carry on investigations of methods of control, eradication, and prevention of dissemination of plant pests or noxious weeds.

(17) To supervise, or cause to be supervised, the treatment, cutting, and destruction of plants, plant parts, fruit, soil, containers, equipment, and other articles capable of harboring plant pests or noxious weeds, if they are infested or located in an area which may be suspected of being infested or infected due to its proximity to a known infestation, or if they came from a situation where they were reasonably exposed to infestation, when necessary to prevent or control the dissemination of plant pests or noxious

weeds or to eradicate same and to make rules therefor.

(18) To inspect, or cause to be inspected, all nurseries in the state at such intervals as it may deem best and to keep a complete, accurate, and current list of all certified nurseries to include:

- (f) Size in acreage of nursery.
- (g) Type of dealer.

(19) To demand of any person who has in his possession plants or plant products or other things likely to carry plant pests or noxious weeds to give full information as to the origin and source of same, and it shall be a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, for such person to refuse to give the information demanded, if able to do so.

(20) To intercept and inspect or cause to be inspected, while in transit or after arrival at destination, all plants, plant products, or other things likely to carry plant pests or noxious weeds being moved into this state from another state, territory, or foreign country, and, if, upon inspection, the same be found to be infested or infected with a plant pest or noxious weed or if such material is believed to be likely to communicate or transmit same or is being or has been transported in violation of any of the rules of the department, then said plants, plant products, or other things may be treated when necessary and released, returned to the sender, or destroyed.

(21) To make and issue certificates of inspection to nurserymen, dealers and agents in the state, after proper inspection of their nursery stock, authorizing them to do business as nurserymen, dealers or agents within the state.

(22) To collect or accept from other agencies or individuals specimens of arthropods, nematodes, fungi, bacteria, parasitic plants, or other organisms for positive identification, and to provide suitable space for their storage and maintenance. (24) To prescribe the duties of assistants, authorized representatives, inspectors, and other employees as may be required and delegate to such assistants, authorized representatives, inspectors, and other employees such powers and authority as may be deemed proper within the limits of the powers and authority conferred upon the said director by this chapter.

**581.182 Citrus plants and citrus plant products from other states, territories, or foreign countries.**—

(1) It is unlawful for any person to introduce into this state from another state, territory, or foreign country any citrus plant or citrus plant product or propagation therefrom without a permit issued by the department. Any such citrus plant or citrus

plant product or propagation therefrom introduced into the state from another state, territory, or foreign country without a permit issued by the department, or any plants propagated thereafter from such materials, are unlawful and declared to be contraband and shall be confiscated and destroyed. No compensation shall be allowed for any plant, product, or propagation confiscated and destroyed pursuant to this section.

(2) Application for a permit to introduce into this state from another state, territory, or foreign country any citrus plant or citrus plant product or propagation therefrom shall be made on an application form to be formulated by the department.

(3) In considering an application for a permit to introduce into this state from another state, territory, or foreign country any citrus plant or citrus plant product or propagation therefrom, the department shall consider the following guidelines:

(a) Only budwood of clones not available in Florida will be introduced, and no citrus budwood will be permitted entry if the desired clone is known to be reproducible by seed. Not more than 25 buds of any single clone will be permitted entry.

(b) The clones introduced must:

1. Have been evaluated by the Citrus Budwood Registration Committee as having desirable and superior characteristics to warrant testing under Florida field conditions prior to possible release as a new clone; or

2. Be of a type desirable:

a. For research; or

b. As a breeding stock to be used by the agricultural experiment stations in Florida.

(c) The parent trees from which the imported citrus budwood is to be taken must be free, or apparently free, from serious citrus pests. Whenever possible, budwood must be taken from plants adequately tested and certified free of disease at the point of origin.

(d) Each shipment of imported citrus budwood must be accompanied by a special permit issued by the Division of Plant Industry of the Department of Agriculture and Consumer Services and must be sent directly to the Division of Plant Industry in Gainesville, Florida.

(e) All introduced citrus budwood must be grown for a minimum of 2½ years in a secure Division of Plant Industry greenhouse or screenhouse that has been made as insect-proof as feasible, or under other acceptable conditions mutually agreed upon by the division and the importer of budwood. It shall be isolated from other citrus as much as possible. During this period, introduced budwood shall be subject to tests for tristeza, vein enation, yellow vein, exocortis, psorosis, xyloporosis, stubborn, tatter leaf, and all other known citrus virus diseases for which there are reliable tests. Such tests will be started as soon as possible after arrival of the budwood in Florida. After a complete determination, the budwood will be released to the person or institution responsible for its growing, testing, propagation, and distribution.

(f) At the end of no less than 2½ years, or when tests are completed, new clones will be evaluated by the Citrus Budwood Registration Committee. If the committee recommends the release and distribution of any clone to the industry, a portion of this clone

will be validated and maintained in a Division of Plant Industry planting.

History.—s. 1, ch. 76-189.

**581.183 New citrus varieties.**—It is unlawful for any person to sell or propagate for sale any tree which represents a new citrus variety brought into the state after July 1, 1977, as defined by law or by rule adopted by the department, if the tree was propagated or is being propagated by graft or budwood from a tree which the Department of Agriculture and Consumer Services has not indexed and certified as free from citrus diseases, including, but not limited to, tristeza, necrotic ring spot, exocortis, xyloporosis, psorosis, and vein enation. The cost of indexing shall be paid by the person desiring to have the tree indexed. Any tree offered for sale or sold which was propagated from a tree which is not indexed is contraband and shall be confiscated and destroyed by the department without compensation.

History.—s. 2, ch. 77-98; s. 2, ch. 77-386.

**581.185 Preservation of native flora of Florida.**—

(1) PROHIBITIONS; PERMITS.—

(a) With regard to any plant on the Endangered Plant List provided in subsection (2), it is unlawful for any person:

1. To willfully injure or destroy any such plant growing on the private land of another without first obtaining the written permission of the owner of the land or his legal representative.

2. To willfully injure or destroy any such plant growing on any public land or water without first obtaining the written permission of the superintendent or custodian of such land or water and a permit from the department as provided in this section.

3. To willfully harvest, collect, pick, or remove less than three individual plants of a given species listed on the Endangered Plant List from the private land of another without first obtaining the written permission of the owner of the land or his legal representative or from any public land or water without first obtaining the written permission of the superintendent or custodian of such land or water.

4. To willfully harvest, collect, pick, or remove three or more individual plants of a given species listed on the Endangered Plant List from any native habitat without first obtaining the written permission of the owner of the land or his legal representative or, in the case of public land or water, the written permission of the superintendent or custodian of such land or water, and a permit from the department as provided in this section.

5. To transport, carry, or convey on any public road or highway or sell or offer for sale in any place any such plant collected in violation of this section.

(b) With regard to any plant on the Threatened Plant List provided in subsection (3), it is unlawful for any person:

1. To willfully harvest, collect, pick, remove, injure, or destroy any such plant growing on the private land of another without first obtaining the written permission of the owner of the land or his legal representative or to willfully harvest, collect, pick, remove, injure, or destroy any such plant growing on any public land or water without first obtaining the

written permission of the superintendent or custodian of such land or water.

2. To transport, carry, or convey on any public road or highway or sell or offer for sale in any place any such plant collected in violation of this section.

(c) The purpose of the permitting requirements imposed under paragraph (a) is to encourage the propagation of endangered or depleted species of flora and provide an orderly and controlled procedure for restricting harvesting of native flora from the wilds, thus preventing wanton exploitation or destruction of Florida native plant populations. Permits shall be issued according to rules adopted by the Department of Agriculture and Consumer Services, except that the written permission of the owner, superintendent, or custodian required by paragraph (a) must be presented as a prerequisite to the issuance of a permit. The department may require such additional justification as it deems necessary when a permit is sought with respect to any plant on the Endangered Plant List which is of very limited distribution, is very rare, or is in imminent danger of becoming extinct in the wilds. Permits may be granted subject to conditions deemed necessary by the department to minimize environmental damage, provide for natural regeneration, protect against erosion or hazard of fire, and ensure that the plants removed are harvested, transported, and stored in such a way that they will be likely to survive and meet the purpose intended when they reach their ultimate destination.

(d) Any person willfully destroying, injuring, harvesting, collecting, picking, or removing any endangered or threatened plant; transporting, carrying, or conveying any such endangered or threatened plant on any public road or highway; or selling or offering for sale on any place any such endangered or threatened plant must have the permit, if applicable, and the written permission required by this section in his immediate possession at all times when engaged in any of such activities.

#### (4) REVIEW.—

(a) Beginning in 1980, a comprehensive review of this section and of the lists of plants provided in subsections (2) and (3) shall be made by the department and the Endangered Plant Advisory Council at 4-year intervals. The department shall report to the Legislature its findings and recommendations and those of the Endangered Plant Advisory Council by January 31 prior to the convening of the regular legislative session following each such review; however, an initial review and report under this section shall be made by January 31, 1980.

(b) The department shall notify the Legislature prior to the next ensuing regular legislative session of any species of plant that should be placed on the Endangered Plant List or the Threatened Plant List which is in danger of disappearing from its native habitat within the foreseeable future throughout all

or a significant portion of the range of the species because of:

1. Present or threatened destruction, modification, or curtailment of the range of the species.
2. Overutilization of the species for commercial, scientific, or education purposes.
3. Disease or predation.
4. Any other natural or manmade factor affecting the continued existence of the species.

(c) In carrying out reviews and arriving at recommendations under paragraphs (a) and (b), the department and the advisory council shall use the best scientific and commercial data available and shall consult with interested persons and organizations.

(5) **DEFENSE.**—In any prosecution under this section it shall be a defense that plants or the flowers, roots, bulbs, or other parts thereof transported, carried, or conveyed or sold or offered for sale by the party were legally imported from another country. In any prosecution under this section involving the destruction, injuring, harvesting, collecting, picking, or removing of any plant on the Endangered Plant List or the Threatened Plant List without written permission, it shall be an affirmative defense that actual permission was given prior to such destruction, injury, harvesting, collection, picking, or removal. In any prosecution under this section involving the destruction, injuring, harvesting, collecting, picking, or removing of any plant on the Endangered Plant List without written permission and a permit, it shall be an affirmative defense that written permission and a permit had in fact been granted prior to such destruction, injury, harvesting, collection, picking, or removal.

(6) **SALES BY NURSERYMEN.**—Licensed, certified nurserymen who grow from seeds or by vegetative propagation any of the native plants on the Endangered Plant List provided in subsection (2) or the Threatened Plant List provided in subsection (3) are specifically permitted to sell these commercially grown plants and shall not be in violation of this section if they do so, as it is the intent of this section to preserve and encourage the growth of these native plants which are rapidly disappearing from the state.

(7) **LOGGING AND UTILITY OPERATIONS.**—Any person or business removing, trimming, or transporting any of the native plants on the Endangered Plant List provided in subsection (2), or the Threatened Plant List provided in subsection (3), as an incidental part of installing or maintaining a public utility service as defined in s. 876.37(3) or as an incidental part of a logging operation shall not be in violation of this section.

(9) **AGENTS OF DIVISION.**—Agents of the Division of Plant Industry shall have the authority to

enter upon properties where harvesting or storage of endangered or threatened plants is suspected, to inspect vehicles which may be transporting endangered or threatened plants, and to preserve and take custody of plants harvested or moved in violation of this section, in order to assure compliance with the provisions of this section.

(10) **NOTICE OF HIGHWAY CONSTRUCTION.**—The Department of Transportation shall notify the Department of Agriculture and Consumer Services and the Endangered Plant Advisory Council created by s. 581.186 of advertised bids for highway construction at the time those bids are first advertised, describing the project, the location of the project, and the representative of the Department of Transportation who can answer questions regarding the project and the plant life immediately affected by the construction. The Department of Agriculture and Consumer Services shall seek and utilize the services of the Endangered Plant Advisory Council and of any other state agencies, clubs, associations, or organizations or individuals that may offer support and services for the preservation of the plants on the Endangered Plant List or Threatened Plant List that may be affected by the construction project and shall provide by rule for the appropriate disposal of such plants.

The term "district" or "soil conservation district," when used in this chapter, shall mean and include a "soil and water conservation district." All districts heretofore or hereafter organized under this chapter shall be known as soil and water conservation districts and shall have all the powers set out herein.
- (2) "Supervisor" means one of the members of the governing body of a district, elected in accordance with the provisions of this chapter.
- (3)(a) "Department" means the Department of Agriculture and Consumer Services.
- <sup>1</sup>(b) "Council" means the Soil and Water Conservation Council.
- (c) "Commissioner" means commissioner of agriculture.
- (4) "Landowner" or "owner of land" includes any person who shall hold legal or equitable title to any lands lying within a district organized under the provisions of this chapter.
- (5) "Land occupier" or "occupier of land" includes any person, other than the owner, who shall be in possession of any lands lying within a district organized under the provisions of this chapter, whether as lessee, renter, tenant, or otherwise.

At any hearing held pursuant to such notice, at the time and place designated in such notice, adjournment may be made from time to time without the necessity of renewing such notice for such adjourned dates.

**History.**—s. 3, ch. 18144, 1937; s. 1, ch. 19473, 1939; CGL 1940 Supp. 4151(474); s. 1, ch. 65-334; s. 1, ch. 67-207; s. 1, ch. 70-392; s. 1, ch. 74-53; s. 6, ch. 78-95; s. 4, ch. 78-323.

**Note.**—Repealed by s. 4, ch. 78-323, effective October 1, 1981, except for the possible effect of laws affecting this section prior to that date.

**582.02 Lands a basic asset of state.**—The farm, forest and grazing lands of the state are among the basic assets of the state and the preservation of these lands is necessary to protect and promote the health, safety, and general welfare of its people; improper land-use practices have caused and have contributed to, and are now causing and contributing to a progressively more serious erosion of the farm and grazing lands of this state by fire, wind and water; the breaking of natural grass, plant, and forest cover has interfered with the natural factors of soil stabilization, causing loosening of soil and exhaustion of humus, and developing a soil condition that favors erosion; the top soil is being burned, washed and blown out of fields and pastures; there has been an accelerated washing of sloping fields; these processes of erosion by fire, wind and water speed up with removal of absorptive topsoil, causing exposure of less absorptive and less protective but more erosive subsoil; failure by any landowner or occupier to conserve the soil and control erosion upon his lands causes destruction by burning, washing and blowing of soil and water from his lands onto other lands and makes the conservation of soil and control erosion of such other lands difficult or impossible.

**History.**—s. 2, ch. 18144, 1937; CGL 1940 Supp. 4151(473).

**582.03 Consequence of soil erosion.**—The consequences of such soil erosion in the form of soil washing and soil blowing are the silting and sedimentation of stream channels, reservoirs, dams, ditches, and harbors; the loss of fertile soil material in dust storms; the piling up of soil on lower slopes, and its deposit over alluvial plains; the reduction in productivity or outright ruin of rich bottom lands by overwash or poor subsoil material, sand; deterioration of soil and its fertility, deterioration of crops grown thereon, and declining acre yields despite development of scientific processes for increasing such yields; loss of soil and water which causes destruction of food and cover for wildlife; a blowing and washing of soil into streams which silts over spawning beds, and destroys water plants, diminishing the food supply of fish; a diminishing of the underground water reserve, which causes water shortages, intensifies periods of drought, and causes crop failure; and increase in the speed and volume of rainfall runoff, causing severe and increasing floods, which bring suffering, disease, and death; impoverishment of families attempting to farm eroding and eroded lands; damage to roads, highways, railways, farm

buildings, and other property from floods and from dust storms; and losses in navigation, hydroelectric power, municipal water supply, drainage facilities, irrigation developments, farming and grazing.

**History.**—s. 2, ch. 18144, 1937; CGL 1940 Supp. 4151(473); s. 1, ch. 65-334.

**582.04 Appropriate corrective methods.**—To control or prevent soil erosion and prevent floodwater and sediment damages, and further the conservation, development and utilization of soil and water resources and the disposal of water, it is necessary that land-use practices contributing to soil wastage and soil erosion be discouraged and discontinued, and appropriate soil-conserving land-use practices and works of improvement for flood prevention or the conservation, development and utilization of soil and water resources and the disposal of water be adopted and carried out; among the works of improvement and procedures necessary for widespread adoption, are the carrying on of engineering operations, such as the construction of terraces, terrace outlets, check-dams, desilting basins, floodwater retarding structures, channel improvements, floodways, dikes, ponds, ditches, and the like; the utilization of strip-cropping, lister furrowing, contour cultivating, and contour furrowing; land drainage; land irrigation, seeding and planting of waste, sloping, abandoned, or eroded lands to water conserving and erosion-preventing plants, trees, and grasses; forestation and reforestation; rotation of crops; soil stabilization with trees, grasses, legumes, and other thick-growing, soil-holding crops; the addition of soil amendments, manurial materials and fertilizers for the correction of soil deficiencies or for the promotion of increased growth of soil protecting crops; retardation of runoff by increasing absorption of rainfall; retirement from cultivation of steep, highly erosive areas and areas now badly gullied or otherwise eroded; fish and wildlife or recreational developments; and control of artesian wells.

**History.**—s. 2, ch. 18144, 1937; CGL 1940 Supp. 4151(473); s. 1, ch. 65-334; s. 1, ch. 69-235.

**582.05 Legislative policy for conservation.**—It is the policy of the legislature to provide for control and prevention of soil erosion, and for the prevention of floodwater and sediment damages, and for furthering the conservation, development and utilization of soil and water resources, and the disposal of water, and thereby to preserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base, protect public lands, and protect and promote the health, safety and general welfare of the people of this state.

**History.**—s. 2, ch. 18144, 1937; CGL 1940 Supp. 4151(473); s. 1, ch. 65-334; s. 2, ch. 69-235.

**582.055 Powers and duties of the Department of Agriculture and Consumer Services; rules.**—

(1) The provisions of this chapter shall be administered by the Department of Agriculture and Consumer Services.

(2) The department is authorized to adopt rules to implement, make specific, and interpret the provisions of this chapter.

(3) The department is authorized to receive gifts, appropriations, materials, equipment, lands, and facilities and to manage, operate, and disburse them for the use and benefit of the soil and water conservation districts of the state.

**582.09 Administrative officer of soil and water conservation.—**The department may employ an administrative officer of soil and water conservation, and such technical experts and such other employees, permanent and temporary, as it may require and shall determine their qualifications, duties, and compensation.

**History.**—s. 4, ch. 18144, 1937; s. 2, ch. 19473, 1939; CGL 1940 Supp. 4151(475); s. 3, ch. 67-207; s. 5, ch. 70-392.

#### **582.10 Creation of soil and water conservation districts.—**

(1) Any 25 owners of land lying within the limits of the territory proposed to be organized into a district may file a petition with the Department of Agriculture and Consumer Services, asking that a soil and water conservation district be organized to function in the territory described in the petition. Such petition shall set forth:

(a) The proposed name of said district.

(b) That there is need, in the interest of the pub-

lic health, safety, and welfare, for a soil and water conservation district to function in the territory described in the petition.

(c) A description of the territory proposed to be organized as a district, which description shall not be required to be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate.

(d) A request that the department duly define the boundaries for such district; that a referendum be held within the territory so defined on the question of the creation of a soil and water conservation district in such territory; and that the department determine that such a district be created.

(2) Where more than one petition is filed covering parts of the same territory the department may consolidate all or any petitions.

**History.**—s. 5, ch. 18144, 1937; s. 3, ch. 19473, 1939; CGL 1940 Supp. 4151(476); s. 3, ch. 67-207; ss. 14, 35, ch. 69-106.

**582.11 Hearing upon question of creation; notice, etc.**—Within 30 days after such a petition has been filed with the Department of Agriculture and Consumer Services, it shall cause due notice to be given of a proposed hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such district, upon the question of the appropriate boundaries to be assigned to such district, upon the propriety of the petition and other proceedings taken under this chapter, and upon all questions relevant to such inquiries. All owners and occupiers of land within the limits of the territory described in the petition, and of lands within any territory considered for addition to such described territory, and all other interested parties, shall have the right to attend such hearings and to be heard. If it shall appear upon the hearing that it may be desirable to include within the proposed district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of further hearing shall be given throughout the entire area considered for inclusion in the district and such further hearing held. After such hearing, if the department shall determine, upon the facts presented at such hearing and upon such other relevant facts and information as may be available that there is need, in the interest of the public health, safety, and welfare, for a soil and water conservation district to function in the territory considered at the hearing, it shall make and record such determination, and shall define, by metes and bounds or by legal subdivisions, the boundaries of such district. In making such determination and in defining such boundaries, the department shall give due weight and consideration to the topography of the area considered and of the state, the composition of soils therein, the distribution of erosion, the prevailing land-use practices, the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits such lands may receive from being included within such boundaries, the relation of the proposed area to existing watersheds and agricultural regions, and to other soil and water conservation districts already organized or proposed for organization under the provisions of this chapter, and such other physical,

geographical, and economic factors as are relevant, having due regard to the legislative determinations set forth in this chapter. The territory to be included within such boundaries need not be contiguous. If the department shall determine after such hearing, after due consideration of the said relevant facts, that there is no need for a soil and water conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall deny the petition. After 6 months shall have expired from the date of the denial of any such petition, subsequent petitions covering the same or substantially the same territory may be filed as aforesaid and new hearings held and determinations made thereon.

**History.**—s. 5, ch. 18144, 1937; s. 3, ch. 19473, 1939; CGL 1940 Supp. 4151(476); s. 3, ch. 67-207; ss. 14, 35, ch. 69-106.

**582.12 Referendum for creation, etc.**—After the Department of Agriculture and Consumer Services has made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for the organization of a district in a particular territory and has defined the boundaries thereof, it shall consider the question whether the operation of a district within such boundaries with the powers conferred upon soil and water conservation districts in this chapter is administratively practicable and feasible. To assist the department in the determination of such administrative practicability and feasibility, the department, within a reasonable time after entry of the finding that there is need for the organization of the proposed district and the determination of the boundaries thereof, shall hold a referendum within the proposed district upon the proposition of the creation of the district, and cause due notice of such referendum to be given. The question shall be submitted by ballots upon which the words "For creation of a soil and water conservation district of the lands below described and lying in the County (ies) of ....., (and) ....." and "Against creation of a soil and water conservation district of the lands below described and lying in the County (ies) of ....., (and) ....." shall appear with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose creation of such district. The ballot shall set forth the boundaries of such proposed district as determined by the department. All owners of lands lying within the boundaries of the territory, as determined by the department, shall be eligible to vote in such referendum. Only such landowners shall be eligible to vote.

**History.**—s. 5, ch. 18144, 1937; s. 3, ch. 19473, 1939; CGL 1940 Supp. 4151(476); s. 3, ch. 67-207; ss. 14, 35, ch. 69-106.

**582.13 Expenses of referendum.**—The Department of Agriculture and Consumer Services shall pay all expenses for the issuance of such notices and the conduct of such hearings and referenda, and shall supervise the conduct of such hearings and referenda. It shall issue appropriate regulations governing the conduct of such hearings and referenda, and providing for the registration prior to the date of the referendum of all eligible voters, or prescribing some other appropriate procedure for the deter-

mination of those eligible as voters in such referendum. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as provided in s. 582.12, and said referendum shall have been fairly conducted.

**History.**—s. 5, ch. 18144, 1937; s. 3, ch. 19473, 1939; CGL 1940 Supp. 4151(476); ss. 14, 35, ch. 69-106.

**582.14 Results of referendum; publication, etc.**—The Department of Agriculture and Consumer Services shall publish the result of such referendum and shall thereafter consider and determine whether the operation of the district within the defined boundaries is administratively practicable and feasible. If the department shall determine that the operation of such district is not administratively practicable and feasible, it shall record such determination and deny the petition. If the department shall determine that the operation of such district is administratively practicable and feasible, it shall record such determination and shall proceed with the organization of the district in the manner hereinafter provided. In making such determination the department shall give due regard and weight to the attitude of the owners and occupiers of lands lying within the defined boundaries, the number of landowners eligible to vote in such referendum who shall have voted, the proportion of the votes cast in such referendum in favor of the creation of the district to the total number of votes cast, the approximate wealth and income of the landowners and occupiers of the proposed district, the probable expense of carrying on erosion-control operations within such district, and such other economic and social factors as may be relevant to such determination having due regard to the legislative determinations set forth in this chapter; provided, however, that the department shall not determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of creation of the district shall have been cast in favor of the creation of such district.

**History.**—s. 5, ch. 18144, 1937; s. 3, ch. 19473, 1939; CGL 1940 Supp. 4151(476); ss. 14, 35, ch. 69-106.

**582.15 Organization of district, etc.—**

(1) If the Department of Agriculture and Consumer Services shall determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible, any five of the petitioners who signed the petition for the creation of the proposed district may present to the Department of State an application signed by them which shall set forth (and such application need contain no details other than the mere recitals):

(a) That a petition for the creation of the district was filed with the Department of Agriculture and Consumer Services pursuant to the provisions of this chapter, and that the proceedings specified in this chapter were taken pursuant to such petition; that the application is being filed in order to complete the organization of the district under this chapter;

(b) The name which is proposed for the district; and

(c) The location selected by the department to be the principal office of the supervisors of the district.

The application shall be accompanied by a statement by the Department of Agriculture and Consumer Services, which shall certify (and such statement need contain no detail other than the mere recitals) that a petition was filed, notice issued, and hearing held as aforesaid; that the department did duly determine that there is need, in the interest of the public health, safety, and welfare, for a soil and water conservation district to function in the proposed territory and did define the boundaries thereof; that notice was given and a referendum held on the question of the creation of such district, and that the result of such referendum showed a majority of the votes cast in such referendum to be in favor of the creation of the district; that thereafter the department did duly determine that the operation of the proposed district is administratively practicable and feasible. The said statement shall set forth the boundaries of the district as they have been defined by the department.

(2) The Department of State shall examine the application and statement and, if it finds that the name proposed for the district is not identical with that of any other soil and water conservation district of this state or so nearly similar as to lead to confusion or uncertainty, it shall receive and file them and shall record them in an appropriate book of record in its office. If the Department of State shall find that the name proposed for the district is identical with that of any other soil and water conservation district of this state, or so nearly similar as to lead to confusion and uncertainty, it shall certify such fact to the Department of Agriculture and Consumer Services and to the five petitioners and the petitioners shall thereupon submit to the Department of State a new name for the said district not subject to such defects. Upon receipt of such new name, free of such defects, the Department of State shall record the application and statement, with the name so modified, in an appropriate book of record in its office. The Department of State shall make and issue a certificate under the seal of the state, of the due organization of the said district, and shall record such certificate with the application and statement. The boundaries of such district shall include the territory as determined by the Department of Agriculture and Consumer Services.

(3) After 6 months shall have expired from the date of entry of a determination by the Department of Agriculture and Consumer Services that operation of a proposed district is not administratively practicable and feasible, and denial of a petition pursuant to such determination, subsequent petitions may be filed as aforesaid, and action taken thereon in accordance with the provisions of this chapter.

**582.16 Addition of territory to district or removal of territory therefrom.**—Petitions for including additional territory or removing territory

within an existing district may be filed with the Department of Agriculture and Consumer Services, and the proceedings provided for in this chapter in the case of petitions to organize a district shall be observed in the case of petitions for such inclusion or removal. The department shall prescribe the form for such petition, which shall be as nearly as may be in the form prescribed in this chapter for petitions to organize a district. If the petition is signed by a majority of the landowners of such area, no referendum need be held. In referenda upon petitions for such inclusions or removals, all owners of land lying within the proposed area to be added or removed shall be eligible to vote.

**582.17 Presumption as to establishment.**—In any suit, action or proceeding involving the validity or enforcement of, or relating to, any contract, proceeding, or action of the district, the district shall be deemed to have been established in accordance with the provisions of this chapter upon proof of the issuance of the aforesaid certificate by the Department of State. A copy of such certificate duly certified by the Department of State shall be admissible in evidence in any such suit, action, or proceeding and shall be proof of the filing and contents thereof.

**582.18 Election of supervisors of each district.**—

(1) The election of supervisors for each soil and water conservation district shall be held every 2 years. The elections shall be held at the time of the second primary election provided for by s. 100.091. The office of the supervisor of soil and water conservation district is a nonpartisan office and candidates for such office are prohibited from campaigning or qualifying for election based on party affiliation. Candidates for supervisor for each district shall be nominated by nominating petition subscribed by 25 or more qualified electors of such district. Candidates shall obtain signatures on petition forms prescribed by the Department of State and furnished by the appropriate qualifying officer. In multicounty districts the appropriate qualifying officer is the Secretary of State; in single-county districts the appropriate qualifying officer is the supervisor of elections. Such forms may be obtained at any time after the first Tuesday after the first Monday in January preceding the election, but prior to the 92nd day prior to the date of the first primary. Each petition shall be submitted, prior to noon of the 92nd day preceding the first primary election, to the supervisor of elections of the county for which such petition was circulated. The supervisor of elections shall check the signatures on the petition to verify their status as electors in the district. Prior to the first date for qualifying, the supervisor of elections shall determine whether the required single-county signatures have been obtained and shall so notify the candidate. In the case of a multicounty candidate, the supervisor of elections shall check the signatures on petitions and shall, prior to the first date for qualifying for office, certify to the Department of State the

number shown as registered electors of the district. The Department of State shall determine if the required number of signatures has been obtained for multicounty candidates and shall so notify the candidate. If the required number of signatures has been obtained for the name of the candidate to be placed on the ballot, the candidate shall, during the time prescribed for qualifying for office in s. 99.061, submit a copy of the notice to, and file his qualification papers with, the qualifying officer and take the oath prescribed in s. 99.021. Nominees who collect or expend campaign contributions shall conduct their campaigns for supervisor of soil and water conservation districts in accordance with the provisions of chapter 106. Candidates who neither receive contributions nor make expenditures, other than expenditures for verification of signatures on petitions, are exempt from the provisions of chapter 106 requiring establishment of bank accounts and appointment of a campaign treasurer, but shall file periodic reports as required by s. 106.07. The names of all nominees on behalf of whom such nominating petitions have been filed shall appear upon ballots in accordance with the general election laws. All qualified electors residing within the district shall be eligible to vote in such election. The candidates who shall receive the largest number of the votes cast from each group of candidates, as provided in s. 100.071, in such election shall be the elected supervisors from such group for such district. In the case of a newly created district participating in a regular election for the first time, three groups of candidates shall be elected for terms of 4 years and two groups shall be elected for initial terms of 2 years. Those elected shall assume office on the first Tuesday after the first Monday in January following the election.

(2) After the issuance of a certificate of organization of a soil and water conservation district by the Department of State, or in the event of a vacancy resulting from death, resignation, removal, or otherwise, all vacancies shall be filled by appointment by the remaining supervisors of the district until the next regular election.

**582.19 Qualifications and tenure of supervisors.**—

(1) The governing body of the district shall consist of five supervisors, elected as provided hereinabove.

(2) The supervisors shall designate a chairman and may, from time to time, change such designation by majority vote. The term of office of each supervisor shall be 4 years, except that two supervisors shall be elected to serve for initial terms of 2 years, respectively, from the date of their election as provided in this chapter. A supervisor shall hold office until his successor has been elected and qualified. The selection of successors to fill an unexpired term shall be in accordance with s. 582.18(2). Selection for a full term in a newly created district shall be by election of the qualified electors of the district. A majority of the supervisors shall constitute a quorum and the concurrence of a majority of the supervisors in any matter within their duties shall be required for its

determination. A supervisor shall receive no compensation for his services, but he shall, with approval of the supervisors of the district, be reimbursed for traveling expenses as provided in s. 112.061.

(3) The supervisors may utilize the services of the county agricultural agents and the facilities of the county agricultural agents' offices insofar as practicable and feasible and may employ such additional employees and agents, permanent and temporary, as they may require, and determine their qualifications, duties and compensation. The supervisors may delegate to their chairman, to one or more supervisors, or to one or more agents, or employees such powers and duties as they may deem proper. The supervisors shall furnish to the Department of Agriculture and Consumer Services, upon request, copies of such rules, regulations, orders, contracts, forms and other documents as they shall adopt or employ, and such other information concerning their activities as it may require in the performance of its duties under this chapter.

(4) The supervisors shall provide for the execution of surety bonds for all employees and officers who shall be entrusted with funds or property; shall provide for the keeping of a full and accurate record of all proceedings and of all resolutions, regulations, and others issued or adopted; and shall provide for an annual audit of the accounts of receipts and disbursements. Any supervisors may be removed by the governor of this state upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason.

(5) The supervisors may invite the legislative body of any municipality or county located within or near the territory comprised within the district to designate a representative to advise and consult with the supervisors of the district on all questions of program and policy which may affect the property, water supply, or other interest of such municipality or county.

(7) To construct, improve, operate and maintain such structures as may be necessary or convenient

for the performance of any of the operations authorized in this chapter;

(8) To develop comprehensive plans for the conservation of soil and water resources and for the control and prevention of soil erosion and for flood prevention or the conservation, development and utilization of soil and water resources, and the disposal of water within the district, which plans shall specify in such detail as may be possible the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; control of artesian wells; and to publish such plans and information and bring them to the attention of owners and occupiers of lands within the district.

(9) To take over, by purchase, lease, or otherwise, and to administer any soil-conservation, erosion-control, erosion-prevention project, or any project for flood-prevention or for the conservation, development and utilization of soil and water resources, and the disposal of water, located within its boundaries undertaken by the United States or any of its agencies, or by this state or any of its agencies; to manage as agent of the United States or any of its agencies, or of the state or any of its agencies, any soil-conservation, erosion-control, erosion-prevention, or any project for flood-prevention or for the conservation, development, and utilization of soil and water resources, and the disposal of water within its boundaries; to act as agent for the United States, or any of its agencies, or for the state or any of its agencies, in connection with the acquisition, construction, operation or administration of any soil-conservation, erosion-control, erosion-prevention, or any project for flood-prevention or for the conservation, development and utilization of soil and water resources, and the disposal of water within its boundaries; to accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this state or any of its agencies, or from others, and to use or expend such moneys, services, materials or other contributions in carrying on its operations;

(11) As a condition to the extending of any benefits under this chapter to, or the performance of

work upon, any lands not owned or controlled by this state or any of its agencies, the supervisors may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners and occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion and prevent flood-water and sediment damages thereon;

(12) No provisions with respect to the acquisition, operation, or disposition of property by public bodies of this state shall be applicable to a district organized hereunder unless the Legislature shall specifically so state. The property and property rights of every kind and nature acquired by any district organized under the provisions of this chapter shall be exempt from state, county, and other taxation.

#### **582.21 Adoption of land-use regulations.—**

(1) The supervisors of any district shall have authority to formulate regulations governing the use of lands within the district in the interest of conserving soil and soil resources, and preventing and controlling soil erosion. The supervisors may conduct such public meetings and public hearings upon tentative regulations as may be necessary to assist them in this work. The supervisors shall not have authority to adopt such land-use regulations until after they shall have caused due notice to be given of their intention to conduct a referendum for submission of such regulations to the owners of lands lying within the boundaries of the district, for their indication of approval or disapproval of such proposed regulations, and until after the supervisors have considered the result of such referendum. Copies of such proposed regulations shall be available for the inspection of all eligible voters during the period between publication of such notice and the date of the referendum. The notices of the referendum shall recite the contents of such proposed regulations, or shall state where copies of such proposed regulations may be examined. The question shall be submitted by ballots, upon which the words "For approval of proposed land-use regulations for the conservation of soil and prevention of erosion" and "Against approval of proposed land-use regulations for conservation of soil and prevention of erosion" shall appear, with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose approval of such proposed regulations. The supervisors shall supervise such referendum, shall prescribe appropriate regulations governing the conduct thereof, and shall publish the result thereof. All owners of lands within the district shall be eligible to vote in such referendum. Only such landowners shall be eligible to vote. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as herein provided and said referendum shall have been fairly conducted.

(2) The supervisors shall not adopt such proposed regulations unless at least a majority of the votes

cast in such referendum shall have been cast for approval of the said proposed regulations. The approval of the proposed regulations by a majority of the votes cast in such referendum shall not be deemed to require the supervisors to adopt such proposed regulations. Land-use regulations adopted pursuant to the provisions of this section by the supervisors of any district shall be binding and obligatory upon all owners and occupiers of land within such districts.

(3) Land-use regulations adopted pursuant to the provisions of this section shall not be amended, supplemented, or repealed except in accordance with the procedure prescribed in this section for adoption of land-use regulations. Referenda of adoption, amendment, supplementation, or repeal of land-use regulations shall not be held more often than once in 6 months.

**582.22 Regulations; contents.**—The regulations to be adopted by the supervisors under the provisions of this chapter may include:

(1) Provisions requiring the carrying out of necessary engineering operations, including the construction of terraces, terrace outlets, check dams, dikes, ponds, ditches, and other necessary structures;

(2) Provisions requiring observance of particular methods of cultivation including contour cultivating, contour furrowing, lister furrowing, sowing, planting, strip cropping, changes in cropping systems, seeding, and planting of lands to water-conserving and erosion-preventing plants, trees and grasses, forestation, and reforestation;

(3) Specifications of cropping programs and tillage practices to be observed;

(4) Provisions requiring the retirement from cultivation of highly erosive areas or of areas on which erosion may not be adequately controlled if cultivation is carried on;

(5) Provisions for such other means, measures, operations and programs as may assist conservation of soil resources and prevent or control soil erosion in the district, having due regard to the legislative findings set forth in this chapter.

The regulations shall be uniform throughout the territory comprised within the district except that the supervisors may classify the lands within the district with reference to such factors as soil type, degree of slope, degree of erosion threatened or existing, cropping and tillage practices in use, and other relevant factors, and may provide regulations varying with the type or class of land affected, but uniform as to all lands within each class or type. Copies of land-use regulations adopted under the provisions of this chapter shall be printed and made available to all owners and occupiers of lands lying within the district.

**History.**—s. 9, ch. 18144, 1937; CGL 1940 Supp. 4151(480).

**582.23 Performance of work under the regulations by the supervisors.**—

(1) The supervisors may go upon any lands within the district to determine whether land-use regulations adopted are being observed. Where the supervi-

sors of any district shall find that any of the provisions of land-use regulations adopted are not being observed on particular lands, and that such nonobservance tends to increase erosion on such lands and is interfering with the prevention or control of erosion on other lands within the district, the supervisors may present to the circuit court for the county or counties within which the lands of the defendant may lie, a petition, duly verified, setting forth the adoption of the land-use regulations, the failure of the defendant landowner or occupier to observe such regulations, and to perform particular work, operations, or avoidances as required thereby, and that such nonobservance tends to increase erosion on such lands and is interfering with the prevention or control of erosion on other lands within the district, and praying the court to require the defendant to perform the work, operations, or avoidances within a reasonable time and to order that if the defendant shall fail so to perform the supervisors may go on the land, perform the work or other operations or otherwise bring the condition of such lands into conformity with the requirements of such regulations, and recover the costs and expenses thereof, with interest, from the owner of such land. Upon the presentation of such petition the court shall cause process to be issued against the defendant, and shall hear the case. If it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a special master to take such evidence as it may direct and report the same to the court within his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made.

(2) The court may dismiss the petition; or it may require the defendant to perform the work, operations, or avoidances, and may provide that upon the failure of the defendant to initiate such performance within the time specified in the order of the court, and to prosecute the same to completion with reasonable diligence, the supervisors may enter upon the lands involved and perform the work or operations, or otherwise bring the conditions of such lands into conformity with the requirements of the regulations and recover the costs and expenses thereof, with interest at the rate of 5 percent per annum, from the owner of such lands.

(3) The court shall retain the jurisdiction of the case until after the work has been completed. Upon completion of such work pursuant to such order of the court the supervisors may file a petition with the court, a copy of which shall be served upon the defendant in the case, stating the costs and expenses sustained by them in the performance of the work and praying judgment therefor with interest. The court shall have jurisdiction to enter judgment for the amount of such costs and expenses, with interest at the rate of 5 percent per annum until paid, together with the costs of suit, including a reasonable attorney's fee to be fixed by the court.

**582.24 Board of adjustment.**—Where the supervisors of any district organized under the provisions of this chapter shall adopt an ordinance prescribing land-use regulations, said supervisors shall

constitute, and be ex officio members of, a board of adjustment to hear and consider petitions which may be submitted to such board by any landowner in the district praying for relief from any of the provisions of the said land-use regulations.

**History.**—s. 11, ch. 18144, 1937; s. 6, ch. 19473, 1939; CGL 1940 Supp. 4151(482).

**582.25 Rules of procedure of board.**—The board of adjustment shall adopt rules to govern its procedures, which rules shall be in accordance with the provisions of this chapter and with the provisions of any ordinance adopted pursuant to this chapter. The board shall designate a chairman from among its members, and may, from time to time, change such designation. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Any three members of the board shall constitute a quorum. The chairman, or in his absence such other member of the board as he may designate to serve as acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep a full and accurate record of all proceedings and of all documents filed in its office, which shall be a public record.

**582.26 Petition to board to vary from regulations.**—Any landowner or occupier may file a petition with the board of adjustment alleging that there are great practical difficulties or unnecessary hardship in the way of his carrying out upon his lands the strict letter of the land-use regulations prescribed by ordinance approved by the supervisors and praying the board to authorize a variance from the terms of the land-use regulations in the application of such regulations to the lands occupied by the petitioner. Copies of such petition shall be filed by the petitioner with the Department of Agriculture and Consumer Services. The Department of Agriculture and Consumer Services shall have the right to appear and be heard at such hearing. Any owner or occupier of lands lying within the district who shall object to the authorizing of the variance prayed for may intervene and become a party to the proceedings. If the board shall determine that there are great practical difficulties or unnecessary hardship in the way of applying the strict letter of any of the land-use regulations upon the lands of the petitioner, it shall have power by order to authorize such variance from the terms of the land-use regulations, in their application to the lands of the petitioner, as will relieve such great practical difficulties or unnecessary hardship and will not be contrary to the public interest, and such that the spirit of the land-use regulations shall be observed, the public health, safety, and welfare secured, and substantial justice done.

**582.28 Cooperation between districts.**—The supervisors of any two or more districts organized under the provisions of this chapter may cooperate

with one another in the exercise of any or all powers conferred in this chapter.

**History.**—s. 12, ch. 18144, 1937; CGL 1940 Supp. 4151(483).

**582.29 State agencies to cooperate.**—Agencies of this state which shall have jurisdiction over, or be charged with, the administration of any state-owned lands, and of any county, or other governmental subdivision of the state, which shall have jurisdiction over, or be charged with the administration of, any county-owned or other publicly owned lands, lying within the boundaries of any district organized under this chapter, shall cooperate to the fullest extent with the supervisors of such districts in the effectuation of programs and operations undertaken by the supervisors under the provisions of this chapter. The supervisors of such districts shall be given free access to enter and perform work upon such publicly owned lands. The provisions of land-use regulations adopted shall be in all respects observed by the agencies administering such publicly owned lands.

**History.**—s. 13, ch. 18144, 1937; CGL 1940 Supp. 4151(484).

**582.30 Discontinuance of districts; referendum.**—

(1) Any time after 5 years from the organization of a district under the provisions of this chapter, any 25 owners of land lying within the boundaries of such district may file a petition with the Department of Agriculture and Consumer Services praying that the operations of the district be terminated and the existence of the district discontinued. The department may conduct such public meetings and public hearings upon petition as may be necessary to assist it in the consideration thereof. Within 60 days after such a petition has been received by the department it shall give due notice of the holding of a referendum, and shall supervise such referendum, and issue appropriate regulations governing the conduct thereof, the question to be submitted by ballots upon which the words "For terminating the existence of the ..... (Name of the soil and water conservation district to be here inserted)" and "Against terminating the existence of the ..... (Name of the soil and water conservation district to be here inserted)" shall appear with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose discontinuance of such district. All owners of lands lying within the boundaries of the district shall be eligible to vote in such referendum. Only such landowners shall be eligible to vote. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as herein provided and said referendum shall have been fairly conducted.

(2) If two-thirds or more of the qualified voters in such referendum shall have voted for the discontinuance of the district, the department shall certify to the supervisors of the district the result of such referendum and that the continued operation of the

district is not administratively practicable and feasible.

**History.**—s. 14, ch. 18144, 1937; s. 7, ch. 19473, 1939; CGL 1940 Supp. 4151(485); s. 3, ch. 67-207; ss. 14, 35, ch. 69-106.

**582.31 Certification of results of referendum; dissolution.**—Upon receipt from the Department of Agriculture and Consumer Services of a certification that the department has determined that the continued operation of the district is not administratively practicable and feasible, pursuant to the provisions of this chapter, the supervisors shall forthwith proceed to terminate the affairs of the district. The supervisors shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of such sale to be converted into the State Treasury, which amount shall be placed to the credit of the department for the purpose of liquidating any legal obligations said district may have at the time of its discontinuance. The supervisors shall thereupon file an application, duly verified, with the Department of State for the discontinuance of such district, and shall transmit with such application the certificate of the Department of Agriculture and Consumer Services setting forth the determination of the department that the continued operation of such district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as in this section provided, and shall set forth a full accounting of such properties and proceeds of the sale. The Department of State shall issue to the supervisors a certificate of dissolution and shall record such certificate in an appropriate book of record in its office.

**History.**—s. 14, ch. 18144, 1937; s. 7, ch. 19473, 1939; CGL 1940 Supp. 4151(485); s. 3, ch. 67-207; ss. 10, 14, 35, ch. 69-106.

**582.32 Continuance of existing contracts, etc.—**

(1) Upon issuance of a certificate of dissolution all land-use regulations theretofore adopted and in force within such districts shall be of no further force and effect. All contracts theretofore entered into, to which the district or supervisors are parties, shall remain in force and effect for the period provided in such contracts. The Department of Agriculture and Consumer Services shall be substituted for the district or supervisors as party to such contracts. The department shall be entitled to all benefits and subject to all liabilities under such contracts and shall have the same right and liability to perform, to require performance, and to modify or terminate such contracts by mutual consent or otherwise, as the supervisors of the district would have had. Such dissolution shall not affect the lien of any judgment entered under the provisions of this chapter, nor the pendency of any action instituted under the provisions of this chapter, and the department shall succeed to all the rights and obligations of the district or supervisors as to such liens and actions.

(2) The department shall not be required to entertain petitions for the discontinuance of any district nor conduct referenda upon such petitions nor make determinations pursuant to such petitions in

accordance with the provisions of this chapter, more often than once in 5 years.

**History.**—s. 14, ch. 18144, 1937; s. 7, ch. 19473, 1939; CGL 1940 Supp. 4151(485); s. 3, ch. 67-207; ss. 14, 35, ch. 69-106.

**582.331 Establishment of watershed improvement districts within soil and water conservation districts authorized.**—Watershed improvement districts may be formed as subdistricts of soil and water conservation districts, in accordance with the provisions of this chapter, for the development and execution of plans and projects for works of improvement for the control and prevention of soil erosion, flood prevention, conservation, development, and utilization of soil and water resources, disposal of water, fish and wildlife or recreational development, preservation and protection of land and water resources, and protection and promotion of the health, safety, and general welfare of the people of this state.

**History.**—s. 6, ch. 69-235.

**582.34 Petition for establishment; provisions.—**

(1) The owners of the major portion of land lying within the limits of a proposed watershed improvement district may file a petition with the supervisors of the soil and water conservation district in which the proposed watershed improvement district is situated asking that a watershed improvement district be organized to function in the area described in the petition.

(2) The petition shall set forth:

(a) The proposed name of the watershed improvement district.

(b) That there is need, in the interest of the public health, safety, and welfare for a watershed improvement district to function in the area described in the petition.

(c) A description of the area proposed to be organized as a watershed improvement district, which description shall be deemed sufficient if generally accurate.

(d) That the land within the area described in the petition is contiguous and is situated in the same watershed.

(e) The maximum millage rate, including not more than 1 mill for maintenance, expressed in mills on each dollar of assessed valuation at which taxes may be levied for any 1 fiscal year for the purposes of the watershed improvement district or to amortize indebtedness or bonds.

(f) A request that the area described in the petition be established as a watershed improvement district.

(3) Land lying within the limits of one watershed improvement district shall not be included in another watershed improvement district.

**History.**—s. 6, ch. 69-235.

**582.35 Notice and hearing on petition; determination of need for district; boundaries.**—Within 60 days after a petition has been filed with the supervisors of the soil and water conservation district, the supervisors shall cause due notice to be given of a public hearing upon the practicability and feasibility of creating the proposed watershed im-

provement district. All owners of land within the proposed district and all other interested parties shall have the right to attend such a hearing and to be heard. If the supervisors determine from the hearing that there is need, in the interest of public health, safety, and welfare, for the organization of the proposed district, they shall record such determination and shall define the boundaries of the watershed improvement district.

History.—s. 6, ch. 69-235.

**582.36 Determination of feasibility of proposed district; referendum.**—After the supervisors have determined that a need for the proposed watershed improvement district exists, have defined the boundaries of the proposed district, and have obtained the approval of the Department of Agriculture and Consumer Services for the formation of the proposed district, the supervisors shall consider the question of whether the operation of the proposed district is administratively practicable and feasible. To assist the supervisors in determining such question, a referendum shall be held by the supervisors upon the proposition of the creation of the proposed district. Due notice of such referendum shall be given by the supervisors, and ballots therefor shall be in substantially the form set forth in s. 582.12, but the proposed district and name thereof shall be substituted for the soil and water conservation district, and the millage rate to be approved by the electors who are owners of freeholds within the proposed district not wholly exempt from taxation shall be included. At such referendum each owner of land lying within the proposed district shall be entitled to cast one vote, in person or by proxy, for each acre or fractional part thereof of land within the proposed district belonging to such owner, except that only one vote may be cast for each such acre or fractional part thereof regardless of whether the legal title thereto is held in single or multiple ownership. The supervisors may prescribe such rules and regulations governing the conduct of the hearing and referendum as they deem necessary.

History.—s. 6, ch. 69-235; ss. 14, 35, ch. 69-106.

**582.37 Consideration of results of referendum; declaration of organization of district.**—The results of the referendum shall be considered by the supervisors in determining whether the operation of the proposed watershed improvement district is administratively practicable and feasible. If the supervisors determine that the operation of the proposed district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of the proposed district is administratively practicable and feasible, they shall record such determination in the manner hereinafter provided; provided, however, that the supervisors shall not be authorized to determine that the operation of the proposed district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum, representing not less than a majority of the land area within the proposed dis-

trict, shall have been cast in favor of the creation of the watershed improvement district.

History.—s. 6, ch. 69-235.

**582.38 Organization of district; certification to clerks of circuit courts; limitation on tax rate.**

—If the supervisors determine that the operation of the proposed watershed improvement district is administratively practicable and feasible, they shall declare the watershed improvement district to be duly organized and shall record such fact in their official minutes. Following such entry in their official minutes, the supervisors shall certify the fact of the creation of the district to the Department of Agriculture and Consumer Services, and shall furnish a copy of such certification to the clerk of the circuit court of each county in which any portion of the watershed improvement district is situated for recordation in the public land records of each such county. The watershed improvement district shall thereupon constitute a governmental subdivision of this state and a public body corporate and politic. The rate at which taxes for any one fiscal year may be levied for the purposes of the watershed improvement district shall be subject to the limitations set forth in s. 582.44.

History.—s. 6, ch. 69-235; ss. 14, 35, ch. 69-106.

**582.39 Establishment of watershed improvement district situated in more than one soil and water conservation district.**

—If a proposed watershed improvement district is situated in more than one soil and water conservation district, copies of the petition for the establishment of such district shall be presented to the board of supervisors of each of the soil and water conservation districts in which the proposed district is situated, and the supervisors of all such soil and water conservation districts affected shall act jointly as a board of supervisors with respect to all matters concerning the watershed improvement district, including its creation. Such watershed improvement district shall be organized in like manner and shall have the same powers and duties as a watershed improvement district situated entirely in one soil and water conservation district.

History.—s. 6, ch. 69-235.

**582.40 Change of district boundaries; additions, detachments, transfers of land from one district to another; change of district name.**

(1) Any one or more owners of land may petition the board of supervisors of the soil and water conservation district in which a watershed improvement district is situated to have their lands added to the watershed improvement district. The petition shall also be signed by the owners of a majority of the land area within the watershed improvement district, and shall be subject to approval by the board of directors of the watershed improvement district. The petition shall describe the land desired to be annexed and state the number of acres of land involved and other information pertinent to such proposal.

(2) Within 30 days after such petition is filed, the board shall cause due notice to be given of a hearing on the petition. All interested parties shall have a right to attend the hearing and be heard. The board shall determine whether the lands described in the

petition or any portion thereof shall be included in the watershed improvement district. If it is determined that such land should be added, the board shall certify this fact to the Department of Agriculture and Consumer Services and furnish a copy of such certification to the clerk of the circuit court of each county in which any portion of the added lands is situated for recordation in the public land records of each such county.

(3) The owner or owners of land which is not benefited by its inclusion in a watershed improvement district may petition the board of supervisors of the soil and water conservation district in which the watershed improvement district is situated to have such land excluded from the district. The petition shall describe the land and state the reasons why it should be excluded. A hearing shall be held within 60 days after the petition is received. Due notice of the hearing shall be given by the board. If it is determined by the board that such land is not benefited by its inclusion in the watershed improvement district, such land shall be excluded from the district. The board shall certify such determination to the Department of Agriculture and Consumer Services and shall furnish a copy of such certification to the clerk of the circuit court of each county in which any portion of such excluded land is situated for recordation in the public land records of each such county.

(4) Landowners desiring a transfer of their land from one watershed improvement district to another may file a petition for such transfer with the board of supervisors of the soil and water conservation district in which the watershed improvement district is situated. The board of supervisors may hold such hearings as it deems appropriate to enable it to make a determination as to the desirability of the proposed transfer of land. If the board makes a determination in favor of such transfer of land, it shall certify such determination, setting out the new boundaries of the watershed improvement districts involved, to the Department of Agriculture and Consumer Services, and shall furnish a copy of such certification to the clerk of the circuit court of each county in which the affected watershed improvement districts are situated for recordation in the public land records of each such county.

(5) Landowners within a watershed improvement district desiring a change of name of such district may file a petition for such change of name with the board of supervisors of the soil and water conservation district in which the watershed improvement district is situated. If the board approves the change of name, it shall certify the fact of such change of name to the Department of Agriculture and Consumer Services, and shall furnish a copy of such certification to the clerk of the circuit court of the county or counties in which the watershed improvement district is situated for recordation in the public land records of each such county.

**History.**—s. 6, ch. 69-235; ss. 14, 35, ch. 69-106.

#### **582.41 Board of directors of district.—**

(1) Petitions to nominate candidates for directors of the watershed improvement district may be filed with the board of supervisors of the soil and water conservation district in which the watershed im-

provement district is situated. No such nominating petition shall be accepted by the board unless it is signed by at least ten owners of land lying within the watershed improvement district or by a majority of such owners if there be less than 10. Such owners may sign more than one nominating petition to nominate more than one candidate for director. No person shall be eligible to be a director unless he is an owner of land within the watershed improvement district in which he seeks election.

(2) Within 30 days after a watershed improvement district is established, the board of supervisors of the soil and water conservation district in which the watershed improvement district is situated, or the joint board if more than one district is affected, shall cause an election to be held for the election of a board of three directors of the watershed improvement district. Due notice of such election shall be given by the board to supervisors. At such election each owner of land lying within the watershed improvement district shall be entitled to cast one vote, in person or by proxy, for each acre or fractional part thereof of land within the watershed improvement district belonging to such owner, except that only one vote may be cast for each such acre or fractional part thereof regardless of whether the legal title thereto is held in single or multiple ownership. The three persons receiving the highest number of votes shall be declared elected as directors. The first board of directors shall determine by lot from among its membership one member to serve a term of 3 years, one member to serve a term of 2 years, and one member to serve a term of 1 year; thereafter, as these initial terms expire, the members of the board of directors shall be elected for terms of 3 years. Vacancies occurring before the expiration of a term shall be filled for the unexpired term by appointment by the remaining members of the board of directors with the approval of the board of supervisors. The board of directors shall, under the supervision of the board of supervisors, be the governing body of the watershed improvement district. The board of directors shall annually elect from its membership a chairman and vice chairman.

(3) A director shall receive compensation for his service at the rate of \$10 per day for those days on which he renders services pursuant to this chapter. A director shall also be entitled to expenses in the same amount and extent as provided for public officers and employees of the state in s. 112.061.

**582.42 Officers, agents, and employees; surety bonds; annual audit.**—The board of directors may, with the approval of the board of supervisors of the soil and water conservation district in which the watershed improvement district is situated, or the joint board if more than one district is affected, employ such officers, agents, and other employees as they may require, and shall determine their qualifications, duties, and compensation. The board of directors shall provide for the execution of surety bonds for such officers, agents, and employees as shall be entrusted with funds or property of the watershed improvement district, and for the making

and publication of an annual audit of the accounts of the district.

History.—s. 6, ch. 69-235.

**582.43 Status and general powers of districts; power to levy tax; power to construct, operate, improve and maintain works of improvement; power to obtain necessary lands or interests therein.**—A watershed improvement district organized under the provisions of this chapter shall constitute a governmental subdivision of this state, and a public body corporate and politic, exercising public powers. Such district shall exercise its powers and duties under the supervision of the board of supervisors of the soil and water conservation district in which it is situated, or the joint board if more than one district is affected. The watershed improvement district shall have all of the powers of such soil and water conservation district, and in addition thereto shall have authority to levy a tax, as hereinafter provided, to be used for the purposes of the watershed improvement district; to acquire by purchase, gift, grant, bequest, devise, or other legal means, including by eminent domain proceedings in accordance with chapter 73, such lands or interests therein as are necessary for the exercise of any authorized function of the district, including needed or necessary real property outside of the district needed in connection with the administration of this law; to borrow money and issue bonds as hereinafter provided; and to construct, improve, operate, and maintain such structures and works as may be necessary for the performance and carrying on of any function authorized by this law.

History.—s. 6, ch. 69-235.

**582.44 Levy of taxes; procedure, etc.**—The board of directors of the district is authorized to levy annually a uniform ad valorem tax on all taxable property in the district as determined for county taxing purposes, not to exceed the amount necessary to provide the funds necessary for the purpose of maintaining, operating, and administering such district and obtaining necessary rights-of-way for the works of said district; provided, however, that such tax shall not exceed the rate of 3 mills on the dollar of the assessed value of such property or such rate approved by the qualified electors of said district pursuant to s. 582.36. The said district shall be deemed a district within the purview of former ss. 193.03 and 193.031, whether within the purview and intention of said sections or not, for the purposes of the assessment, collection, and distribution of the taxes herein provided for. Upon the equalization of the county tax rolls the governing board of the district shall be furnished with the same information furnished by the property appraiser to the taxing authorities of the county and taxing districts for use in determining the millages to be imposed by them. Upon the determination by the board of the taxing district of the millages to be imposed by it, it shall forthwith notify the boards of county commissioners of the counties wherein the said district lies, who shall include such millages in their directives to the property appraisers. Upon receipt of these millages the property appraisers shall impose and assess such taxes in the usual manner, to be collected and dis-

tributed in the usual manner. For purposes of taxation the district shall be treated as a taxing district. Such district tax assessments shall be liens against the properties assessed as is provided for in s. 197.056. The taxes of the district when distributed in the usual manner shall be paid into the district's depository to the credit of the said district to be expended in the usual manner for like district. Expenditures from such funds shall be made with the approval of the board of supervisors of the soil and water conservation district or districts in which the watershed improvement district is situated on requisition by the chairman or vice chairman of the board of directors of the watershed improvement district.

History.—s. 6, ch. 69-235; s. 1, ch. 77-102; s. 201, ch. 77-104.

**582.45 Fiscal powers of governing body; bonds, etc.**—The board of directors of any watershed improvement district shall have power, subject to the conditions and limitations of this chapter, to incur indebtedness and issue bonds of the watershed improvement district; however, such bonds shall be issued in full conformity with s. 12, Art. History.—s. 6, ch. 69-235.

**582.46 Additional powers and authority.**—The authority and powers herein granted watershed improvement districts shall be additional to those of the soil and water conservation district in which the watershed improvement district is situated. The soil and water conservation district shall be authorized, notwithstanding the creation of the watershed improvement district, to continue to exercise its authority within the boundaries of the watershed improvement district.

History.—s. 6, ch. 69-235.

**582.47 Watershed improvement district to coordinate work with flood control districts.**—The board of directors of any watershed improvement district located within the Southwest Florida Water Management District created by chapter 61-691, Laws of Florida, or the Central and Southern Florida Flood Control District created by chapter 25270, Laws of Florida, 1949, shall consult and advise with the boards of such districts in order to coordinate the work of the districts involved.

History.—s. 6, ch. 69-235.

**582.48 Discontinuance of watershed improvement district.**—

(1) At any time after 5 years from the organization of a watershed improvement district, the owners of not less than 25 percent of the land area within such district may file a petition with the board of supervisors of the soil and water conservation district or districts in which the watershed improvement district is situated requesting that the existence of the watershed improvement district be discontinued. The petition shall state the reasons for discontinuance, and that all maintenance and operation assurances and other obligations of the district have been met. A copy of such petition shall be fur-

nished to the Department of Agriculture and Consumer Services.

(2) After giving due notice of a hearing on such petition, the board of supervisors may conduct such hearing on the petition as may be necessary to assist it in making a determination.

(3) Within 60 days after the petition is filed, a referendum shall be held by the board of supervisors substantially as provided for in ss. 582.36 and 582.37. No informalities in the conduct of the referendum or in any matters relating to the referendum shall invalidate it or its results if due notice of the referendum has been given.

(4) If a majority of the votes cast in such referendum, representing a majority of the land area within the watershed improvement district, shall have been cast in favor of the discontinuance of the watershed improvement district, and the board of supervisors determines that all maintenance and operation assurances and other obligations of the district have

been met, the watershed improvement district shall be discontinued. The appraised price, subject to the provisions of s. 585.10, shall be paid by the department as other expenses are paid. If the owners or person in charge of such domestic animal, barn, yard, shed, corral, or pen fails or refuses to name his or her appraiser within 5 days after requested by the department to do so, or refuses to permit the same to be condemned and destroyed, the department may make an order to the sheriff of the county wherein the property lies, directing him to destroy such domestic animal, barn, yard, shed, corral, or pen, in the manner to be prescribed by such order, which order shall be executed by said sheriff forthwith. Upon the destruction of the said property by the said sheriff, the department shall have the right to recover, from the owner of the property destroyed, all costs and expenses incurred by it in connection therewith.

(1) Any cattle, within any tick eradication area, which are not dipped in accordance with the rules and regulations of the department and under the department's supervision shall be taken into custody, dipped, and retained in its custody, at some place to be selected by the director, until redeemed or sold as hereinafter provided.

(2) The division and its agents and employees may enter into any range, premises, pen, pasture, barn, or inclosure or place where cattle may be found and take into custody, remove, dip and pen any cattle which have not been dipped in accordance with the requirements of this chapter, and the rules and

regulations of the department, and all expenses so incurred by the department, including expenses for penning, feeding and dipping, shall be a lien upon said cattle. If said expenses be not forthwith paid and the cattle redeemed by the owner, the division shall notify the sheriff of the county wherein said cattle are held, by written notice thereof, stating the time and place said cattle were taken into custody, the number thereof and any marks and brands thereon, and the name of the owner if known.

(3) Upon receipt of the notice aforesaid the said sheriff shall forthwith give public notice, to whom it may concern and to the owner if known, that on a day and hour to be specified in said notice, which shall not be less than 10 days nor more than 20 days from and after the first publication of said notice as hereinafter provided, he will offer for public sale and sell for cash to the highest bidder, the cattle described in said notice. Said notice shall also state the time and place such cattle were taken into custody, the number thereof and any marks and brands thereon. Said sale shall be held at the place where said cattle are situate or penned. Said public notice shall be given by publishing the same in some newspaper published in the county wherein said cattle are penned, if there be such newspaper, for two publications, the first of which shall be not less than 10 days prior to the date of sale, and by publishing a copy of said notice, at least 10 days prior to sale, at the courthouse door and at two dipping vats near where the cattle were taken into custody. A copy of said notice shall also be served upon the owner or one of them if more than one, or their agent, in the manner provided by law for service of summons, at least 10 days before sale, if such owner or his agent, together with his address, be known to the sheriff and he resides or can be found within the state.

(4) If such cattle shall not be redeemed before the sale thereof by payment of all costs and expenses incurred by the department in taking into custody, feeding, penning, and dipping of such cattle, and all sheriff's costs, then such sheriff shall offer for sale and shall sell and deliver to the highest bidder for cash all such cattle and shall deduct from the proceeds thereof all sheriff's costs, and shall pay to the department all costs and expenses incurred in taking into custody, penning, feeding, and dipping such cattle, and forthwith pay into the fine and forfeiture fund of such county the balance of such proceeds; and such sale and delivery shall vest in the purchaser an absolute title and right of possession of such cattle, superior to all other title, liens and claims, except any lien for unpaid taxes on such cattle.

(5) If the former owner shall, within 12 months from and after the date of such sale, file with and establish to the satisfaction of the county commissioners of such county his claim to the net proceeds arising from said sale, the county commissioners shall deliver to such claimant the amount of such net balance.

#### **585.34 Inspection and transportation of meats in Florida.—**

(1) Any person engaged in the slaughter of meat-producing animals within the state may make application to the department for a permit to transport and sell his products at any place within the limits of the state.

(2) The department, on receipt of such application described above, shall cause to be made a thorough investigation of the sanitary conditions existing in such establishment, the efficiency of the inspection provided and the manner in which the food products of such establishment are slaughtered and prepared. If such establishment is found to be operating in accordance with the regulations of the department, a numbered permit shall be issued to the person making application for same.

(3) Municipal corporations may establish and maintain the inspection of slaughterhouses, abattoirs, meat-packing plants, meat and meat food products, at establishments located within their corporate limits, and elsewhere within the counties in which such municipal corporations are located and within all other counties immediately adjoining the counties in which said municipalities are located respectively, for the purpose of ascertaining whether or not meats and meat food products intended for distribution in said municipalities are fit for human consumption. No person shall be employed as such inspector unless qualified by education and experience and is a permanent resident of the state.

(4) The officials of all municipalities maintaining such inspections may, in such municipalities and counties, fix and collect fees for such inspection of such establishments and any and all meat animals and meat food products so inspected, which may be necessary to the maintenance of such inspection service, but no further inspection charge shall be made within the state.

(5) No permit shall be issued to any establishment except where the meat inspection is conducted under the supervision of the department or its duly designated representatives.

(6) The numbered permit shall be the establishment's official state number, and such number may be used to identify all passed meats and meat food products prepared in such establishment. Such permit may be revoked by the department at any time when the establishment issued such permit violates any of the regulations prescribed for efficient inspection and sanitation.

(7) All meat carcasses inspected and passed shall be branded with a rubber stamp bearing the number of the establishment and the words "Florida inspected and passed."

(8) The department may make and adopt all necessary rules and regulations for the efficient inspection, preparation, and handling of meats and meat food products in such establishments, and for the disposal of all condemned meats, and such rules and regulations shall govern the inspection of all meats

and meat food products at establishments operating under this section.

(9) There shall be required by law only one inspection of meat or meat food products as herein defined, which may be an inspection by the United States Department of Agriculture or the department; provided, however, that inspection by local municipal authorities as permitted by this law shall be considered as state inspection within this provision.

(10) When any meat or meat food product that has been inspected as provided by this law and marked "inspected and passed," shall be placed or packed in any can, pot, tin, canvas, or other receptacle or covering in any establishment where inspection under the provisions of this law is maintained, the person preparing such meat or meat food product shall cause a label to be attached to said can, pot, tin, canvas or other receptacle or covering under the supervision of an inspector, which label shall state that the contents thereof have been "inspected and passed" under the provisions of this law; and no inspection of meat or meat food products deposited or enclosed in a can, pot, tin, canvas, or other receptacle or covering in any establishment where inspection is maintained under the provisions of this law shall be deemed to be complete until such meat or meat food product has been sealed or enclosed in said can, pot, tin, canvas or other receptacle or covering under supervision of an inspector; and no such meat or meat food product shall be sold by any person in the state under any false or deceptive name; but established trademarks that are usual to such products and which are not false or deceptive, and which shall be approved by the department are permitted. The department shall confiscate and cause to be destroyed all such labels that are found to be false or deceptive.

(11) No establishment may be operated in the state for the purpose of slaughtering animals, or for the manufacture of meat food products unless such establishment is operated under federal inspection, state inspection, or approved municipal inspection. No dressed carcasses of animals intended for food purposes, parts thereof, prepared meats or meat food products shall be sold, offered for sale, exposed for sale or be possessed for sale within the state, unless the same shall bear the "inspected and passed" stamp of an establishment operating under federal inspection, state inspection or approved municipal inspection.

(12) When it is deemed necessary in order to safeguard the public health, the department shall cause to be made an ante-mortem inspection of any animals before they are slaughtered for food purposes. Satisfactory facilities shall be provided for conducting such inspection and for separating from the passed animals those deemed unfit for immediate slaughter. If any owner or person in charge is about to slaughter for food purposes any animal which the department believes may be affected with disease, the department shall notify the owner or person in charge of said animals to refrain from slaughtering them for food purposes until the ante-mortem examination is completed. Any owner or person slaughtering animals for food purposes after such notifica-

tion by the department shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. No owner or person shall be required to refrain from slaughtering animals for a period longer than 72 hours.

(13) The department may provide postmortem inspection of all animals slaughtered for food purposes in any establishment in the state. The head, tongue, tail, thymus glands, viscera, and other parts and blood used in the preparation of meat, food, meat food products, or medicinal products shall be retained in such manner as to preserve their identity until after the postmortem examination has been completed. Carcasses and parts thereof found to be sound, healthful and wholesome after inspection and otherwise fit for human food shall be passed and may be marked in the following manner: "Florida inspected and passed," or with the inspection legend of an approved and municipal inspection department, to which has been added the words "Florida approved." This mark may also include any number given the establishment. Each carcass or part thereof which is found on postmortem inspection to be unsound, unhealthful, unwholesome, or otherwise unfit for human food, shall be marked conspicuously by the inspector at the time of inspection with the words, "Florida inspected and condemned," or with the condemned brand of an approved municipal inspection department and such carcass or parts thereof, under the supervision of the inspector, shall be rendered unfit for human consumption in a manner approved by the department.

(14) Inasmuch as it cannot be determined for certain, by any present known method of inspection, whether meat is unwholesome unless the organs and other tissues of an animal are inspected when slaughtered, and as meat and products thereof from uninspected animals may be unfit for human food, the department shall seize and destroy for human food purposes any meat or meat food product that does not bear the "Inspected and passed" stamp, brand, mark, or label, as provided by this law; provided nothing herein shall affect the transportation of dead and condemned carcasses of animals to rendering plants; nor the transportation of dressed carcasses of calves for inspection to points where inspection is maintained in accordance with the provisions of this article; nor meat or meat products to which a statement is attached in accordance with the provisions of this law.

(15) The dressed carcasses of all animals intended for human consumption, parts thereof, meats, or meat food products, inspected and marked in accordance with this law may be transported or sold anywhere in the state without restriction, except that imposed upon meat or meat food products bearing the inspection stamp of the United States Department of Agriculture.

(16) It is unlawful for any person, except employees of the United States Department of Agriculture, the department or a municipal inspection department, to possess, keep or use any mark, stamp, or brand provided or used for marking, stamping, or branding the carcass of any animal, parts thereof, meats or meat food products, or to possess, keep or use any mark, stamp or brand having thereon a de-

vice or words the same or similar in character, or import to the marks, stamps, or brands provided or used by the United States Department of Agriculture, the department or of any municipal inspection department for marking, stamping, or branding the carcasses of animals or parts thereof intended for food purposes, meats, or meat food products.

(17) Every establishment in Florida, where animals are slaughtered or where meat or meat food products are prepared or processed for human consumption shall be maintained and operated in a clean and sanitary manner and inspection conducted in accordance with the provisions of this law and the regulations of the department and in the event that an establishment is not so maintained and operated the department may suspend inspection in any establishment having state inspection or municipal inspection.

(18) Nothing contained in this law shall restrict or prevent a retail meat market as a part of its retail meat business and as a consequence of same or an incident to same, from making or preparing or selling prepared meat or meat food products that are made or prepared on its own premises from meats which bear the inspected and passed stamp of federal inspection, state inspection or approved municipal inspection; provided, that said prepared meat or meat food products are sold on the premises of said retail meat market and are not made or prepared by cooking or drying. No application is required of such retail meat markets, or the owners or operators thereof for the inspection service provided for in this law and no such inspection service is required to enable them to make, prepare or sell such prepared meat or meat food products. Nothing contained in this law shall prohibit a retail meat market from selling or offering for sale meat, prepared meat, meat products, or meat food products which bear the inspected and passed stamp of federal inspection, state inspection or approved municipal inspection.

(19) It is unlawful to sell any cold storage meat that has been imported into the state from without the United States, herein referred to as foreign cold storage meat, without having first obtained a permit from the department and without having submitted all such meat for inspection and examination at port of entry and paid inspection fee required therefor. The department shall cause all such meat to be inspected upon arrival and shall establish such bacteriological or chemical standards as it deems proper to determine the wholesomeness and fitness of such meat for human consumption; any meats found unfit for human consumption shall be marked conspicuously with the words "Fla. inspected and condemned" and the sale thereof for human food is prohibited. All meats inspected and passed for food, as provided in this subsection, shall be marked with a stamp of such size and design as shall be required by the rules and regulations established by the department for the enforcement of this section, and shall bear the words "foreign cold storage meat inspected and passed." Such meat, when displayed for sale, shall bear placard showing that it is foreign cold storage meat, which placard shall also contain the name of the country of origin. Such meats shall at all times be subject to reinspection. The department is

hereby authorized to collect reasonable fees for inspection service provided for in this subsection.

(20) The department shall make available a qualified inspector at each slaughterhouse or meat packing or processing plant in the state at all times when the same is operating, in order that no loss or delay may result to such slaughterhouse or packing plant by reason of the unavailability of a qualified inspector. Should any such slaughtering, or meat processing or packing be conducted at such slaughterhouses or plants at hours considered overtime for state employees, or on legal holidays, then the owner or operator of the establishment shall, by contract or agreement with the department make arrangements to defray the additional or overtime costs for salaries and expenses for inspectors to conduct the necessary meat inspection during such overtime periods.

(21) Any person, firm, or corporation violating any of the provisions of this law, for which violation a specific penalty is not otherwise prescribed herein, shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(22) Animals slaughtered on the farm for home use by the owner thereof are exempt from this section. Also exempt are animals delivered by the owner to an establishment for custom slaughter or processing for use exclusively in the household of such owner, provided that such custom slaughterer or processor does not engage in the business of buying or selling any carcasses, parts of carcasses, meat, or meat food products capable of use as human food.

(23) No person, firm, or corporation shall engage in the business of buying, selling, transporting, or receiving for transportation in intrastate commerce any dead, dying, disabled, or diseased animals, any parts of the carcasses of any animals that died otherwise than by slaughter, or any inedible meat or meat product that is capable of use as human food unless such animals, parts, or products have been visibly denatured by an approved method such as dye, except in accordance with such regulations as the department may prescribe to assure that such animals, or parts or products thereof, will be prevented from being used for human food purposes.

**590.31 Southeastern Interstate Forest Fire Protection Compact.**—The Governor on behalf of this state is hereby authorized to execute a compact, in substantially the following form, with any one or more of the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, and the Legislature hereby signifies in advance its approval and ratification of such compact:

**SOUTHEASTERN INTERSTATE FOREST  
FIRE PROTECTION COMPACT**

**ARTICLE I**

The purpose of this compact is to promote effective prevention and control of forest fires in the southeastern region of the United States by the development of integrated forest fire plans, by the maintenance of adequate forest firefighting services by the member states, by providing for mutual aid in fighting forest fires among the compacting states of the region and with states which are party to other regional forest fire protection compacts or agreements, and for more adequate forest protection.

**ARTICLE II**

This compact shall become operative immediately, as to those states ratifying it whenever any two or more of the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, which are contiguous have ratified it and congress has given consent thereto. Any state not mentioned in this article which is contiguous with any member state may become a party to this compact, subject to approval by the legislature of each of the member states.

**ARTICLE III**

In each state, the state forester or officer holding the equivalent position who is responsible for forest fire control shall act as compact administrator for that state and shall consult with like officials of the other member states and shall implement cooperation between such states in forest fire prevention and control.

The compact administrators of the member states shall coordinate the services of the member states and provide administrative integration in carrying out the purposes of this compact.

There shall be established an advisory committee of legislators, forestry commission representatives, and forestry or forest products industries representatives which shall meet from time to time with the compact administrators. Each member state shall name one member of the senate and one member of the house of representatives who shall be designated by that state's commission on interstate cooperation,

or if said commission cannot constitutionally designate the said members, they shall be designated in accordance with laws of that state; and the governor of each member state shall appoint two representatives, one of whom shall be associated with forestry or forest products industries to comprise the membership of the advisory committee. Action shall be taken by a majority of the compacting states, and each state shall be entitled to one vote.

The compact administrators shall formulate and, in accordance with need, from time to time, revise a regional forest fire plan for the member states.

It shall be the duty of each member state to formulate and put in effect a forest fire plan for that state and take such measures as may be necessary to integrate such forest fire plan with the regional forest fire plan formulated by the compact administrators.

#### ARTICLE IV

Whenever the state forest fire control agency of a member state requests aid from the state forest fire control agency of any other member state in combating, controlling or preventing forest fires, it shall be the duty of the state forest fire control agency of that state to render all possible aid to the requesting agency which is consonant with the maintenance of protection at home.

#### ARTICLE V

Whenever the forces of any member state are rendering outside aid pursuant to the request of another member state under this compact, the employees of such state shall, under the direction of the officers of the state to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the state to which they are rendering aid.

No member state or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance, or use of any equipment or supplies in connection therewith; provided, that nothing herein shall be construed as relieving any person from liability for his own negligent act or omission or as imposing liability for such negligent act or omission upon any state.

All liability, except as otherwise provided hereinafter, that may arise either under the laws of the requesting state or under the laws of the aiding state or under the laws of a third state on account of or in connection with a request for aid, shall be assumed and borne by the requesting state.

Any member state rendering outside aid pursuant to this compact shall be reimbursed by the member state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries, and subsistence of employees and maintenance of equipment incurred in connection with such request; provided, that nothing herein contained shall prevent any assisting member state from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such service to the receiving member state without charge or cost.

Each member state shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such state.

For the purposes of this compact the term employee shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding state under the laws thereof.

The compact administrators shall formulate procedures for claims and reimbursement under the provisions of this article, in accordance with the laws of the member states.

#### ARTICLE VI

Ratification of this compact shall not be construed to affect any existing statute so as to authorize or permit curtailment or diminution of the forest fire-fighting forces, equipment, services or facilities of any member state.

Nothing in this compact shall be construed to limit or restrict the powers of any state ratifying the same to provide for the prevention, control and extinguishment of forest fires, or to prohibit the enactment or enforcement of state laws, rules or regulations intended to aid in such prevention, control and extinguishment in such state.

Nothing in this compact shall be construed to affect any existing or future cooperative relationship or arrangement between any federal agency and a member state or states.

#### ARTICLE VII

The compact administrators may request the United States Forest Service to act as a research and coordinating agency of the Southeastern Interstate Forest Fire Protection Compact in cooperation with the appropriate agencies in each state, and the United States Forest Service may accept responsibility for preparing and presenting to the compact administrators its recommendations with respect to the regional fire plan. Representatives of any federal agency engaged in forest fire prevention and control may attend meetings of the compact administrators.

#### ARTICLE VIII

The provisions of articles IV and V of this compact which relate to mutual aid in combating, controlling or preventing forest fires shall be operative as between any state party to this compact and any other state which is party to a regional forest fire protection compact in another region; provided, that the legislature of such other state shall have given its assent to such mutual aid provisions of this compact.

#### ARTICLE IX

This compact shall continue in force and remain binding on each state ratifying it until the legislature or the governor of such state, as the laws of such state shall provide, takes action to withdraw therefrom. Such action shall not be effective until 6 months after notice thereof has been sent by the chief executive of the state desiring to withdraw to

## CHAPTER 600

## CITRUS MARKETING

- 600.011 Short title.
- 600.021 Declaration of state policy.
- 600.031 Purposes of law.
- 600.041 Definitions.
- 600.051 Marketing agreements; powers of department.

**600.011 Short title.**—This act may be known and cited as "Florida Citrus Marketing Act."

*History.*—s. 6, ch. 61-88.

**600.021 Declaration of state policy.**—This act is passed:

(1) In the exercise of the police power of this state to promote and protect the public health, peace, safety, and general welfare, and to stabilize and protect the citrus fruit industry of the state.

(2) Because the citrus fruit crop grown in Florida comprises the major agricultural crop of Florida and the marketing thereof is affected with a public interest.

(3) Because it is hereby found and declared that because of the increased and ever-increasing production of citrus fruit in Florida and elsewhere, except in years of freezes or other disasters that substantially reduce the total crop, the marketing of citrus fruit grown in Florida in excess of reasonable and normal market demands therefor, disorderly marketing of such citrus fruit, unfair methods of competition in the marketing of such citrus fruit, and the inherent inability of individual producers to develop new and larger markets for Florida grown citrus fruit result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions and the accompanying waste jeopardize the future continued production of quality citrus fruit for the people of this and other states and areas, and prevent citrus fruit producers from obtaining a fair return from their labor, the citrus fruit which they produce, and impair the economic value of their citrus fruit groves. As a consequence, the purchasing power of such producers has been in the past, and in all likelihood will continue to be in the future, unless such conditions are remedied, low in relation to that of persons engaged in other gainful occupations within this state. Citrus fruit producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to unfairly increase the tax burdens of other citizens of this state.

(4) Because the conditions hereinbefore described and set forth vitally concern the health, peace, safety, and general welfare of the people of this state, it is hereby declared to be the policy of this state to aid citrus fruit producers and handlers in preventing economic waste in the production and marketing of their citrus fruit, to develop more efficient and equitable methods in the marketing of cit-

rus fruit, and to aid citrus fruit producers and handlers in restoring and maintaining their purchasing power at a more adequate, equitable and reasonable level.

*History.*—s. 1, ch. 61-88.

**600.031 Purposes of law.**—The purposes of this act are:

(1) To enable citrus fruit producers of this state, with the aid and under the direction and control of the state, more effectively to correlate the production and marketing of their citrus fruit with market demands therefor.

(2) To establish and maintain orderly marketing of citrus fruit grown in Florida.

(3) To provide methods and means for the development of new and larger markets for citrus fruit grown in Florida.

(4) To eliminate or reduce economic waste in the production, handling, and marketing of citrus fruit grown in Florida.

(5) To restore and maintain adequate purchasing power for the citrus fruit producers of Florida.

(6) To conserve the agricultural wealth of the state.

*History.*—s. 2, ch. 61-88.

#### **600.051 Marketing agreements; powers of department.—**

(1) In order to effectuate the declared policy and purposes of this act, the department shall have the power to enter into, administer, and enforce marketing agreements with handlers and distributors engaged in any one or more of the citrus districts established in and by s. 601.09, in the handling and distributing of citrus fruit in fresh fruit form or any variety or varieties, grade, size, or quality thereof, regulating the handling of such citrus fruit in the way and manner and to the extent therein prescribed and agreed upon, which said marketing agreements shall be binding only upon the signatories thereto exclusively. The execution of any such marketing agreement shall in no manner affect the issuance, administration, or enforcement of any marketing order otherwise provided for by chapter 601, and any marketing agreement executed hereunder shall be ineffective to the extent that it is in conflict with any rule, regulation, marketing order, or marketing agreement under any federal law relating to the handling of citrus fruit grown in Florida.

(2) The department may issue and execute a

marketing agreement, or any amendment thereof after its issuance, if it finds and sets forth in such marketing agreement that such agreement or amendment, as the case may be, will, with respect to the citrus fruit covered thereby, tend to:

(a) Reestablish or maintain prices received by producers for citrus fruit at a level which will give to such citrus fruit a purchasing power, with respect to the articles and services which producers commonly buy, equivalent to the purchasing power of such citrus fruit in the base period. The base period shall be such prior period in which the department finds that:

1. The volume of production of citrus fruit was adequate to supply the requirements of consumers thereof; and

2. The returns to producer of citrus fruit were sufficient to provide an adequate standard of living to the citrus fruit producer and his family.

(b) Approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for citrus fruit.

(c) Prevent the unreasonable or unnecessary waste of the wealth of the citrus fruit industry of Florida by developing new and larger markets for citrus fruit.

(d) Protect the interests of consumers of citrus fruit by exercising the powers of this act only to such extent as is necessary to establish the equality of purchasing power described in paragraph (a).

(3) In making the findings set forth above in this section, the department shall take into consideration any and all facts available to it with respect to the following economic factors:

(a) The quantity of citrus fruit available for distribution.

(b) The quantity of citrus fruit normally required by consumers.

(c) The cost of producing citrus fruit as determined by available records, statistics, and surveys.

(d) The purchasing power of consumers as indicated by reports and indices.

(e) The level of prices of similar and other commodities which compete with or are utilized as substitutes for Florida citrus fruit.

(4) Subject to the legislative restrictions and limitations set forth herein, any marketing agreement entered into between the department and signatories thereto pursuant to this act may contain any or all of the following provisions for regulating the handling or distributing of citrus fruit in fresh fruit form within this state in the primary channel of trade, but no others:

(a) Provisions for determining the existence and extent of the surplus of citrus fruit or of any variety, grade, size, or quality thereof, and providing for the control and distribution of such surplus and for equalizing the burden of such surplus elimination or control among the handlers or other distributors affected.

(b) Provisions for limiting the total quantity of citrus fruit, or of any variety, grade, size, or quality thereof, which may be distributed or otherwise handled in the primary channel of trade by any and all affected persons engaged in such distributing or handling during any specified period or periods. The to-

tal quantity of any such citrus fruit so regulated and permitted to be distributed, or otherwise handled, shall not be less than the quantity which the department finds is reasonably necessary to supply the market demands of consumers of such citrus fruit.

(c) Provisions for allotting the quantity of citrus fruit, or of any variety, grade, size, or quality thereof, which each handler signatory to such agreement may purchase or acquire from, or handle on behalf of, any and all producers thereof in the primary channel of trade during any specified period or periods, under a uniform rule applicable to all handlers so regulated based upon the current season's production or sales of such producers, or upon production or sales of such producers in such prior period as the department determines to be representative, or both, to the end that the total quantity of such citrus fruit or any variety, grade, size, or quality thereof, so purchased or handled in the primary channel of trade, shall be apportioned equitably among the producers thereof.

(d) Provisions for the establishment of surplus or reserve pools of citrus fruit, or of the representative value of such citrus fruit, or of any variety, grade, size or quality thereof, and providing for the sale or

other disposition of such surplus citrus fruit and the equitable distribution among the persons interested therein of the net returns or other consideration derived from the sale or other disposition of such citrus fruit or such distribution of such representative value of such citrus fruit.

(e) Prohibiting unfair methods of competition and unfair trade practices.

(f) Provisions for the establishment of plans or programs for advertising, merchandising, sales promotion and incentive payments, or matters connected therewith, to create new or larger markets for citrus fruit or any variety, grade, size, or quality thereof grown in the state.

(g) Provisions incidental to and not inconsistent with the terms, conditions, and provisions hereinbefore specified and necessary to effectuate the other provisions of such marketing agreement and the provisions of this act, including, but not limited to, provisions for paying the costs and expenses of administration of any such agreement, and provisions for penalties and for liquidated damages for violation of any such agreement.

**601.01 Short title.**—This chapter may be known and cited as "The Florida Citrus Code of 1949."

*History.*—s. 1, ch. 25149, 1949.

**601.02 Purposes.**—This chapter is passed:

(1) In the exercise of the police power to protect health and welfare and to stabilize and protect the citrus industry of the state.

(2) Because the planting, growing, cultivating, spraying, pruning, and fertilizing of citrus groves and the harvesting, hauling, processing, packing, canning, and concentrating of the citrus crop produced thereon is the major agricultural enterprise of Florida and, together with the sale and distribution of said crop, affects the health, morals, and general economy of a vast number of citizens of the state who are either directly or indirectly dependent thereon for a livelihood, and said business is therefore of vast public interest.

(3) Because it is wise, necessary, and expedient to protect and enhance the quality and reputation of Florida citrus fruit and the canned and concentrated products thereof in domestic and foreign markets.

(4) To provide means whereby producers, packers, canners, and concentrators of citrus fruit and the canned and concentrated products thereof may secure prompt and efficient inspection and classification of grades of citrus fruit and the canned and concentrated products thereof at reasonable costs, it being hereby recognized that the standardization of the citrus fruit industry of Florida by the proper grading and classification of citrus fruit and the canned and concentrated products thereof by prompt and efficient inspection under competent authority is beneficial alike to producer, packer, shipper, canner, concentrator, carrier, receiver, and consumer in that it furnishes them prima facie evidence of the quality and condition of such products and informs the carrier and receiver of the quality of the products carried and received by them and assures the ultimate consumer of the quality of the products purchased.

(5) To stabilize the Florida citrus industry and to protect the public against fraud, deception, and financial loss through unscrupulous practices and haphazard methods in connection with the processing and marketing of citrus fruit and the canned or concentrated products thereof.

(6) Because said act is designed to promote the general welfare of the Florida citrus industry, which in turn will promote the general welfare and social and political economy of the state.

In the event any word, phrase, clause, sentence, paragraph, or section of this chapter is declared unconstitutional by any court of competent jurisdiction, then such declaration of such unconstitutionality shall not affect the remainder of this chapter, and the unconstitutional portion shall be considered severable, it being the intent of the Legislature that the remainder of this chapter shall continue in full force and effect.

(1) The Legislature of the state finds and declares that emergencies creating abnormal conditions in the Florida citrus industry, such as unusual climatic conditions that produce unusual growing conditions of citrus fruit, freezes and hurricanes, or other acts of God that may affect a substantial part of the citrus industry, require that the Department of Citrus be given the power and authority to lower the maturity standards established by law for citrus fruit or any variety thereof, not including oranges except as to minimum juice content requirement, under and subject to the limitations, conditions, re-

1. With respect to the quality and maturity of said fruit and the juices thereof, including proper effort to assemble data and arrive at a proper standard of quality, grade, and maturity with reference to its texture, stability, and general marketability and so far as possible reduce such findings to specific and readily understood chemical, mathematical, or descriptive terms, and

#### **601.14 Transportation problems affecting citrus; investigation by Department of Citrus; appropriation.—**

(1) It shall be the duty of the Department of Citrus to cause to be investigated the transportation problems affecting the Florida citrus industry and the lawfulness of any and all existing or proposed rates, charges, rules, regulations, or practices affecting any rate or charge in so far as the same may affect the Florida citrus industry and, to that end, shall cause such proper investigations to be made by other agencies established and existing for the purpose of handling such problems. The Department of Citrus may authorize such other agency as selected by it to compile the facts concerning the transportation rates, charges, rules, regulations, or practices affecting the Florida citrus industry and, when any such transportation rate, charge, rule, regulation, or practice is in its opinion excessive, unjust, unreasonable, discriminating in nature, or otherwise unlawful, may cause such agency to file with the Interstate Commerce Commission or other proper regulatory

body complaints, protests, petitions, or other pleadings and papers and to participate in any proceedings or hearings concerning the same to the end that the Florida citrus industry may be fully protected in obtaining and enjoying just, reasonable, and otherwise lawful transportation rates and charges. In the performance of any such duties, the Department of Citrus shall pay such agency so selected by it such reasonable compensation as the Department of Citrus may fix for defraying the expenses of the agency, including the employment of counsel, rate experts, accountants, or other assistants in any such proceeding or hearing.

(2) There is hereby appropriated and made available during each year for the expenses of the administration and enforcement of this section from the moneys derived from the excise taxes levied for advertising on citrus fruit such amounts as the Department of Citrus may deem necessary within the percentage limitations imposed by s. 601.15. In case any expenditure is made as authorized herein, it shall be charged against the excise taxes levied upon each respective type of citrus fruit pro rata as the Department of Citrus may find it is affected by such expenditure.

**601.15 Advertising campaign; methods of conducting; excise tax; emergency reserve fund; grapefruit brand advertising rebates; citrus research.—**

(1) The administration of this section shall be vested in the Department of Citrus which shall prescribe suitable and reasonable rules and regulations for the enforcement hereof and the Department of Citrus shall administer the taxes levied and imposed hereby. Said Department of Citrus shall have power to cause its duly authorized agent or representative to enter upon the premises of any handler of citrus fruits and to examine or cause to be examined any books, papers, records, or memoranda bearing on the amount of taxes payable and to secure other information directly or indirectly concerned in the enforcement hereof. Any person required to pay the taxes levied and imposed who shall by any practice or evasion make it difficult to enforce the provisions hereof by inspection or any person who shall, after demand by the Department of Citrus or any agent or representative designated by it for that purpose, refuse to allow full inspection of the premises or any part thereof or any books, records, documents, or other instruments in any manner relating to the liability of the taxpayer for the tax imposed or shall hinder or in anywise delay or prevent such inspection shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(2) The Department of Citrus shall plan and conduct a campaign for commodity advertising, publicity, and sales promotion to increase the consumption of citrus fruits and may contract for any such advertising, publicity, and sales promotion service. To accomplish such purpose, the Department of Citrus shall have power, and it shall be its duty, to disseminate information:

(a) Relating to citrus fruits and the importance

thereof in preserving the public health, the economy thereof in the diet of the people, and the importance thereof in the nutrition of children;

(b) Relating to the manner, method, and means used and employed in the production and marketing of citrus fruits and to laws of the state regulating and safeguarding such production and marketing;

(c) Relating to the added cost to the producer and dealer in producing and handling citrus fruits to meet the high standards imposed by the state that insure a pure and wholesome product;

(d) Relating to the effect upon the public health which would result from a breakdown of the Florida citrus industry or any part thereof;

(e) Relating to the reasons why producers and dealers should receive a reasonable return on their labor and investment;

(f) Relating to the problem of furnishing the consumer at all times with an abundant supply of fine quality citrus fruits at reasonable prices;

(g) Relating to factors of instability peculiar to the citrus fruit industry, such as unbalanced production, effect of the weather, influence of consumer purchasing power, and price relative to the cost of other items of food in the normal diet of people, all to the end that an intelligent and increasing consumer demand may be created;

(h) Relating to the possibilities with particular reference to increased consumption of citrus fruits;

(i) Relating to such other, further, and additional information as shall tend to promote increased consumption of citrus fruits and as may foster a better understanding and more efficient cooperation among producers, dealers, and the consuming public;

(j) To decide upon some distinctive and suggestive trade name and to promote its use in all ways to advertise Florida citrus fruit.

(3)(a) There is hereby levied and imposed the following excise taxes upon each standard-packed box of the following citrus fruit grown in this state, to wit: grapefruit, 6 cents per box; oranges, 8 cents per box; tangerines, 5 cents per box; and citrus hybrids regulated by the Department of Citrus, 5 cents per box.

(b) When grapefruit are purchased, acquired, or handled on a weight basis rather than under the standard-packed-box basis, 85 pounds thereof shall be considered equal to or the equivalent of one standard-packed box for tax purposes under this section.

(c) When oranges are purchased, acquired, or handled on a weight basis rather than under the standard-packed-box basis, 90 pounds thereof shall be considered equal to or the equivalent of one standard-packed box for tax purposes under this section.

(d) When tangerines are purchased, acquired, or handled on a weight basis rather than under the standard-packed-box basis, 95 pounds thereof shall be considered equal to or the equivalent of one standard-packed box for tax purposes under this section.

(e) The taxes imposed by the provisions of this section shall not apply to citrus fruit consumed for domestic purposes on the premises where produced.

(f) When citrus hybrids are purchased, acquired, or handled on a weight basis rather than under the standard-packed-box basis, 90 pounds shall be equal

to, or the equivalent of, one standard-packed box for tax purposes under this section, unless otherwise established by regulation of the Department of Citrus.

(4) Every handler shall keep a complete and accurate record of all citrus fruit handled by him. Such record shall be in such form and contain such other information as the Department of Citrus shall by rule or regulation prescribe. Such records shall be preserved by such handlers for a period of 1 year and shall be offered for inspection at any time upon oral or written demand by the Department of Citrus or its duly authorized agents or representatives.

(5) Every handler shall, at such times and in such manner as the Department of Citrus may by rule require, file with the Department of Citrus a return certified as true and correct, on forms furnished by the Department of Citrus, stating, in addition to other information, the number of standard-packed boxes of each kind of citrus fruit handled by such handler in the primary channel of trade during the period of time covered by the return. Full payment of all excise taxes due for the period reported shall accompany each handler's return.

(6)(a) All excise taxes levied and imposed pursuant to the provisions of this section shall be due and payable and shall be paid, or the amount thereof guaranteed as hereinafter provided, at the time the citrus fruit is first handled in the primary channels of trade. All such taxes shall be paid, or the payment thereof guaranteed, to the Department of Citrus by the person first handling the fruit in the primary channel of trade, except that payment of taxes on fruit delivered or sold for processing in this state shall be paid, or payment thereof guaranteed in accordance with Department of Citrus rules, by the person processing such fruit.

(b) Periodic payment of excise taxes upon citrus fruit by the person liable for such payment shall be permitted only in accordance with Department of Citrus rules, and the payment thereof shall be guaranteed by the posting of an approved surety bond or cash deposit in an amount and manner as prescribed by Department of Citrus rule. Evidence of such guarantee of payment of excise taxes shall be made on the grade certificate in such manner and form as may be prescribed by Department of Citrus rule.

(c) All taxes collected by the Department of Citrus shall be delivered to the State Treasury for payment into the proper advertising fund.

(7) All excise taxes levied and collected under the provisions of this chapter shall be paid into the State Treasury on or before the 15th day of each month, such moneys to be accounted for in a special fund to be designated as the Florida Citrus Advertising Trust Fund, and all moneys in such fund are hereby appropriated to the Department of Citrus for the following purposes:

(a) Two percent of all income of a revenue nature deposited in this fund, including transfers from any subsidiary accounts thereof, shall be deposited in the General Revenue Fund in lieu of the service charge provided for in s. 215.20; provided, however, that if any moneys are withdrawn from the trust fund for investment, such 2 percent shall not again be

charged against said moneys when they are redeposited in the trust fund.

(b) An amount equal to one-half of the amount deposited in the General Revenue Fund pursuant to paragraph (a) shall be set aside in the Florida Citrus Advertising Trust Fund to be used exclusively for citrus research by the Department of Citrus.

(c) Not more than 24 percent of such trust fund shall be expended for the activities authorized by ss. 601.13 and 601.14 and for the cost of those general overhead, research and development, maintenance, salaries, professional fees, enforcement costs, and other such expenses which are not related to advertising, merchandising, public relations, trade luncheons, publicity, and other associated activities. The cost of general overhead, maintenance, salaries, professional fees, enforcement costs, and other such expenses which are related to advertising, merchandising, public relations, trade luncheons, publicity, and associated activities shall be paid from the balance of the Citrus Advertising Trust Fund and shall not be included in the 24-percent limitation.

(d) An amount equal to 25 percent of the excise taxes levied and imposed by this section upon oranges shall be set aside in the Florida Citrus Advertising Fund as a reserve fund to be used only to conduct intensive campaigns of commodity advertising and sales promotion of oranges, processed orange products, or orange byproducts. Upon the completion of any such intensive campaign of commodity advertising and sales promotion, the balance remaining shall be retained in said reserve fund. The sums so set aside in said special reserve fund shall not be removed therefrom but shall continue to be so held solely for use in campaigns of commodity advertising and sales promotion of oranges, processed orange products, or orange byproducts.

(e) The balance of the moneys in the Florida Citrus Advertising Trust Fund shall be used by the Department of Citrus for defraying those expenses not included within the 24-percent limitation established by paragraph (c). After payment of said expenses, the money levied and collected under the provisions of subsection (3) shall, except as provided in paragraph (f), be used exclusively for commodity advertising, merchandising, publicity, or sales promotion of citrus fruits, either in fresh or processed form, including citrus cattle feed and all other products of citrus fruits, produced in the state, in such equitable manner and proration as the Department of Citrus may determine, but funds expended for advertising thereunder shall be expended through an established advertising agency.

(f) Upon an affirmative vote of nine of its members the commission may, during each year for no more than 3 consecutive years, authorize up to 10 percent of the moneys levied and collected under the provisions of subsection (3) during each of the years, up to a maximum of 3 years, to be expended for noncommodity advertising, merchandising, publicity, and sales promotion of such citrus fruits and products thereof, including brand advertising rebate programs that supplement other department advertising, merchandising, publicity, or sales promotion activities. The moneys expended hereunder shall be expended in regard to such citrus fruits and products

thereof in such equitable manner and proration as the Department of Citrus may determine.

(8)(a) On certification by any employee of the Department of Citrus that his actual and necessary expenses on any particular day while traveling outside of the state exceeded the per diem provided by law, such employee shall show such excess on his regular expense voucher and support the same by the proof required pursuant to rules and regulations to be promulgated by the Department of Citrus.

(b) The Department of Citrus is authorized to spend such amount as it deems advisable for guests involved in promotional activities in the sale of Florida citrus fruits and products.

(c) All obligations, expenses, and costs incurred under the provisions of this section shall be paid out of the Citrus Advertising Fund upon warrant of the Comptroller when vouchers thereof, approved by the Department of Citrus, are exhibited.

(9)(a) Any handler who fails to file a return or to pay any tax within the time required shall thereby forfeit to the Department of Citrus a penalty of 5 percent of the amount of tax determined to be due; but the Department of Citrus, if satisfied that the delay was excusable, may remit all or any part of said penalty. Such penalty shall be paid to the Department of Citrus and disposed of as provided with respect to moneys derived from the taxes levied and imposed by subsection (3).

(b) The Department of Citrus may collect the taxes levied and assessed by subsection (3) in either or all of the following methods:

1. By the voluntary payment by the person liable therefor;

2. By a suit at law;

3. By a suit in equity to enjoin and restrain any handler, citrus fruit dealer, or other person owing said taxes from operating his business or engaging in business as a citrus fruit dealer until the delinquent taxes are paid. Such action may include an accounting to determine the amount of taxes plus delinquencies due. In any such proceeding, it shall not be necessary to allege or prove that an adequate remedy at law does not exist;

4. By use of the method provided for in s. 205.121, in the collection of delinquent license or privilege taxes by state and county officials.

(10) The powers and duties of the Department of Citrus shall include the following:

(a) To adopt and from time to time alter, rescind, modify, and amend all proper and necessary rules, regulations, and orders for the exercise of its powers and the performance of its duties under this chapter;

(b) To employ and at its pleasure discharge an advertising manager, agents, advertising agencies, and such clerical and other help as it deems necessary and to outline their powers and duties and fix their compensation;

(c) To make in the name of the Department of Citrus such advertising contracts and other agreements as may be necessary;

(d) To keep books, records, and accounts of all of its doings, which books, records, and accounts shall be open to inspection and audit by the Auditor General at all times;

(e) To purchase or authorize the purchase of all

office equipment and supplies and to incur all other reasonable and necessary expenses and obligations in connection with and required for the proper carrying out of the provisions of this chapter;

(f) To conduct and pay out of the Florida Citrus Advertising Trust Fund, premium and prize promotions designed to increase the use of citrus in any form;

(g) To advertise citrus cattle feed and promote its use.

#### **601.151 Additional tax on fresh fruit; brand advertising rebates, special promotion.—**

(1) There is hereby levied and imposed an additional excise tax of 2 cents per box upon each standard-packed box of citrus fruit taxed under s. 601.15 grown in Florida that is sold or delivered for shipment in fresh form.

(2) One-half of the tax collected by the Department of Citrus under this section shall be set aside in the Florida Citrus Advertising Trust Fund as a special fund to be known as the reserve fund for fresh fruit brand advertising refunds. The Department of Citrus is hereby authorized and directed to issue and promulgate rules and regulations relating to the administration and expenditure of said reserve fund. The reserve fund shall be used exclusively to refund handlers as a rebate for brand advertising for fresh citrus fruit upon a basis not to exceed \$1 for each \$2 spent in brand advertising. No handler shall receive in rebate with respect to any shipping season more than he has paid in such shipping season in additional taxes levied by this section.

(3) The term "advertising" shall be restricted to point-of-sale material, price cards, or other printed matter used in the display of fresh citrus fruit and to newspaper, billboard, magazine, radio, and television advertising, or other advertising or promotional activities approved by the Florida Citrus Commission under such conditions as the Department of Citrus may by rule prescribe.

(4) As of September 15 of each year, the Department of Citrus shall determine what claims have been filed against said reserve fund, and thereupon any balance remaining in said reserve fund over and above the amount of such claims shall be released therefrom and expended according to the provisions of subsection (5). If, with respect to any shipping season, such claims for refunds exceed in the aggregate the amount of such reserve fund for that season, such claims shall be paid on a pro rata basis.

(5) Such portion of the additional excise taxes levied and collected hereunder, after deducting the 2 percent service charge provided by s. 601.15(7), which is not set aside in a reserve fund to refund handlers as a rebate for brand advertising as hereinbefore provided shall, to the extent the Department of Citrus finds practicable, be expended in special advertising and sales promotion campaigns to enlarge the distribution and sale of the fresh citrus fruit taxed thereby.

(6) The definitions contained in s. 601.03 shall apply to this section. The provisions of s. 601.15, as now existing or hereafter amended, not inconsistent with the express provisions of this section, shall apply to this section.

#### **601.1515 Grapefruit Offshore Export Indemnity Act.—**

(1) It is the purpose of this act, in the exercise of the police power of this state to promote and protect the public health, peace, safety and general welfare and to stabilize and protect the citrus industry of this state. The citrus fruit crop grown in Florida comprises the major agricultural crop of Florida, and the marketing thereof to the economic advantage of the citrus industry is affected with a public interest and constitutes a valid public purpose. The Florida Citrus Code exists for the purpose of enhancing the welfare, economic and otherwise, of the Florida citrus industry. No single segment of the Florida citrus industry is so isolated as not to affect the whole and the welfare, economic and otherwise, of each other segment of the industry. Each segment of the industry is to some extent interdependent on the other segments of the industry.

(2) There is hereby levied and imposed, subject to the provisions of subsection (12), an additional excise tax of 2 cents per box upon each standard packed box (1½ bushels) of grapefruit grown in this state that is sold or delivered into the primary channel of trade as defined in s. 601.03(28). The taxes levied and imposed by this section shall be paid by the producer or other person delivering the grapefruit into the primary channel of trade; however, the handler who receives the grapefruit in the primary channel of trade shall not be construed to be the person delivering the grapefruit into the primary channel of trade, except when such handler and the producer are one and the same person. Such excise taxes shall be collected from the producer or other person delivering the grapefruit into the primary channel of trade by the handler first handling the grapefruit in the primary channel of trade, shall be guaranteed by the giving of a security bond or cash deposit, and shall be transmitted to the Department of Citrus by the handler so shipping or processing such grapefruit under rules promulgated by the commission. Such excise taxes shall not be absorbed by the handler, unless the handler is one and the same person as the producer, but shall be deducted by the handler from the price paid or to be paid by the handler to the producer or other person who delivered the grapefruit into the primary channel of trade.

(3) Except when inconsistent with this section, the provisions of s. 601.15 shall apply to the additional excise tax imposed by this section.

(4)(a) All excise taxes levied by this section and collected by the Department of Citrus shall be paid into the State Treasury on or before the 15th day of each month, and said moneys shall be deposited into the Florida Citrus Advertising Trust Fund.

(b) After deducting the service charge required by s. 601.15(7)(a), said moneys shall be set aside and accounted for therein as a special fund to be known

as the Grapefruit Offshore Export Indemnity Fund. All moneys in the Grapefruit Offshore Export Indemnity Fund are hereby appropriated to the Department of Citrus to be expended to indemnify only Florida handlers who ship fresh Florida grapefruit to offshore export markets where financial losses occur in regard to such shipments as the direct result of actions of foreign governments or agencies thereof, which actions the Florida handler could not foresee or could not, by the exercise of reasonable business judgment, avoid. Such actions shall include, but not be limited to, embargoes, seizures, confiscation, or other acts by foreign governments or agencies thereof.

(c) Losses not eligible for indemnity under this fund shall include, but not be limited to, those losses resulting from:

1. Fumigation conducted in Florida.
2. Decay, pitting, or other factors or conditions that may normally be encountered in the marketing of grapefruit in offshore export channels.
3. Deliberate use by the handler of the fungicides Ortho Phenyl/phenol, Sodium Ortho/Phenylphenate, or Thiabendazole, unless or until official tolerances for these fungicides have been established by the government of the importing country.

(5) Indemnification from the funds collected may be provided, in the sole discretion of the commission, either through purchase of appropriate insurance policies from licensed insurance carriers approved by the commission or through a self-insurance program, or a combination of both. The commission shall, by rule, establish administrative procedures and guidelines providing for the administration of this program, including, but not limited to, the filing of claims, determinations of amount of loss, cause of losses, validity of claims, and payment of claims. No payment on claims shall be made until the end of the shipping season for which the claim is submitted. An amount equal to 5 percent of the total proven and acceptable claim shall be deducted from each such claim, and the remaining amount shall be the maximum indemnity to which the claimant is entitled from the fund on such claim. The rules may provide that unpaid claims, or unpaid balances of pro rata payments on claims, made in regard to any shipping season may be paid from funds generated in the subsequent season or seasons. In providing procedures and guidelines to determine the amount of loss suffered by any claimant hereunder, consideration shall be given to evidence, or lack of evidence, of good faith acts by the claimant, taken within a reasonable commercial time, to mitigate any losses sought to be indemnified by this section.

(6) In carrying out the program contemplated in this section, the commission is authorized to hire, by contract or otherwise, necessary personnel, including those performing or furnishing professional or technical services, and to fix compensation and terms of employment of such personnel and to incur such expenses, to be paid by the Department of Citrus from moneys collected pursuant to this section, as the commission may deem necessary to perform properly and completely the program authorized in this section.

(7) The Department of Citrus, in administering

this section, is authorized to enter into any mutually satisfactory contracts or agreements with any person, firm, institution, corporation, or business unit, including licensed insurance carriers, as well as any state or federal agency, which the commission deems wise, necessary, and expedient, in the carrying out of the objectives of the program provided for in this section.

(8) The 2 cents-per-box tax imposed by this section shall commence on a date to be established in the order providing for the referendum in subsection (12) and shall continue for 5 years thereafter, but such commencement date shall not be later than December 1, 1976. However, the commission, upon an affirmative vote of seven of its members and an order entered by it accordingly determining that, for the purpose of this section, funds at the rate of 2 cents per box are not needed for the ensuing year, may, prior to the commencement of the tax or prior to any subsequent anniversary date of said tax up to and including the anniversary date in 1980, reduce said tax to a level of less than 2 cents per standard packed box of grapefruit, or suspend said tax entirely for the next ensuing year. If said tax has been suspended or reduced for any year, the commission, upon an affirmative vote of seven of its members and an order entered by it accordingly determining that additional funds are needed for the purposes of this section, may, prior to the first anniversary date of the commencement of the tax or prior to any subsequent anniversary date of said tax up to and including the anniversary date in 1980, reinstate said tax at the 2 cents level or less, but never to exceed 2 cents in any 1 year. If the commission has reduced or suspended the tax for any year, it may reimpose or reinstate said tax for any year within the 5 years following the commencement date of the tax, but under no circumstances shall the total tax collected during the entire 5-year period allowed for the collection of taxes exceed 10 cents per standard packed box of grapefruit. Any suspension, reduction, or reinstatement must become effective on the established anniversary date of any year. The maximum amount projected to accumulate in the Grapefruit Offshore Export Indemnity Fund shall be an amount to be determined by the commission after consideration of all relevant factors, including, but not limited to, estimated crop size, estimated export shipments, historical export market data, extent of previous claims, if any, probable extent of potential claims during next season, and amount of funds currently available. The Grapefruit Offshore Export Indemnity Program utilizing the funds collected hereunder shall not be limited in time, may extend beyond the period during which taxes are collected, and may continue until all funds are expended or until the commission determines that maximum utilization of the funds collected has been achieved for the purposes set forth. Upon such a determination by the commission that maximum utilization of funds has been achieved, any funds remaining in the Grapefruit Offshore Export Indemnity Fund shall remain in the Florida Citrus Advertising Trust Fund and are, upon that event, appropriated to the Department of Citrus for the uses and purposes prescribed in s. 601.15.

(9) If the commission finds it necessary to do so, it may transfer to the said Grapefruit Offshore Export Indemnity Fund, from any portion of the Florida Citrus Advertising Trust Fund, such sum of money as the commission determines is initially required to implement this section and the indemnity program to be carried out pursuant to it until moneys in said Grapefruit Offshore Export Indemnity Fund derived from assessments imposed and collected pursuant to this section are sufficient for such purposes, and thereafter repay such advance out of the Grapefruit Offshore Export Indemnity Fund.

(10) This section shall be liberally construed:

(a) To effectuate the purposes set forth.

(b) As an additional and supplementary power vested in the commission under the police power of this state.

(11) The commission shall appoint an advisory committee of Florida grapefruit growers, not to exceed seven members. An owner, member, officer, director, stockholder, or paid employee of a corporation, firm, or partnership engaged in growing grapefruit for shipment in the primary channel of trade shall be eligible for membership on the advisory committee. No member of the commission shall serve on the advisory committee. The purpose of the committee shall be solely to advise the commission in carrying out the duties imposed upon it pursuant to this section. The advisory committee shall be known as the Florida Grapefruit Offshore Export Indemnity Committee. Said committee shall serve at the pleasure of the commission and shall serve without pay, but may be reimbursed for such actual expenses incurred as the commission may authorize.

(12) This section shall not be implemented unless the commission determines that it has been assented to in writing by at least 55 percent of those producers of grapefruit in Florida to be taxed by this section who vote in a producer referendum to be conducted by the commission. The grapefruit producers entitled to vote shall be those producing grapefruit in Florida at the time of the referendum. Proxy voting shall not be permitted, and each qualified producer shall be entitled to one vote, regardless of the number of separate groves the producer may own. This referendum to determine the grapefruit producers' assent shall be conducted over a 30-day period, which 30-day period shall be determined and set forth in an order entered by the commission, but in no event shall said 30-day period commence later than October 15, 1976. The commission, by order, shall also specify the form of ballot to be used for voting in the referendum and such other procedures as are necessary or required to properly conduct the referendum. Notice of the referendum and the place at which ballots may be obtained shall be published one time, at least 10 days prior to the date the referendum is to commence, in at least one daily newspaper of general circulation in each of two cities within the citrus-producing area of the state to be selected by the commission.

#### **601.152 Special marketing orders.—**

(1)(a) Whenever, upon its own motion or upon petition of any handler or producer or group or association of handlers or producers of citrus fruit, the

commission, upon affirmative vote of nine of its members, determines:

1. That the conduct of a special advertising and promotional marketing campaign or the conduct of market and product research and development, in addition to the advertising campaign being conducted pursuant to s. 601.15 and the research being conducted pursuant to the other provisions of the Florida Citrus Code, may substantially further increase the consumer acceptance and consumption of, and strengthen the market for, any type, variety, or form of citrus fruit or processed citrus product by further increasing the number of families buying such citrus fruit or such processed citrus product or by further increasing the quantity of such citrus fruit or processed citrus product purchased by buying families; and

2. That such substantial further increase and strengthening may be of substantial benefit to handlers thereof, producers thereof, and to the economy and well-being of the state

the commission shall direct that a proposed marketing order be formulated for a special marketing campaign of advertising and sales promotion, including, but not limited to, brand advertising rebate promotions or the conduct of market and product research and development for such type, variety, or form of citrus fruit or processed citrus product, and shall designate a public hearing to consider adoption and implementation of such proposed marketing order.

(b) Notice of the time, place, and purpose of such public hearing shall be:

1. Mailed, not less than 10 days prior to such hearing, to each handler who, during the 12 months immediately preceding such mailing, has first handled in the primary channel of trade in Florida the type, variety, and form of citrus fruit or citrus product specified in the proposed marketing order, and to each handler who the Department of Citrus has good cause to believe will, during the period of time covered by the proposed marketing order, first handle in the primary channel of trade in Florida the type, variety, and form of citrus fruit or processed citrus product specified in such proposed marketing order.

2. Published in the Florida Administrative Weekly not less than 10 days prior to such hearing.

(c) A full and complete record of all proceedings at such public hearing shall be made and filed by the department at its offices, which record, when signed by the chairman of the commission and authenticated by the seal of the department, shall constitute prima facie evidence of said proceedings in all courts of this state.

(d) Copies of the proposed marketing order shall be made available to the public at the offices of the Department of Citrus at Lakeland at least 5 days prior to such hearing and shall be in sufficient detail to apprise all persons having an interest therein of the approximate amount of moneys proposed to be expended; the assessments to be levied thereunder; and the general details of the proposed marketing order for a special marketing campaign of advertising or sales promotion or market or product research and development. Among the details so specified shall be the period of time during which the assess-

ment imposed pursuant to subsection (8) shall be levied upon the privilege so assessed, which period shall not be greater than 2 years. The order may, however, provide that the expenditure of the funds received from the imposition of such assessments shall not be so confined, but may be expended during such time or times as shall be specified in the proposed marketing order, which may be either during the shipping season immediately preceding the shipping seasons during which such assessments are imposed or during, or at any time subsequent to, the shipping seasons during which such assessments are imposed. Nothing herein shall be construed to prevent the imposition of a subsequent marketing order either before, during, or after the expenditure of funds collected pursuant to a previously imposed marketing order, provided the aggregate of the assessments imposed shall not exceed the maximum permitted under subsection (8).

(e) A proposed marketing order shall specify the type, variety, and form of citrus fruit or processed citrus product to be covered by the order and whether it applies:

1. To such citrus fruit or processed citrus product if it was so packed or processed from fruit first placed in the primary channel of trade in Florida during the period of time specified in the marketing order for the imposition of such assessments, or

2. To such citrus fruit or processed citrus product if it was so packed, processed, or shipped in such type, variety, and form during the period of time specified in the marketing order for the imposition of such assessments.

(f) If a marketing order provides for a brand advertising rebate promotion, the details specified shall include the requirements which must be met by the handler, broker, distributor, or grower in order to be eligible for rebate of advertising or promotional expenditures; the amount, or a method for computing the amount, rebatable; and the procedure for making rebates.

(g) Any marketing order may provide that policy decisions with respect to details not specifically set forth in such marketing order may be made either by the commission upon its own motion or by the commission upon the recommendation of any handlers' committee that may be established by the order. Otherwise such policy decisions shall be made by the commission.

(2) After such notice and hearing, the commission shall determine whether or not implementation of the new special marketing order, as originally proposed or as amended at the public hearing, will substantially further increase the consumer acceptance and consumption of the citrus fruit or processed citrus product specified in such marketing order and that such substantial further increase in the consumer acceptance and consumption thereof will be of substantial benefit to the handlers and producers thereof and to the economy and well-being of the state. If the commission so determines and if it adopts a marketing order, the commission shall direct that such marketing order be subjected to a referendum of the handlers who have, during a representative period to be selected by the commission, handled in the primary channel of trade in Florida

the type, variety, and form of citrus fruit or processed citrus product specified in such marketing order.

(3) No marketing order adopted pursuant to this section shall be effective unless and until the commission, at a public meeting, determines such marketing order to have been assented to by referendum by at least 67 percent of the handlers covered by the marketing order who, during the representative period determined by the commission, first handled in the primary channel of trade in Florida not less than 51 percent of the total volume of the type, variety, and form of citrus fruit or processed citrus product specified in the marketing order.

(4) The Department of Citrus is authorized to prescribe such procedures as it deems necessary properly to conduct a referendum among handlers covered by the marketing order to determine whether such marketing order has been so assented to.

(5)(a) Any marketing order adopted pursuant to this section and subsequently approved by referendum as provided herein shall become effective 15 days after referendum approval is officially determined by the commission. Chapter 120 shall not apply to this section. Any such marketing order shall be reviewable by any person adversely affected, by certiorari to the District Courts of Appeal in the manner prescribed by the Florida Appellate Rules. The venue of the proceeding for such review shall be the appellate district which includes the county in which the hearings were conducted or, if the venue cannot be thus determined, the appellate district wherein the Department of Citrus executive offices are located.

(b) In cases in which certiorari is granted pursuant to this section, the court may issue its mandate or order with directions to the agency to enter in the proceedings as is appropriate on the record, or the court may remand the cause for such further proceedings, including the taking of testimony, as may to the court seem necessary or proper:

1. To accord the parties due process of law;
2. To establish a sufficient record for review;
3. To accord the parties their constitutional, statutory, or procedural rights; or
4. To accomplish the purposes and objectives of the law pursuant to which the administrative proceeding was initiated.

(6) Any marketing order so implemented under this section may be amended subsequent to its implementation, provided such amendment shall have been formulated, published, subjected to public hearing, determined by the commission to meet the requirements set forth in the other subsections hereof, and assented to in the same manner and in accordance with all of the procedures and requirements set forth in this section for implementation of the original marketing order. Any such amendment may:

(a) Terminate, extend, accelerate, or defer the conduct of the campaign.

(b) Defer for one or more shipping seasons the imposition of assessments thereunder.

(c) Extend by not more than 2 additional years the period of time during which the assessments imposed pursuant to subsection (8) may be levied upon the privilege so assessed.

(d) Increase (subject to the maximum limitations imposed herein) or reduce the assessments or the amount of moneys to be expended.

(e) Alter the general details of the campaign.

(f) Otherwise amend the originally implemented marketing order.

(7) For the purpose of carrying out any and all provisions of this section, the department, or its duly authorized or designated representative or representatives, may hold hearings, take testimony, and administer oaths. Copies of the proceedings, records, and acts of the department and the handlers' committee, if any, established by the marketing order and certificates purporting to relate the facts concerning such proceedings, records, and acts signed by the chairman of the commission and authenticated by the seal of the department shall be prima facie evidence thereof in all the courts of the state.

(8)(a) Each person who, during the period of time specified in any marketing order implemented pursuant to this section, first handles in the primary channel of trade in Florida any citrus fruit or processed citrus product of the type, variety, and form specified in such marketing order shall, for the privilege of so handling such citrus fruit or such citrus product, pay to the Department of Citrus such assessments as are levied and imposed thereon by such marketing order, which funds shall be used by the Department of Citrus to defray the necessary expenses incurred in the formation, issuance, administration, and enforcement of such marketing order and in the conduct of the special marketing campaign or market and product research and development provided for in such marketing order. However, such assessments levied and imposed pursuant hereto shall be at a rate not to exceed 8 cents per standard-packed box on citrus fruits in fresh form, 1.3 cents per gallon on single strength citrus juices or sections, or 1.3 cents per pound of soluble citrus solids on concentrated citrus juices.

(b) The Department of Citrus shall prescribe procedures for the assessment and collection of such funds to defray the necessary expenses incurred, or expected to be incurred, by the Department of Citrus in the formation, issuance, administration, and enforcement of any marketing order implemented pursuant to the provisions of this section.

(c) Every handler shall, at such times as the department may require, file with the Department of Citrus a return, not under oath, on forms to be prescribed and furnished by the Department of Citrus, certified as true and correct, stating the quantity of the type, variety, and form of citrus fruit or citrus product specified in the marketing order first handled in the primary channels of trade in Florida by such handler during the period of time specified in the marketing order. Such returns shall contain any further information deemed by the Department of Citrus to be reasonably necessary to properly administer or enforce the provisions of this section or any marketing order implemented hereunder. The marketing order shall, and the Department of Citrus may by rule, provide for the confidentiality of any information necessary to the proper administration or enforcement of any marketing order implemented hereunder, when such information is of such a

nature as to cause unfair advantage to competitors of the handler required to file such information.

(d) All assessments imposed under and pursuant to the provisions of this section shall be due and payable and shall be paid by such handlers at such times and in such installments as the commission shall prescribe in such marketing order, or the amount thereof shall be provided for and guaranteed by giving a surety bond or cash deposit or as the Department of Citrus may otherwise prescribe.

(9)(a) All moneys collected by the Department of Citrus under this section shall be set aside in the Florida Citrus Advertising Trust Fund as a special fund to be known as the Citrus Special Marketing Order Fund. All moneys in such fund, after deducting the 2-percent service charge as provided in s. 601.15(7), are hereby appropriated to the Department of Citrus for the actual expenses incurred by the Department of Citrus with respect to the formulation, issuance, administration, and enforcement of any marketing order so implemented and in the conduct of the special marketing campaign or market and product research and development to be carried out pursuant to any such marketing order so implemented. Upon the completion of the special marketing campaign or market and product research and development provided for pursuant to any marketing order so implemented hereunder, any and all moneys remaining and not required by the Department of Citrus to defray the expenses of such marketing order shall be deposited to and made a part of the Florida Citrus Advertising Trust Fund created by s. 601.15.

(b) If the Department of Citrus finds it necessary to do so, it may transfer to said Citrus Special Marketing Order Fund from any other portion of the Florida Citrus Advertising Trust Fund, including the Emergency Reserve Fund and any other special or reserve fund, such sum of money as the Department of Citrus determines is initially required to formulate, issue, administer, and enforce any such marketing order and conduct the special marketing campaign or market and product research and development to be carried out pursuant to such marketing order until moneys in said Citrus Special Marketing Order Fund derived from assessments imposed and collected pursuant to this section are sufficient for such purposes, and thereafter repay such advance out of the Citrus Special Marketing Order Fund.

(10)(a) Any handler who fails to file a return or to pay any assessment within the time required shall thereby forfeit to the Department of Citrus a penalty of 5 percent of the amount of assessment then due; but the Department of Citrus, upon good cause shown, may waive all or any part of said penalty. Such penalty shall be paid to the Department of Citrus and disposed of as provided with respect to moneys derived from the assessments imposed pursuant to this section.

(b) The Department of Citrus may collect the assessments imposed pursuant to this section in either or all of the following methods:

1. The voluntary payment by the handler liable therefor;
2. By a suit at law;
3. By a suit in equity to enjoin and restrain any

handler owing said assessments from operating his business or engaging in business as a citrus fruit dealer until the delinquent assessments are paid. Such action may include an accounting to determine the amount of assessments plus delinquencies due. In any such proceeding, it shall not be necessary to allege or prove that an adequate remedy at law does not exist.

(11) This section shall be liberally construed to effectuate the purposes set forth and as additional and supplemental powers vested in the Department of Citrus under the police power of this state.

#### 601.154 Citrus Stabilization Act of Florida.—

(1) The purposes of this section are:

(a) To enable producers of oranges (*Citrus sinensis Osbeck*), grapefruit (*Citrus paradisi Macf.*), tangerines (*Citrus reticulata Blanco*) or citrus hybrids regulated by the Department of Citrus in the State of Florida, which producers deliver or cause such oranges, grapefruit, tangerines, or citrus hybrids to be delivered into the primary channel of trade, with the aid and under the direction and control of the state, more effectively to correlate the supply of their oranges, grapefruit, tangerines, or citrus hybrids with market demands therefor.

(b) To establish and maintain orderly marketing of oranges, grapefruit, tangerines, or citrus hybrids grown in Florida or the products thereof.

(c) To provide methods and means for the development of new and larger markets for oranges, grapefruit, tangerines, or citrus hybrids grown in Florida, or the products thereof.

(d) To eliminate or reduce economic waste in the production, handling, and marketing of oranges, grapefruit, tangerines, or citrus hybrids grown in Florida.

(e) To restore and maintain adequate purchasing power for orange, grapefruit, tangerine, or citrus hybrid producers of Florida.

(f) To conserve the agricultural wealth of the state.

(g) To stabilize the production and marketing of oranges, grapefruit, tangerines, or citrus hybrids and products thereof in the Florida citrus industry, as the Legislature finds it will promote and protect the health, peace, safety, and general welfare of the people of this state, which in turn will promote the general welfare and social and political economy of this state.

(2)(a) The Department of Citrus shall administer and enforce the provisions of this section. In order to effectuate the declared purposes of this section, the Department of Citrus is hereby authorized to issue, administer, and enforce the provisions of marketing orders hereunder in the way and manner hereinafter provided.

(b) Whenever the commission has reason to believe that the issuance of a marketing order, or any amendment thereof after its issuance, will tend to effectuate the declared purposes of this section, it shall at a regular or special meeting of the commission, either upon its own motion or upon application of any producer or group or association of producers

of oranges, grapefruit, tangerines, or citrus hybrids, provide for a public hearing upon a proposed marketing order or amendment thereof.

(c) Due notice of any hearing called for such purpose shall be given by the commission by publishing notice one time of the time and place of such hearing in at least eight daily newspapers of wide circulation within the citrus producing area of the state to be selected by the commission. Such notice shall be so published not less than 7 nor more than 60 days prior to the date set for such hearing. A copy of the proposed marketing order or amendment thereto shall be available at the commission for examination or copying by any interested party on or before the date of publication of notice of hearing, and such notice shall so state. Such hearing shall be open to the public. All testimony shall be received under oath and a full and complete record of all proceedings at any such hearing shall be made and filed by the commission in its offices, which record signed by the chairman of the commission and authenticated by the seal of the commission shall constitute prima facie evidence of such proceedings in all courts of the state.

(3)(a) After such notice and hearing, the Department of Citrus may issue a marketing order or amendment as originally proposed or as the same may be modified based on evidence submitted at the hearing if it finds and sets forth in such marketing order or amendment that such order or amendment, as the case may be, will tend to:

1. Return to producers of oranges, grapefruit, tangerines, or citrus hybrids in Florida at least average cost of production.

2. Prevent the unreasonable or unnecessary waste of the wealth of the orange, grapefruit, tangerine, or citrus hybrid industry and of the economy of the state.

3. Protect the interests of consumers of oranges, grapefruit, tangerines, or citrus hybrids and the products thereof.

(b) In making the findings set forth in this subsection, the Department of Citrus shall take into consideration any and all relevant and material facts available to it, including but not limited to the following factors:

1. The quantity and quality of oranges, grapefruit, tangerines, or citrus hybrids and products thereof available for sale and distribution.

2. The quantity and quality of oranges, grapefruit, tangerines, or citrus hybrids and products thereof being purchased by consumers.

3. The cost of producing oranges, grapefruit, tangerines, or citrus hybrids as determined by available records, statistics, and surveys.

4. The level of prices of commodities which compete with Florida oranges, grapefruit, tangerines, or citrus hybrids and products thereof.

5. The level of prices of commodities, services, and articles which orange, grapefruit, tangerine, or citrus hybrid producers and handlers commonly buy and utilize.

<sup>1</sup>(4)(a) Every marketing order issued pursuant to the provisions of this section shall provide for an administrative committee to assist the Department of Citrus in the administration thereof. One member

of such administrative committee shall be appointed by the Department of Citrus in such marketing order from each of the seven citrus districts as defined in s. 601.09 from producer nominees submitted by producers on or before the date of the hearing provided for in subsection (2). To qualify for appointment, such producer nominees shall meet the same qualifications as those for grower members of the commission set forth in s. 601.04(1).

(b) If the marketing order contains provisions authorized by paragraph (5)(c) or (e) pertaining to processed citrus products, seven additional members of such administrative committee shall be appointed by the Department of Citrus in such marketing order from processor nominees, each of whom shall be experienced in and actively engaged in an executive capacity as an officer, employee, or owner of a corporation or other business unit engaged in processing the type of processed orange, grapefruit, tangerine, or citrus hybrid products to be purchased or marketed pursuant to the provisions of such marketing order, which processor nominees shall have been submitted by processors on or before the date of such hearing.

(c) If the marketing order contains provisions authorized by paragraph (5)(b) or (e) pertaining to fresh citrus fruits, seven additional members of such administrative committee shall be appointed by the Department of Citrus in such marketing order from shipper nominees, each of whom shall be experienced in and actively engaged in an executive capacity as an officer, employee, or owner of a corporation or other business unit engaged in shipping fresh oranges, grapefruit, tangerines, or citrus hybrids to be purchased or marketed pursuant to the provisions of such marketing order, which fresh fruit shipper nominees shall have been submitted by fresh fruit shippers on or before the date of such hearing.

(d) Any vacancy on the committee shall be filled by appointment by the Department of Citrus.

(e) The Department of Citrus may, if it sees fit, appoint one or more advisory committees to perform such duties as the Department of Citrus finds wise and proper. The majority of the members of any such advisory committee or committees shall be producers.

(f) No member of the administrative committee or advisory committees shall receive a salary, but each member of the administrative committee shall be entitled to his expenses as provided by law while engaged in performing his duties.

(g) Subject to the approval of the Department of Citrus, the administrative committee may employ necessary personnel, including those performing or furnishing professional or technical services, fix their compensation and terms of employment, and may incur or may authorize such administrative committee to incur such expenses, to be paid by the Department of Citrus from moneys collected as hereinafter provided, as the Department of Citrus may deem necessary to perform properly such of its duties and those of the administrative committee as are authorized herein. The duties of such administrative committee shall include the following:

1. Subject to the approval of the Department of Citrus, administer and operate such marketing or-

der under the direction and control of the commission.

2. To recommend to the Department of Citrus administrative rules and regulations relating to the marketing order. With respect to rules and regulations relating to the provisions of paragraph (5)(c) or (e), the same may be adopted by the Department of Citrus only upon the recommendation of the administrative committee by a vote of both a majority of the producer members and a majority of the processor members of such administrative committee. With respect to rules and regulations relating to paragraph (5)(b), the same may be adopted by the Department of Citrus only upon the recommendation of the administrative committee by a vote of both a majority of the producer members and a majority of the fresh orange, grapefruit, tangerine, or citrus hybrid shipper members of such administrative committee.

3. To receive and report to the Department of Citrus any and all complaints with respect to alleged violations of the marketing order and rules and regulations thereunder.

4. To recommend to the Department of Citrus amendments to the marketing order and request a public hearing and referendum thereon.

5. To assist the Department of Citrus in the assessment and the collection of funds hereunder.

6. To assist the Department of Citrus in the collection of such necessary information and data as the Department of Citrus may deem necessary to the proper administration of this section.

(5) Subject to the legislative restrictions and limitations set forth herein, any marketing order issued by the Department of Citrus pursuant to this section may contain one or more of the following provisions relating to oranges, grapefruit, tangerines, or citrus hybrids, or products thereof, produced within this state, but no others:

(a) Provisions for determining, or providing methods for determining, the present and future existence and extent of the supply of oranges, grapefruit, tangerines, or citrus hybrids or products thereof.

(b) Provisions authorizing the imposition of quality standards for oranges, grapefruit, tangerines, or citrus hybrids, fixing the minimum ratios of total soluble solids of the juice of such oranges, grapefruit, tangerines, or citrus hybrids to the anhydrous citric acid thereof or the minimum total soluble solids of the juice thereof or both at levels higher than those provided in s. 601.20(1)-(31) or s. 601.17, or in the Department of Citrus rules governing the same.

(c) Provisions for the establishment of a reserve pool of frozen concentrated orange or grapefruit juice or any other type of processed orange or grapefruit product which can be stored without expectation of significant quality loss for a period of not less than 20 years, for disposition following serious freezes, hurricanes, or other catastrophes which result in a shortage of oranges or grapefruit or processed orange or grapefruit products as hereinafter provided, and for the renting or leasing of facilities for the storage thereof.

(d) Provisions for the establishing of assessments as hereinafter provided on producers, or associations

of producers, to provide funds for the formulation, issuance, administration, operation, and enforcement of any marketing order promulgated hereunder.

(e) Provisions for underwriting or subsidizing the development or expansion of markets for oranges, grapefruit, tangerines, or citrus hybrids, or the products thereof.

(f) Provisions for the borrowing of money by the Department of Citrus to effectuate the particular marketing order.

(g) Provisions for the establishment of such plans or programs for advertising, merchandising, and sales promotion to create new or larger domestic or foreign markets for oranges, grapefruit, tangerines, or citrus hybrids grown in the state and the processed products and byproducts thereof as circumstances may warrant.

(h) Provisions incidental to and not inconsistent with the foregoing provisions.

(6)(a) No marketing order, or amendments thereto, issued pursuant to this section shall become effective unless and until the Department of Citrus finds that such order has been assented to in writing by at least 65 percent of the producers voting in a referendum on the marketing order. The said marketing order must also be consented to in writing by producers voting in the said referendum who, during a preceding representative shipping season determined by the Department of Citrus, produced and delivered or caused to be delivered into the primary channel of trade not less than 65 percent of the total number of standard-packed boxes of oranges, grapefruit, tangerines, or citrus hybrids, or the equivalent thereof which were found by the Department of Citrus to have been produced and delivered by such voting producers into the primary channel of trade during such representative period.

(b) No marketing order or amendments thereto issued pursuant to this section which contain provisions authorized by paragraph (5)(c) or (e) pertaining to processed citrus products shall become effective unless and until such order has also been submitted to processors who, during a preceding representative shipping season determined by the Department of Citrus, handled in the primary channel of trade the type or types of processed orange, grapefruit, tangerine, or citrus hybrid products specified for purchase or marketing by the provisions of such marketing order, and the Department of Citrus finds that such order has been assented to in writing by at least 51 percent of such processors voting in such referendum who processed, from oranges, grapefruit, tangerines, or citrus hybrids delivered into the primary channels of trade during such representative period, not less than 65 percent of the number of gallons of such processed orange, grapefruit, tangerine, or citrus hybrid products, expressed on a single-strength basis, so processed by such voting processors from oranges, grapefruit, tangerines, or citrus hybrids delivered into the primary channel of trade during such representative period.

(c) No marketing order or amendments thereto issued pursuant to this section which contain provisions authorized by paragraph (5)(b) or (e) pertaining to fresh citrus fruit shall become effective unless and

until such order has also been submitted to shippers of fresh oranges, grapefruit, tangerines, or citrus hybrids who, during a preceding representative shipping season determined by the Department of Citrus, handled oranges, grapefruit, tangerines, or citrus hybrids in the primary channel of trade, and the Department of Citrus finds that such order has been assented to in writing by at least 51 percent of such shippers of fresh oranges, grapefruit, tangerines, or citrus hybrids voting in such referendum who, during such representative period, handled in the primary channel of trade not less than 65 percent of the number of standard-packed boxes of such oranges, grapefruit, tangerines, or citrus hybrids handled by such voting shippers of fresh oranges, grapefruit, tangerines, or citrus hybrids in the primary channel of trade during such representative period.

(7) The Department of Citrus is authorized to prescribe by rule or regulation such procedures as it deems necessary or required to properly conduct a referendum hereunder.

(8) Every marketing order and amendment thereto issued by the Department of Citrus, under the provisions of this section, shall be published one time, within 10 days after the same is adopted, in at least one daily newspaper of general circulation in each of two cities within the citrus-producing area of the state, to be selected by the Department of Citrus. All such orders shall become effective 5 days after the same are found by the Department of Citrus to be so assented to, unless the Department of Citrus orders a later date. In case written protest by any affected person shall be made to any such order within 15 days after the Department of Citrus has found it so assented to, a hearing shall be conducted at a place and time determined by the Department of Citrus or its authorized agent or representative; all interested persons shall have an opportunity to be heard. Due notice of the time and place of such hearing by the Department of Citrus or its designated agent, representative, or hearing officer shall be given to the persons making such protest. In all cases such written protests shall be filed with the Department of Citrus; however, the filing thereof shall not stay the effective date of such order. The Department of Citrus may, on application of the protestant and for good cause shown, stay the effective date of said order for such time as the Department of Citrus may direct. Any action of the Department of Citrus refusing to modify the order protested, or refusing to stay the effective date of such order shall be subject to review by any court of competent jurisdiction.

(9) For the purpose of carrying out any and all provisions of this section, the commission, or its duly authorized or designated representative or representatives, may hold hearings, take testimony, administer oaths, and may, after any marketing order shall have become final, subpoena witnesses and issue subpoenas for the production of books, records, or documents relevant and material to the marketing order. Copies of the proceedings, records, and acts of the commission and certificates purporting to relate the facts concerning such proceedings, records, and acts, signed by the chairman of the commission and authenticated by the seal of the commis-

sion, shall be prima facie evidence thereof in all the courts of the state.

(10)(a) The Department of Citrus shall suspend or terminate any marketing order, or any provision thereof, whenever it finds such order or provision does not tend to effectuate the declared purposes of this section within the standards and subject to the limitations and restrictions herein imposed. Such suspension or termination shall not be effective until the expiration of the then current marketing, shipping, or harvesting season, unless otherwise provided in any such marketing order.

(b) If the Department of Citrus finds that the termination or suspension of any marketing order is requested in writing by producers who produced for market during the last preceding shipping season more than 51 percent of the total standard-packed boxes of the variety of citrus fruit covered by the marketing order, the Department of Citrus shall terminate or suspend for a specified period such marketing order or provision thereof.

(11) Upon the issuance of any order of suspension or termination of any marketing order, a notice thereof shall be published one time in at least one daily newspaper of general circulation in each of two cities within the citrus-producing area of the state to be selected by the Department of Citrus. No order of suspension or termination shall become effective until the expiration of a period of 5 days from the date of such publication. It shall also be the duty of the Department of Citrus to mail a copy of the notice of said issuance to all persons directly affected by the terms of such order of suspension or termination who file in the offices of the Department of Citrus a written request for such notice.

(12) For the privilege of delivering the variety of citrus fruit covered by a marketing order into the primary channel of trade, every person so engaged shall pay to the Department of Citrus an assessment specified in the marketing order. However, the aggregate of all assessments levied against any variety of citrus fruit with respect to one or more marketing orders shall not exceed 10 cents per standard-packed box or the equivalent thereof with respect to any shipping season in which such marketing order or orders are in effect. The Department of Citrus shall prescribe rules and regulations with respect to the assessment and collection of such funds.

(13)(a) Every handler, producer, or other person delivering oranges, grapefruit, tangerines, or citrus hybrids to any handler or other person shall keep a complete and accurate record of all oranges, grapefruit, tangerines, or citrus hybrids handled by him. Such record shall be in such form and contain such information as the Department of Citrus shall by rule or regulation prescribe. Such records shall be preserved by all such persons for a period of at least 1 year after the termination of the marketing order to which such records relate and shall be offered for inspection at any time upon oral or written demand by the Department of Citrus or its duly authorized agent or representative.

(b) Every handler shall, at such times as the Department of Citrus may by rule or regulation require, file with the Department of Citrus a return on forms to be prescribed and furnished by the Depart-

ment of Citrus certifying the number of standard-packed boxes of the variety of citrus fruit covered by a marketing order handled by him in the primary channel of trade during the period of time prescribed by the Department of Citrus.

(c) All assessments levied and imposed under and pursuant to the provisions of this section shall be due and payable and shall be paid, or the amount thereof provided for and guaranteed as hereinafter provided, at such times and in such installments as the Department of Citrus shall by regulation prescribe. All such assessments shall be paid by the producer or other person delivering the oranges, grapefruit, tangerines, or citrus hybrids into the primary channel of trade. However, the handler who receives the citrus fruit in the primary channel of trade shall not be construed to be the person delivering the citrus fruit into the primary channel of trade, except when such handler and the producer are one and the same person. Such assessments shall be collected from the producer or other person delivering the oranges, grapefruit, tangerines or citrus hybrids into the primary channel of trade by the handler first handling the citrus fruit in the primary channel of trade and shall be guaranteed and transmitted to the Department of Citrus by the handler so shipping or processing such citrus fruit by the giving of a security bond or cash deposit under rules and regulations promulgated by the Department of Citrus. Such assessments shall not be absorbed by the handler, unless the handler is one and the same person as the producer, but shall be deducted by the handler from the price paid or to be paid by the handler to the producer or other person who delivered the citrus fruit into the primary channel of trade.

(14)(a) All money so collected by the Department of Citrus under this section, including the net proceeds received by the Department of Citrus from the sale of any processed orange product pursuant to paragraph (5)(c), shall be set aside in the Florida Citrus Advertising Trust Fund as a special fund to be known as the "Citrus Stabilization Fund." All moneys in such fund, after deducting the 2 percent service charge as provided in s. 601.15(7), are hereby appropriated to the Department of Citrus for the payment of the actual expenses incurred by the Department of Citrus or by the administrative committee in the formulation, issuance, administration, enforcement, and operation of the marketing order pursuant to which such funds are so collected, except as hereinafter provided. The marketing order may provide that any moneys remaining in such fund upon the termination of a marketing order shall be refunded on a pro rata basis to all persons assessed pursuant to such marketing order, or may provide that such moneys may be used to pay expenses incurred by the Department of Citrus in the formulation, issuance, administration, enforcement, and operation of any other marketing order issued pursuant to this chapter, or may provide that such moneys may be deposited to and made a part of the Citrus Advertising Trust Fund created by s. 601.15. During the administration, enforcement, and operation of any marketing order adopted hereunder, if the commission determines that funds derived pursuant to

that marketing order exceed the requirements for the desired operation of that marketing order, it may transfer such funds as it determines by its vote are excess, to the Florida Citrus Advertising Trust Fund established by s. 601.15. Such transfer shall be for the purposes of advertising and promoting, including brand advertising rebate promotions, merchandising and research in regard to the particular form of citrus fruit or processed citrus product for which the funds were collected pursuant to the marketing order. The commission may also transfer any excess for the purpose of the formulation, issuance, administrative enforcement, or operation of any other marketing order adopted hereunder that is directed to the same form of citrus fruit or processed citrus product. No such transfer shall be accomplished without a public hearing and a subsequent referendum being conducted to approve such a transfer. If, after any such transfer of excess funds, it is subsequently determined that additional funds are needed for the administration, enforcement, and operation of the marketing order from which funds were transferred, and there are sufficient funds available in the fund which was the recipient of the funds transferred, the commission, upon an affirmative vote of nine of its members, may retransfer, from the recipient fund to the original fund, an amount not to exceed that originally transferred.

(b) If the commission finds it necessary to do so, it may transfer to said Citrus Stabilization Fund from the Florida Citrus Advertising Trust Fund created in this chapter, only such sum of money as the commission determines is required to formulate and issue any such marketing order until moneys in said Citrus Stabilization Fund derived from assessments imposed and collected pursuant to this section are sufficient to finance the administration, enforcement, and operation of such marketing order and to replace such transferred funds.

(c) If the commission finds it necessary to do so, for the purpose of administering any marketing order or orders or amendments thereto adopted pursuant to s. 601.159, or for the purpose of funding the activities authorized by any such order or amendment, it may transfer for such purposes funds collected under any marketing order pertaining to oranges or processed orange products adopted pursuant hereto as the commission determines are required. However, any such transfer may be made only after an order entered by the commission authorizing such a transfer, which order shall be subject to public hearing and referendum as provided for herein. Any such public hearing and referendum on such a transfer may be held simultaneously with a public hearing and referendum conducted under the authority of s. 601.159.

(15)(a) Any marketing order which contains provisions authorized by paragraph (5)(c) shall include provisions specifying:

1. The type and form of processed orange or grapefruit product proposed to be purchased, stored, and sold.

2. The maximum price at which the processed orange or grapefruit product to be pooled may be purchased or the criteria to be used in computing such maximum price.

3. The criteria to be used in determining whether a freeze, hurricane, or other catastrophe which results in a shortage of oranges or grapefruit or processed orange or grapefruit products is sufficiently serious to justify the sale of all or part of the processed orange or grapefruit products then held in the reserve pool.

4. The minimum price at which the pooled processed orange or grapefruit product shall be sold after a determination pursuant to subparagraph 3., or the criteria to be used in computing such minimum price.

5. The criteria to be used in determining upon what basis or allocation, or both, and upon what time schedule, the pooled processed orange or grapefruit product may be sold to Florida processors of processed orange or grapefruit products after a determination pursuant to, subparagraph (a)3.

6. The quality standards to which the processed orange or grapefruit product to be pooled shall be required to conform.

7. The criteria for determining at what level the quantity of processed orange or grapefruit products in the reserve pool will be sufficient to accomplish the purposes intended.

8. The criteria to be used in determining to what limited extent processed orange or grapefruit products held in such reserve pool may be sold to defray costs of storage at such times when no other funds are available for such purpose.

(b) Notwithstanding any other provision of this section, the provisions of any marketing order authorized by paragraph (5)(c) shall not, under any circumstances, be suspended, terminated, or amended within 12 months following a catastrophe which, under the criteria established pursuant to subparagraph (a)3., is sufficiently serious to justify the sale of all or part of the processed citrus products then held in the reserve pool.

(16) Any person who violates any provision of this section, any provision of any marketing order, or any rule or regulation of the Department of Citrus relating thereto shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(17) The several circuit courts of the state are hereby vested with jurisdiction specifically to enforce and to enjoin and restrain any person from violating any provisions of this section, or of any marketing order, rules, or regulations duly issued by the Department of Citrus hereunder, in any proceeding brought by the Department of Citrus in any of said circuit courts; and in any such proceeding it shall not be necessary for the Department of Citrus to post any bond or to allege or prove that an adequate remedy at law does not exist. The said circuit courts may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and, upon final hearing, if the final decree be in favor of the Department of Citrus, the court shall permanently enjoin the defendant or defendants from further violations, and any such final decree in favor of the Department of Citrus shall provide that the defendant or defendants pay it reasonable costs of such suit, including reasonable attorney's fees. Any such action may be commenced

either in the county where the defendant resides, or in the county where any other defendant resides, if more than one defendant, or in the county where any act or omission, or part thereof, complained of occurred.

(18) This section shall be liberally construed to effectuate the purposes set forth and as additional and supplemental powers vested in the Department of Citrus under the police power of this state.

(19) Nothing herein shall be construed to authorize the Department of Citrus in any manner to fix prices of citrus.

### 601.155 Equalizing excise tax; credit; exemption.—

(1) The first person subject to regulation by this chapter who exercises in this state the privilege of processing, reprocessing, blending, mixing, packaging, or repackaging processed orange products or processed grapefruit products or removing any portion of such product from the original container in which it arrived in this state for purposes other than official inspection or direct consumption by the consumer and not for resale shall be assessed and shall pay an excise tax upon the exercise of such privilege.

(2) The excise tax levied by this section shall be at the same rate per box of oranges or grapefruit utilized in the initial production of the processed citrus products so handled as that imposed, at the time of exercise of the taxable privilege, by s. 601.15 plus that imposed, if any, by s. 601.156 per box of oranges and s. 601.157 per box of grapefruit, respectively.

(3) For purposes of this section, the number of boxes of oranges or grapefruit utilized in the initial production of processed citrus products subject to the taxable privilege shall be:

(a) The actual number of boxes so utilized, if known and verified in accordance with Department of Citrus rules; or

(b) An equivalent number established by Department of Citrus rule which, on the basis of existing data, reasonably equates to the quantity of citrus contained in the product, when the actual number of boxes so utilized is not known or properly verified.

(4) For purposes of this section:

(a) "Processed orange products" means products for human consumption consisting of 20 percent or more single strength equivalent orange juice, or orange sections, segments, or edible components, or whole peeled fruit.

(b) "Processed grapefruit products" means products for human consumption consisting of 20 percent or more single strength equivalent grapefruit juice, or grapefruit sections, segments, or edible components, or whole peeled fruit.

(5) All products subject to the taxable privileges under this section, produced in whole or in part from citrus fruit grown within the United States, shall be exempt from the tax imposed by this section to the extent that the products are derived from oranges or grapefruit grown within the United States.

(6) All persons liable for the excise tax imposed by this section shall keep a complete and accurate

record of the receipt, storage, handling, exercise of any taxable privilege under this section, and shipment of all products subject to the tax imposed by this section. Such record shall be preserved for a period of 1 year and shall be offered for inspection upon oral or written request by the Department of Citrus or its duly authorized agent.

(7) All persons liable for the excise tax imposed by this section shall, at such times and in such manner as the Department of Citrus may by rule require, file with the Department of Citrus a return, certified as true and correct, on forms to be prescribed and furnished by the Department of Citrus, stating, in addition to other information reasonably required by the Department of Citrus, the number of units of processed orange or grapefruit products subject to this section upon which any taxable privilege under this section was exercised during the period of time covered by the return. Full payment of excise taxes due for the period reported shall accompany each return.

(8) All taxes levied and imposed by this section shall be due and payable when the first of the taxable privileges is exercised in this state. Periodic payment of the excise taxes imposed by this section, by the person first exercising the taxable privileges and liable for such payment, shall be permitted only in accordance with Department of Citrus rules, and the payment thereof shall be guaranteed by the posting of an approved surety bond or cash deposit in an amount and manner as prescribed by the Department of Citrus.

(9) All excise taxes levied and collected under the provisions of this section, including penalties, shall be paid into the State Treasury, to be made a part of the Florida Citrus Advertising Trust Fund, in the same manner, for the same purposes, and in the same proportions as set forth in s. 601.15(7). Any person failing to file a return or pay any assessment within the time required shall thereby forfeit to the Department of Citrus a penalty of 5 percent of the amount of assessment then due; but the Department of Citrus, on good cause shown, may waive all or any part of said penalty.

**601.158 Additional excise tax; Citrus Harvesting Research and Development Fund.—**

(1) There is hereby levied and imposed an additional excise tax of 1 cent per box upon each standard-packed box of citrus fruit taxed under s. 601.15 and grown in this state that is sold or delivered into the primary channel of trade. The taxes levied and imposed by this section shall be paid by the producer or other person delivering the citrus fruit into the primary channel of trade, except that the handler who receives the citrus fruit in the primary channel of trade shall not be construed to be the person delivering the citrus fruit into the primary channel of trade except when such handler and the producer are one and the same person. Such excise taxes shall be collected from the producer or other person delivering the citrus fruit into the primary channel of trade by the handler first handling the citrus fruit in the primary channel of trade and shall be guaranteed and transmitted to the Department of Citrus by the handler so shipping or processing such citrus fruit by the giving of a security bond or cash deposit under rules and regulations promulgated by the commission. Such excise taxes shall not be absorbed by the handler unless the handler is one and the same person as the producer, but shall be deducted by the handler from the price paid or to be paid by the handler to the producer or other person who delivered the citrus fruit into the primary channel of trade.

(2) Except when inconsistent with this section, the provisions of s. 601.15 as now existing or hereafter amended shall apply to the additional excise tax imposed by this section.

(3) All excise taxes levied by this section and collected by the Department of Citrus shall be paid into the State Treasury on or before the fifteenth day of each month, and said moneys shall be deposited into the Florida Citrus Advertising Trust Fund. After deducting the service charge required by s. 601.15(7)(a), said moneys shall be set aside and accounted for therein as a special fund to be known as the Citrus Harvesting Research and Development Fund. All moneys in the Citrus Harvesting Research and Development Fund are hereby appropriated to the Department of Citrus to be expended in the conduct of a research and development program substantially to eliminate or reduce economic waste in the harvesting and handling of citrus fruit grown in Florida.

(4) In order to carry out the research and development contemplated by this section, the Department of Citrus is empowered to use the funds of the Citrus Harvesting Research and Development Fund to provide suitable facilities and equipment for the purpose of conducting thorough and comprehensive study and research to determine the most efficient and economical means possible for the harvesting and handling of citrus fruits, including, but not limited to, the development of mechanical harvesting devices or other harvesting methods designed more efficiently to harvest citrus fruit and thereby increase the net returns to the Florida citrus grower

for the crops produced upon his citrus groves. In providing facilities for the research and development program contemplated herein, the Department of Citrus is specifically authorized to enter into contracts or leases with citrus grove owners for the use of such citrus groves and citrus crops growing thereon.

(5) In carrying out the research and development contemplated herein, it is recognized that it may be necessary to hire expert and professional personnel, and the commission is hereby empowered, in connection with this program, to hire, by contract or otherwise, necessary personnel, including those performing or furnishing professional or technical services and to fix their compensation and terms of employment, and may incur or authorize such expenses, to be paid by the Department of Citrus from moneys collected hereunder, as the commission may deem necessary to perform properly and completely the research and development authorized hereunder.

(6) The commission, in carrying out the intent of this section, is authorized to enter into any mutually satisfactory contracts or agreements with any person, firm, institution, corporation, or business unit, as well as any state or federal agency, which the commission deems wise, necessary, and expedient in the carrying out of the objectives of the research and development program provided for herein. Any private person, group, association, or corporation who may avail itself of the funds, services, goods, or facilities of any developmental or research programs mentioned in this section shall not, by reason of such use and acceptance, be deemed to have impaired, in favor of the state, the Department of Citrus, or any other state agency, its right of patent. This shall include any patent presently held, or which could be applied for in the future, by such persons named herein. The Department of Citrus or any other state agency or branch of state government shall not become an owner of, or have any right, title, or interest in, any patent invention, concept, or idea relating to any harvesting device or machine for the purpose of harvesting, picking, or gathering of citrus fruit and related products of any private person, group, association, or corporation who may develop or has developed same, unless an agreement or contract specifically claiming any rights mentioned herein shall be in writing signed by the Department of Citrus and the party or parties affected. This provision shall not apply to or impair any rights the Department of Citrus may have in or to any discoveries or inventions created or developed independently by the Department of Citrus or its employees or agents.

<sup>2</sup>(7) The 1 cent per box tax imposed hereunder shall commence September 1, 1973, and shall continue for 3 years thereafter, except that the commission, upon an affirmative vote of nine of its members and an order entered by it determining that, for the purpose of this section, funds at the rate of 1 cent per box are not needed for the ensuing year, may, prior to September 1, 1973, or prior to September 1 of any year to and including September 1, 1978, reduce said tax to a level of less than 1 cent per standard-packed box of citrus or suspend said tax entirely for the next ensuing year. If said tax has been suspended or reduced for any year, the commission, upon an affirm-

ative vote of nine of its members and an order entered by it determining that additional funds are needed for the purposes of this section, may, prior to September 1 of the next year and prior to September 1 of any year to and including the year commencing September 1, 1978, reinstate said tax at the 1-cent level or less, but never to exceed 1 cent in any 1 year. If the commission has reduced or suspended the tax for any year, it may reimpose or reinstate said tax for any year within the 6 years commencing September 1, 1973, and ending August 31, 1979, but under no circumstances shall the total tax collected during the entire 6-year period allowed for the collection of taxes exceed 3 cents per standard-packed box of citrus fruit. The tax year contemplated hereunder is from September 1 to August 31, and any suspension, reduction, or reinstatement must become effective on September 1 of any year. The research and development program utilizing the funds collected hereunder shall not be limited in time and may extend beyond the period during which taxes are collected and may continue until all funds are expended or until the commission determines that maximum utilization of the funds collected has been achieved for the purposes herein set forth. Upon such a determination by the commission that maximum utilization of funds has been achieved and that further research and development would not produce further benefits as contemplated hereunder, any funds remaining in the Citrus Harvesting Research and Development Fund shall remain in the Florida Citrus Advertising Trust Fund and are, upon that event, appropriated to the Department of Citrus for the uses and purposes prescribed in s. 601.15.

(8) If the commission finds it necessary to do so, it may transfer to the said Citrus Harvesting Research and Development Fund from any portion of the Florida Citrus Advertising Trust Fund, including the Orange Reserve Fund, such sum of money as the commission determines is initially required to implement the research and development to be carried out pursuant to this section until moneys in said Citrus Harvesting Research and Development Fund derived from assessments imposed and collected pursuant to this section are sufficient for such purposes, and thereafter repay such advance out of the Citrus Harvesting Research and Development Fund.

(9) This section shall be liberally construed to effectuate the purposes set forth and as an additional and supplementary power vested in the commission under the police power of this state.

<sup>1</sup>(10) The commission shall appoint an advisory committee of not to exceed seven members and consisting of growers of the varieties of Florida citrus taxed by this section. No member of the commission shall serve on the advisory committee. The purpose of the committee shall be to advise the commission in carrying out the duties imposed upon it hereunder. The advisory committee shall be known as the Florida Citrus Harvesting Research and Development Committee. Said committee shall serve at the pleasure of the commission, and shall serve without pay, but may be reimbursed for such actual expenses incurred as the commission may authorize.

**History.**—s. 1, ch. 73-219; s. 4, ch. 78-323; s. 1, ch. 79-125.

**Note.**—Repealed by s. 4, ch. 78-323, effective October 1, 1981, except for the possible effect of laws affecting this section prior to that date.

**\*Note.**—Chapter 79-125, which does not take effect unless the commission determines that it has been assented to in writing by at least 55 percent of the producers of the varieties of citrus fruit taxed by s. 601.158 in a referendum to be conducted by the commission in accordance with s. 2, ch. 79-125, amends this subsection to read:

(7) The 1 cent per box tax imposed hereunder shall commence September 1, 1980, and shall continue for 3 years thereafter, except that the commission, upon an affirmative vote of nine of its members and an order entered by it determining that, for the purpose of this section, funds at the rate of 1 cent per box are not needed for the ensuing year, may, prior to September 1, 1980, or prior to September 1 of any year to and including September 1, 1985, reduce said tax to a level of less than 1 cent per standard-packed box of citrus or suspend said tax entirely for the next ensuing year. If said tax has been suspended or reduced for any year, the commission, upon an affirmative vote of nine of its members and an order entered by it determining that additional funds are needed for the purposes of this section, may, prior to September 1 of the next year and prior to September 1 of any year to and including the year commencing September 1, 1985, reinstate said tax at the 1-cent level or less, but never to exceed 1 cent in any one year. If the commission has reduced or suspended the tax for any year, it may reimpose or reinstate said tax for any year within the 6 years commencing September 1, 1980, and ending August 31, 1986, but under no circumstances shall the total tax collected during the entire 6-year period allowed for the collection of taxes exceed 3 cents per standard-packed box of citrus fruit. The tax year contemplated hereunder is from September 1 to August 31, and any suspension, reduction, or reinstatement must become effective on September 1 of any year. The research and development program utilizing the funds collected hereunder shall not be limited in time and may extend beyond the period during which taxes are collected and may continue until all funds are expended or until the commission determines that maximum utilization of the funds collected has been achieved for the purposes herein set forth. Upon such a determination by the commission that maximum utilization of funds has been achieved and that further research and development would not produce further benefits as contemplated hereunder, any funds remaining in the Citrus Harvesting Research and Development Fund shall remain in the Florida Citrus Advertising Trust Fund and are, upon that event, appropriated to the Department of Citrus for the uses and purposes prescribed in s. 601.15.

### **601.159 Frozen Concentrated Orange Juice Pooling Act of Florida.—**

(1) **DECLARATION OF POLICY.**—This section is passed:

(a) In the exercise of the police power of this state, to promote and protect the public health, peace, safety, and general welfare, by assisting to establish and maintain orderly marketing conditions in the citrus fruit industry of this state so as to protect and benefit said industry, the citizens of this state, and the consumers of Florida citrus and citrus products.

(b) Because the agriculture industry of this state is second only to the tourist industry in regard to its economic benefits to the state and the citizens thereof; the citrus industry of this state is the largest single segment of the agriculture industry of the state; the production of oranges represents the very substantial majority of all citrus fruit produced in the state; and approximately 76 percent of the orange production of the state, together with substantial quantities of hybrids and tangerines, is utilized in the production of frozen concentrated orange juice. Significant in regard to these figures is the reliable information that this state produces approximately 20 percent of the world's production of oranges and approximately 70 percent of the world's production of frozen concentrated orange juice.

(c) Because the conservation of the agricultural wealth of this state and the prevention of economic waste in the marketing of agricultural products, in particular, Florida citrus and frozen concentrated orange juice, are so affected with the public interest that the adoption and enforcement of the programs hereinafter provided are necessary to protect the health, peace, safety, and general welfare of the people of this state.

(d) Because it is hereby declared to be the policy of the legislature, through the exercise of the powers conferred under this act upon the Florida Citrus Commission as head of the Department of Citrus, to

establish and maintain such orderly marketing conditions for frozen concentrated orange juice as will provide, in the interest of producers and consumers, an orderly flow of supply thereof to market so as to avoid excessive fluctuations in supplies, and it is hereby determined that the disruption of the orderly marketing of frozen concentrated orange juice by excessive fluctuations in supplies impairs the purchasing power of citrus producers and unreasonably reduces the value of those agricultural assets which greatly support the state's financial structure.

(e) To assure that any marketing order adopted pursuant hereto shall not be considered as a contract or agreement entered into, or a conspiracy, in restraint of trade or to establish monopoly, but rather as a legislative command of the state intended to conserve the agricultural wealth of the state, and as a protection to the producers of citrus products and the consumers thereof.

(f) To enable citrus fruit producers and handlers of citrus fruit in the state, with the aid and under the direction and control of the state, to correlate more effectively the supply and marketing of citrus fruit and processed products produced therefrom in Florida.

(g) To establish and maintain orderly marketing of citrus fruit and processed products produced therefrom in Florida.

(h) To provide methods and means for the maintenance of present markets or for the development of new and larger markets for processed orange products produced in Florida.

(2) OBJECTIVES.—In order to effectuate the above declared policy and purpose of the legislature, the objectives to be accomplished by any marketing order adopted pursuant to the powers granted by this law shall be any one or more of the following:

(a) To remove citrus fruit in the form of frozen concentrated orange juice from primary markets during citrus producing seasons which will apparently begin with a larger supply of citrus fruit and processed products produced therefrom than can be orderly marketed to the optimum benefit of the Florida citrus producer, the Florida citrus industry, and the consumer of Florida citrus products.

(b) To provide a pool or pools of frozen concentrated orange juice from which to supply, or increase the supply to, secondary markets at prices those markets can afford to pay and at which they can be developed and expanded.

(c) To provide a pool or pools of frozen concentrated orange juice from which to increase the supply of frozen concentrated orange juice and processed products therefrom to primary markets during the time that the supply of frozen concentrated orange juice produced in Florida is apparently not sufficient for the optimum benefit of the Florida citrus producer, the Florida citrus industry, and the consumer of Florida citrus products, so as to prevent undesirable short-term effects such as excessive prices at the consumer level and the possible loss of market for frozen concentrated orange juice and processed products therefrom by reason of less than optimum supply of frozen concentrated orange juice.

(3) ADOPTION OF MARKETING ORDERS AND HEARINGS THEREON.—

(a) Whenever the commission has reason to believe that the issuance of a marketing order, or any amendment thereof after its issuance, will tend to effectuate the declared purposes of this section, it shall, at a regular or special meeting of the commission, either upon its own motion or upon application of any producer, or group or association of producers, of oranges, cause to be drafted a proposed marketing order or amendment and provide for a public hearing upon such proposed marketing order or amendment. Any such public hearing may be held simultaneously with a public hearing held under authority of s. 601.154.

(b) Due notice of any hearing called for such purpose shall be given by the commission by publishing notice one time of the time and place of such hearing in at least eight daily newspapers of wide circulation within the citrus producing area of the state to be selected by the commission, and by mailing a copy of the published notice to all persons directly affected by the terms of the proposed marketing order or amendment thereof who file with the Department of Citrus a written request for such notice. Such notice shall be so published and mailed not less than 30 or more than 60 days prior to the date set for such hearing. A copy of the proposed marketing order or amendment thereto shall be available at the headquarters offices of the commission for examination or copying by any interested party on and after the date of publication of notice of hearing, and such notice shall so state. Such hearing shall be open to the public. All testimony shall be received under oath, and a full and complete record of all proceedings at any such hearing shall be made and filed by the commission in its offices, which record, signed by the chairman of the commission and authenticated by the seal of the Department of Citrus, shall constitute prima facie evidence of such proceedings in all courts of the state.

(c) After such notice and hearing, the commission may issue a marketing order or amendment as originally proposed, or as the same may be modified based on evidence submitted at the hearing, if it has reason to believe and finds that the issuance of a marketing order will tend to effectuate the declared policy, purposes, and objectives of this act.

(d) No marketing order or amendment thereto issued pursuant to this section shall become effective unless and until the commission finds that such order has been assented to in writing by at least 65 percent of the producers in Florida voting in a referendum on said order who produce the varieties of citrus fruit covered by the order. The said marketing order or amendments must also be consented to in writing by such producers voting in the said referendum, who, during a preceding representative shipping season determined by the commission, produced and delivered or caused to be delivered into the primary channel of trade in Florida not less than 65 percent of the total standard-packed boxes of the varieties of citrus fruit covered by the order, or the equivalent thereof, which were found by the commission to have been produced and delivered by such voting producers into the primary channel of trade during such representative season. In addition to the assent of the producers as hereinabove provided, no

marketing order or amendments thereto issued pursuant to this section shall become effective unless and until the commission finds that such order has also been assented to in writing by at least 65 percent of the processors in Florida of orange juice voting in the referendum on the marketing order, who, during a preceding representative shipping season determined by the commission, processed orange juice from citrus fruit delivered into the primary channels of trade during such representative season not less than 51 percent on a single strength equivalent basis of the orange juice so processed by such voting processors from such citrus fruit delivered.

(e) The commission is authorized to prescribe by rule or regulation such procedures as it deems necessary or required to properly conduct a referendum hereunder, and shall not allow proxy voting. All referendums conducted under this section shall be by secret ballot.

(f) Every marketing order or amendment thereto issued by the commission under the provisions of this section shall, after the commission determines it has been assented to in the referendum provided for herein, be published one time within 10 days after the same is adopted, in at least one daily newspaper of general circulation in each of two cities within the citrus-producing area of the state to be selected by the commission. All such marketing orders and amendments to marketing orders shall become effective on a date to be specified by the commission, subject to the provisions of subsection (12) with respect to the effective date of the diversion table and release-price table set forth therein, which date shall not be prior to the day following the last day on which protests may be filed as provided herein.

(g) On or before the 15th day after the date on which the commission determines the marketing order to have been assented to in the referendum, any person who will be adversely affected by such marketing order, if placed in effect, may file protests thereto with the commission, specifying with particularity the provisions deemed objectionable, stating the grounds therefor, and requesting a public hearing upon such protest. The filing of such protests shall operate to stay the effectiveness of those provisions to which protests are made. The commission, in its discretion, may stay one or more of the other provisions of the marketing order if the same is necessary to carry out the equitable objectives of this act. As soon as practical after the time for filing protest has expired, the commission shall publish a notice in the Florida Administrative Register specifying those parts of the marketing order which have been stayed and, if no protests have been filed, stating that fact.

(h) As soon as practicable after the filing of protests under paragraph (3)(g) or paragraph (4)(g), the commission, after due notice, shall cause to be conducted, at a time and place determined by the commission, a public hearing for the purpose of receiving evidence relevant and material to the issues raised by such protests. The commission may appoint a hearing examiner to preside over any hearing required by this act. The hearing examiner shall be a person who is competent by reason of training or

experience, authorized to practice law in the State of Florida, to preside at an evidentiary hearing, administer oaths, and recommend findings of facts and conclusions of law. The commission may subpoena witnesses and issue subpoenas for the production of books, records, or documents relevant and material to the issues raised by the protests. As soon as practicable after completion of the hearings, the commission shall, by order, act upon such protests. Such order shall be based only on substantial evidence of record at such hearing and shall set forth, as part of the order, detailed findings of fact and conclusions of law on which the order is based. In the event the commission denies the protests and sustains the rule or regulation, the commission shall, subject to the provisions of subsection (12), specify in the order the date on which it shall become effective, which date shall not be prior to the day following the last day on which a petition for review by certiorari may be filed under the Florida Appellate Rules. Copies of the proceedings, records, and acts of the commission and certificates purporting to relate the facts concerning such proceedings, records, and acts, signed by the chairman of the commission and authenticated by the seal of the Department of Citrus, shall be prima facie evidence thereof on judicial review, and the findings of the commission as to the facts, if supported by substantial evidence, shall be conclusive. The provisions for administrative review provided in this section are exclusive of all other remedies including those provided for in chapter 120, as it now exists or as it may be hereafter amended.

#### (4) ADMINISTRATIVE JURISDICTION AND PROCEDURE.—

(a) All powers, duties, and functions provided by this section shall be vested in the commission. The provisions of marketing orders issued under this section shall be administered by a pooling board under the direct supervision of the commission. For the purpose of implementing and administering any marketing orders adopted hereunder, the commission may, regardless of the limitations imposed by chapter 216, employ such additional personnel and incur such reasonable obligations and expenses as may be necessary and proper for the discharge of its powers and duties hereunder.

(b) The pooling board shall be composed of 10 practical citrus fruit men or women who are resident citizens of the state, each of whom is and has been, for a period of at least 5 years prior to this appointment to the pooling board, engaged in growing citrus fruit or processing citrus products and throughout such period derived a major portion of his income therefrom.

(c) Five members of the pooling board shall be designated as grower members, and each shall, throughout such period, have been the owner of a grove producing the type of fruit covered by the marketing order or a member, officer, or substantial stockholder of a corporation, partnership, or other firm substantially engaged in growing oranges in Florida.

(d) Five members of the pooling board shall be designated as processor members, and each shall, throughout such period, have been an executive officer, executive employee, or principal owner of a

firm actively engaged in processing citrus juices in Florida.

(e) The members of the pooling board shall be appointed by the commission for terms which shall be established by the marketing order. The names and terms of each of the members of the initial pooling board shall be set forth in the proposed marketing order on which the referendum is held. Each member shall serve until his successor is appointed and qualified. No members of the pooling board shall receive a salary, but each member shall be entitled to his expenses as provided by law while performing his duties.

(f) Every action for the modification of any diversion table or release-price table, or for the issuance, modification, or repeal of any other rule or regulation under the provisions of a marketing order hereunder, except an action on the issuance of a marketing order or an amendment thereto which is governed by the referendum procedure set forth in subsection (3), shall be begun by a proposal made by the commission, by the pooling board, or by a producer or handler showing reasonable grounds therefor and filed with the pooling board. The pooling board shall announce its intention to consider such proposal, make copies of the proposal available at the offices of the Department of Citrus, and provide for a time period of not less than 30 days from the date of such announcement within which all interested persons may present their views and comments thereon in writing or orally at a meeting of the pooling board which shall be held for that purpose at the end of the time period so provided. As soon as practicable thereafter, the pooling board shall propose to the commission appropriate action upon such proposal. Action on the proposed modification of a diversion table or release-price table may be taken only upon the affirmative vote of three or more grower members and three or more processor members of the pooling board. Action on the proposed issuance, modification, or repeal of any other rule or regulation may be taken upon the affirmative vote of a simple majority of the members of the pooling board. A proposed rule or regulation of the pooling board shall become effective only if it is concurred in by the commission. If the commission does not concur, it may set aside the proposed rule or regulation in whole, or it may direct the pooling board to reconsider. Following the action of the pooling board on such reconsideration, the commission may concur in or modify such proposed rule or regulation or adopt a different one. The commission shall specify in its action the date on which the rule or regulation shall become effective, subject to the provisions of subsection (12) with respect to the effective date of a modification of a diversion table or release-price table.

(g) On or before the 15th day after the date on which a proposed rule or regulation under paragraph (4)(f) is concurred in, modified, or adopted by the commission, any person who will be adversely affected by such rule or regulation, if placed in effect, may file protests thereto with the commission, specifying with particularity the provisions deemed objectionable, stating the grounds therefor, and requesting a public hearing upon such protests. The filing of such protests shall operate to stay the effec-

tiveness of those provisions to which the protests are made. As soon as practicable after the time for filing protests has expired, the commission shall publish a notice in the Florida Administrative Register specifying those parts of the rule or regulation which have been stayed by the filing of protests and if no protests have been filed, stating that fact.

(h) As soon as practicable after the filing of such protests, the commission, after due notice, shall cause to be conducted a public hearing thereon in the manner provided for in paragraph (3)(h).

(5) PROVISIONS TO BE CONTAINED IN MARKETING ORDER.—A marketing order issued under this section shall contain the following provisions:

(a) Provisions relating to diversion, in accordance with subsection (6).

(b) Provisions relating to storage, in accordance with subsection (7).

(c) Provisions relating to the operation and administration of a concentrate reserve pool, in accordance with subsection (8).

(d) Provisions relating to equity payments and funding, in accordance with subsection (9).

(e) Provisions imposing restraints upon the size of the concentrate reserve pool, in accordance with subsection (10).

(f) Provisions relating to termination, in accordance with subsection (11).

(6) DIVERSION.—The provisions of the marketing order relating to diversion shall:

(a) Specify the types of citrus fruit which will, and which will not, be subject to diversion. The classification shall be based upon both varieties and usage. In no event shall the types subject to diversion include any variety which is not permitted in frozen concentrated orange juice, fruit packed by an express or gift fruit shipper, or fruit which is not ultimately delivered into the primary channel of trade.

(b) Set forth the means by which it will be ascertained whether diversion will occur during a particular shipping season and, if so, what percentage. Those provisions shall:

1. Require that both be ascertained annually by applying the current controlling crop size figure to the diversion table applicable to that shipping season.

2. Require that the marketing order set forth a diversion table for the first shipping seasons governed by the marketing order.

3. Authorize and direct the pooling board to review annually the diversion table and propose to the commission amendments modifying the same when appropriate. The effective date of such an amendment shall be governed by subsection (12).

4. Require that the format of the diversion table consist of two columns of figures, the first column consisting of a consecutive series of increasing potential crop-size figures, and the second column consisting of a consecutive series of increasing percentages beginning with zero.

5. Authorize and direct the pooling board, in its deliberations prior to the annual review of the diversion table, to take into consideration relevant and material economic data and projections and to be governed by such guidelines as may be set forth in the marketing order, based upon the provisions set

forth in subsection (10) imposing restraints upon the size of the concentrate reserve pool, and by the purposes and objectives of this chapter. Based on its deliberations, the pooling board shall place at the top of the first column the largest potential crop-size figure which, in its judgment at the time the table is reviewed, should be marketed without diversion and at the top of the second column a zero to so indicate, and to place each of the other increasingly larger potential crop-size figures in the first column of the diversion table opposite the percentage which, in the best judgment of the pooling board at the time the diversion table is reviewed, should be diverted if the particular potential crop-size figure proves to be the controlling crop-size figure. The controlling crop-size figure shall be the October estimate, which shall mean the first estimate by the United States Department of Agriculture of the number of boxes of round oranges, including Temples and including those designated thereon as being for home consumption, expected to be harvested in Florida that shipping season, as announced by that agency in October.

6. Direct that the means by which it will be ascertained whether diversion will occur and, if so, what percentage shall be by determining which of the potential crop-size figures in the first column of the diversion table is closest to the controlling crop-size figure. If the percentage in the second column opposite that figure is zero, diversion shall not occur that shipping season. If the percentage opposite that figure is larger than zero, that percentage shall be the diversion percentage for that shipping season.

The Department of Citrus shall announce on the first business day following the October estimate the diversion percentage, if any, ascertained in accordance with subparagraph 6., and an appropriate order of the commission shall be made at its next meeting confirming the announcement.

(c) Impose a maximum percentage which the highest percentage on a diversion table may not exceed. The maximum so established shall not be greater than 10 percent.

(d) Provide for rules and procedures governing the manner in which diverted fruit shall be placed in the concentrate reserve pool in the form of frozen concentrated orange juice. Those provisions shall:

1. Provide that the term "diverted fruit" shall relate to an undivided fractional portion of the pounds of soluble juice solids contained in the fruit subject to diversion, or the equivalent thereof as defined in the marketing order, if fruit for shipment in fresh form is subject to diversion.

2. Impose, subject to the provisions of paragraphs (6)(g) and (7)(b), upon the handler who first handles diverted fruit in the primary channel of trade and who operates concentrate processing facilities, the duty of delivering to the concentrate reserve pool frozen concentrated orange juice conforming to applicable quality standards and containing the quantity of soluble juice solids calculated by multiplying the pounds of soluble juice solids contained in the fruit subject to diversion by the diversion percentage. For handlers which do not operate concentrate processing facilities, there shall be provided reasonable alternative means of doing so which are

equitable both to handlers which operate facilities and those which do not.

3. Authorize and direct the pooling board to issue from time to time reasonable delivery schedules for deliveries to the concentrate reserve pool, taking into consideration the need to delay deliveries a sufficient length of time to facilitate compliance with applicable quality standards.

(e) Establish appropriate rules whereby the delivery of the frozen concentrated orange juice to the concentrate reserve pool and the passage of unencumbered title thereto to the Department of Citrus will be assured against the claims of third parties. Those rules shall:

1. Be designed so as to eliminate or reduce to a minimum any interference with orderly financing and marketing in the ordinary course of business by growers and handlers and shall not require handlers to segregate the product to be delivered to the concentrate reserve pool prior to the delivery date specified in the delivery schedule established under the provisions of subparagraph (d)3.

2. Provide for the filing of a financing statement and continuation statements under subparagraph 4. by each handler who handles fruit subject to diversion, whereupon a lien, hereby created in favor of the Department of Citrus against all fruit subject to diversion in the possession of such handlers, shall, by operation of law, attach and perfect itself each time a diversion percentage is announced by the commission and continue throughout the packing or processing of such fruit and apply to the frozen concentrated orange juice produced therefrom, the proceeds of such fruit or frozen concentrated orange juice, and the trust accounts provided for in subparagraph 3. The Department of Citrus' lien is created solely to secure the performance by the handler of the duties imposed on him by subparagraph (d)2., which performance may be specifically enforced by any court of competent jurisdiction, and shall be discharged by such performance. The rules so established shall provide for partial release upon partial performance and upon sales made in the ordinary course of business.

3. Require that a handler covered by subparagraph (d)2. who does not operate concentrate facilities shall deposit all sums excluded and deducted by him pursuant to sub-subparagraphs (f)2.d. and e. in a separate trust account, which sums shall be pledged, by operation of law, in accordance with the provisions of the marketing order to secure his performance of the duties imposed by subparagraph (d)2. The sums deposited in such trust account shall be available only for his use in paying the costs of performance of those duties, and all sums remaining after those duties are fully performed with respect to that shipping season may be withdrawn by him from such trust account free of such pledge.

4. Provide that the filing of the financing statement and continuation statements required by subparagraph 2. shall be with the Department of State. In addition to the information required by s. 679.402, the financing statement shall set forth verbatim the provisions of this paragraph. Upon the termination of the marketing order, the Department of Citrus

shall file a termination statement as provided in s. 679.404.

5. Be designed to provide for the orderly handling of the right, hereby created, of the Department of Citrus to take frozen concentrated orange juice delivered to the concentrate reserve pool free of the security interest of every third party, even though the security interest is perfected and even though the Department of Citrus knows of its existence. The security interest of the third party in that portion of the frozen concentrated orange juice remaining in the handler's possession that is not required to satisfy the obligations for that shipping season imposed on the handler by subparagraph (d)2. shall continue, subject to the lien of the Department of Citrus created by subparagraph 2. In the event of suit to enforce the security interest of the third party, the court in which such suit is brought shall, until full performance of the obligations imposed on the handler by subparagraph (d)2. has been accomplished by direction of the court or otherwise, stay the sale sought by the third party in satisfaction of its security interest with respect to any frozen concentrated orange juice in the possession of the handler.

(f)1. Provide for the issuance of diversion certificates in a manner designed to:

a. Eliminate the necessity of imposing assessments by postponing reimbursement of the costs of diversion until after the release and sale of product from the concentrate reserve pool.

b. Eliminate the necessity of determining the amount of reimbursement which should be made for growing, harvesting and hauling, and processing by combining reimbursement of expenses with distribution of net proceeds.

c. Assure that the person who ultimately bears those costs will be the person to whom the diversion certificate is issued.

d. Assure that the person to whom the diversion certificate is issued will, whenever practical, be the grower of the diverted fruit.

2. These provisions shall:

a. Provide that the person entitled to the issuance of the diversion certificate will be the person who last owned the diverted fruit prior to its receipt by the handler who first handled it in the primary channel of trade, except where the handler held title to the diverted fruit prior to its severance from the tree, in which event the costs of diversion are borne by, and the diversion certificate shall be issued to, the handler.

b. Provide that each diversion certificate shall represent the number of pounds of soluble juice solids contained in the diverted fruit.

c. Provide that the diversion certificate will entitle its owner to equity payments under the provisions of subsection (9) when disbursement is ordered by the commission.

d. Provide that, in a shipping season in which diversion certificates are issued, the right of a person to be issued a diversion certificate shall, by operation of law, substitute for and take the place of the right of such person to be paid that part of the purchase price of his fruit subject to diversion which is attributable to the portion thereof consisting of diverted fruit; and shall require that the amount of diverted

fruit received in the primary channel of trade from such person be excluded in computing the purchase price payable to such person by the handler who received in the primary channel of trade fruit subject to diversion from such person. This provision shall not apply when the handler holds title to the diverted fruit prior to its severance from the tree and is issued the diversion certificate.

e. Require that the costs, if any, incurred by the handler for picking or hauling the diverted fruit and the costs incurred by the handler in performing the duties imposed on him by subparagraph (d)2. shall be deducted by the handler from the purchase price of the fruit subject to diversion; and shall permit the person entitled to the diversion certificate and the handler to agree, by contract between them, upon the manner in which amounts of the foregoing costs will be fixed or determined. This provision shall not apply where the handler holds title to the diverted fruit prior to its severance from the tree and is issued the diversion certificate.

f. Permit owners of diversion certificates to transfer title thereto or a security interest therein and provide for the issuance of new certificates to the transferee upon compliance with such reasonable requirements as may by rule be imposed for the protection of the owner of the diversion certificate and in furtherance of the purposes and objectives of this act.

(g) Establish a quality standard or standards and specifications to which the container and frozen concentrated orange juice delivered to the concentrate reserve pool must conform. The marketing order may authorize the modification of the quality standard or standards within limits set forth therein. If the marketing order provides for more than one equity pool period within one shipping season, the quality standard for each respective pool shall bear a reasonable and direct relationship to the quality of frozen concentrated orange juice usually produced in good commercial practice from fruit received in the primary channel of trade during that part of the shipping season.

(h) Provide for deferred payment of that portion of the citrus excise taxes imposed by this chapter which applies to the diverted fruit, and provide for the deduction of such deferred taxes from the proceeds from the release and sale of product from the concentrate reserve pool. The moneys so deducted shall promptly be paid into the state treasury and deposited to and made a part of the Florida Citrus Advertising Trust Fund for the exclusive use of the Department of Citrus and in the same proportion as provided for in s. 601.15(7).

(7) STORAGE.—The provisions of the marketing order relating to storage shall:

(a) Establish rules and guidelines to govern renting and leasing of storage space in which to store product in the concentrate reserve pool and arranging for transportation of product to and from handlers' plants.

(b) Require that delivery of product f.o.b. the handlers' plants be accepted not later than 30 days after notice of availability by the handler or within 14 days after the date specified in the delivery schedule established by it under subparagraph (6)(d)3.,

whichever is earlier, and the handler shall not be liable for the results of the failure of the pooling board to accept delivery.

(c) Specify whether or not the purchase of land and the construction of warehouses thereon and issuance of revenue bonds to finance the cost thereof shall be authorized and, if such authority is granted, to establish rules and guidelines to govern the acquisition and operation of the warehouses and the issuance and amortization of the revenue bonds.

(d) Authorize and direct, in accordance with rules and guidelines set forth in the marketing order, the sale to qualified bidders, as defined in paragraph (8)(e), limited quantities of product from the concentrate reserve pool by competitive bidding for the best price obtainable to provide funds to pay costs of storage if other funds with which to do so are not then available. The minimum release price set forth in the release-price table shall not govern such sales.

(e) Authorize and direct appropriate action to maintain the quality of the product in the concentrate reserve pool. If the marketing order so provides, the pooling board may, in the event the quality of a portion of the product in the pool falls below the minimum applicable quality standard, recommend that sale be made to qualified bidders by competitive bidding for the best price obtainable and, at the same time, purchase on competitive bidding for the lowest price obtainable an equal quantity of product meeting the minimum applicable quality standards. The minimum release price set forth in the release-price table shall not govern such sales.

(8) OPERATION AND ADMINISTRATION OF RESERVE POOL.—The provisions of the marketing order relating to the operation and administration of the concentrate reserve pool shall:

(a) Establish an optimum size for the concentrate reserve pool, based upon the average annual sales of frozen concentrated orange juice by Florida processors during the preceding 36 months, expressed as pounds of soluble juice solids. The optimum size so established shall not be greater than 65 percent of average annual sales.

(b) Set forth the means by which the price to be paid for product released from the concentrate reserve pool will be determined. These provisions shall:

1. Require that the price to be paid shall be determined by competitive bidding, which price shall be not less than the applicable minimum release price.

2. Require that the minimum release price be ascertained by applying the current controlling concentrate reserve figure to the release-price table applicable at that time and that it be announced each time a bid solicitation is issued.

3. Require that the marketing order set forth the release-price table for the first shipping season governed by the marketing order.

4. Authorize and direct the pooling board to review annually the release-price table and propose to the commission amendments modifying the same when appropriate. The effective date of such an amendment shall be governed by subsection (12).

5. Require that the format of the release-price table consist of two columns of figures, the first col-

umn consisting of a consecutive series of increasing potential concentrate reserve figures, and the second column consisting of a consecutive series of decreasing prices.

6. Authorize and direct the pooling board, in its deliberations prior to the annual review of the release-price table, to take into consideration relevant and material economic data and projections and to be governed by such guidelines as may be set forth in the marketing order, based upon provisions set forth in subsection (10) imposing restraints upon the size of the concentrate reserve pool, and by the purposes and objectives of this chapter. Based on its deliberations, the pooling board shall place each of the potential concentrate reserve figures in the first column of the release-price table opposite the price which, in the best judgment of the pooling board at the time the release-price table is reviewed, should be the minimum release price if that particular potential concentrate reserve figure proves to be the controlling concentrate reserve figure.

7. Direct that the means by which the minimum release price which will govern the resulting bidding will be ascertained, at the time bid solicitation is issued, shall be by determining which of the potential concentrate reserve figures in the first column of the release-price table is closest to the current controlling concentrate reserve figure. The controlling concentrate reserve figure shall be the amount of product in the concentrate reserve pool on the date on which the bid solicitation is issued.

(c) Describe or define the type or types of primary or secondary markets, or both, for which product from the concentrate reserve pool will be released and those, if any, for which none will be released.

(d) Decide whether the release-price table shall provide for a single minimum release price, applicable to all types of markets covered by the marketing order, or whether, instead, it shall provide for minimum release prices at two or more levels, one of which shall be applicable to all primary markets and one or more of which will be applicable to a specified type or types of secondary markets. Provisions relating to the release-price table shall:

1. Provide that the second column of the release-price table shall set forth several consecutive series of decreasing prices and shall designate the type or types of markets to which each series will be applicable, so that the minimum release price for product released for each market can be ascertained from the release-price table in the manner provided in subparagraph (b)7. from the applicable series of prices so set forth.

2. Provide guidelines to be followed by the pooling board in its deliberations prior to the review of a release-price table regarding the levels of release prices appropriate for each type of market.

3. Impose, by the marketing order, a ceiling, or formula for computing a ceiling, or authorize and direct the pooling board in the annual review of the release-price table to recommend a ceiling, or a formula for computing a ceiling, on the quantity of product which may be released for secondary markets.

4. Designate or authorize the pooling board to

recommend annually, at the time the release-price table is reviewed, a specific quantity of product in the concentrate reserve pool which shall be set aside for release exclusively to specified secondary markets.

5. Prohibit, at every level of distribution, the resale in primary markets of product released for a secondary market and authorize and direct the issuance of rules and procedures to enforce the prohibition. Such rules and procedures may require that persons at every level of distribution of product released for a secondary market execute contracts or post bonds, or both, providing that violation of the prohibition shall result in the imposition of liquidated damages and attorneys' fees against the guilty party, which liquidated damages may be fixed at triple the amount of the price differential between the minimum release price applicable to primary markets and that applicable to secondary markets, respectively, at the time the violation occurred.

(e) Provide for rules and procedures governing the release and sales of product from the concentrate reserve pool. These provisions shall:

1. Set forth the qualifications which must be met by a firm in order for it to be a qualified bidder entitled to initiate bid solicitations, submit bids, and be awarded release contracts, which qualifications shall require that each qualified bidder must be both a citrus fruit dealer licensed by, and the operator of a citrus juice processing plant in Florida registered with, the Department of Agriculture.

2. Provide for solicitation for bids following a request by a qualified bidder and permit the commission or the pooling board to initiate a solicitation for bids.

3. Prohibit the offering of the entire inventory of the concentrate reserve pool in a single-bid solicitation and also prohibit restraints which limit unduly the quantities which may be offered in bid solicitations. The provisions shall require instead that restraints upon the quantities which will be subject to release shall be designed to spread the release of the inventory of the concentrate reserve pool in an orderly manner over the probable duration of the critical portion of a period of short supply and shall authorize and direct that there be specified, as a part of the release-price table, the size of the increments of the inventory of the concentrate reserve pool which shall be offered in each bid solicitation. If the marketing order provides for minimum release prices at two or more levels, the size of the increments applicable to releases for each of the several types of markets shall be set forth separately.

4. Establish or authorize the establishment of reasonable rules and procedures governing the award of release contracts to high bidders, which shall include provisions designed to assure that no bidder will acquire a disproportionate share of the product released.

5. Establish or authorize the establishment of reasonable rules and procedures governing the prompt payment of the bid price by successful bidders and the prompt delivery of the product to the

successful bidders.

If the marketing order provides for more than one equity pool period per season so that there are several applicable quality standards, each bid solicitation shall designate the quality standard to which the product offered for sale shall conform.

(9) EQUITY PAYMENTS AND FUNDING.—The provisions of the marketing order relating to equity payments and funding shall:

(a) Provide for a method of equitable allocation of cost between the various equity pools and require that the proceeds received from the sale of product released from the concentrate reserve pool shall be applied:

1. First, to pay the citrus excise taxes applicable to the diverted fruit which was deferred pursuant to the provisions of paragraph (6)(h); and

2. To pay allocable costs incurred in the formulation, issuance, administration, and enforcement of the marketing order, storage of product, transportation of product to and from handlers' plants, and debt service, if any.

(b) Provide that the balance shall be disbursed in the form of equity payments to the persons who are the owners of the equity certificates who present the same within 2 years after notice given in the same manner as provided in paragraph (3)(b). These provisions shall provide that:

1. The application of the proceeds and the calculation of the balance to be disbursed shall be made on a first-in first-out basis. Separate accounts shall be maintained for each equity pool to reflect the amounts sold, the duration and costs of storage, and the income from releases and sales.

2. Equity payments shall be calculated by dividing the balance to be disbursed by the total number of pounds of soluble juice solids represented by the diversion certificates issued during the shipping season or equity pool period for which disbursement is being made and by multiplying that amount by the number of pounds of soluble juice solids represented by the particular diversion certificate.

(10) RESTRAINTS ON SIZE OF RESERVE POOL.—

(a) The provisions of the marketing order imposing restraints upon the size of the concentrate reserve pool shall:

1. Impose a maximum pool size, expressed as a percentage of optimum pool size. The maximum so established shall not be greater than 150 percent of the optimum pool size established in accordance with paragraph (8)(a).

2. Set forth guidelines designed to maintain the quantity of product in the concentrate reserve pool at a level lower than the maximum pool size. The guidelines shall direct that there be taken into consideration the amount of product in the concentrate reserve pool during the deliberations prior to the annual review of the diversion table and release-price table. If that amount is found to be approaching the maximum pool size, there shall be incorporated lower diversion percentages relative to potential crop sizes, or larger crop sizes in the diversion table and lower minimum release prices in the re-

lease-price table, than would otherwise be indicated, in order that:

- a. Diversion will be less likely to occur.
- b. In the event diversion does occur, it will result in the addition of a lesser amount of product.
- c. Releases will be more likely to be requested.
- d. In the event releases are requested, they will result in the release and sale of a greater amount of product.

(b) If, on the first day of a shipping season, the amount of product in the concentrate reserve pool equals or exceeds the maximum pool size, the diversion table shall be suspended during that shipping season, and the diversion percentage for that shipping season shall also be suspended, both by operation of law. The duty imposed under subparagraph (b)2. with respect to the release-price table shall be exercised in a manner designed to assure that the amount of product in the concentrate reserve pool at the beginning of the following shipping season will be at a level lower than the maximum pool size.

(11) **TERMINATION.**—

(a) The marketing order shall provide for termination not more than 3 years after the date on which the marketing order becomes effective. The termination date may be extended from time to time for additional periods not to exceed 3 years each by amending the marketing order pursuant to the procedure provided in subsection (3). The commission may, at any time, upon the affirmative vote of nine of its members, impose an earlier termination date. Upon such termination by operation of the marketing order or by action of the commission, the provisions of the marketing order relating to diversion, subject to the provisions of subsection (12), and those relating to the operation and administration of the concentrate reserve pool, storage of product, and disposition of funds shall remain in effect until all of the product in the concentrate reserve pool has been sold, all costs have been paid, and the amounts owing to the owners of equity certificates have been disbursed in accordance with the provisions of the marketing order as the same was issued or may have been amended. Any funds remaining thereafter shall be transferred to the Citrus Advertising Trust Fund created by s. 601.15.

(b) Upon the issuance of any order of termination of any marketing order, a notice thereof shall be published one time in at least one daily newspaper of general circulation in each of two cities within the citrus-producing area of the state, to be selected by the commission.

(12) **EFFECTIVE DATE AND DURATION OF DIVERSION TABLE AND RELEASE-PRICE TABLE.**—Severe economic instability will probably result within the Florida citrus industry if a diversion table or release-price table were subject to being imposed or in any way modified, suspended, terminated, stayed, reinstated, or set aside during the critical last 10 months of a shipping season. Therefore, every action on every such table, whether by order of the commission, by operation of law, or by order of court, shall be made effective only on a date which is within the first 2 months of a shipping season. A diversion table or a release-price table, once made effective, shall remain in effect until modified under subsection (4) or suspended under subsection (10). In the event of proceedings for administrative or judicial review and when final adjudication has not been rendered in such proceedings and made effective prior to October 1 of a shipping season, the table under review shall, by operation of law, be stayed for a period beginning on October 1 and continuing, in every instance, until the last day of the shipping season within which such final adjudication is rendered. Throughout the entire period of such stay, the diversion table or release-price table most recently effective or sustained, if any, shall remain in effect until modified under subsection (4) or suspended under subsection (10).

(13) **JUDICIAL REVIEW.**—Any action of the commission denying a protest under subsection (3) or subsection (4) shall be subject to review by any such protestant by certiorari directed to the Florida Supreme Court within the time and manner prescribed by the Florida Appellate Rules. The provisions for judicial review provided in this section are exclusive of all other remedies, including those provided in chapter 120 as it now exists or as it may be hereafter amended. The filing of such petition for certiorari shall operate to stay the effectiveness of those provisions on which judicial review is sought. The commission, prior to the granting of certiorari, and the supreme court upon or after granting certiorari, may stay one or more of the other provisions of the marketing order if the same is necessary to carry out the equitable objectives of this act. Subject to subsection (12), the supreme court may, if certiorari is granted, issue its mandate or order with a direction to the commission to enter such order in the proceedings as is appropriate on the record, or the court may remand the cause for such further proceedings, including the taking of testimony, as may to the court seem necessary or proper:

- (a) To accord the parties due process of law.
- (b) To establish a sufficient record for review if the court determines that one has not already been established.
- (c) To accord the parties their constitutional, statutory, or procedural rights.
- (d) To accomplish the purposes and objectives of the law pursuant to which the proceedings leading to the adoption of the marketing order or rule or regulation issued thereunder were initiated.

(14) **APPROPRIATIONS.**—

(a) All money collected under this section, including the proceeds received from the sale of product released from the concentrate reserve pool, shall promptly be paid into the state treasury and deposited to and set aside in the Florida Citrus Advertising Trust Fund as a special fund known as the "Concentrate Reserve Fund." All money in such fund, after deducting the 2 percent service charge as provided in subsection 601.15(7), is hereby appropriated to the Department of Citrus for:

1. Payment of the actual expenses incurred in the formulation, issuance, administration, and enforcement of the marketing order;
2. The storage of product in the concentrate pool;
3. The transportation of product to and from handlers' plants;
4. Debt service, if revenue bonds are authorized

by the marketing order; and

5. Equity payments to the owners of equity certificates, to be computed and paid only in the amounts and in the manner provided for by subsection (9).

(b) If the commission finds it necessary to do so, it may temporarily transfer to the Concentrate Reserve Fund from the Florida Citrus Advertising Trust Fund such sum of money as the commission determines is currently required to formulate, issue, administer, and enforce the marketing order and store and transport the product, if any, in the concentrate reserve pool, whenever the funds available from the sale of product released from the concentrate reserve pool and from the proceeds, if any, of borrowed funds are insufficient to do so. The money so transferred shall be reimbursed from the proceeds of the sale of product from the concentrate reserve pool and from the proceeds, if any, of borrowed funds.

(c) If the commission finds it necessary to do so for the purpose of administering any marketing order or orders or amendments thereto, or for the purpose of funding the activities authorized by any such order or amendment, it may transfer funds from the Orange Stabilization Fund created by s. 601.154 in such amount as the commission determines is required to administer and conduct any marketing order or amendments adopted hereunder, until money collected pursuant to the sale of products from pools established hereunder is sufficient to finance the administration, enforcement, and operation of such marketing order. If the funds are to be so transferred from any funds collected pursuant to the authority of s. 601.154, any marketing order adopted hereunder which proposes to use such funds must so provide so as to be subject to approval in the referendum provided for herein. Such funds, when transferred, as well as funds collected from the sale of pool products or from borrowed sources as may be herein authorized, are hereby appropriated to the Department of Citrus for the payment of the actual expenses incurred by the commission or by the pooling board in the formulation, issuance, administration, enforcement, and operation of any marketing order or orders or amendments thereto adopted hereunder. Funds so transferred may be retransferred when it is determined by the commission that they are no longer needed.

(15) **INAPPLICABILITY OF CONFLICTING STATUTES.**—All of the powers, functions, duties, rights, and remedies provided for in this section are exclusive of all other powers, functions, duties, rights, and remedies, including those provided in chapter 120 as that chapter now exists or as it may be hereafter amended. Whenever the provisions of this section are in conflict with any other provisions of law, the provisions of this section shall prevail. This section shall be liberally construed to effectuate the purposes set forth and as additional and supplemental powers vested in the commission pursuant to the police power of this state.

(c) In fixing the foregoing fees, the Department of Agriculture shall provide for adequate reserves to pay costs expected to be incurred during those periods when costs are expected to exceed income.

(4)(a) All persons liable for the fees imposed by this section shall keep a complete and accurate record of the receipt, sale, shipment, and processing of citrus fruit and processed citrus products subject to the fees imposed hereby. Such records shall be preserved by such persons for a period of 1 year following the end of the shipping season to which they pertain and shall be offered for inspection at any time upon oral or written demand by the Department of Agriculture.

(b) All persons liable for the fees imposed by this section shall, at such times as the Department of Agriculture may by rule or regulation require, file with the Department of Agriculture a return certified as true and correct on forms to be prescribed and furnished by the Department of Agriculture stating the number of applicable units of citrus fruit and processed citrus products which were subject to fees hereunder during the period of time covered by the return.

(5) When any portion of the revenues deposited to the Citrus Inspection Trust Fund is not immediately needed for the purpose for which such funds are appropriated, the Board of Administration shall invest and reinvest such funds and the earnings thereon shall be deposited to and made a part of the Citrus Inspection Trust Fund.

(6) The duties of the Department of Agriculture shall include the duty to conduct hearings, through a hearing officer who shall be an attorney authorized to practice law within this state, on violations of this section and rules and regulations promulgated thereunder. Said hearing officer shall be selected by the Commissioner of Agriculture and shall be in addition to his regular legal staff authorized by law. Said hearing officer shall, in addition to conducting such hearings, be available to the Division of Fruit and Vegetable Inspection for other legal services on matters pertaining to violations of this chapter and rules and regulations promulgated thereunder.

levied and collected under the provisions of this section shall be paid into the State Treasury on or before the 15th day of each month. Such money shall be deposited in the General Inspection Trust Fund and is hereby appropriated to the Department of Agriculture to defray that portion of the cost of operating road guard stations that is attributable to the services performed by the road guard stations with respect to citrus fruit. All such money not required to defray that portion of such costs shall be deposited in the Citrus Inspection Trust Fund and is hereby appropriated in the manner provided by s. 601.28(3)(b).

(2) If the Florida Citrus Commission shall, by a majority vote, be of the opinion that the applicant is qualified and entitled to a license as a citrus fruit dealer, the commission shall approve said application; otherwise said application shall be disapproved. However, commission approval of any application may be contingent upon such reasonable conditions as may be endorsed thereon by the commission, or commission action on an application may, by majority vote, be deferred to a subsequent date.

(3) In cases of deferred action, as set forth in subsection (2), if the applicant so requests and the factual circumstances are deemed by the commission so to justify, the commission may approve the granting of a temporary license to be valid for a period to be set by the commission, not to exceed 60 days. No more than one temporary license shall be approved for any applicant during a shipping season. No temporary license may be approved unless all requirements relating to bonds or fees required to be posted or paid by the applicant shall have been met the same as though the approval were not of a temporary nature.

(4) Grounds for the disapproval of the application shall include, but shall not be limited to:

(a) Any previous conduct of the applicant which would have been grounds for revocation or suspension of a license as hereinafter provided if the applicant had been licensed.

(b) Delinquent accounts of the applicant owing to and growing out of the ordinary course of business with producers and other persons or firms.

(c) Delinquent accounts of the applicant with any person or persons with whom applicant has dealt in its operations under a previous license.

(d) Failure of the applicant or its owners, partners, officers, or agents to comply with any valid order of the Department of Agriculture or the Department of Citrus relating to citrus fruit laws or rules.

(e) Applicant's violation, or aiding or abetting in the violation, of any federal or Florida law or governmental agency rule or regulation governing or applicable to citrus fruit dealers.

(5) When the applicant is a corporate or other business entity, the term "applicant" as used in this section shall be deemed to include within its meaning those individuals who have been, or can reasonably be expected to be, actively engaged in the managerial affairs of the corporate or other business entity applicant.

(6) The Department of Citrus shall designate in

writing not more than three employees directly involved in the processing of citrus fruit dealer license applications, who shall be a part of, and shall have access to, the criminal justice information system described in chapter 943, for purposes of investigating license applications.

#### **601.58 Application approval or disapproval.—**

(1) If an application is approved, or approved subject to conditions thereon, the Department of Citrus shall, upon satisfaction of the conditions, if any, immediately forward such application with its approval and satisfaction of conditions, if any, endorsed thereon to the Department of Agriculture and Consumer Services which shall issue to such applicant a license as mentioned in s. 601.60.

(2) No license shall be issued to any applicant whose application stands disapproved by the commission. Once an application has been disapproved by the commission, said application shall remain disapproved for the remainder of the subject shipping season.

#### **601.59 Dealer's license and agents' registration fees.—**

(1) Each applicant who qualifies for a citrus fruit dealer's license shall pay to the Department of Agriculture, prior to issuance of such license, a license fee of \$10 per shipping season or portion thereof covered by the license.

(2) A registration fee of \$5 per shipping season or portion thereof covered by the dealer's license shall be paid to the Department of Agriculture for the registration of each agent of a licensed citrus fruit dealer.

(3) All license and registration fees imposed and collected under the provisions of this section shall be paid to the State Treasury on or before the 15th day of each month; such moneys shall be deposited in the Citrus Inspection Trust Fund and are hereby appropriated in the manner provided by s. 601.28(3)(b).

#### **601.60 Issuance of dealers' licenses.—**

(1) Whenever an application bears the approved endorsement of the Department of Citrus and satisfactions of conditions of approval, if any, and the applicant has paid the prescribed fee, the Department of Agriculture and Consumer Services shall issue to such applicant a license, as approved by the Department of Citrus, which shall entitle the licensee to do business as a citrus fruit dealer during the effective term of such license in accordance with s. 601.55 or until such license may be suspended or revoked by the Department of Agriculture and Consumer Services in accordance with the provisions of law.

(2) If, during the effective term of such license, there is any change in the ownership, officers, managership, or stockholders of any copartnership, association, corporation, or other business unit to which a license has been issued, the licensee shall

immediately notify the Department of Citrus in writing specifying the change in detail. The Department of Citrus shall be entitled to receive, and the licensee shall be required to promptly furnish, such additional information as if the licensee were applying for a new license. If, after investigating the facts and applying the standards prescribed for the issuance of new licenses, the commission finds that the licensee is not entitled to a citrus fruit dealer's license, the commission shall recommend to the Department of Agriculture and Consumer Services that such existing license be suspended or revoked and, upon such recommendation, the Department of Agriculture and Consumer Services shall immediately take necessary steps to suspend or revoke such existing license.

**History.**—s. 60, ch. 25149, 1949; s. 1, ch. 65-81; ss. 14, 35, ch. 69-106; s. 7, ch. 71-185; s. 22, ch. 71-186; s. 1, ch. 76-11.

#### **601.601 Registration of dealers' agents.—**Every licensed citrus fruit dealer shall:

(1) Register with the Department of Agriculture each and every agent, as defined in s. 601.03(2), authorized to represent said dealer; and make application for registration of said agent or agents on a form approved by the Department of Agriculture and filed with the Department of Agriculture not less than 5 days prior to the active participation of said agent or agents on behalf of said dealer in any transaction described in s. 601.03(2); and be held fully liable for and legally bound by all contracts and agreements, verbal or written, involving the consignment, purchase, or sale of citrus fruit executed by a duly registered agent on his behalf during the entire period of valid registration of said agent the same as though said contracts or agreements were executed by said dealer. Registration of each agent shall be for the entire shipping season for which the applying dealer's license is issued; provided, however, said licensed dealer may cancel the registration of any agent registered by him by returning the agent's identification card to the Department of Agriculture and giving formal written notice to the Department of Agriculture of not less than 10 days. In addition, said dealer shall make every effort to alert the public to the fact that said agent is no longer authorized to represent him. An agent may be registered by more than one licensed dealer for the same shipping season, provided that each licensed dealer shall apply individually for registration of said agent and further provided that written consent is given by each and every dealer under whose license said agent has valid prior registration.

(2) When the above requirements and such additional requirements as may be set forth by regulations adopted by the Department of Citrus for registration of an agent have been met and the prescribed fee of \$5 as required by s. 601.59 has been paid, the Department of Agriculture shall duly register said agent and issue an identification card certifying such registration. Said identification card, among other things, shall show in a prominent manner:

- (a) The name and address of the agent;
- (b) The authorizing dealer's name, address, and license number;
- (c) The effective date and season for which registration is made;

- (d) A space for signature of the agent;
- (e) A space to be countersigned by the licensed dealer;
- (f) A statement providing that the card shall not be valid unless so signed and countersigned.

The Department of Citrus may, from time to time, adopt additional requirements or conditions relating to the registration of agents as may be necessary.

**History.**—s. 1, ch. 63-75; s. 1, ch. 65-86; ss. 14, 35, ch. 69-106; s. 7, ch. 71-185; s. 22, ch. 71-186.

#### **601.61 Bond requirements of citrus fruit dealers.—**

(1) Except as hereinafter provided, prior to the approval of a citrus fruit dealer's license, the applicant therefor must deliver to the Department of Agriculture and Consumer Services a good and sufficient cash bond, appropriate certificate of deposit, or a surety bond executed by the applicant as principal and by a surety company qualified to do business in this state as surety, in an amount as determined by the Department of Citrus. The amount of such bond or certificate of deposit shall be determined by taking into consideration any one or more of the following: The number of standard packed boxes of citrus fruit, or the equivalent thereof, which the applicant intends to handle during the term of the license as set forth in the application; the total volume of fruit handled by the dealer the previous season; the highest month's volume handled the previous season; the anticipated increase in the total citrus crop during the season for which the application for license is made; and other relevant factors based on the following schedule:

- (a) \$1,000 up to 2,000 boxes;
- (b) \$2,000 up to 5,000 boxes;
- (c) \$3,750 up to 7,500 boxes;
- (d) \$5,000 up to 10,000 boxes;
- (e) \$10,000 up to 20,000 boxes;
- (f) \$1,000 for each additional 20,000 boxes or fraction thereof in excess of 20,000 boxes, with a maximum bond of \$100,000.

If a citrus fruit dealer during the term of his license finds that he has handled, or can reasonably expect to handle a volume of fruit greater than that covered by his posted bond or certificate of deposit, the dealer shall have the affirmative duty of immediately notifying the Department of Agriculture and Consumer Services and initiating an increase in such bond or certificate of deposit to an amount that will meet the requirements set forth above.

(2) Said bond shall be in the form approved by the Department of Agriculture and Consumer Services and shall be conditioned as provided in s. 601.66(9), and also to fully comply with the terms and conditions of all contracts, verbal or written, made by the citrus fruit dealer with producers or with other citrus fruit dealers, relative to the purchasing, handling, sale, and accounting of purchases and sales of citrus fruit, and upon the dealer accounting for the proceeds from, and paying for, any citrus fruit purchased or contracted for, in accordance with the terms of the contracts with producers, and upon the dealer accounting for any advance payments or deposits made, and delivering all citrus

fruit contracted for, in accordance with the terms of the contracts with other citrus fruit dealers. For purposes of this chapter, every such contract shall be conclusively deemed to have been made and entered into during the shipping season in which the delivery of fruit into the primary channel of trade is made.

(3) Said bond shall be to the Department of Agriculture, for the use and benefit of every producer and of every citrus fruit dealer with whom the dealer deals in the purchase, handling, sale, and accounting of purchases and sales of citrus fruit. The aggregate accumulative liability under any bond shall not exceed the amount named therein. Said bond shall provide that the surety company thereon shall not be liable to any citrus fruit dealer claiming to be injured or damaged by the said dealer if the aggregate of the amounts found to be due to producers pursuant to the provisions of this chapter equals or exceeds the amount of the bond, unless such citrus fruit dealer is also a producer and is acting in the capacity of a producer and not in the capacity of a citrus fruit dealer in the transaction wherein he claims to have been injured or damaged by applicant; but if the aggregate of such amounts is less than the amount of the bond, then the surety may be held liable to such citrus fruit dealers, but not in excess of the sum by which the amount of the bond exceeds the aggregate of the amounts found to be due to producers pursuant to the provisions of this chapter.

(4) The Department of Citrus or the Department of Agriculture, or any officer or employee designated by the Department of Citrus or the Department of Agriculture, shall have the right to inspect such accounts and records of any citrus fruit dealer as may be deemed necessary to determine whether a bond which has been delivered to the Department of Agriculture is in the amount required by this section or whether a previously licensed nonbonded dealer should be required to furnish bond. If any such citrus fruit dealer refuses to permit such inspection, the Department of Agriculture may publish the facts and circumstances and by order suspend the license of the offender until permission to make such inspection is given. Upon a finding by the Department of Agriculture that any citrus fruit dealer has dealt or probably will deal with more fruit during the season than shown by the application, the Department of Agriculture may order such bond increased to such an amount as will meet the requirements as set forth in the bond schedule of subsection (1). Upon failure to file such increased bond within the time fixed by the Department of Agriculture, the Department of Agriculture may publish the facts and circumstances and by order suspend the license of such citrus fruit dealer until the said bond is increased as ordered.

(5)(a) The following citrus fruit, subject to such rules as may be prescribed by the Department of Citrus, shall not be considered as fruit with which the applicant intends to deal for the purpose of determining the amount of the bond required under subsection (1);

- 1. Citrus fruit which the applicant produces.
- 2. Citrus fruit which is handled for its members

by a cooperative marketing association organized and existing under the provisions of either chapter 618 or chapter 619.

3. Fresh citrus fruit handled by the applicant, which has been prepared and packaged by a registered packinghouse other than the applicant and has been inspected and certified for shipment.

4. Citrus fruit handled by the applicant from citrus groves for which applicant provides complete grove management services under direct contract with the owner or producer.

5. Citrus fruit handled by a corporate or partnership applicant that is from citrus groves owned by officers or stockholders of the corporation or from citrus groves owned by the partnership, the parent corporation, or a wholly owned subsidiary corporation or its corporate officers or stockholders, or any partner of a partnership; provided that appropriate waivers of right to any claim against the bond required to be posted by this section be attached to and made a part of the application for license.

6. Processed citrus fruit handled by the applicant which has been processed and packaged by a registered citrus processing plant other than the applicant and has been inspected and certified for shipment.

(b) If the applicant does not intend to deal with any citrus fruit other than that which comes within the foregoing classifications, the Department of Agriculture and Consumer Services shall issue a license without the posting of a bond. Such a license shall bear a descriptive statement to the effect that the licensee is not a bonded citrus fruit dealer.

(c) A claim against any citrus fruit dealer's bond required to be posted by this section shall not be accepted with respect to any damages in connection with fruit handled under the provisions of subparagraphs 1. through 6. of paragraph (a) if such claim is filed against the bond of the dealer who was granted bond exempt status for said fruit.

(6) If any of the provisions of this act shall be held to be unconstitutional or invalid for any reason by any court of competent jurisdiction or if such court shall find or declare that no applicant shall be required to furnish the bond required by this act, then and in that event this entire act shall be ineffective for any and all purposes and the laws in effect on July 31, 1965, which are amended by this act, shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect it being the intention of the Legislature that in such event this entire act shall be ineffective for any and all purposes and the laws in effect on July 31, 1965, which are amended or repealed by this act shall instead not be deemed to be amended or repealed by this act but shall remain in full force and effect.

**601.611 Applicable law in event ch. 61-389 held invalid.**—If any of the provisions of s. 601.61 be held unconstitutional or invalid for any reason by any court of competent jurisdiction, or if any such court shall find or declare that no applicant shall be required to furnish the bond required by this act, then and in that event this entire act, including sec-

tion 5 thereof, shall be ineffective for any and all purposes, and the Laws of Florida in effect on August 1, 1961, which are amended or repealed by this act shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect, it being the intention of the Legislature that in that event this entire act shall be ineffective for any and all purposes and the Laws of Florida in effect on August 1, 1961, including ch. 61-45, which are amended or repealed by this act shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect.

**History.**—s. 4, ch. 61-389.

#### **601.64 Citrus fruit dealers; unlawful acts, etc.**

—It is unlawful in, or in connection with, any transaction relative to the purchase, handling, sale, and accounting of sales of citrus fruit:

(1) For any citrus fruit dealer to make or exact any fraudulent charge to or from any person;

(2) For any citrus fruit dealer to reject or fail to deliver in accordance with the terms of the contract without reasonable cause any citrus fruit bought, sold, or contracted to be bought or sold by such citrus fruit dealer;

(3) For any citrus fruit dealer to discard, dump, or destroy without reasonable cause any citrus fruit received by such citrus fruit dealer;

(4) For any citrus fruit dealer to make, for a fraudulent purpose, any false or misleading statement concerning the condition, quality, quantity, or disposition of, or the condition of the market for, any citrus fruit which is received by such citrus fruit dealer or bought or sold or contracted to be bought or sold by such citrus fruit dealer; or the purchase or sale of which is negotiated by such citrus fruit dealer; or to fail or refuse truly and correctly to account and make full payment promptly in respect of any such transaction in any such citrus fruit to the person with whom such transaction is had, or to fail or refuse on such account to make full payment of such amounts as may be due thereon, or to fail without reasonable cause to perform any specification or duty express or implied arising out of any undertaking in connection with any such transaction;

(5) For any citrus fruit dealer to knowingly buy, sell, receive, process, or handle stolen citrus fruit;

(6) For any citrus fruit dealer to violate, or aid or abet in the violation of, any law of Florida governing or applicable to citrus fruit dealers, including any of the provisions of this chapter not herein specifically set forth;

(7) For any citrus fruit dealer to violate or aid or abet in the violation of any rule or regulation duly promulgated by the Department of Citrus.

**History.**—s. 64, ch. 25149, 1949; s. 10, ch. 26484, 1951; s. 1, ch. 65-82; s. 22, ch. 71-186.

#### **601.641 Fraudulent representations, penalties.**

(1) It shall be unlawful for any person, firm, association, or corporation to claim or represent to be a licensed citrus fruit dealer, licensed and bonded citrus dealer, or agent of a licensed citrus fruit dealer unless such person, firm, association, or corporation is licensed, licensed and bonded, or a registered

agent of a licensed citrus fruit dealer under the Laws of Florida.

(2) It shall be unlawful for any person, firm, association, or corporation to advertise or in any way represent falsely as to his status as a seller of citrus fruit, to make any false claim as to the status of such seller of citrus fruit, or to make any false claim as to the condition, grade, quality, quantity, grove origin, or producer's name and address of any citrus fruit sold by any such person, firm, association, or corporation.

(3) It shall be unlawful for any person, firm, association, or corporation licensed under this chapter to advertise or to use on his letterhead, or on any advertising material, or in any way pretend to be a bonded shipper unless said person, firm, association, or corporation has filed and had approved a performance bond in addition to the bond required under this chapter.

(4) This section is supplemental, making provisions in addition to any other provisions of law and shall be construed liberally.

(5) Any person, firm, association, or corporation violating any of the provisions of this section shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Such criminal penalties shall be in addition to any other penalties provided by law. If the violator be a licensed citrus fruit dealer, then such license may be revoked or suspended in the manner provided by s. 601.67.

**History.**—ss. 1-5, ch. 57-4; s. 1, ch. 61-92; s. 1, ch. 65-84; s. 625, ch. 71-136.

**601.65 Liability of citrus fruit dealers.**—If any licensed citrus fruit dealer violates any provision of this chapter, such dealer shall be liable to the person allegedly injured thereby for the full amount of damages sustained in consequence of such violation. Such liability may be enforced either by proceeding in an administrative action to and before the Department of Agriculture and pursuing such action to its ultimate termination if desired or by filing of a judicial suit at law in a court of competent jurisdiction; however, in such court suit the bond of such citrus fruit dealer theretofore posted with the Department of Agriculture pursuant to s. 601.61 shall not be amenable or subject to any judgment or other legal process issuing out of or from such court in connection with such law suit, whether cash bond or surety company bond, but such bonds shall be amenable to and enforceable only by and through administrative proceedings before the Department of Agriculture, it being the intent and purpose of the Legislature that such citrus dealer's bond so posted with the Department of Agriculture shall be applicable and liable only for the payment of claims duly adjudicated by order of the Department of Agriculture and the determination of such adjudicated claim if and in the event such order is appealed by any aggrieved party to the administrative proceeding.

**History.**—s. 65, ch. 25149, 1949; s. 1, ch. 65-76; ss. 14, 35, ch. 69-106; s. 7, ch. 71-185; s. 157, ch. 71-355; s. 6, ch. 78-95.

**601.66 Complaints of violations by citrus fruit dealers; procedure; bond distribution; court action on bond.**—

(1) Any person may complain of any violation of

any of the provisions of this chapter by any citrus fruit dealer during any shipping season, by filing of a written complaint with the Department of Agriculture and Consumer Services at any time prior to May 1 of the year immediately following the end of such shipping season. Said complaint shall briefly state the facts, and the Department of Agriculture and Consumer Services shall thereupon, if the facts alleged prima facie warrant such action, forward true copies of said complaint to the dealer in question and also to the surety company on the dealer's bond. The dealer at such time shall be called upon, within a reasonable time to be prescribed by the Department of Agriculture and Consumer Services, either to satisfy the complaint or to answer the complaint in writing, either admitting or denying the liability.

(2) If the dealer admits the violation but fails to satisfy the complaint within the time fixed by the Department of Agriculture, the Department of Agriculture shall thereupon order payment by the dealer of the damages sustained.

(3) If the dealer, in his answer to the original complaint, denies the violation alleged, the Department of Agriculture shall thereupon determine whether the facts and circumstances set forth in the complaint have been established by competent substantial evidence.

(4) If the Department of Agriculture determines that the complaint has not been so established as aforesaid, the order shall, among other things, dismiss the proceeding.

(5) If the Department of Agriculture determines that the allegations of the complaint have been established as aforesaid, it shall make its findings of fact accordingly and thereupon adjudicate the amount of indebtedness or damages due to be paid by the dealer to the complainant. The administrative order shall fix a reasonable time within which said indebtedness shall be paid by the dealer.

(6) Upon failure by a dealer to comply with an order of the Department of Agriculture and Consumer Services directing payment, the department shall call upon the surety company to pay over to the Department of Agriculture and Consumer Services, out of the bond theretofore posted by the surety for such dealer, the amount of damages sustained but not exceeding the amount of the bond. The proceeds turned over to the Department of Agriculture and Consumer Services by the surety company shall be deposited in a bank account known as the Citrus Cash Bond Account, maintained in Winter Haven by the Division of Fruit and Vegetable Inspection, and, in the discretion of the Department of Agriculture and Consumer Services, be either paid over forthwith to the original complainant or held by the Department of Agriculture and Consumer Services for later disbursement, depending upon the time during the shipping season when the complaint was made, when liability was admitted by the dealer, when the proceeds were so paid out by the surety company to the Department of Agriculture and Consumer Services, the amount of other claims then pending against the same dealer, the amount of other claims already adjudicated against the dealer, and such other pertinent facts as the Department of Agriculture

and Consumer Services in its discretion may consider material. The Department of Agriculture and Consumer Services, if it decides to pay the proceeds over to the original complainant, has authority to order an increase in the original bond of the dealer to such higher sum as to the Department of Agriculture and Consumer Services would be justified under all the circumstances so as to protect other possible claimants and to exercise all powers otherwise confided to it under this chapter to enforce the posting of such increased bond. The Department of Agriculture and Consumer Services also, in its discretion as the facts and circumstances might appear to it, may hold the amount of such proceeds until such later time, up to the time when all claims have been filed during the allotted period after the closing of the shipping season and such claims adjudicated, and may then disburse the total proceeds in its possession paid over to it by the surety company on the dealer's bond as such claims were adjudicated to the various claimants, paying first to the producers the amount of their claims in full, if such proceeds are sufficient for such purpose, and if not, then in pro rata shares to such producer claimants; and if there then exist additional proceeds in the hands of the Department of Agriculture and Consumer Services, after all claims of producers have been paid in full, the balance of such proceeds shall be paid to claimants who are citrus fruit dealers, either in whole or in pro rata portion, as the aggregate of their claims may bear to the amount of such additional proceeds.

(7) Upon failure of a surety company to comply with a demand for payment of the proceeds of a citrus fruit dealer's bond pursuant to administrative orders entered by the Department of Agriculture fixing amounts due claimants, the department shall within a reasonable time file in the Circuit Court in and for Polk County, an original petition or complaint setting forth the administrative proceedings before the Department of Agriculture and ask for final order of the court directing the surety company to pay the proceeds of the said bond to the Department of Agriculture for distribution to the claimants.

(8) In any court proceeding filed under subsection (7), the findings of facts and orders of the Department of Agriculture shall be prima facie evidence of the facts therein stated, and if in such suit the Department of Agriculture is successful and the court affirms the department's demand for payment from the surety company, the Department of Agriculture shall be allowed all court costs incurred therein and also a reasonable attorney's fee to be fixed and collected as a part of the costs of the suit.

(9) The bond required to be posted by citrus fruit dealers under s. 601.61 shall be subject, and so conditioned therein, only to payment of claims duly adjudicated by the Department of Agriculture. All proceeds from such bonds shall be paid over by the surety company directly to the Department of Agriculture, to be disbursed by it to successful claimants in whose favor the Department of Agriculture has entered administrative order or orders. Such funds shall be considered trust funds in the hands of the Department of Agriculture for the exclusive purpose of satisfying orders of indebtedness duly adjudicated.

Cash bonds which may be posted by citrus fruit dealers in lieu of surety company bonds shall occupy the same legal status as funds paid over by the surety company to the Department of Agriculture for payment of claims.

#### **601.67 Disciplinary action by Department of Agriculture and Consumer Services against citrus fruit dealers.—**

(1) The Department of Agriculture and Consumer Services may impose a fine not exceeding \$50,000 per violation against any licensed citrus fruit dealer for violation of any provision of this chapter, and, in lieu of, or in addition to, such fine, may revoke or suspend the license of any such dealer when it has been satisfactorily shown that such dealer, in his activities as a citrus fruit dealer, has:

(a) Obtained a license by means of fraud, misrepresentation, or concealment;

(b) Violated or aided or abetted in the violation of any law of this state governing or applicable to citrus fruit dealers or any lawful rules of the Department of Citrus;

(c) Been guilty of a crime against the laws of this or any other state or government involving moral turpitude or dishonest dealing, or has become legally incompetent to contract or be contracted with;

(d) Made, printed, published, distributed, or caused, authorized, or knowingly permitted the making, printing, publication, or distribution of false statements, descriptions, or promises of such a character as to reasonably induce any person to act to his damage or injury, if the said citrus fruit dealer then knew, or, by the exercise of reasonable care and inquiry, could have known of the falsity of such statements, descriptions, or promises;

(e) Knowingly committed or been a party to any material fraud, misrepresentation, concealment, conspiracy, collusion, trick, scheme, or device whereby any other person lawfully relying upon the word, representation, or conduct of the citrus fruit dealer shall act to his injury or damage;

(f) Committed any act or conduct of the same or different character of that hereinabove enumerated which shall constitute fraudulent or dishonest dealing; or

(g) Violated any of the provisions of ss. 506.19 through 506.28, both sections inclusive.

(2) Any fine imposed pursuant to subsection (1), when paid, shall be deposited by the Department of Agriculture and Consumer Services into its General Inspection Trust Fund.

(3) Whenever any administrative order has been made and entered by the Department of Agriculture and Consumer Services imposing a fine pursuant to this section, said order shall specify a time limit for payment thereof, not exceeding 15 days, and failure of the dealer involved to pay said fine within said time shall be grounds for suspension of the citrus fruit dealer's license. Whenever an order is entered suspending such license for a definite period of time, and the end of any shipping season shall occur during the period of such suspension, such suspension order shall continue and be effective into the ensu-

ing shipping season and until the entire period of time set forth in such order has elapsed. Whenever any such administrative order of the Department of Agriculture and Consumer Services is sought to be reviewed by the offending dealer involved in a court of competent jurisdiction, if such court proceedings should finally terminate in such administrative order of the Department of Agriculture and Consumer Services being upheld or not quashed, such order shall thereupon, upon the filing with the Department of Agriculture and Consumer Services of a certified copy of the mandate or other order of the last court having to do with the matter in the judicial process, become immediately effective and shall then be carried out and enforced notwithstanding such time will be during a new and subsequent shipping season from that during which the administrative order was first originally entered by the Department of Agriculture and Consumer Services.

A motor vehicle which is not so marked that is so hauling such citrus fruit on the highways of this state shall prima facie be considered to be hauling commercial fruit with intent to violate this section. The provisions of this subsection shall not apply to any such fruit being hauled from the farm or grove by the producer of such fruit in his own vehicle to market or place of first commercial handling unless such producer is also a licensed citrus fruit dealer.

(2) Any person driving any truck, tractor, trailer, or other motor vehicle hauling citrus fruit in bulk or in unclosed containers for commercial purposes on the highways of the state shall have on his person when driving such vehicle a certificate or other paper showing approximate amount of fruit being hauled, the name of owner and the grove or other origin of such fruit, the number painted or affixed by decal, as well as the number of the motor vehicle license tag, on the vehicle in which such fruit is being hauled, and such other information and data as may be prescribed by regulation of the Department of Citrus, and it shall be unlawful to drive any such vehicle on the highways of this state without having such certificate or other paper, as aforesaid; and the failure of any such person to have such certificate or other paper on his person when driving, as aforesaid, shall be prima facie evidence of intent to violate and of the violation of this act.

(2) The Department of Agriculture shall cause the said formula to be examined and the said sample to be analyzed, and if there shall be found in either any ingredient the use of which upon or in the processing of such citrus fruit shall render the same dangerous to health or otherwise unfit for human consumption, or injurious to such fruit or its keeping qualities, then such composition shall not be used on citrus fruit and the manufacturer shall be denied the license hereinafter required.

(3) Likewise, if the process followed in applying or using the said soaps, oils, waxes, gases, gas-forming materials, and other similar compositions and the component parts thereof on or in the processing of citrus fruits as furnished by the manufacturer is found to be injurious to citrus fruit or to its keeping qualities, then such soaps, oils, waxes, gases, gas-forming materials, and other similar compositions,

and the component parts thereof, shall not be used on citrus fruits and the manufacturer shall be denied the license hereinafter required.

(4) If such composition is found suitable for use on or in the processing of citrus fruits and the process is likewise found suitable for use on or in the processing of citrus fruits, then such composition shall be authorized for use on or in the processing of citrus fruits and the manufacturer shall be licensed as hereinafter provided.

(5) Thereafter, the Department of Agriculture shall, from time to time, cause samples of such compositions to be taken at the manufacturer's place of business or at the place being used and samples of fruit on or in the processing of which such composition has been used, at such times and places as the same may be found, and shall cause the same to be analyzed and examined and, if said composition shall be found to violate any of the conditions hereinabove made a prerequisite to the issuance of the license, or if it be found to vary in any material or substantial degree from the formula therefor as filed with the Department of Agriculture, then such composition shall not be used on citrus fruits and the manufacturer thereof shall be subjected to the penalties of this chapter; provided, however, that the formula so filed with the Department of Agriculture shall be held as confidential and shall only be divulged to the said Department of Agriculture or its duly authorized representatives or upon orders of a court of competent jurisdiction when necessary in the enforcement of this section.

(6) Likewise, the Department of Agriculture shall, from time to time, cause inspection to be made at the packinghouse or other place where said soaps, oils, waxes, gases, gas-forming materials, and other similar compositions, and the component parts thereof, are being used in the processing of citrus fruit and, if the application of said soaps, oils, waxes, gases, gas-forming materials, and other similar compositions, and the component parts thereof, shall be found to be injurious to the citrus fruit, or to the keeping qualities thereof, the manufacturer shall be advised thereof and, if such condition is not remedied within a reasonable time, the Department of Agriculture shall be authorized to cancel the license of the manufacturer to sell or license the use of such soaps, oils, waxes, gases, gas-forming materials, and other similar compositions, and the component parts thereof, on or in the processing of citrus fruits.

(7) Before offering any such soaps, oils, waxes, gases, gas-forming materials and other similar compositions, or the component parts thereof, for sale or use on or in the processing of citrus fruits, the manufacturer thereof shall first procure from the Department of Agriculture a license to manufacture and sell or license the use of the same. Each manufacturer shall pay to the Department of Agriculture a fee of \$10 per annum. All such license fees collected hereunder shall be paid by the Department of Agriculture into the State Treasury monthly to the credit of the General Inspection Trust Fund and appropriated and made available for defraying the expenses incurred in the administration of this law.

(2) He shall likewise furnish the Department of Agriculture with a complete description of the process followed in applying said coloring matter to the peel of citrus fruit, including the following:

(a) The list of materials (other than the coloring matter) and of all machinery, apparatus, and equipment used in said process;

(b) An explanation of the amount and kind of heat used in said process, how applied to the citrus fruit, and for what period of time;

(c) A specific showing as to whether or not the coloring matter used in said process on the peel of the citrus fruit is of such nature or operates in such manner that the color of citrus fruit which has been treated with such coloring matter under such process is stable or changeable.

(3) The Department of Agriculture shall cause the said formula to be examined, and the said sample to be analyzed, and, if there shall be found in either any ingredient prohibited by law, or any other ingredient known to be dangerous to health under the conditions of its use, or if the said coloring matter shall vary in any material or substantial degree from the formula so furnished, then such coloring matter shall not be used on citrus fruits, and the manufacturer shall be denied the license required.

(4) Likewise, if the process followed in applying said coloring matter to the peel of citrus fruits as

furnished by the manufacturer to the Department of Agriculture is found to be injurious to citrus fruit or to its keeping qualities or to result in the creation of an unstable and unsatisfactory color on the peel of citrus fruit, then such coloring matter shall not be used on citrus fruits, and the manufacturer shall be denied the license required.

(5) If such coloring matter is found suitable for use in food, and the process is likewise found suitable for use on citrus fruit, both in respect to effecting no injury to said fruit or its keeping qualities and in resulting in the creation of a stable and satisfactory color on the peel thereof, then the coloring matter shall be authorized for use on citrus fruit, and the manufacturer shall be licensed as provided in this chapter.

(2) Likewise, the Department of Agriculture shall from time to time cause inspections to be made at the packinghouses or other places where said coloring matter is being applied to citrus fruits and, if the application of said coloring matter to citrus fruits through the use of said process or otherwise shall be found to be injurious to the citrus fruits or to the keeping qualities thereof or to result in an unstable and unsatisfactory color, the manufacturer shall be advised thereof, and, if said condition is not remedied, the Department of Agriculture may cancel the license of the manufacturer to manufacture and sell or license the use of such coloring matter.

All such license fees collected hereunder shall be paid by the Department of Agriculture into the State Treasury monthly to the credit of the General Inspection Trust Fund and are appropriated and made available for defraying the expenses incurred in the administration of this law. At the same time the manufacturer shall execute and deliver to the Department

of Agriculture a cash bond or surety bond executed by such manufacturer as principal and by a surety company qualified and authorized to do business in this state, as surety, in the amount of \$5,000. Said bond shall be in the form approved by the Department of Agriculture and shall be conditioned to guarantee that such coloring matter is free from any matter or ingredient that is harmful to the quality of such citrus fruit and is free from any ingredient that is in any way injurious to health. Said bond shall be to the Governor of the state and his successors in office, and the aggregate accumulated liability under any such bond shall not exceed the amount named therein. Any person claiming to be injured by a breach of any of the conditions of said bond may maintain an action on the same against the principal and surety named in said bond, or either of them, and any judgment against the principal and surety, or either of them, in any such action shall include costs.

#### **601.90 Frozen citrus fruit; power of Department of Citrus.—**

(1) Whenever freezing temperatures of sufficient degree to cause serious damage to citrus fruit occur in any section of the citrus producing areas, the Department of Citrus shall determine whether or not serious damage has resulted to citrus fruit from such freezing temperatures.

(2) If the Department of Citrus does determine that serious damage, as defined in s. 601.89, has been caused by such temperature to citrus fruit, it may at any time within 96 hours after the occurrence of such freezing temperature order either or both of the following:

(a) That no citrus fruit shall be sold, offered for sale, or transported for a period not to exceed 10 days after such order becomes effective.

(b) That, without an order under paragraph (a) or subsequent to the termination of any such order for a period not to exceed 14 days, no citrus fruit showing damage, as defined by s. 601.89, caused by freezing temperatures shall be sold, offered for sale, or transported.

(3) Such order or orders shall not affect or be applicable to any citrus fruit which was prepared for shipment and a certificate of inspection issued thereon prior to the time the order or orders herein provided for become effective.

(4) No order or orders hereunder shall apply to citrus fruit transported to canning or concentrating plants for the purpose of processing.

(5) Any order, rule, or regulation of the Department of Citrus issued pursuant to this section shall become effective at a time to be fixed by the Department of Citrus.

#### **601.901 Use of freeze-damaged fruit in frozen concentrated citrus products.—**

(1) At any time subsequent to a commission determination, pursuant to s. 601.90, that serious damage has resulted to citrus fruit from freezing temperatures, the commission may, at a regular or special meeting, establish by order the maximum degree of freeze damage or freeze-related injury to be permitted in citrus fruit used in preparation of any frozen concentrated products, including concentrate for manufacturing purposes, for the purpose of protecting the quality of such processed products.

(2) Notwithstanding the provisions of chapter 120, any order adopted by the commission pursuant to this section shall become effective at a time fixed by the commission, but not less than 24 hours from the time of adoption, and shall expire at a time fixed by the commission, but in no instance later than the end of the current shipping season.

(3) This section shall not repeal any other authority now or hereafter delegated to the Department of Citrus, but shall be deemed as additional and supplemental authority vested in the Department of Citrus, and should any part of this section be held to be unconstitutional or unenforceable by any court of competent jurisdiction, the decision of such court shall not affect the remaining portions of this section. It is the intention of the Legislature that this section would have been adopted had such unconstitutional or such unenforceable provision not been included herein.

(1) It shall be unlawful at any time for any person to sell or offer for sale, to transport, to prepare, receive, or deliver for transportation or market, except for canning, concentrating, or byproduct purposes within the state, any citrus fruit seriously damaged by freezing, as defined in s. 601.89. Not more than 15 percent by count of the citrus fruit in any one container or bulk lot may be seriously damaged by freezing injury; but not more than one-third of this tolerance shall be allowed for citrus fruit now or hereafter deemed adulterated by federal law or regulation.

(2) No lot of citrus fruit seriously damaged by freezing may be mixed with other lots of citrus fruit which are free from damage by freezing resulting in concealment of inferior fruit and thereby reducing the percentage of defective fruit in the seriously damaged lot to within the tolerance permitted for error in grading only.

(3) The manner and method of drawing samples and conducting tests under this section shall be prescribed by rules and regulations of the Department of Citrus. The inspection in the state of all citrus fruits seriously damaged by freezing and the enforcement of this section and of rules, regulations, and orders made by the Department of Citrus pursuant to and under authority of this section shall be under

the direction, supervision, and control of the Department of Agriculture and its duly authorized agents and inspectors who are qualified under existing laws to inspect for grade and maturity; and all citrus fruits that may be found to be seriously damaged by freezing, as defined by s. 601.89, upon inspection and testing shall be seized and may be confiscated and destroyed under the supervision of the citrus fruit inspector at the expense of the owner unless previous disposition is made by the owner or other person who offered the same for inspection, all the provisions of this section being subject to such reasonable rules and regulations as may be promulgated by the Department of Citrus.

It is unlawful for the manager of said packinghouse, canning plant, concentrating plant, or other place where the fruit is being received, or the owner of said

citrus fruit, or any person whomsoever to sell, transport, or in any way move or dispose of any of said fruit from the time of seizure thereof until after the making of said chemical analysis and the receipt of the chemist's report thereon; provided that no citrus fruit so seized may be held by any inspector more than 96 hours after the time of seizure thereof unless the same shall be shown by the chemist's analysis to contain arsenic.

**History.**—s. 95, ch. 25149, 1949; s. 10, ch. 26484, 1951.

**601.96 Seized fruit; taking samples for analysis.**—Upon the making of seizure of any citrus fruit as provided in s. 601.95, the inspector making said seizure shall immediately draw samples therefrom, as shall be provided for by regulations to be issued by the Department of Agriculture, drawing said samples either from the packinghouse, canning plant, or concentrating plant bins, or elsewhere in the packinghouse, canning plant, or concentrating plant, or from field boxes or vehicles delivering said citrus fruit to said packinghouse. Such samples so drawn by said inspector shall be transported with all possible haste to such chemist as may be designated by the Department of Agriculture for the making by such chemist of a chemical analysis thereof to determine whether or not the said citrus fruit contains arsenic. Said chemist shall make said analysis with all the proper haste and report by the quickest means available the result of said analysis as soon as the same is completed to the inspector making the seizure. If the said analysis shall show that the said citrus fruit contains no arsenic, the inspector shall release the fruit from seizure as soon as he receives the report of the chemist thereon.

(2) Every such person in Florida shall specifically advise and notify the buyer of any citrus fruit or

the canned or concentrated product thereof produced and canned or concentrated in any state or country other than Florida which is being sold, quoted, offered for sale, or shipped to such buyer that the said citrus fruit or the canned or concentrated products thereof were not produced in Florida, and the failure to so notify and advise such buyer will be construed as a violation of this section.

**601.9910 Legislative findings of fact; strict enforcement of maturity standard in public interest.**—

(1) FINDINGS.—

(a) The Legislature finds and determines and so declares that, for many years past, the shipment of raw, immature citrus fruit, generally designated as "green fruit," from the state to consuming markets has caused the loss of millions of dollars to the citrus growers of Florida; also has resulted in the lowering of the standard of living of many of its citizens; adversely affected the economic conditions of the entire state; reduced the receipts in the collection of ad valorem taxes, thereby reducing revenue needed by counties and cities; caused financial loss to the growers and shippers and processors who did not engage in the shipment of green fruit; and that such practice each year hurts the good name and reputation of all Florida citrus.

(b) The Legislature, after extensive hearings conducted annually, and after many hearings attended by its citrus committees at various citrus industry meetings throughout the citrus area; and after having had the advice and counsel of the best qualified and most expert technical advisers in the Florida citrus industry, and after having had the benefit of the advice of some of the most expert and best informed growers, shippers, and processors, and after having made a careful study of the reaction of all citrus fruits by reason of changes in climatic conditions, and having found that regardless of the color of an orange or the color of a grapefruit or regardless

of the juice content of such fruit, finds such fruit may be immature and unfit for human consumption. It is also recognized by experts that there are certain factors entering into the maturity of fruit which are not now measurable by chemical tests. There is a change brought about by time and nature in the blending of solids and acids into juice which characterizes maturity but not in a manner susceptible to chemical determination. Because of this, it is scientifically sound that the minimum requirements for solids and the ratio of solids to anhydrous citric acid in determining maturity be relaxed as the season progresses and the raw, immature flavor characteristic of fruit early in the season has disappeared through the workings of time and nature. Therefore, the Legislature hereby finds and determines and so declares that, until nature has completed its process of removing the raw, immature flavor, such citrus fruit will still be immature and unfit for human consumption and, when marketed, will result in dissatisfied consumers who will cease purchasing Florida citrus for some time and will classify that fruit which they had purchased as "Florida green fruit."

(c) The Legislature finds and determines and so declares that there is no better method of determining when such raw and immature flavor leaves Florida citrus than by the standards set forth in this chapter; and that experience has demonstrated over a period of many years, by the best available records and under various climatic conditions and various seasonal changes, that generally speaking prior to November 1 of each season oranges which do not have a total soluble solids of 9 percent with a minimum ratio of total soluble solids, as set forth in s. 601.20, still have a raw, immature flavor; and that, beginning on or about November 1 of each season, such raw, immature fruit flavor gradually disappears from the orange and by November 15 the same orange may have a still lower soluble solids percentage and not be immature; and after November 15 can still have a further lower soluble solids percentage without being immature; and by December 1 nature has completed its process of removing the raw, immature flavor which might have existed prior to that time, provided such fruit meets the other minimum maturity requirements set forth in this chapter. On December 1 oranges meeting the requirements of s. 601.19(4), while not being sufficiently mature to ship in fresh form, may be safely used in some processed products without the finished product having a raw, immature flavor. On December 1 grapefruit meeting the requirements of s. 601.16(4), while not being sufficiently mature to ship in fresh form, may be safely used in some processed products without the finished product having a raw, immature flavor.

(d) The Legislature finds and determines and so declares that the enforcement of the maturity standards, as set forth in this chapter, will not result in preventing any grower from marketing his fruit at some time during the marketing season, whenever nature has removed the raw, immature flavor; and, if there is a delay in such marketing, it will result in higher prices for the entire season, bringing additional millions of dollars to the growers of Florida and resulting in benefit to all growers, including the

grower or growers who were delayed a short time in the shipment of their fruit.

(2) **DECLARATION.**—Therefore, the Legislature declares that the strict enforcement of the maturity standards, as set forth in this chapter, is definitely in the public's interest and for the public's welfare, and that no citrus should be shipped from Florida and sold in the consuming markets which has a raw, immature flavor, and which could be classed by the consuming public as "Florida green fruit."

(3) **REGULATIONS REGARDING MATURITY STANDARDS FOR HYBRIDS.**—The Legislature finds and determines that classifications of and maturity standards for citrus hybrids should be established by regulations promulgated by the Department of Citrus pursuant to this chapter.

**601.9911 Fruit may be sold or transported, etc., direct from producer.**—Any citrus producer may transport his own citrus fruit or any citrus fruit may be sold or purchased and transported in interstate or intrastate commerce in truckload lots direct from a producer and any such fruit so sold, purchased, or transported need not be processed, handled by any packinghouse, washed, polished, graded, stamped, labeled, branded, placed in containers, or otherwise prepared for market as may be provided herein. Such fruit shall be certified at the time of inspection as tree run grade of fruit, but shall otherwise remain subject to the maturity standards and all other conditions, restrictions, embargoes, and other requirements of this chapter and shall be inspected for such compliance as all other fruit is inspected at such convenient locations as may be determined by the Department of Agriculture. Any such fruit violating any of the provisions of this chapter, or any rule or regulation of the Department of Citrus made pursuant to this chapter, but not inconsistent with this section, may be seized, condemned, and destroyed as provided herein. At the time of such inspection, all fees, assessments, and excise taxes provided in this chapter shall be paid and collected at the same rate as paid by all other fresh fruit growers or shippers.

**601.9913 High density frozen concentrated orange juice; standards; labeling.**—

(1) "High density frozen concentrated orange juice" is frozen concentrated orange juice which has been concentrated to a density greater than 47 degrees Brix.

(2) All high density frozen concentrated orange

juice sold or shipped, or offered for sale or shipment, in retail or institutional size containers shall comply with all requirements applicable to frozen concentrated orange juice in retail or institutional size containers, except as to the density of the concentrated food. The percent by weight of orange juice soluble solids contained in the reconstituted food made from high density frozen concentrated orange juice when the label directions for dilution are followed shall be the same as is prescribed by the Department of Citrus for frozen concentrated orange juice in retail or institutional size containers.

(3) The name of high density frozen concentrated orange juice, when sold in retail or institutional size containers, is "frozen concentrated orange juice, ..... plus 1", the blank being filled in with the whole number showing the dilution ratio in conspicuous type consistent with the size of the container and in conjunction with the product name. Where the label bears directions for making one quart or multiples of a quart, the blank may be filled in with a number that includes a fraction. The term "dilution ratio" means the number of volumes of water per volume of high density frozen concentrated orange juice prescribed by the label for reconstituting the food. The nomenclature requirements of this subsection shall not apply to containers for post-mix dispenser use, or to retail containers designed solely for use in foreign countries, provided the labeling thereof contains mixing instructions adequate to inform the institution or the consumer of the correct dilution ratio.

(4) The name of high density frozen concentrated orange juice, when sold in bulk size containers, is the name provided in subsection (3), or "frozen concentrated orange juice, ..... Brix," the blank being filled in with the number which expresses the percent by weight of orange juice soluble solids contained in the food, in conspicuous size and in conjunction with the product name.

(5) The compositional requirements applicable to high density frozen concentrated orange juice sold in bulk size containers shall be prescribed by the Department of Citrus by rule.

(6) The definition of retail, institutional, and bulk size containers for high density frozen concentrated orange juice shall be prescribed by the department by rule.

(7) All high density frozen concentrated orange juice sold or shipped or offered for sale or shipment shall be inspected as provided by law or rule for the inspection of frozen concentrated orange juice, and all fees and taxes shall be paid in the manner and as provided by law or rule.

(8) For the period August 1, 1977, through July 31, 1978, the Department of Citrus shall have the authority to issue individual permits for use of existing label inventory, provided such labels are found to be in substantial compliance with the requirements of this section and would not cause significant consumer confusion.

History.—s. 6, ch. 20620, 1941.

**1604.15 Dealers in agricultural products; definitions.**—For the purpose of ss. 604.15-604.30, the following words and terms, when used, shall be construed to mean:

(1) "Dealer in agricultural products" means any person, whether itinerant or domiciled within this state, engaged within this state in the business of purchasing, receiving, or soliciting agricultural products from the producer or his agent or representative for resale or processing for sale, acting as an agent for such producer in the sale of agricultural products for the account of the producer on a net return basis or acting as a negotiating broker between the producer or his agent or representative and the buyer.

(2) "Department" means the Department of Agriculture and Consumer Services.

(3) "Agricultural products" means the natural products of the farm, nursery, grove, orchard, vineyard, garden, and apiary (raw or manufactured); livestock; milk and milk products; poultry and poultry products; and limes (meaning the fruit *Citrus aurantifolia*, variety Persian, Tahiti, Bearss or Florida Key limes) produced in the state, except tobacco, tropical foliage, sugar cane, and citrus other than limes.

(4) "Net return basis" means the sale of agricultural products for the account of a person, other than the seller, wherein the seller acts as the agent for the owner and pays the owner of such products the net proceeds after subtracting all authorized and allowable deductions.

(5) "Producer" means any producer of agricultural products produced in the state.

cf.—s. 1.01 Agriculture, agricultural purposes, etc., definitions.

**1604.151 Purpose.**—The Legislature recognizes that the recovery of agricultural products is impractical because of the speed with which such products move through commerce and because of the difficulty of identification and that, because recovery is impractical, producers are subject to the possibility of serious economic harm in the event an agricultural products dealer defaults. Therefore, it is necessary in the interest of the public welfare to regulate agricultural products dealers in this state. However, restrictions shall be imposed only to the extent necessary to protect the public from significant and discernible harm or damage and not in a manner which will unreasonably affect the competitive market.

**Note.**—Section 14, ch. 79-238, provides that this section is repealed on July 1, 1985, and shall be reviewed by the Legislature pursuant to the Regulatory Reform Act of 1976, as amended.

**1604.16 Exceptions to provisions of ss. 604.15-604.30.**—The provisions of ss. 604.15-604.30 shall not apply to:

(1) Farmers or groups of farmers in the sale of agricultural products grown by themselves.

(2) All persons who buy for cash and pay at the time of purchase with United States currency.

(3) A dealer in agricultural products who oper-

ates as a bonded licensee under the Federal Packers and Stockyards Act.

(4) Dealers who operate exclusively on a retail basis and who purchase less than \$1,000 worth of agricultural products from Florida producers or their agents or representatives during the peak month of such purchases within the calendar year.

License shall be renewed annually on its anniversary date. The application shall be on a form furnished by the department and, together with such other information as the department shall require, shall state:

(1) The kind or kinds of agricultural products the applicant proposes to handle;

(2) The full name or title of the applicant, or if the applicant be an association or copartnership, the name of each member of such association or copartnership, or if the applicant be a corporation, the name of each officer of the corporation;

(3) The names of buyers or other local agents of the applicant, if any;

(4) The cities and towns within which places of business of the applicant will be located, together with the street or mailing address of each; and

(5) The federal employer's identification number of the applicant.

**1604.19 License; fee; bond; penalty.**—Unless the department refuses the application on one or more of the grounds hereinafter provided, it shall issue to an applicant, upon the payment of proper fees and the execution and delivery of a bond as hereinafter provided, a state license entitling the applicant to conduct business as a dealer in agricultural products for a 1-year period to coincide with the effective period of the bond furnished by the applicant. The license fee for the principal place of business for a dealer in agricultural products shall be based upon the amount of the agricultural products dealer's surety bond furnished by each dealer under the provisions of s. 604.20 and shall not exceed \$150. For each additional place in which the applicant desires to conduct business and which the applicant names in the application, the additional license

fee shall not exceed \$50 annually. Should any dealer in agricultural products fail, refuse, or neglect to apply and qualify for the renewal of a license on or before the date of expiration thereof, a penalty not to exceed \$35 shall apply to and be added to the original license fee and shall be paid by the applicant before the renewal license may be issued. The department, by rule, shall prescribe fee amounts sufficient to assure continued funding of ss. 604.15-604.30.

**History.**—s. 5, ch. 20678, 1941; s. 2, ch. 59-437; s. 2, ch. 61-412; s. 2, ch. 63-351; ss. 14, 35, ch. 69-106; s. 3, ch. 76-168; s. 1, ch. 77-457; ss. 6, 12, 14, ch. 79-238.

#### **604.20 Bond prerequisite; amount; form.—**

(1) Before any license shall be issued, the applicant therefor shall make and deliver to the department a surety bond in the amount of at least \$1,000 or in such greater amount as the department may determine, not exceeding the maximum amount of business done or estimated to be done in any month by the applicant, executed by a surety corporation authorized to transact business in the state. Such bond shall be upon a form prescribed or approved by the department and shall be conditioned to secure the faithful accounting for and payment to producers or their agents or representatives of the proceeds of all agricultural products handled or purchased by such dealer. A new and separate bond shall be furnished annually for the renewal of a license.

(2) The amount of such bond shall, upon the order of the department at any time, be increased, if in its discretion the department finds such increase to be warranted by the volume of agricultural products being handled by the principal or maker of such bond. In the same manner, the amount of such bond may be decreased when a decrease in volume of products handled warrants such decrease in bond. These provisions shall apply to any bond, regardless of the anniversary date of its issuance, expiration or renewal.

(3) In order to effectuate the purposes of this section, the department or its agents may require from any applicant or licensee verified statements of the volume of his business or may review his records at his place of business during normal business hours for the purpose of determining his volume of business. Failure of a licensee to furnish such statement, to make such records available, or to make and deliver a new or additional bond shall be cause for suspension of his license. If the department finds such failure to be willful, the license may be revoked.

**Note.**—Section 14, ch. 79-238, provides that this section is repealed on July 1, 1985, and shall be reviewed by the Legislature pursuant to the Regulatory Reform Act of 1976, as amended.

#### **604.21 Complaint; investigation; hearing.—**

(1) Any person claiming himself to be damaged by any breach of the conditions of a bond given by a licensed dealer in agricultural products as hereinbefore provided may enter complaint thereof to the department, which complaint shall be a written statement of the facts constituting said complaint. Said complaint shall be filed within 9 months from the date of sale in instances involving direct sales or

from the date on which the agricultural product was received by the dealer in agricultural products, as agent, to be sold for the producer.

(2) Upon the filing of such complaint against the dealer and the surety in the manner herein provided, the department shall investigate the matters complained of; whereupon, if, in the opinion of the department, the facts contained in the complaint warrant such action, the department shall send to the dealer in question, by certified mail, notice of the filing of the complaint. Such notice shall be accompanied by a true copy of the complaint. A copy of such notice and complaint shall also be sent to the surety company that provided the bond for the dealer, which surety company shall become party to the action. Such notice of the complaint shall inform the dealer of a reasonable time within which to answer the complaint by advising the department in writing that the allegations in the complaint are admitted or denied or that the complaint has been satisfied. Such notice shall also inform the dealer and the surety of a right to a hearing on the complaint, if requested.

(3) If the dealer admits the allegations of the complaint but fails to satisfy same within the time fixed by the department, the department shall thereupon order payment by the dealer of the amount found owed.

(4) If the dealer, in his answer, denies the allegations of the complaint and waives a hearing, the department may order a hearing or enter an order based on the facts and circumstances set forth in the complaint and the respondent's answer thereto. If the department determines the complaint has not been established, the order shall, among other things, dismiss the proceedings. If the department determines that the allegations of the complaint have been established, it shall enter its findings of fact accordingly and thereupon enter its order adjudicating the amount of indebtedness due to be paid by the dealer to the complainant.

(5) Any order entered by the department pursuant to this section shall become final 14 days after issue if neither the department nor a party whose material interest is affected by the order requests a hearing on the order within 14 days following the date of issue.

(6) Any party whose material interest is affected by a proceeding pursuant to this section shall be granted a hearing upon request. Such hearing shall be conducted pursuant to chapter 120. The department's order, when issued pursuant to the recommended order of a hearing officer, shall be final upon issuance.

(7) Any indebtedness set forth in a departmental order against a dealer shall be paid by the dealer within 15 days after such order becomes final.

(8) Upon failure by a dealer to comply with an order of the department directing payment, the department shall call upon the surety company to pay over to the department, out of the bond posted by the surety for such dealer, the amount called for in the department's order, not exceeding the amount of the bond. If the bond is insufficient to pay in full the amount due each complainant as set forth in the department's order, the department shall distribute the proceeds of the bond pro rata among such com-

plainants. All proceeds from such bonds shall be paid over by the surety company directly to the department to be distributed by it to successful complainants. Such funds shall be considered trust funds in the hands of the department for the exclusive purpose of satisfying duly established complaints. Payments made by a surety to the department pursuant to this section shall be considered payments made upon demand and shall not be considered voluntary payments.

(9) Nothing in this section shall be construed as relieving a surety company from responsibility for payment on properly established complaints against dealers involved in a federal bankruptcy proceeding and against whom the department is prohibited from entering an order.

(10) Upon failure of a surety company to comply with a demand for payment of the proceeds on a bond for a dealer in agricultural products, a complainant who is entitled to such proceeds, in total or in part, may, within a reasonable time, file in the circuit court a petition or complaint setting forth the administrative proceeding before the department and ask for final order of the court directing the surety company to pay the bond proceeds to the department for distribution to the complainants. If in such suit the complainant is successful and the court affirms the demand of the department for payment, the complainant shall be awarded all court costs incurred therein and also a reasonable attorney's fee to be fixed and collected as part of the costs of the suit. In lieu of such suit, the department may enforce its final agency action in the manner provided in s. 120.69.

**604.211 Limitation on successive consignments.**—No licensee, while acting as an agent for a producer or in disposing of agricultural products received on consignment from a producer or his agent or representative, shall consign such products to another, use the services of a broker, or receive more than one commission or fee for making the sale thereof, unless by written consent of the producer or consignor. **604.22 Dealers to keep records; contents, etc.**—Each licensee, while acting as agent for a producer, shall make and preserve for at least 1 year a record of each transaction, specifying the name and address of the producer for whom he acts as agent; the date of receipt; the kind, quality, and quantity of agricultural products received; the name and address of the purchaser of each package of agricultural products; the price for which each package was sold; the amount and explanation of any adjustments given; and the net amount due from each purchaser. An account of sales shall be furnished each

producer within 48 hours after the sale of such agricultural products. Such account of sales shall clearly show the sale price of each lot of agricultural products sold; all adjustments to the original price, along with explanation of same; and an itemized showing of all marketing costs deducted by the licensee, along with the net amount due the producer. The licensee shall make the payment to the producer within 5 days of the licensee's receipt of payment.

**604.23 Examination of records, sales, accounts, books, etc.**—The department shall have power to investigate upon complaint of any interested person or upon its own initiative, the record of any applicant or licensee, or any transaction involving the solicitation, receipt, sale or attempted sale of agricultural products, the failure to make proper and true accounts and settlements at prompt and regular intervals, the making of false statements as to condition, quality or quantity of goods received or while in storage, the making of false statements as to market conditions with intent to deceive, or the failure to make payment for goods received, or other alleged injurious transactions. For such purposes the department or its agents may examine, at the place or places of business of the applicant or licensee, his ledgers, books of accounts, memoranda, and other documents which relate to the transaction involved, and may take testimony thereon under oath.

**Note.**—Section 14, ch. 79-238, provides that this section is repealed on July 1, 1985, and shall be reviewed by the Legislature pursuant to the Regulatory Reform Act of 1976, as amended.

**604.25 Refusal to grant license; suspension; revocation, etc.**—

(1) The department may decline to grant a license or may suspend or revoke a license already granted if it is satisfied that the applicant or licensee has either:

(a) Suffered a money judgment to be entered against him upon which execution has been returned unsatisfied;

(b) Made false charges for handling or services rendered;

**607.001 Short title.**—This act shall be known and may be cited as the "Florida General Corporation Act."

**History.**—s. 1, ch. 75-250.

**607.004 Definitions.**—As used in this chapter, unless the context otherwise requires, the term:

(1) "Corporation" or "domestic corporation" means a corporation subject to the provisions of this chapter, except a foreign corporation.

(2) "Foreign corporation" means a corporation organized under laws other than the laws of this state for a purpose or purposes for which a corporation may be organized under this chapter.

(3) "Articles of incorporation" means the original or restated articles of incorporation or articles of consolidation, and all amendments thereto, including articles of merger.

(4) "Shares" means the units into which the proprietary interests in a corporation are divided.

(5) "Subscriber" means one who subscribes for shares in a corporation, whether before or after incorporation.

(6) "Shareholder" or "stockholder" means one who is a holder of record of shares in a corporation.

(7) "Authorized shares" means the shares of all classes which the corporation is authorized to issue.

(8) "Treasury shares" means the shares of a corporation which have been issued, have been subsequently acquired by and belong to the corporation, and have not, either by reason of the acquisition or otherwise, been canceled or restored to the status of authorized but unissued shares. Treasury shares shall be deemed to be "issued" shares, but not "outstanding" shares.

(9) "Net assets" means the amount by which the total assets of a corporation exceed the total liabilities of the corporation. For purposes of this definition, the term "total liabilities" shall not include the capital and surplus of a corporation.

(10)(a) "Stated capital" means, at any particular time, the sum of:

1. The par value of all shares of the corporation having a par value that have been issued and have not been canceled;

2. The amount of the consideration received by

the corporation for all shares of the corporation without par value that have been issued, except such part of the consideration therefor as may have been allocated to capital surplus in a manner permitted by law; and

3. Such amounts, not included in subparagraphs 1. and 2., as have been transferred to stated capital of the corporation, whether upon the issue of shares as a share dividend or otherwise,

minus all reductions from such sum as have been effected in a manner permitted by law.

(b) Irrespective of the manner of designation thereof by the laws under which a foreign corporation is organized, the stated capital of a foreign corporation shall be determined on the same basis and in the same manner as the stated capital of a domestic corporation, for the purpose of computing taxes on qualification and other charges imposed by this act.

(11) "Surplus" means the excess of the net assets of a corporation over its stated capital.

(12) "Earned surplus" means the portion of the surplus of a corporation that is equal to the balance of its net profits, income, gains, and losses from the date of incorporation, or from the latest date on which a deficit in earned surplus was eliminated by an application of its capital surplus or stated capital or otherwise, after deducting subsequent distributions to shareholders and transfers to stated capital and capital surplus to the extent that such distributions and transfers are made out of earned surplus. "Earned surplus" shall include also any portion of surplus allocated to earned surplus in mergers, consolidations, or acquisitions of all or substantially all of the outstanding shares or of the property and assets of another corporation, domestic or foreign.

(13) "Capital surplus" means the entire surplus of a corporation other than its earned surplus.

(14) "Insolvent" means the inability of a corporation to pay its debts as they become due in the usual course of its business.

History.—s. 2, ch. 75-250.

**607.007 Purposes and application.**—Corporations may be organized under this chapter for any lawful purpose or purposes, and the provisions of this chapter extend to all corporations, whether for profit or not for profit, or whether chartered by special acts or general laws, except that special statutes for the regulation and control of types of business and corporations shall control when in conflict herewith.

#### **607.014 Indemnification of officers, directors, employees, and agents.—**

(1) A corporation shall have power to indemnify any person who was or is a party, or is threatened to be made a party, to any threatened, pending, or com-

pleted action, suit, or proceeding, whether civil, criminal, administrative, or investigative (other than an action by, or in the right of, the corporation), by reason of the fact that he is or was a director, officer, employee, or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against expenses (including attorneys' fees), judgments, fines, and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit, or proceeding, including any appeal thereof, if he acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit, or proceeding by judgment, order, settlement, or conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in, or not opposed to, the best interests of the corporation or, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

(2) A corporation shall have power to indemnify any person who was or is a party, or is threatened to be made a party, to any threatened, pending, or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee, or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit, including any appeal thereof, if he acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation, except that no indemnification shall be made in respect of any claim, issue, or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to the corporation unless, and only to the extent that, the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

(3) To the extent that a director, officer, employee, or agent of a corporation has been successful on the merits or otherwise in defense of any action, suit, or proceeding referred to in subsection (1) or subsection (2), or in defense of any claim, issue, or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

(4) Any indemnification under subsection (1) or subsection (2), unless pursuant to a determination by a court, shall be made by the corporation only as authorized in the specific case upon a determination

that indemnification of the director, officer, employee, or agent is proper in the circumstances because he has met the applicable standard of conduct set forth in subsection (1) or subsection (2). Such determination shall be made by the board of directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit, or proceeding or by the shareholders by a majority vote of a quorum consisting of shareholders who were not parties to such action, suit, or proceeding.

(5) Expenses (including attorneys' fees) incurred in defending a civil or criminal action, suit, or proceeding may be paid by the corporation in advance of the final disposition of such action, suit, or proceeding upon a preliminary determination following one of the procedures set forth in subsection (4) that the director, officer, employee, or agent met the applicable standard of conduct set forth in subsection (1) or subsection (2) and upon receipt of an undertaking by or on behalf of the director, officer, employee, or agent to repay such amount unless it shall ultimately be determined that he is entitled to be indemnified by the corporation as authorized in this section.

(6) A corporation shall have the power to make any other or further indemnification, except an indemnification against gross negligence or willful misconduct, under any bylaw, agreement, vote of shareholders or disinterested directors, or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office.

(7) Indemnification as provided in this section shall continue as to a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of such a person.

(8) A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee, or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against any liability asserted against him and incurred by him in any such capacity or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liability under the provisions of this section.

(9) If any expenses or other amounts are paid by way of indemnification otherwise than by court order or action by the shareholders or by an insurance carrier pursuant to insurance maintained by the corporation, the corporation shall, not later than the time of delivery to shareholders of written notice of the next annual meeting of shareholders, unless such meeting is held within 3 months from the date of such payment, and, in any event, within 15 months from the date of such payment, deliver either personally or by mail to each shareholder of record at the time entitled to vote for the election of directors a statement specifying the persons paid, the amounts paid, and the nature and status at the time of such payment of the litigation or threatened litigation.

History.—s. 5, ch. 75-250; s. 1, ch. 77-174.

**607.017 Right of corporation to acquire and dispose of its own shares.—**

(1) A corporation shall have the right to purchase, take, receive, or otherwise acquire, hold, own, pledge, grant a security interest in, transfer, or otherwise dispose of its own shares, but purchases of its own shares, whether direct or indirect, shall be made only to the extent of unreserved and unrestricted surplus.

(2) To the extent that earned surplus or capital surplus is used as the measure of the corporation's right to purchase its own shares, such surplus shall be restricted so long as such shares are held as treasury shares. Such restriction shall be allocated on a pro rata basis to the treasury shares, and upon the disposition or cancellation of any such shares, the restriction shall be removed to the extent it is attributable to the shares disposed of or canceled.

(3) Notwithstanding the limitations contained in subsection (1), a corporation may purchase or otherwise acquire its own shares for the purpose of:

- (a) Eliminating fractional shares.
- (b) Collecting or compromising indebtedness to the corporation.
- (c) Paying dissenting shareholders entitled to payment for their shares under the provisions of this act.
- (d) Effecting, subject to the other provisions of this act, the retirement of its redeemable shares by redemption or by purchase at not to exceed the redemption price.

(4) No purchase of, or payment for, its own shares shall be made by a corporation at a time when the corporation is insolvent or when such payment would make it insolvent.

(5) An open-end investment company registered as such under the Federal Investment Company Act of 1940, as heretofore or hereafter amended, if its articles of incorporation shall so provide, may purchase, take, receive, or otherwise acquire, hold, own, pledge, transfer, or otherwise dispose of its own shares out of stated capital or any unrestricted surplus.

**607.021 Defense of ultra vires.**—No act of a corporation, and no conveyance, transfer, or encumbrance of real or personal property to or by a corporation, shall be invalid by reason of the fact that the corporation was without capacity or power to do such act or to make or receive such conveyance, transfer, or encumbrance, but such lack of capacity or power may be asserted:

(1) In a proceeding by the corporation, whether acting directly or through a receiver, trustee, or other legal representative, or through shareholders in a representative suit, against the incumbent or former officers or directors of the corporation.

(2) In a proceeding by the Attorney General, as provided in this act, to dissolve the corporation or in a proceeding by the Attorney General to enjoin the corporation from the transaction of unauthorized business.

*History.*—s. 7, ch. 75-250; s. 3, ch. 76-209.

**607.041 Service of process, notice, or demand on a corporation.—**

(1) Process against any corporation may be served in accordance with chapter 48 or chapter 49.

(2) Any notice to or demand on a corporation made pursuant to this chapter may be made by:

(a) Delivery to the chairman of the board, the president, any vice president, the secretary or treasurer, or the registered agent of the corporation.

(b) Writing, mailed to the registered office of the corporation in this state or to any other address in this state which is in fact the principal office of the corporation in this state.

**History.**—s. 14, ch. 75-250.

**607.044 Authorized shares.—**

(1) Each corporation shall have power to create and issue the number of shares stated in its articles of incorporation. Such shares may be divided into one or more classes, any or all of which classes may consist of shares with par value or shares without par value, with such designations, preferences, limitations, and relative rights as shall be stated in the articles of incorporation. The articles of incorporation may limit or deny the voting rights of, or provide special voting rights for, the shares of any class to an extent not inconsistent with the provisions of this chapter.

(2) Without limiting the authority herein contained, a corporation, when so provided in its articles of incorporation, may issue shares of preferred or special classes:

(a) Subject to the right of the shareholders to require redemption of, or the corporation to redeem, any of such shares at the price fixed by the articles of incorporation for the redemption thereof.

(b) Entitling the holders thereof to cumulative, noncumulative, or partially cumulative dividends.

(c) Having preference over any other class or classes of shares as to the payment of dividends.

(d) Having preference in the assets of the corporation over any other class or classes of shares, upon the voluntary or involuntary liquidation of the corporation.

(e) Convertible into shares of any other class or into shares of any series of the same or any other class, but shares without par value shall not be converted into shares with par value unless that part of the stated capital of the corporation represented by such shares without par value is, at the time of conversion, at least equal to the aggregate par value of the shares into which the shares without par value are to be converted, or the amount of any such deficiency is transferred from surplus to stated capital.

(3) If any corporation shall issue more than one class of stock or more than one series of any class, the powers, designations, preferences, limitations, and relative rights of each class or series of stock shall be set forth in full or summarized on the certificate which the corporation issues to represent that class

or series of stock, or, in lieu thereof, there may be set forth on the certificate a statement that the corporation will furnish without charge, to each stockholder who so requires, the designations, preferences, limitations, and relative rights of each class or series of stock.

(4) If any corporation shall have authority to issue more than one class or series of stock, the shares of each class or series shall be designated to distinguish them from the shares of all other classes or series. Shares which are entitled to preference in the distribution of dividends or assets shall not be designated as common shares. Shares which are not entitled to preference in the distribution of dividends or assets shall be common shares and shall not be designated as preferred shares.

**History.**—s. 15, ch. 75-250.

**Note.**—Former s. 608.14.

**607.047 Issuance of shares of preferred or special classes in series.—**

(1) If the articles of incorporation so provide, the shares of any preferred or special class may be divided into and issued in series. If the shares of any such class are to be issued in series, then each series shall be so designated as to distinguish the shares thereof from the shares of all other series and classes. Any or all of the series of any such class, and the variations in the relative rights and preferences as between different series, may be fixed and determined by the articles of incorporation, but all shares of the same class shall be identical except as to the following relative rights and preferences, as to which there may be variations between different series:

(a) The rate or manner of payment of dividends.

(b) Whether shares may be redeemed and, if so, the redemption price and the terms and conditions of redemption.

(c) The amount payable upon shares in the event of voluntary and involuntary liquidation.

(d) Sinking fund provisions, if any, for the redemption or purchase of shares.

(e) The terms and conditions, if any, on which shares may be converted.

(f) Voting rights, if any.

(2) If the articles of incorporation shall expressly vest authority in the board of directors, then, to the extent that the articles of incorporation shall not have established series and fixed and determined the variations in the relative rights and preferences as between series, the board of directors shall have authority to divide any or all of such classes into series and, within the limitations set forth in this section and in the articles of incorporation, fix and determine the relative rights and preferences of the shares of any series so established.

(3) Prior to the issue of any shares of a series established by resolution adopted by the board of directors, the corporation shall file in the office of the Department of State a statement setting forth:

(a) The name of the corporation.

(b) A copy of the resolution establishing and designating the series and fixing and determining the relative rights and preferences thereof.

(c) The date of adoption of such resolution.

(d) That such resolution was duly adopted by the board of directors.

Such statement shall be executed by the corporation by its president or a vice president and by its secretary or an assistant secretary, acknowledged by one of the officers signing such statement, and delivered to the Department of State. If the Department of State finds that such statement conforms to law, it shall, when all taxes and fees have been paid as in this chapter prescribed, file such statement in accordance with this chapter. Upon the filing of such statement by the Department of State, the resolution establishing and designating the series and fixing and determining the relative rights and preferences thereof shall become effective and shall constitute an amendment to the articles of incorporation.

History.—s. 16, ch. 75-250.

Note.—Former s. 608.14.

#### 607.051 Subscriptions for shares.—

(1) A subscription for shares of a corporation to be organized shall be irrevocable for a period of 6 months, unless otherwise provided by the terms of the subscription agreement or unless all the subscribers consent to the revocation of such subscription.

(2) A subscription for shares, whether made before or after the formation of a corporation, shall not be enforceable unless in writing and signed by the subscriber.

(3) Unless otherwise provided in the subscription agreement:

(a) Subscriptions for shares, whether made before or after the organization of a corporation, shall be paid in full at such time, or in such installments and at such times, as shall be determined by the board of directors.

(b) Any call made by the board of directors for payment on subscriptions shall be uniform as to all shares of the same class or as to all shares of the same series, as the case may be.

(4) In case of default in the payment of any installment or call when such payment is due, the corporation may proceed to collect the amount due in the same manner as any debt due the corporation. The subscription agreement may prescribe other penalties for failure to pay installments or calls that may become due, but no penalty working a forfeiture of a subscription, or of the amounts paid thereon, shall be declared as against any subscriber unless the amount due thereon shall remain unpaid for a period of 20 days after written demand has been made therefor. If mailed, such written demand shall be deemed to be made when deposited in the United States mail in a sealed envelope addressed to the subscriber at his last post-office address known to the corporation, with first class postage thereon prepaid. The delinquent subscriber or his legal representative shall be entitled to be paid the excess of the sale proceeds realized from the sale by the corporation of such subscribed shares over the sum of the amount due and unpaid on the subscription and the reasonable expenses incurred in selling the shares.

History.—s. 17, ch. 75-250.

#### 607.054 Consideration and payment for shares.—

(1) Shares of stock with par value may be issued for such consideration, having a value not less than the par value of the shares issued therefor, as is determined from time to time by the board of directors.

(2) Shares of stock without par value may be issued for such consideration as is determined from time to time by the board of directors.

(3) Treasury shares may be disposed of by the corporation for such consideration as may be determined from time to time by the board of directors.

(4) In any instance in which this section provides that the consideration may be determined from time to time by the board of directors, the articles of incorporation may reserve to the stockholders the right to determine the consideration for the issue or disposition of any shares. If the right is so reserved to stockholders, a vote of the majority of the outstanding stock entitled to vote thereon shall be required, unless the articles require a greater vote.

(5) The consideration for the issuance of shares or for the disposal of treasury shares may be paid, in whole or in part, in cash or other property, tangible or intangible, or in labor or services actually performed for the corporation. Shares may not be issued until the full amount of the consideration therefor has been paid. When payment of the consideration for which shares are to be issued shall have been received by the corporation, such shares shall be deemed to be fully paid and nonassessable.

(6) Future services shall not constitute payment or part payment for the issuance of shares of a corporation.

(7) In the absence of fraud in the transaction, the judgment of the board of directors or the shareholders, as the case may be, as to the value of the consideration received for shares shall be conclusive.

History.—ss. 18, 19, ch. 75-250; s. 6, ch. 76-209.

Note.—Former s. 608.15.

#### 607.057 Stock rights and options.—

(1) Unless this section or the articles of incorporation otherwise provide, a corporation may create and issue, whether or not in connection with the issue and sale of any of its shares or other securities, rights or options entitling the holders thereof to purchase from the corporation shares of any class or classes, whether authorized but unissued shares, treasury shares, or shares to be purchased or acquired by the corporation. Except to the extent that this section permits otherwise, the consideration and payment for shares to be purchased under any such right or option shall comply with the requirements of s. 607.054.

(2) The instrument or instruments evidencing such rights or options shall be approved by the board of directors and shall set forth or incorporate by reference the terms and conditions upon which, the time or times at or within which, and the price or prices at which such shares may be purchased from the corporation upon the exercise of any such rights or options.

(3) Such rights or options may be issued to directors, officers, and employees of the corporation or a subsidiary or affiliate thereof as an incentive to ser-

vice or continued service with the corporation or a subsidiary or affiliate thereof, or to a trustee on behalf of such directors, officers, and employees.

(4) In the absence of fraud, the judgment of the board of directors or of the shareholders, as the case may be, shall be conclusive as to the adequacy of the consideration received or to be received by the corporation for such rights or options.

History.—s. 20, ch. 75-250.

#### **607.061 Determination of amount of stated capital.—**

(1) In case of the issuance by a corporation of shares having a par value, the consideration received therefor, expressed in dollars, shall constitute stated capital to the extent of the par value of such shares, and the excess, if any, of such consideration shall constitute capital surplus.

(2) In case of the issuance by a corporation of shares without par value, the entire consideration received therefor, expressed in dollars, shall constitute stated capital unless the corporation shall determine as provided in this section that only a part thereof shall be stated capital. The board of directors may allocate to capital surplus any portion of the consideration received for the issuance of shares without par value. Such allocation may be made at any time prior to the date on which the corporation prepares and publishes to any other person a financial statement of the corporation reflecting the issuance of such shares without par value. No such allocation shall be made of any portion of the consideration received for shares without par value having a stated preference in the assets of the corporation in the event of involuntary liquidation, except the amount, if any, of such consideration in excess of such preference, and no such allocation shall be made out of any portion of the consideration for the issue of shares without par value which is fixed by the shareholders pursuant to a right reserved in the articles of incorporation, unless such allocation is authorized by the affirmative vote of the holders of a majority of all shares entitled to vote thereon.

(3) If shares have been or shall be issued by a corporation in merger or consolidation or in acquisition of all or substantially all of the outstanding shares or of the property and assets of another corporation, whether domestic or foreign, any amount that would otherwise constitute capital surplus under the foregoing provisions of this section may instead be allocated to earned surplus by the board of directors of the issuing corporation, except that its aggregate earned surplus shall not exceed the sum of the earned surpluses, as defined in this chapter, of the issuing corporation and of all other corporations, domestic or foreign, that were merged or consolidated or of which the shares or assets were acquired.

(4) The stated capital of a corporation may be increased from time to time by resolution of the board of directors directing that all or part of the surplus of the corporation be transferred to stated capital. The board of directors may direct that the amount of the surplus so transferred shall be

deemed to be stated capital in respect of any designated class of shares.

History.—s. 21, ch. 75-250.

**607.064 Expenses of organization, reorganization, and financing.—**The reasonable charges and expenses of formation or reorganization of a corporation and the reasonable expenses of, and compensation for, the sale or underwriting of its shares may be paid or allowed by the corporation out of the consideration received by it in payment for its shares without thereby impairing the fully paid and nonassessable status of such shares.

History.—s. 22, ch. 75-250.

#### **607.067 Certificates representing shares.—**

(1) Every holder of shares in a corporation shall be entitled to have a certificate representing all shares to which he is entitled; and such certificates shall be signed by the president or a vice president and the secretary or an assistant secretary of the corporation and may be sealed with the seal of the corporation or a facsimile thereof. The signatures of the president or vice president and the secretary or assistant secretary may be facsimiles if the certificate is manually signed on behalf of a transfer agent or a registrar other than the corporation itself or an employee of the corporation. In case any officer who signed, or whose facsimile signature has been placed upon, such certificate shall have ceased to be such officer before such certificate is issued, it may be issued by the corporation with the same effect as if he were such officer at the date of its issuance.

(2) Every certificate representing shares issued by a corporation which is authorized to issue shares of more than one class or more than one series of any class shall set forth or fairly summarize upon the face or back of the certificate, or shall state that the corporation will furnish to any shareholder upon request and without charge a full statement of:

(a) The designations, preferences, limitations, and relative rights of the shares of each class or series authorized to be issued.

(b) The variations in the relative rights and preferences between the shares of each such series, if the corporation is authorized to issue any preferred or special class in series and so far as the same have been fixed and determined.

(c) The authority of the board of directors to fix and determine the relative rights and preferences of subsequent series.

(3) Every certificate representing shares which are restricted as to the sale, disposition, or other transfer of such shares shall state that such shares are restricted as to transfer and shall set forth or fairly summarize upon the certificate, or shall state that the corporation will furnish to any shareholder upon request and without charge a full statement of, such restrictions.

(4) Each certificate representing shares shall state upon the face thereof:

(a) The name of the corporation.

(b) That the corporation is organized under the laws of this state.

(c) The name of the person or persons to whom issued.

(d) The number and class of shares and the design-

nation of the series, if any, which such certificate represents.

(e) The par value of each share represented by such certificate or a statement that the shares are without par value.

(5) No certificate shall be issued for any share until such share is fully paid.

(6) Nothing in this section shall be construed to invalidate any share certificate validly issued and outstanding under the general corporation law on January 1, 1976.

**History.**—s. 23, ch. 75-250; s. 1, ch. 77-174.

**Note.**—Former s. 608.41.

#### **607.071 Fractional shares.—**

(1) A corporation may, when necessary or desirable in order to effect share transfers, share distributions or reclassifications, mergers, consolidations, or reorganizations:

(a) Issue fractions of a share.

(b) Make arrangements, or provide reasonable opportunity, for any person entitled to a fractional interest in a share to sell such fractional interest or to purchase such additional fractional interests as may be necessary to acquire a full share.

(c) Pay in cash the fair value of fractions of a share as of the time when those entitled to receive such fractions are determined.

(d) Issue scrip in registered or bearer form, over the manual or facsimile signature of an officer of the corporation or its agent, which shall entitle the holder to receive a certificate for a full share upon the surrender of such scrip aggregating a full share. The board of directors may cause scrip to be issued subject to the condition that it shall become void if not exchanged for certificates representing full shares before a specified date, the condition that the shares for which scrip is exchangeable may be sold by the corporation and the proceeds thereof distributed to the holders of scrip, or any other conditions which the board of directors may deem advisable. Such conditions shall be stated or fairly summarized on the face of the certificate.

(2) A certificate for a fractional share shall, but scrip shall not unless otherwise provided therein, entitle the holder to exercise voting rights, to receive dividends thereon, and to participate in any of the assets of the corporation in the event of liquidation.

**History.**—s. 24, ch. 75-250.

**Note.**—Former s. 608.151.

#### **607.074 Liability of subscribers and shareholders.—**

(1) A holder of, or subscriber to, shares of a corporation shall be under no obligation to the corporation or its creditors with respect to such shares other than the obligation to pay to the corporation the full consideration for which such shares were issued or to be issued. Such an obligation may be enforced by the corporation and its successors or assigns, by a shareholder suing derivatively on behalf of the corporation, or by a receiver, liquidator or trustee in bankruptcy of the corporation, or other person having the legal right to marshal the assets of such corporation.

(2) Any person becoming an assignee or transferee of shares, or of a subscription for shares, in good

faith and without knowledge or notice that the full consideration therefor has not been paid shall not be personally liable to the corporation or its creditors for any unpaid portion of such consideration, but the assignor or transferor shall continue to be liable therefor.

(3) No pledgee or other holder of shares as collateral security shall be personally liable as a shareholder, but the pledgor or other person transferring such shares as collateral shall be considered the holder thereof for purposes of liability under this section.

(4) An executor, administrator, conservator, guardian, trustee, assignee for the benefit of creditors, receiver, or other fiduciary shall not be personally liable to the corporation as a holder of, or subscriber to, shares of a corporation, but the estate and funds in his hands shall be so liable.

**History.**—s. 25, ch. 75-250.

**Note.**—Former ss. 608.44 and 608.45.

#### **607.077 Shareholders' preemptive rights.—**

(1) The shareholders of a corporation shall have no preemptive right to acquire unissued or treasury shares of the corporation or securities of the corporation convertible into or carrying a right to subscribe to or acquire shares, except to the extent, if any, that such right is provided in the articles of incorporation.

(2) In the case of any Florida corporation in existence prior to January 1, 1976, shareholders of such corporation shall continue to have the preemptive rights in such corporation which they had immediately prior to the effective date of this law, unless and until the articles of incorporation are amended to alter or terminate shareholders' preemptive rights.

**History.**—s. 26, ch. 75-250.

**Note.**—Former s. 608.42(2).

**607.081 Bylaws.**—The power to adopt, alter, amend, or repeal bylaws shall be vested in the board of directors unless reserved to the shareholders by the articles of incorporation. Bylaws adopted by the board of directors or by the shareholders may be repealed or changed, new bylaws may be adopted by the shareholders, and the shareholders may prescribe in any bylaw made by them that such bylaw shall not be altered, amended, or repealed by the board of directors. The bylaws may contain any provisions for the regulation and management of the affairs of the corporation not inconsistent with law or the articles of incorporation.

**History.**—s. 27, ch. 75-250.

**Note.**—Former s. 608.07.

#### **607.084 Meetings of shareholders; place; frequency; special; notice.—**

(1) Meetings of shareholders may be held at such place, either within or without this state, as may be provided in the bylaws or, when not inconsistent with the bylaws, in the notice of the meeting.

(2) A meeting of shareholders shall be held annually, for the election of directors and for the transaction of other business, on such date and at such time as may be stated in, or fixed in accordance with, the bylaws. If the annual meeting is not held within any 13-month period, the circuit court of the circuit in

which the registered office of the corporation is located may, on the application of any shareholder, summarily order a meeting to be held.

(3) Special meetings of the shareholders may be called by any one of the following persons or groups:

(a) The board of directors.

(b) The holders of not less than one-tenth of all the shares entitled to vote at the meeting.

(c) Such other persons or groups as may be authorized in the articles of incorporation or the bylaws.

(4) Except as otherwise provided in this chapter, written notice stating the place, day, and hour of the meeting and, in the case of a special meeting, the purpose or purposes for which the meeting is called shall be delivered to each shareholder of record entitled to vote at such meeting not less than 10 or more than 60 days before the date of the meeting, either personally or by first-class mail, by or at the direction of the president, the secretary, or the officer or persons calling the meeting. If mailed, such notice shall be deemed to be delivered when deposited in the United States mail addressed to the shareholder at his address as it appears on the stock transfer books of the corporation, with postage thereon prepaid.

(5) When a meeting is adjourned to another time or place, it shall not be necessary, unless the bylaws require otherwise, to give any notice of the adjourned meeting if the time and place to which the meeting is adjourned are announced at the meeting at which the adjournment is taken, and any business may be transacted at the adjourned meeting that might have been transacted on the original date of the meeting. If, however, after the adjournment the board fixes a new record date for the adjourned meeting, a notice of the adjourned meeting shall be given in compliance with subsection (4) to each shareholder of record on the new record date entitled to vote at such meeting.

History.—ss. 28, 29, ch. 75-250.

#### **607.087 Closing of transfer books and fixing record date.—**

(1) For the purpose of determining shareholders entitled to notice of, or to vote at, any meeting of shareholders or any adjournment thereof or entitled to receive payment of any dividend, or in order to make a determination of shareholders for any other purpose, the board of directors of a corporation may provide that the stock transfer books shall be closed for a stated period not to exceed, in any case, 60 days. If the stock transfer books shall be closed for the purpose of determining shareholders entitled to notice of, or to vote at, a meeting of shareholders, such books shall be closed for at least 10 days immediately preceding such meeting.

(2) In lieu of closing the stock transfer books, the bylaws or, in the absence of an applicable bylaw, the board of directors may fix in advance a date as the record date for any such determination of shareholders, such date in any case to be not more than 60 days and, in case of a meeting of shareholders, not less than 10 days prior to the date on which the particular action requiring such determination of shareholders is to be taken.

(3) If the stock transfer books are not closed and

no record date is fixed for the determination of shareholders entitled to notice or to vote at a meeting of shareholders or shareholders entitled to receive payment of a dividend, the date on which notice of the meeting is mailed or the date on which the resolution of the board of directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of shareholders.

(4) When a determination of shareholders entitled to vote at any meeting of shareholders has been made as provided in this section, such determination shall apply to any adjournment thereof, unless the board of directors fixes a new record date under this section for the adjourned meeting.

History.—s. 30, ch. 75-250.

#### **607.091 Record of shareholders having voting rights.—**

(1) The officer or agent having charge of the stock transfer books for shares of a corporation shall make, at least 10 days before each meeting of shareholders, a complete list of the shareholders entitled to vote at such meeting or any adjournment thereof, with the address of, and the number and class and series, if any, of shares held by, each. Such list shall be kept on file at the registered office of the corporation, at the principal place of business of the corporation, or at the office of the transfer agent or registrar of the corporation for a period of 10 days prior to such meeting and shall be subject to inspection by any shareholder at any time during usual business hours. Such list shall also be produced and kept open at the time and place of the meeting and shall be subject to the inspection of any shareholder at any time during the meeting.

(2) The original stock transfer books shall be prima facie evidence as to who are the shareholders entitled to examine such list or transfer books or to vote at any meeting of shareholders.

(3) If the requirements of this section have not been substantially complied with, the meeting shall be adjourned until the requirements are complied with on the demand of any shareholder in person or by proxy.

(4) If, upon the demand of any shareholder made pursuant to subsection (3), the meeting is not adjourned by the officers of the corporation and the list is not produced, such officers shall be liable to any shareholder suffering damage on account of the failure to produce such list, to the extent of such damage.

(5) If no such demand is made, failure to comply with the requirements of this section shall not affect the validity of any action taken at such meeting.

(6) This section does not apply to corporations having fewer than six shareholders.

History.—s. 31, ch. 75-250; s. 1, ch. 77-174.

Note.—Former s. 608.39.

#### **607.094 Shareholder quorum and voting.—**

(1) Unless otherwise provided in the articles of incorporation, a majority of the shares entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of shareholders, but in no event shall a quorum consist of less than one-third of the shares entitled to vote at the meeting. When a specified item of business is required to be

voted on by a class or series of stock, a majority of the shares of such class or series shall constitute a quorum for the transaction of such item of business by that class or series.

(2) If a quorum is present, the affirmative vote of a majority of the shares represented at the meeting and entitled to vote on the subject matter shall be the act of the shareholders, unless the vote of a greater number or voting by classes is required by this chapter or the articles of incorporation or bylaws.

(3) After a quorum has been established at a shareholders' meeting, the subsequent withdrawal of shareholders, so as to reduce the number of shares entitled to vote at the meeting below the number required for a quorum, shall not affect the validity of any action taken at the meeting or any adjournment thereof.

*History.*—s. 32, ch. 75-250; s. 1, ch. 77-174.

#### 607.097 Voting of shares.—

(1) Each outstanding share, regardless of class, shall be entitled to one vote on each matter submitted to a vote at a meeting of shareholders, except as may be otherwise provided in the articles of incorporation. If the articles of incorporation provide for more or less than one vote for any share on any matter, every reference in this chapter to a majority or other proportion of shares shall refer to such a majority or other proportion of votes entitled to be cast.

(2) Treasury shares, shares of its own stock owned by another corporation the majority of the voting stock of which is owned or controlled by it, and shares of its own stock held by a corporation in a fiduciary capacity shall not be voted, directly or indirectly, at any meeting and shall not be counted in determining the total number of outstanding shares at any given time.

(3) A shareholder may vote either in person or by proxy executed in writing by the shareholder or his duly authorized attorney-in-fact.

(4) At each election for directors, every shareholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him, for as many persons as there are directors to be elected at that time and for whose election he has a right to vote or, if cumulative voting is authorized by the articles of incorporation, to cumulate his votes by giving one candidate as many votes as the number of directors to be elected at that time multiplied by the number of his votes shall produce or by distributing such votes on the same principle among any number of such candidates.

(5) Shares standing in the name of another corporation, domestic or foreign, may be voted by the officer, agent, or proxy designated by the bylaws of the corporate shareholder or, in the absence of any applicable bylaw, by such person as the board of directors of the corporate shareholder may designate. Proof of such designation may be made by presentation of a certified copy of the bylaws or other instrument of the corporate shareholder. In the absence of any such designation or, in case of conflicting designation by the corporate shareholder, the chairman of the board, the president, any vice president, the secretary, and the treasurer of the corporate shareholder shall be presumed to possess, in

that order, authority to vote such shares.

(6) Shares held by an administrator, executor, guardian, or conservator may be voted by him, either in person or by proxy, without a transfer of such shares into his name. Shares standing in the name of a trustee may be voted by him, either in person or by proxy, but no trustee shall be entitled to vote shares held by him without a transfer of such shares into his name.

(7) Shares standing in the name of a receiver may be voted by such receiver, and shares held by or under the control of a receiver may be voted by such receiver without the transfer thereof into his name, if authority so to do be contained in an appropriate order of the court by which such receiver was appointed.

(8) A shareholder whose shares are pledged shall be entitled to vote such shares until the shares have been transferred into the name of the pledgee, and thereafter the pledgee or his nominee shall be entitled to vote the shares so transferred.

(9) On and after the date on which written notice of redemption of redeemable shares has been mailed to the holders thereof and a sum sufficient to redeem such shares has been deposited with a bank or trust company with irrevocable instruction and authority to pay the redemption price to the holders thereof upon surrender of certificates therefor, such shares shall not be entitled to vote on any matter and shall not be deemed to be outstanding shares.

*History.*—s. 33, ch. 75-250.

#### 607.101 Proxies.—

(1) Every shareholder entitled to vote at a meeting of shareholders or to express consent or dissent without a meeting, or his duly authorized attorney-in-fact, may authorize another person or persons to act for him by proxy.

(2) Every proxy must be signed by the shareholder or his attorney-in-fact. No proxy shall be valid after the expiration of 11 months from the date thereof unless otherwise provided in the proxy. Every proxy shall be revocable at the pleasure of the shareholder executing it, except as otherwise provided in this section.

(3) The authority of the holder of a proxy to act shall not be revoked by the incompetence or death of the shareholder who executed the proxy unless, before the authority is exercised, written notice of an adjudication of such incompetence or of such death is received by the corporate officer responsible for maintaining the list of shareholders.

(4) Except when other provision shall have been made by written agreement between the parties, the record holder of shares which he holds as pledgee or otherwise as security or which belong to another shall issue to the pledgor or to such owner of such shares, upon demand therefor and payment of necessary expenses thereof, a proxy to vote or take other action thereon.

(5) A proxy which states that it is irrevocable is irrevocable when it is held by any of the following or a nominee of any of the following:

(a) A pledgee.

(b) A person who has purchased or agreed to purchase the shares.

(c) A creditor or creditors of the corporation who

extend or continue credit to the corporation in consideration of the proxy, if the proxy states that it was given in consideration of such extension or continuation of credit, the amount thereof, and the name of the person extending or continuing credit.

(d) A person who has contracted to perform services as an officer of the corporation, if a proxy is required by the contract of employment and if the proxy states that it was given in consideration of such contract of employment and states the name of the employee and the period of employment contracted for.

(e) A person designated by or under an agreement under subsection 607.107(1).

(6) Notwithstanding a provision in a proxy stating that it is irrevocable, the proxy becomes revocable after the pledge is redeemed, the debt of the corporation is paid, the period of employment provided for in the contract of employment has terminated, or the agreement under subsection 607.107(1) has terminated and, in a case provided for in paragraph (5)(c) or paragraph (5)(d), becomes revocable 3 years after the date of the proxy or at the end of the period, if any, specified therein, whichever period is less, unless the period of irrevocability is renewed from time to time by the execution of a new irrevocable proxy as provided in this section. This paragraph does not affect the duration of a proxy under subsection (2).

(7) A proxy may be revoked, notwithstanding a provision making it irrevocable, by a purchaser of shares without knowledge of the existence of the provision, unless the existence of the proxy and its irrevocability is noted conspicuously on the face or back of the certificate representing such shares.

(8) If a proxy for the same shares confers authority upon two or more persons and does not otherwise provide, a majority of them present at the meeting, or if only one is present then that one, may exercise all the powers conferred by the proxy; but if the proxy holders present at the meeting are equally divided as to the right and manner of voting in any particular case, the voting of such shares shall be prorated.

(9) If a proxy expressly provides, any proxy holder may appoint, in writing, a substitute to act in his place.

#### **607.104 Voting trusts.—**

(1) Any number of shareholders of a corporation may create a voting trust for the purpose of conferring upon a trustee or trustees the right to vote or otherwise represent their shares for a period not to exceed 10 years by:

(a) Entering into a written voting trust agreement specifying the terms and conditions of the voting trust;

(b) Depositing a counterpart of the agreement with the corporation at its registered office; and

(c) Transferring their shares to such trustee or trustees for the purposes of the agreement.

(2) Upon the transfer of such shares, voting trust certificates shall be issued by the trustee or trustees to the shareholders who transfer their shares in trust. Such trustee or trustees shall keep a record of the holders of voting trust certificates evidencing a

beneficial interest in the voting trust and giving the names and addresses of all such holders and the number and class of the shares in respect of which the voting trust certificates held by each are issued, and shall deposit a copy of such record with the corporation at its registered office.

(3) The counterpart of the voting trust agreement and the copy of such record so deposited with the corporation shall be subject to the same right of examination by a shareholder of the corporation, in person or by agent or attorney, as are the books and records of the corporation, and such counterpart and such copy of such record shall be subject to examination by any holder of record of voting trust certificates, either in person or by agent or attorney, at any reasonable time for any proper purpose.

(4) At any time before the expiration of such voting trust agreement as originally fixed or as extended one or more times under this subsection, one or more holders of voting trust certificates may, by agreement in writing, extend the duration of such voting trust agreement, nominating the same or substitute trustee or trustees, for an additional period not exceeding 10 years. Such extension agreement shall not affect the rights or obligations of persons not parties to the agreement, and such persons shall be entitled to remove their shares from the trust and promptly have their share certificates reissued to them. The extension agreement shall in every respect comply with and be subject to all the provisions of this section applicable to the original voting trust agreement, except that the 10-year maximum period of duration shall commence on the date of adoption of the extension agreement.

(5) Notwithstanding any other provisions of this section, voting trusts in existence on January 1, 1976, shall continue in full force and effect for the time stated therein if they were valid under the law of this state as it existed on the date they were created.

*History.*—s. 35, ch. 75-250.

*Note.*—Former s. 608.43.

#### **607.107 Shareholders' agreements.—**

(1) An agreement between two or more shareholders, if in writing and signed by the parties thereto, may provide that, in exercising any voting rights, the shares held by them shall be voted as therein provided, as they may agree, or as determined in accordance with a procedure agreed upon by them. Nothing herein shall impair the right of the corporation to treat the shareholders of record as entitled to vote the shares standing in their names.

(2) Except in cases in which the shares of the corporation are listed on a national securities exchange or in which the shares are ones as to which a market exists as evidenced by regular quotations by licensed securities dealers or brokers, no written agreement to which all the shareholders have actually assented, whether embodied in the articles of incorporation or bylaws or in any agreement in writing and signed by all the parties thereto, and which relates to any phase of the affairs of the corporation, whether to the management of its business, division of its profits, or otherwise, shall be invalid as between the parties thereto on the ground that it is an attempt by the parties thereto to restrict the discre-

tion of the board of directors in its management of the business of the corporation, to treat the corporation as if it were a partnership, or to arrange their relationships in a manner that would be appropriate only between partners.

(3) A transferee of shares in a corporation whose shareholders have entered into an agreement authorized by subsection (1) or subsection (2) shall be bound by such agreement if he takes shares subject to such agreement with notice thereof. A transferee shall be deemed to have notice of any such agreement or any such renewal if the existence thereof is noted on the face or back of the certificate or certificates representing such shares.

(4) The effect of any agreement authorized by subsection (2) shall be to relieve the directors and impose upon the shareholders assenting thereto the liability for managerial acts or omissions that is imposed on directors by law, to the extent that, and so long as, the discretion or powers of the board of directors in its management of corporate affairs are controlled by any such agreement.

History.—s. 36, ch. 75-250.

Note.—Former s. 608.75.

#### **607.111 Board of directors; exercise of corporate powers.—**

(1) All corporate powers shall be exercised by or under the authority of, and the business and affairs of a corporation shall be managed under the direction of, a board of directors, except as may be otherwise provided in this chapter or in the articles of incorporation. If any such provision is made in the articles of incorporation, the powers and duties conferred or imposed upon the board of directors by this chapter shall be exercised or performed to such extent and by such person or persons as shall be provided in the articles of incorporation.

(2) Directors need not be residents of this state or shareholders of the corporation unless the articles of incorporation or bylaws so require. The articles of incorporation or bylaws may prescribe other qualifications for directors.

(3) The board of directors shall have authority to fix the compensation of directors unless otherwise provided in the articles of incorporation or bylaws.

(4) A director shall perform his duties as a director, including his duties as a member of any committee of the board upon which he may serve, in good faith, in a manner he reasonably believes to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances.

(5) In performing his duties, a director shall be entitled to rely on information, opinions, reports, or statements, including financial statements and other financial data, in each case prepared or presented by:

(a) One or more officers or employees of the corporation whom the director reasonably believes to be reliable and competent in the matters presented.

(b) Counsel, public accountants, or other persons as to matters which the director reasonably believes to be within such persons' professional or expert competence.

(c) A committee of the board upon which he does not serve, duly designated in accordance with a pro-

vision of the articles of incorporation or the bylaws, as to matters within its designated authority, which committee the director reasonably believes to merit confidence.

(6) A director shall not be considered to be acting in good faith if he has knowledge concerning the matter in question that would cause such reliance described in subsection (4) to be unwarranted.

(7) A person who performs his duties in compliance with this section shall have no liability by reason of being or having been a director of the corporation.

(8) A director of a corporation who is present at a meeting of its board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken, unless he votes against such action or abstains from voting in respect thereto because of an asserted conflict of interest.

History.—s. 37, ch. 75-250; s. 1, ch. 77-174.

#### **607.114 Number, election, and classification of directors; vacancies.—**

(1) The board of directors of a corporation shall consist of one or more members. The number of directors shall be fixed by, or in the manner provided in, the articles of incorporation or the bylaws, except as to the number constituting the initial board of directors, which number shall be fixed by the articles of incorporation. The number of directors may be increased or decreased from time to time by amendment to, or in the manner provided in, the articles of incorporation or the bylaws, but no decrease shall have the effect of shortening the term of any incumbent director. In the absence of a bylaw providing for the number of directors, the number shall be the same as that provided for in the articles of incorporation.

(2) Each person named in the articles of incorporation as a member of the initial board of directors shall hold office until the first annual meeting of shareholders and his successor shall have been elected and qualified or until his earlier resignation, removal from office, or death.

(3) At the first annual meeting of shareholders and at each annual meeting thereafter, the shareholders shall elect directors to hold office until the next succeeding annual meeting, except in case of the classification of directors as permitted by this chapter. Each director shall hold office for the term for which he is elected and until his successor shall have been elected and qualified or until his earlier resignation, removal from office, or death.

(4) The articles of incorporation or the specific provisions of a bylaw adopted by the shareholders may provide that the directors be divided into not more than four classes, as nearly equal in number as possible, whose terms of office shall respectively expire at different times, but no such term shall continue longer than 4 years, and at least one-fifth in number of the directors shall be elected annually.

(5) If directors are classified and the number of directors is thereafter changed, any increase or decrease in directorships shall be so apportioned among the classes as to make all classes as nearly equal in number as possible.

(6) Any vacancy occurring in the board of direc-

tors, including any vacancy created by reason of an increase in the number of directors, may be filled by the affirmative vote of a majority of the remaining directors though less than a quorum of the board of directors. A director elected to fill a vacancy shall hold office only until the next election of directors by the shareholders.

History.—ss. 38-40, ch. 75-250.

**607.117 Removal of directors.**—Unless the articles of incorporation otherwise provide:

(1) At a meeting of shareholders called expressly for that purpose, directors may be removed in the manner provided in this section. Any director or the entire board of directors may be removed, with or without cause, by a vote of the holders of a majority of the shares then entitled to vote at an election of directors.

(2) In the case of a corporation having cumulative voting, if less than the entire board is to be removed, no one of the directors may be removed if the votes cast against his removal would be sufficient to elect him if then cumulatively voted at an election of the entire board of directors or, if there be classes of directors, at an election of the class of directors of which he is a part.

(3) Whenever the holders of the shares of any class are entitled to elect one or more directors by the provisions of the articles of incorporation, the provisions of this section shall apply, in respect to the removal of a director or directors so elected, to the vote of the holders of the outstanding shares of that class and not to the vote of the outstanding shares as a whole.

History.—s. 41, ch. 75-250.

**607.121 Director quorum and voting.**—A majority of the number of directors fixed by, or in the manner provided in, the bylaws or, in the absence of a bylaw fixing or providing for the number of directors, then of the number stated in the articles of incorporation shall constitute a quorum for the transaction of business, unless a greater number is required by the articles of incorporation or the bylaws. The act of the majority of the directors present at a meeting at which a quorum is present shall be the act of the board of directors, unless the act of a greater number is required by the articles of incorporation or the bylaws.

History.—s. 42, ch. 75-250.

**607.124 Director conflicts of interest.**—

(1) No contract or other transaction between a corporation and one or more of its directors or any other corporation, firm, association, or entity in which one or more of its directors are directors or officers or are financially interested shall be either void or voidable because of such relationship or interest, because such director or directors are present at the meeting of the board of directors or a committee thereof which authorizes, approves, or ratifies such contract or transaction, or because his or their votes are counted for such purpose, if:

(a) The fact of such relationship or interest is disclosed or known to the board of directors or committee which authorizes, approves, or ratifies the contract or transaction by a vote or consent suffi-

cient for the purpose without counting the votes or consents of such interested directors;

(b) The fact of such relationship or interest is disclosed or known to the shareholders entitled to vote and they authorize, approve, or ratify such contract or transaction by vote or written consent; or

(c) The contract or transaction is fair and reasonable as to the corporation at the time it is authorized by the board, a committee, or the shareholders.

(2) Common or interested directors may be counted in determining the presence of a quorum at a meeting of the board of directors or a committee thereof which authorizes, approves, or ratifies such contract or transaction.

History.—s. 43, ch. 75-250.

**607.127 Executive and other committees; designation; authority.**—

(1) Unless the articles of incorporation or the bylaws otherwise provide, the board of directors, by resolution adopted by a majority of the full board of directors, may designate from among its members an executive committee and one or more other committees each of which, to the extent provided in such resolution or in the articles of incorporation or the bylaws of the corporation, shall have and may exercise all the authority of the board of directors, except that no such committee shall have the authority to:

(a) Approve or recommend to shareholders actions or proposals required by this chapter to be approved by shareholders.

(b) Designate candidates for the office of director, for purposes of proxy solicitation or otherwise.

(c) Fill vacancies on the board of directors or any committee thereof.

(d) Amend the bylaws.

(e) Authorize or approve the reacquisition of shares unless pursuant to a general formula or method specified by the board of directors.

(f) Authorize or approve the issuance or sale of, or any contract to issue or sell, shares or designate the terms of a series of a class of shares, except that the board of directors, having acted regarding general authorization for the issuance or sale of shares, or any contract therefor, and, in the case of a series, the designation thereof, may, pursuant to a general formula or method specified by the board by resolution or by adoption of a stock option or other plan, authorize a committee to fix the terms of any contract for the sale of the shares and to fix the terms upon which such shares may be issued or sold, including, without limitation, the price, the rate or manner of payment of dividends, provisions for redemption, sinking fund, conversion, and voting or preferential rights, and provisions for other features of a class of shares, or a series of a class of shares, with full power in such committee to adopt any final resolution setting forth all the terms thereof and to authorize the statement of the terms of a series for filing with the Department of State under this chapter.

(2) The board, by resolution adopted in accordance with subsection (1), may designate one or more directors as alternate members of any such committee who may act in the place and stead of any absent member or members at any meeting of such committee.

(3) Neither the designation of any such commit-

tee, the delegation thereto of authority, nor action by such committee pursuant to such authority shall alone constitute compliance by any member of the board of directors not a member of the committee in question with his responsibility to act in good faith, in a manner he reasonably believes to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances.

History.—s. 44, ch. 75-250.

**607.131 Place, time, notice, and call of directors' meetings.—**

(1) Meetings of the board of directors, regular or special, may be held either within or without this state.

(2) Regular meetings of the board of directors may be held with or without notice, as prescribed in the bylaws. Special meetings of the board of directors shall be held upon such notice as is prescribed in the bylaws. Unless otherwise prescribed in the bylaws, written notice of the time and place of special meetings of the board of directors shall be given to each director either by personal delivery or by mail, telegram, or cablegram at least 2 days before the meeting.

(3) Notice of a meeting of the board of directors need not be given to any director who signs a waiver of notice either before or after the meeting. Attendance of a director at a meeting shall constitute a waiver of notice of such meeting and a waiver of any and all objections to the place of the meeting, the time of the meeting, or the manner in which it has been called or convened, except when a director states, at the beginning of the meeting, any objection to the transaction of business because the meeting is not lawfully called or convened.

(4) Neither the business to be transacted at, nor the purpose of, any regular or special meeting of the board of directors need be specified in the notice or waiver of notice of such meeting, unless required by the bylaws.

(5) A majority of the directors present, whether or not a quorum exists, may adjourn any meeting of the board of directors to another time and place. Unless the bylaws otherwise provide, notice of any such adjourned meeting shall be given to the directors who were not present at the time of the adjournment and, unless the time and place of the adjourned meeting are announced at the time of the adjournment, to the other directors.

(6) Meetings of the board of directors may be called by the chairman of the board, by the president of the corporation, by any two directors, or by any other person or persons authorized by the bylaws.

(7) Except as may be otherwise restricted by the articles of incorporation or bylaws, members of the board of directors may participate in a meeting of such board by means of a conference telephone or similar communications equipment by means of which all persons participating in the meeting can hear each other at the same time. Participation by such means shall constitute presence in person at a meeting.

History.—s. 45, ch. 75-250.

**607.134 Action by directors without a meeting.—**Unless otherwise provided by the articles of incorporation or bylaws, any action required by this chapter to be taken at a meeting of the directors of a corporation, or any action which may be taken at a meeting of the directors or a committee thereof, may be taken without a meeting if a consent in writing setting forth the action so to be taken signed by all of the directors or all the members of the committee, as the case may be, is filed in the minutes of the proceedings of the board or of the committee. Such consent shall have the same effect as a unanimous vote.

History.—s. 46, ch. 75-250.

**607.137 Dividends.—**The board of directors of a corporation may, from time to time, declare, and the corporation may pay, dividends on its shares in cash, property, or its own shares, except when the corporation is insolvent, when the payment thereof would render the corporation insolvent, or when the declaration or payment thereof would be contrary to any restrictions contained in the articles of incorporation, subject to the following provisions:

(1) Dividends in cash or property may be declared and paid, except as otherwise provided in this section, only out of the unreserved and unrestricted earned surplus of the corporation or out of capital surplus, howsoever arising, but each dividend paid out of capital surplus shall be identified as a distribution of capital surplus, and the amount per share paid from such surplus shall be disclosed to the shareholders receiving the same concurrently with the distribution.

(2) If the articles of incorporation of a corporation engaged in the business of exploiting natural resources or other wasting assets so provide, dividends may be declared and paid in cash out of depletion or similar reserves, but each such dividend shall be identified as a distribution of such reserves, and the amount per share paid from such reserves shall be disclosed to the shareholders receiving the same concurrently with the distribution thereof.

(3) Dividends may be declared and paid in its own treasury shares.

(4) Dividends may be declared and paid in its own authorized but unissued shares out of any unreserved and unrestricted surplus of the corporation upon the following conditions:

(a) If a dividend is payable in its own shares having a par value, such shares shall be issued at not less than the par value thereof, and there shall be transferred to stated capital at the time such dividend is paid an amount of surplus equal to the aggregate par value of the shares to be issued as a dividend.

(b) If a dividend is payable in its own shares without par value, such shares shall be issued at such stated value as shall be fixed by the board of directors by resolution adopted at the time such dividend is declared, and there shall be transferred to stated capital at the time such dividend is paid an amount of surplus equal to the aggregate stated value so fixed in respect of such shares, and the amount per share so transferred to stated capital shall be disclosed to the shareholders receiving such dividend concurrently with the payment thereof.

(5) No dividend payable in shares of any class shall be paid to the holders of shares of any other class unless the articles of incorporation so provide or such payment is authorized by the affirmative vote or the written consent of the holders of at least a majority of the outstanding shares of the class in which the payment is to be made.

(6) A splitup or division of the issue shares of any class into a greater number of shares of the same class without increasing the stated capital of the corporation shall not be construed to be a share dividend within the meaning of this section.

History.—s. 47, ch. 75-250.

Note.—Former s. 608.52.

**607.141 Loans to employees and officers; guaranty of obligations of employees and officers.**—Any corporation may lend money to, guarantee any obligation of, or otherwise assist any officer or other employee of the corporation or of a subsidiary, including any officer or employee who is a director of the corporation or of a subsidiary, whenever, in the judgment of the directors, such loan, guaranty, or assistance may reasonably be expected to benefit the corporation. The loan, guaranty, or other assistance may be with or without interest and may be unsecured or secured in such manner as the board of directors shall approve, including, without limitation, a pledge of shares of stock of the corporation. Nothing in this section shall be deemed to deny, limit, or restrict the powers of guaranty or warranty of any corporation at common law or under any statute.

History.—s. 48, ch. 75-250.

**607.144 Liabilities of directors in certain cases.**—

(1) In addition to any other liabilities, a director shall be liable in the following circumstances, unless he complies with the standard provided in this chapter for the performance of the duties of directors:

(a) A director of a corporation who votes for or assents to the declaration of any dividend or other distribution of the assets of a corporation to its shareholders contrary to the provisions of this chapter or contrary to any restrictions contained in the articles of incorporation shall be liable to the corporation, jointly and severally with all other directors so voting or assenting, for the amount of such dividend which is paid or the value of such assets which are distributed in excess of the amount of such dividend or distribution which could have been paid or distributed without a violation of the provisions of this chapter or the restrictions in the articles of incorporation, to the extent that any creditor or shareholder of the corporation has suffered damage as a result thereof.

(b) A director of a corporation who votes for or assents to the purchase of the corporation's own shares contrary to the provisions of this chapter shall be liable to the corporation, jointly and severally with all other directors so voting or assenting, for the amount of the consideration paid for such shares which is in excess of the maximum amount which could have been paid therefor without a violation of the provisions of this chapter, to the extent that any creditor or shareholder of the corporation has suf-

fered damage as a result thereof.

(c) A director who votes for or assents to any distribution of assets of a corporation to its shareholders during the liquidation of the corporation without the payment and discharge of, or making adequate provision for, all known debts, obligations, and liabilities of the corporation shall be liable to the corporation, jointly and severally with all other directors so voting or assenting, for the value of such assets which are distributed, to the extent that such debts, obligations, and liabilities of the corporation are not thereafter paid and discharged.

(2) Any director against whom any claim shall be asserted under or pursuant to this section for the payment of a dividend or other distribution of assets of a corporation and who shall be held liable thereon shall be entitled to contribution from the shareholders who accepted or received any such dividends or assets knowing such dividend or distribution to have been made in violation of this chapter, in proportion to the amounts received by them respectively.

(3) Any director against whom any claim shall be asserted under or pursuant to this section shall be entitled to contribution from the other directors who voted for or assented to the action upon which the claim is asserted.

History.—s. 49, ch. 75-250.

**607.147 Shareholders' derivative actions; security for expenses.**—In any action commenced or maintained by a shareholder of any domestic or foreign corporation to procure a judgment in its favor:

(1) It must be made to appear that the plaintiff was a shareholder or a holder of voting trust certificates at the time of the transaction of which he complains or that his shares or voting trust certificates thereafter devolved upon him by operation of law from a person who was a shareholder or holder of voting trust certificates at such time.

(2) No such action shall be discontinued, compromised, or settled without the approval of the court having jurisdiction of the action. Such court in its discretion, if it shall determine that the interests of the shareholders of such corporation may be substantially affected thereby, may direct that notice, by publication or otherwise, of such proposed discontinuance, compromise, or settlement be given to such shareholders. Shareholders objecting to such settlement must, within a time allowed by the court, show cause why the settlement should not be accepted and approved by the court as fair and reasonable. The court may determine which one or more of the parties to the action shall bear the expense of giving notice in such amount as the court shall determine and find to be reasonable in the circumstances, and the amount of such expense shall be awarded as special costs of the action and recoverable in the same manner as statutory taxable costs.

(3) If the plaintiff or plaintiffs hold less than 5 percent of the outstanding shares or voting trust certificates of such corporation, then, unless the stock or voting trust certificates held by such plaintiff or plaintiffs shall then have a fair value in excess of \$50,000, the court may at any time before final judgment require the plaintiff or plaintiffs to give security for the reasonable expenses, including attorneys' fees, which may be incurred by the corpora-

tion in connection with such action and by the other parties defendant in connection therewith for which such corporation may become legally liable, to which security such corporation shall have recourse in such amount as the court having jurisdiction of such action shall determine upon the termination of such action. The amount of such security may thereafter from time to time be increased or decreased in the discretion of such court upon showing that the security provided has or may become inadequate or excessive.

(4) If the court having jurisdiction of such action upon final judgment shall find that the action was brought without reasonable cause, such court may require the plaintiff or plaintiffs to pay the parties named as defendant the reasonable expenses, including fees of attorneys, incurred by them in the defense of such action.

(5) If the action on behalf of the corporation is successful, in whole or in part, or if anything is received by the plaintiff or plaintiffs as the result of a judgment, compromise, or settlement, the court may award the plaintiff or plaintiffs the reasonable expenses of maintaining the action, including reasonable attorneys' fees, and direct him or them to account to the corporation for the remainder of the proceeds so received by him or them. This subsection shall not apply to any judgment rendered for the benefit of injured shareholders only and limited to a recovery of the loss or damage sustained by them.

History.—s. 50, ch. 75-250; s. 1, ch. 77-174.

Note.—Former s. 608.131.

#### 607.151 Officers.—

(1) The officers of a corporation shall consist of a president, a secretary, and a treasurer, each of whom shall be elected by the board of directors at such time and in such manner as may be prescribed by the bylaws, unless the bylaws prescribe that all officers or specified officers shall be elected by the shareholders instead of the board. Such other officers and assistant officers and agents as may be deemed necessary may be elected or appointed by the board of directors or chosen in such other manner as may be prescribed by the bylaws.

(2) All officers and agents, as between themselves and the corporation, shall have such authority and perform such duties in the management of the corporation as may be provided in the bylaws or as may be determined by resolution of the board of directors not inconsistent with the bylaws.

(3) Any two or more offices may be held by the same person.

(4) A failure to elect a president, a secretary, or a treasurer shall not affect the existence of the corporation.

History.—s. 51, ch. 75-250.

Note.—Former ss. 608.40 and 608.51.

#### 607.154 Removal of officers.—

(1) Any officer or agent elected or appointed by the board of directors may be removed by the board whenever, in its judgment, the best interests of the corporation will be served thereby.

(2) Any officer or agent elected by the shareholders may be removed only by vote of the shareholders, unless the shareholders shall have authorized the

directors to remove such officer or agent.

(3) Any vacancy, however occurring, in any office may be filled by the board of directors, unless the bylaws shall have expressly reserved such power to the shareholders.

(4) Removal as provided in this section shall be without prejudice to the contract rights, if any, of the person so removed. Election or appointment of an officer or agent shall not of itself create contract rights.

History.—s. 52, ch. 75-250.

#### 607.157 Books and records.—

(1) Each corporation shall keep correct and complete books and records of account and shall keep minutes of the proceedings of its shareholders, board of directors, and committees of directors.

(2) Each corporation shall keep, at its registered office or principal place of business or at the office of its transfer agent or registrar, a record of its shareholders, giving the names and addresses of all shareholders and the number, class, and series, if any, of the shares held by each.

(3) Any books, records, and minutes may be in written form or in any other form capable of being converted into written form within a reasonable time.

(4) Any person who shall have been a holder of record of one quarter of 1 percent of shares or of voting trust certificates therefor at least 6 months immediately preceding his demand or shall be the holder of record of, or the holder of record of voting trust certificates for, at least 5 percent of the outstanding shares of any class or series of a corporation, upon written demand stating the purpose thereof, shall have the right to examine, in person or by agent or attorney, at any reasonable time or times, for any proper purpose its relevant books and records of accounts, minutes, and record of shareholders and to make extracts therefrom.

(5) Any officer or agent who, or corporation which, shall refuse to allow any such shareholder or holder of voting trust certificates or his agent or attorney so to examine and make extracts from its books and records of account, minutes, and record of shareholders for any proper purpose shall be liable to such shareholder or holder of voting trust certificates in a penalty of 10 percent of the value of the shares owned by such shareholder, or in respect of which such voting trust certificates are issued, in addition to any other damages or remedy afforded him by law. It shall be a defense to any action under this section that the person suing therefor has within 2 years sold or offered for sale any list of shareholders or of holders of voting trust certificates for shares of such corporation or any other corporation, has aided or abetted any person in procuring any list of shareholders or of holders of voting trust certificates for any such purpose, has improperly used any information secured through any prior examination of the books and records of account, minutes, or record of shareholders or of holders of voting trust certificates for shares of such corporation or any other corporation, or was not acting in good faith or for a proper purpose in making his demand.

(6) Nothing herein contained shall impair the power of any court of competent jurisdiction, upon

proof by a shareholder or holder of voting trust certificates of proper purpose, irrespective of the period of time during which such shareholder or holder of voting trust certificates shall have been a shareholder of record or a holder of record of voting trust certificates, and irrespective of the number of shares held by him or represented by voting trust certificates held by him, to compel the production for examination by such shareholder or holder of voting trust certificates of the books and records of account, minutes, and record of shareholders of a corporation.

(7) Unless modified by resolution of the stockholders not later than 4 months after the close of each fiscal year, each corporation shall prepare:

(a) A balance sheet showing in reasonable detail the financial conditions of the corporation as of the close of its fiscal year.

(b) A profit and loss statement showing the results of its operation during its fiscal year.

(8) Upon the written request of any shareholder or holder of voting trust certificates for shares of a corporation, the corporation shall mail to such shareholder or holder of voting trust certificates a copy of the most recent balance sheet and profit and loss statement.

(9) Such balance sheets and profit and loss statements shall be filed in the registered office of the corporation in this state, shall be kept for at least 5 years, and shall be subject to inspection during business hours by any shareholder or holder of voting trust certificates, in person or by agent.

- (a) To change its corporate name.

(1) Amendments to the articles of incorporation shall be made in the following manner:

(a) The board of directors shall adopt a resolution setting forth the proposed amendment and, if shares have been issued, directing that it be submitted to a vote at a meeting of shareholders, which may be either the annual or a special meeting. (b) Written notice setting forth the proposed amendment or a summary of the changes to be effected thereby shall be given to each shareholder of record entitled to vote thereon within the time and in the manner provided in this chapter for the giving of notice of meetings of shareholders. If the meeting is an annual meeting, the proposed amendment or such summary may be included in the notice of such annual meeting.

(c) At such meeting, a vote of the shareholders entitled to vote thereon shall be taken on the proposed amendment. The proposed amendment shall be adopted upon receiving the affirmative vote of the holders of a majority of the shares entitled to vote thereon, unless any class of shares is entitled to vote

thereon as a class, in which event the proposed amendment shall be adopted upon receiving the affirmative vote of the holders of a majority of the shares of each class of shares entitled to vote thereon as a class and of the total shares entitled to vote thereon.

(2) Any number of amendments may be submitted to the shareholders and voted upon by them at one meeting.

(3) If all of the directors and all of the stockholders of the corporation eligible to vote sign a written statement manifesting their intention that an amendment to the articles of incorporation be adopted, then the amendments shall thereby be adopted as though subsection (1) had been satisfied.

(4) The shareholders may amend the articles of incorporation without an act of the directors at a meeting for which notice of the changes to be made is given.

*History.*—s. 61, ch. 75-250.

#### **607.184 Class voting on amendments.—**

(1) The holders of the outstanding shares of a class shall be entitled to vote as a class upon a proposed amendment, whether or not entitled to vote thereon by the provision of the articles of incorporation, if the amendment would:

(b) Increase or decrease the par value of the shares of such class.

(c) Effect an exchange, reclassification, or cancellation of all or part of the shares of such class.

(d) Effect an exchange, or create a right of exchange, of all or any part of the shares of another class into the shares of such class.

(e) Change the designations, preferences, limitations, or relative rights of the shares of such class.

(g) Create a new class of shares having rights and preferences prior and superior to the shares of such class or increase the rights and preferences or the number of authorized shares of any class having rights and preferences prior or superior to the shares of such class.

(h) In the case of a preferred or special class of shares, divide the shares of such class into series and fix and determine the designation of such series and the variations in the relative rights and preferences between the shares of such series, or authorize the board of directors to do so.

(i) Limit or deny any existing preemptive rights of the shares of such class.

(j) Cancel or otherwise affect dividends on the shares of such class which have accrued but have not been declared.

(2) Whenever any such amendment shall operate in any manner specified above upon shares of one or more, but not all, of the series of any preferred or special class at the time outstanding, the holders of the outstanding shares of each such series shall for the purpose of this section be deemed a separate

class and entitled to vote as a class on such amendment.

*History.*—s. 62, ch. 75-250.

#### **607.187 Articles of amendment; execution; content; delivery and filing.—**

(1) The articles of amendment shall be executed by the corporation by its president or a vice president and by its secretary or an assistant secretary and acknowledged by one of the officers signing such articles, and shall set forth:

(a) The name of the corporation.

(b) The amendments so adopted.

(c) The date of the adoption of the amendment by the shareholders or by the board of directors when no shares have been issued.

(d) If such amendment provides for an exchange, reclassification, or cancellation of issued shares, and if the manner in which the same shall be effected is not set forth in the amendment, then a statement of the manner in which the same shall be effected.

(2) If the amendment is made by the incorporator or incorporators or director or directors before the issuance of any shares, the articles of amendment shall be executed by the incorporator or incorporators or director or directors, as the case may be, and shall set forth:

(a) The name of the corporation.

(b) The amendment so adopted and the date of the adoption.

(c) A statement that the amendment is made by the incorporator or incorporators or director or directors before the issuance of any shares.

(3) The articles of amendment shall be delivered to the Department of State. If the Department of State finds that the articles of amendment conform to law, it shall, when all fees and taxes have been paid as prescribed in this chapter, file the articles of amendment in accordance with this chapter.

*History.*—ss. 63, 64, ch. 75-250.

#### **607.191 Effect of amendment.—**

(1) Upon the filing of the articles of amendment by the Department of State, the amendment shall become effective and the articles of incorporation shall be deemed to be amended accordingly.

(2) Notwithstanding subsection (1), the date an amendment to the articles of incorporation shall become effective may be specified in the articles of amendment; however, in no event shall the effective date be prior to, or more than 90 days after, the filing of the articles of amendment by the Department of State.

(3) No amendment shall affect any existing cause of action in favor of or against such corporation, any pending suit to which such corporation shall be a party, or the existing rights of persons other than shareholders. In the event the corporation name shall be changed by amendment, no suit brought by or against such corporation under its former name shall abate for that reason.

*History.*—s. 65, ch. 75-250.

#### **607.194 Restated articles of incorporation.—**

(1) A corporation may at any time integrate into a single instrument all of the provisions of its articles of incorporation which are then in effect and

operative as a result of there having theretofore been filed by the Department of State articles of incorporation and any amendments thereto.

(2) Restated articles of incorporation may be adopted by the board of directors without a vote of the stockholders. Restated articles of incorporation shall be specifically designated as such and shall state, either in the heading or in an introductory paragraph, the corporation's present name and, if it has been changed, the name under which it was originally incorporated and the date of filing of its original articles of incorporation by the Department of State. Restated articles of incorporation shall also state that they were duly adopted by the directors, that the restated articles of incorporation only restate and integrate and do not further amend the provisions of the corporation's articles of incorporation as theretofore amended, and that there is no discrepancy between those provisions and the provisions of the restated articles of incorporation. Restated articles of incorporation may omit the provisions of the original articles of incorporation which named the incorporator or incorporators, the initial board of directors, and the original subscribers for shares, if any.

(3) Restated articles of incorporation shall be executed, acknowledged, and filed in accordance with the provisions relating to the filing of amendments to articles of incorporation. Upon the filing of restated articles of incorporation by the Department of State, the corporation's original articles of incorporation, as theretofore amended, shall be superseded, and thenceforth the restated articles of incorporation shall be the articles of incorporation of the corporation.

(4) Amendments may be made simultaneously with restating the articles of incorporation if the requirements of s. 607.187 are complied with.

*History.*—s. 66, ch. 75-250; s. 1, ch. 77-174.

*Note.*—Former s. 608.061.

#### **607.197 Amendment of articles of incorporation in reorganization proceedings.—**

(1) Whenever a plan of reorganization of a corporation has been confirmed by decree or order of a court of competent jurisdiction in proceedings for the reorganization of such corporation pursuant to the provisions of any applicable statute of the United States relating to reorganizations of corporations, the articles of incorporation of the corporation may be amended, in the manner provided in this section, in as many respects as may be necessary to carry out the plan and put it into effect, so long as the articles of incorporation as amended contain only such provisions as might be lawfully contained in original articles of incorporation at the time of making such amendment.

(2) In particular and without limitation upon the general power of amendment set forth in subsection (1), the articles of incorporation may be amended for such purpose so as to:

(a) Change the corporate name, period of duration, or corporate purposes of the corporation.

(b) Repeal, alter, or amend the bylaws of the corporation.

(c) Change the aggregate number of shares or

shares of any class which the corporation has authority to issue.

(d) Change the preferences, limitations, and relative rights in respect of all or any part of the shares of the corporation and classify, reclassify, or cancel all or any part thereof, whether issued or unissued.

(e) Authorize the issuance of bonds, debentures, or other obligations of the corporation, whether or not convertible into shares of any class or bearing warrants or other evidences of optional rights to purchase or subscribe for shares of any class, and fix the terms and conditions thereof.

(f) Constitute or reconstitute and classify or reclassify the board of directors of the corporation and appoint directors and officers in place of or in addition to all or any of the directors or officers then in office.

(3) Amendments to the articles of incorporation pursuant to this section shall be made in the following manner:

(b) The articles of amendment shall be delivered to the Department of State. If the Department of State finds that the articles of amendment conform to law, it shall, when all fees and taxes have been paid as prescribed in this chapter, file the articles of amendment in accordance with this chapter.

(c) Upon the filing of the articles of amendment by the Department of State, the amendment shall become effective and the articles of incorporation shall be deemed to be amended accordingly without any action thereon by the directors or shareholders of the corporation and with the same effect as if the amendments had been adopted by unanimous action of the directors and shareholders of the corporation.

*History.*—s. 67, ch. 75-250.

**607.201 Restriction on redemption or purchase of redeemable shares.**—No redemption or purchase of redeemable shares shall be made by a corporation when it is insolvent, when such redemption or purchase would render it insolvent, or which would reduce the net assets below the aggregate amount payable to the holders of shares having prior or equal rights to the assets of the corporation upon involuntary dissolution.

*History.*—s. 68, ch. 75-250.

**607.204 Cancellation of redeemable or other reacquired shares.—**

(1) Shares that have been issued and have been purchased, redeemed, or otherwise reacquired by a corporation shall be canceled if they are reacquired out of stated capital, if they are exchanged or converted shares, or if the articles of incorporation require that such shares be canceled upon reacquisition.

(2) Any shares reacquired by the corporation and not required under subsection (1) to be canceled may be either retained as treasury shares or canceled by the board of directors at the time of reacquisition or at any time thereafter.

(3) Shares canceled under this section are restored to the status of authorized but unissued shares. However, if the articles of incorporation prohibit the reissue of any shares required or permitted to be canceled under this section, a statement of cancellation shall be filed as provided in this section.

(4) The statement of cancellation shall be executed by the corporation by its president or a vice president and by its secretary or an assistant secretary and acknowledged by one of the officers signing such statement and shall set forth:

(a) The name of the corporation.

(b) The number of shares canceled, itemized by classes and series.

(c) The number of shares which the corporation will have authority to issue, itemized by classes and series, after giving effect to such cancellation.

(5) Such statement shall be delivered to the Department of State. If the Department of State finds that such statement conforms to law, it shall, when all fees and taxes have been paid as prescribed in this chapter, file the statement of cancellation in accordance with this chapter.

(6) The filing of the statement of cancellation pursuant to this section shall constitute an amendment to the articles of incorporation and shall reduce the number of shares of the class so canceled which the corporation is authorized to issue by the number of shares so canceled.

(7) Nothing contained in this section shall be construed to forbid a cancellation of shares in any other manner permitted by this chapter.

*History.—s. 69, ch. 75-250.*

**607.207 Reduction of stated capital in certain cases.—**

(1) Except as otherwise provided in the articles of incorporation, the board of directors may at any time reduce the stated capital of a corporation, when such reduction is not accompanied by any action requiring or constituting an amendment of the articles of incorporation, in the following manner:

(a) By eliminating from stated capital amounts previously transferred by the board from surplus to stated capital and not allocated to any designated class or series of shares.

(b) By eliminating any amount of stated capital represented by issued par value shares which exceeds the aggregate par value of such shares.

(c) By reducing the amount of stated capital represented by issued shares without par value. If the consideration for the issue of shares without par value was fixed by the shareholders pursuant to a right

reserved in the articles of incorporation, the board shall not reduce the stated capital represented by such shares except to the extent, if any, that the board was authorized by the shareholders to allocate any portion of such consideration to surplus.

(2) No reduction of stated capital shall be made under the provisions of this section which would reduce the amount of the aggregate stated capital of the corporation to an amount equal to or less than the aggregate preferential amounts payable upon all issued shares having a preferential right in the assets of the corporation in the event of involuntary liquidation, plus the aggregate par value of all issued shares having a par value but no preferential right in the assets of the corporation in the event of involuntary liquidation.

*History.—s. 70, ch. 75-250.*

**607.211 Special provisions relating to surplus and reserves.—**

(1) The surplus, if any, created by or arising out of a reduction of the stated capital of a corporation shall be capital surplus.

(2) The capital surplus of a corporation may be increased from time to time by resolution of the board of directors directing that all or a part of the earned surplus of the corporation be transferred to capital surplus.

(3) A corporation may, by resolution of its board of directors, apply any part or all of its capital surplus to the reduction or elimination of any deficit arising from losses, however incurred, but only after first eliminating the earned surplus, if any, of the corporation by applying such losses against earned surplus and only to the extent that such losses exceed the earned surplus, if any. Each such application of capital surplus shall, to the extent thereof, effect a reduction of capital surplus.

(4) A corporation may, by resolution of its board of directors, create a reserve or reserves out of its earned surplus for any proper purpose or purposes, and may abolish any such reserve in the same manner. Earned surplus of the corporation to the extent so reserved shall not be available for the payment of dividends or other distributions by the corporation except as expressly permitted by this chapter.

*History.—s. 71, ch. 75-250.*

(2) The board of directors of each corporation shall, by resolution adopted by each such board, approve a plan of merger setting forth:

(a) The names of the corporations proposing to merge and the name of the corporation into which they propose to merge, which is hereinafter designated as the surviving corporation.

(b) The terms and conditions of the proposed merger.

(c) The manner and basis of converting the shares of each corporation into shares, rights, obligations, or other securities of the surviving corporation or of any other corporation or, in whole or in part, into cash or other property.

(d) A statement of any changes in the articles of incorporation of the surviving corporation to be effected by such merger.

(e) Such other provisions with respect to the proposed merger as are deemed necessary or desirable.

*History.—s. 72, ch. 75-250.*

#### **607.217 Procedure for consolidation.—**

(1) Any two or more domestic corporations may consolidate into a new corporation pursuant to a plan of consolidation approved in the manner provided in this chapter.

(2) The board of directors of each corporation shall, by a resolution adopted by each such board, approve a plan of consolidation setting forth:

(a) The names of the corporations proposing to consolidate and the name of the new corporation into which they propose to consolidate, which is hereinafter designated as the new corporation.

(b) The terms and conditions of the proposed consolidation.

(c) The manner and basis of converting the shares of each corporation into shares, rights, obligations, or other securities of the new corporation or of any other corporation or, in whole or in part, into cash or other property.

(d) With respect to the new corporation, all of the statements required to be set forth in articles of incorporation for corporations organized under this chapter.

(e) Such other provisions with respect to the proposed consolidation as are deemed necessary or desirable.

*History.—s. 73, ch. 75-250.*

#### **607.221 Approval by shareholders.—**

(1) The board of directors of each corporation, upon approving such plan of merger or plan of consolidation, shall, by resolution, direct that the plan be submitted to a vote at a meeting of shareholders, which may be either an annual or a special meeting. Written notice shall be given to each shareholder of record, whether or not entitled to vote at such meeting, in the manner provided in this chapter for the giving of notice of meetings of shareholders, and, whether the meeting be an annual or a special meeting, shall state that the purpose or one of the purposes is to consider the proposed plan of merger or consolidation. A copy or a summary of the plan of merger or plan of consolidation, as the case may be, shall be included in or enclosed with such notice. The notice shall contain a clear and concise statement that, if the plan of merger or consolidation is effected, shareholders dissenting therefrom are entitled, if they file a written objection to such plan before the vote of the shareholders is taken thereon and comply with the further provisions of this chapter regarding the rights of dissenting shareholders, to be paid the fair value of their shares.

(2) At each such meeting, a vote of the shareholders shall be taken on the proposed plan of merger or consolidation. The plan of merger or consolidation shall be approved upon receiving the affirmative vote of the holders of a majority of the shares entitled to vote thereon of each such corporation, unless any class of shares of any such corporation is entitled to vote thereon as a class, in which event, as to such

corporation, the plan of merger or consolidation shall be approved upon receiving the affirmative vote of the holders of a majority of the shares of each class of shares entitled to vote thereon as a class and of the total shares entitled to vote thereon. Any class of shares of any such corporation shall be entitled to vote as a class if the plan of merger or consolidation, as the case may be, contains any provision which, if contained in a proposed amendment to articles of incorporation, would entitle such class of shares to vote as a class.

(3) After such approval by a vote of the shareholders of each corporation and at any time prior to the filing of the articles of merger or consolidation, the merger or consolidation may be abandoned pursuant to provisions therefor, if any, set forth in the plan of merger or consolidation.

(4) Notwithstanding the requirements of subsections (1) and (2), unless required by its articles of incorporation, no vote of shareholders of a corporation surviving a merger shall be necessary to authorize a merger if:

(a) The plan of merger does not amend in any respect the articles of incorporation of such corporation;

(b) Each share of stock of such corporation outstanding immediately prior to the merger becoming effective shall remain outstanding immediately after the merger as an identical share of the surviving corporation; and

(c) The authorized but unissued shares or the treasury shares of common stock of the surviving corporation to be issued or delivered under the plan of merger plus the number of shares of common stock initially issuable upon conversion of any other shares, securities, or obligations to be issued or delivered under such plan (if any such shares of common stock or stock, securities, or obligations convertible into common shares are to be issued or delivered under the plan of merger) do not exceed 20 percent of the shares of common stock of such corporation outstanding immediately prior to the effective date of the merger.

(5) If a plan of merger is adopted by the corporation surviving the merger by action of its board of directors and without any vote of its shareholders pursuant to subsection (4), the secretary or assistant secretary of that corporation shall certify on the plan that the plan has been adopted pursuant to this subsection and that, as of the date of such certificate, the outstanding shares of the corporation were such to render this subsection applicable.

*History.—s. 74, ch. 75-250.*

#### **607.224 Articles of merger or consolidation.—**

(1) Upon such approval pursuant to s. 607.221, articles of merger or articles of consolidation shall be executed by each corporation by its president or a vice president and by its secretary or an assistant secretary and acknowledged by one of the officers of each corporation signing such articles, and shall set forth:

1. In the case of a merger, with respect to the surviving corporation, a statement of any changes in the articles of incorporation to be effected by the merger.

2. In the case of a consolidation, with respect to the new corporation, all of the statements required to be set forth in the articles of incorporation for corporations organized under this chapter.

(c) As to each corporation, the date of adoption of the plan of merger or plan of consolidation by the shareholders or by the board of directors when no vote of the shareholders is required.

(d) If a plan of merger is adopted by the corporation surviving the merger by action of its board of directors and without a vote of its shareholders pursuant to s. 607.221, a statement to that effect.

(e) If the plan of merger or plan of consolidation provides for an exchange, classification, or cancellation of issued shares and if the manner in which the same shall be effected is not set forth in the articles of incorporation of the new corporation, in the case of a consolidation, or in the amendments to the articles of incorporation of the surviving corporation, in the case of a merger, then, unless the plan of merger or plan of consolidation is set forth in the articles of merger or articles of consolidation, a statement of the manner in which any exchange, classification, or cancellation of issued shares shall be effected.

(2) The articles of merger or articles of consolidation shall be delivered to the Department of State. If the Department of State finds that such articles conform to law, it shall, when all fees and taxes have been paid as prescribed in this chapter, file the articles of merger or articles of consolidation as provided in this chapter.

(3) The surviving or new corporation may cause a copy of the articles of merger or articles of consolidation certified by the Department of State to be filed in the office of the official who is the recording officer of each county in this state in which real property of a constituent corporation other than the surviving corporation is situated.

#### **607.227 Merger of subsidiary corporation.—**

(1) Any corporation owning at least 90 percent of the outstanding shares of each class of another corporation may merge such other corporation into itself without approval by a vote of the shareholders of either corporation. Its board of directors shall, by resolution, approve a plan of merger setting forth:

(a) The name of the subsidiary corporation and the name of the corporation owning at least 90 percent of its shares, which is hereinafter designated as the surviving corporation.

(b) The manner and basis of converting the shares of the subsidiary corporation into shares, rights, obligations, or other securities of the surviving corporation or of any other corporation or, in whole or in part, into cash or other property.

(2) A copy of such plan of merger shall be mailed to each shareholder of record of the subsidiary corporation. The plan of merger shall contain a clear and concise statement that shareholders of the subsidiary corporation dissenting from the merger are enti-

tled, if they comply with the provisions of this chapter regarding the rights of dissenting shareholders, to be paid the fair value of their shares.

(3) Articles of merger shall be executed by the surviving corporation by its president or a vice president and by its secretary or an assistant secretary and acknowledged by one of its officers signing such articles and shall set forth:

(a) The names of the corporations which are parties to the merger, designating which is the surviving corporation.

(b) The plan of merger or a statement of any changes in the articles of incorporation of the surviving corporation to be effected by the merger.

(c) The number of outstanding shares of each class of the subsidiary corporation and the number of such shares of each class owned by the surviving corporation.

(d) The date of the mailing to shareholders of the subsidiary corporation of a copy of the plan of merger.

(4) On and after the 30th day after the mailing of a copy of the plan of merger to shareholders of the subsidiary corporation or upon the waiver thereof by the holders of all outstanding shares, the articles of merger shall be delivered to the Department of State. If the Department of State finds that such articles conform to law, it shall, when all fees and taxes have been paid as prescribed in this chapter, file the articles of merger in accordance with this chapter.

(5) The surviving corporation shall thereafter cause a copy of the articles of merger certified by the Department of State to be filed in the office of the official who is the recording officer of each county in this state in which real property of a constituent corporation other than the surviving corporation is situated.

History.—s. 76, ch. 75-250.

#### **607.231 Effect of merger or consolidation.—**

(1) Upon the filing of the articles of merger or the articles of consolidation by the Department of State, the merger or consolidation shall be effected.

(2) Notwithstanding subsection (1), the date on which the merger or consolidation shall be effected may be specified in the articles of merger or consolidation; however, in no event shall the effective date be prior to, or more than 90 days after, the filing of the articles of merger or consolidation by the Department of State.

(3) When such merger or consolidation has been effected:

(a) The several corporations parties to the plan of merger or consolidation shall be a single corporation which, in the case of a merger, shall be the corporation designated in the plan of merger as the surviving corporation or, in the case of a consolidation, shall be the new corporation provided for in the plan of consolidation.

(b) The separate existence of all corporations parties to the plan of merger or consolidation, except the surviving or new corporation, shall cease.

(c) Such surviving or new corporation shall have all the rights, privileges, immunities, and powers, and shall be subject to all the duties and liabilities, of a corporation organized under this chapter.

(d) Such surviving or new corporation shall thereupon and thereafter possess all the rights, privileges, immunities, and franchises, of a public as well as a private nature, of each of the merging or consolidating corporations. All property, real, personal, and mixed, all debts due on whatever account, including subscriptions to shares, all other choses in action, and all and every other interest of or belonging to or due to each of the corporations so merged or consolidated shall be taken and deemed to be transferred to and vested in such single corporation without further act or deed; and the title to any real estate, or any interest therein, vested in any of such corporations shall not revert or be in any way impaired by reason of such merger or consolidation.

(e) Such surviving or new corporation shall thenceforth be responsible and liable for all the liabilities and obligations of each of the corporations so merged or consolidated, and any claim existing or action or proceeding pending by or against any of such corporations may be prosecuted as if such merger or consolidation had not taken place, or such surviving or new corporation may be substituted in its place. Neither the rights of creditors nor any liens upon the property of any such corporation shall be impaired by such merger or consolidation.

(f) In the case of a merger, the articles of incorporation of the surviving corporation shall be deemed to be amended to the extent, if any, that changes in its articles of incorporation are stated in the plan of merger and, in the case of a consolidation, the statements set forth in the articles of consolidation and which are required or permitted to be set forth in the articles of incorporation of corporations organized under this chapter shall be deemed to be the original articles of incorporation of the new corporation.

History.—s. 77, ch. 75-250; s. 1, ch. 77-174.

#### **607.234 Merger or consolidation of domestic and foreign corporations.—**

(1) One or more foreign corporations and one or more domestic corporations may be merged or consolidated in the following manner, if such merger or consolidation is permitted by the laws of the jurisdiction under which each such foreign corporation is organized:

(a) Each domestic corporation shall comply with the provisions of this chapter with respect to the merger or consolidation, as the case may be, of domestic corporations, and each foreign corporation shall comply with the applicable provisions of the laws of the jurisdiction under which it is organized.

(b) If the surviving or new corporation, as the case may be, is to be governed by the laws of any jurisdiction other than this state, it shall comply with the provisions of this chapter with respect to foreign corporations if it is to transact business in this state, and in every case it shall file with the Department of State of this state an agreement that it will promptly pay to the dissenting shareholders of any such domestic corporation the amount, if any, to which they shall be entitled under the provisions of this chapter with respect to the rights of dissenting shareholders.

(2) The effect of such merger or consolidation shall be the same as in the case of the merger or consolidation of domestic corporations if the surviv-

ing or new corporation is to be governed by the laws of this state. If the surviving or new corporation is to be governed by the laws of any jurisdiction other than this state, the effect of such merger or consolidation shall be the same as in the case of the merger or consolidation of domestic corporations except insofar as the laws of such other jurisdiction provide otherwise.

(3) At any time prior to the filing of the articles of merger or consolidation, the merger or consolidation may be abandoned pursuant to provisions therefor, if any, set forth in the plan of merger or consolidation.

**607.237 Mortgage or pledge of assets.—**Unless the articles of incorporation provide otherwise, the mortgage or pledge of, or creation of a security interest in, any or all of the property and assets of a corporation for the purpose of securing the payment or performance of any contract, note, bond, or other obligation of the corporation may be made upon such terms and conditions and for such consideration, which may consist in whole or in part of cash or other property, including shares, obligations, or other securities of any other corporation, domestic or foreign, as shall be authorized by its board of directors; and, in any such case, no authorization or consent of the shareholders shall be required.

History.—s. 79, ch. 75-250.

Note.—Former s. 608.19(2).

**607.241 Sale of assets.—**A sale, lease, exchange, or other disposition of all, or substantially all, the property and assets of a corporation, with or without the good will, may be made upon such terms and conditions and for such consideration, which may consist in whole or in part of cash or other property, including shares, obligations, or other securities of any other corporation, domestic or foreign, as may be authorized in the following manner:

(1) The board of directors shall adopt a resolution recommending such sale, lease, exchange, or other disposition and directing the submission thereof to a vote at a meeting of shareholders, which may be either an annual or a special meeting.

(2) Written notice shall be given to each shareholder of record, whether or not entitled to vote at such meeting, in the manner provided in this chapter for the giving of notice of meetings of shareholders and, whether the meeting be an annual or a special meeting, shall state that the purpose, or one of the purposes, is to consider the proposed sale, lease, exchange, or other disposition. The notice shall fairly summarize the material features of the proposed transaction and shall contain a clear and concise statement that, if the sale, lease, exchange, or other disposition is effected, shareholders dissenting therefrom are entitled, if they file a written objection to such transaction before the vote of the shareholders is taken thereon and comply with the further provisions of this chapter regarding the rights of dissenting shareholders, to be paid the fair value of their shares.

(3) At such meeting, the shareholders may au-

thorize such sale, lease, exchange, or other disposition and may fix, or may authorize the board of directors to fix, any or all of the terms and conditions thereof and the consideration to be received by the corporation therefor. Such authorization shall require the affirmative vote of the holders of a majority of the shares of the corporation entitled to vote thereon, unless any class of shares is entitled to vote thereon as a class, in which event such authorization shall require the affirmative vote of the holders of a majority of the shares of each class of shares entitled to vote as a class thereon and of the total shares entitled to vote thereon.

(4) After such authorization by a vote of shareholders, the board of directors may abandon such sale, lease, exchange, or other disposition of assets, subject to the rights of third parties under any contracts relating thereto, without further action or approval by shareholders.

**History.**—s. 80, ch. 75-250.

**Note.**—Former s. 608.19(1).

#### **607.244 Right of shareholders to dissent.—**

(1) Any shareholder of a corporation shall have the right to dissent from any of the following corporate actions:

(a) Any plan of merger or consolidation to which the corporation is a party; or

(b) Any sale or exchange of all or substantially all of the property and assets of the corporation, including a sale in dissolution.

(2) A shareholder may dissent as to less than all the shares registered in his name. In that event, his rights shall be determined as if the shares as to which he has dissented and his other shares were registered in the names of different shareholders.

(3) Unless the articles of incorporation otherwise provide, this section shall not apply:

(a) To the shareholders of the surviving corporation in a merger if a vote of the shareholders of such corporation is not necessary to authorize such merger.

(b) To the holders of shares of any class or series which, on the date fixed to determine the shareholders entitled to vote at the meeting of shareholders at which a plan of merger or consolidation or a proposed sale or exchange of property and assets is to be acted upon, were either registered on a national securities exchange or held of record by not less than 2,000 shareholders.

(c) To a sale or exchange pursuant to an order of a court having jurisdiction in the premises.

(d) To a sale for cash on terms requiring that all or substantially all of the net proceeds of sale be distributed to the shareholders in accordance with their respective interests within 1 year after the date of sale.

**History.**—s. 81, ch. 75-250.

**Note.**—Former s. 608.23.

#### **607.247 Rights of dissenting shareholders.—**

(1) Any shareholder electing to exercise a right of dissent shall file with the corporation, prior to the taking of the vote of shareholders on the proposed corporate action, a written objection to such proposed corporate action. If such proposed corporate action be approved by the required vote and such

shareholder shall not have voted in favor thereof, such shareholder may, within 10 days after the date on which the vote was taken, make written demand on the corporation or, in the case of a merger or consolidation, on the surviving or new corporation, domestic or foreign, for payment of the fair value of such shareholder's shares.

(2) Notwithstanding subsection (1), when a merger, consolidation, or sale or exchange of assets has been approved by written consent of shareholders pursuant to s. 607.394, any shareholder failing to give consent or, when a corporation is to be merged without a vote of its shareholders into another corporation, any of its shareholders, may, within 15 days after the plan of such merger, consolidation, or sale or exchange of assets shall have been mailed to such shareholders, make written demand on the corporation or, in the case of a merger or consolidation, the surviving or new corporation, domestic or foreign, for payment of the fair value of such shareholder's shares.

(3) If such proposed corporate action is effected, such corporation shall pay to such shareholder, upon surrender of the certificate or certificates representing such shares, the fair value thereof as of the day prior to the date on which the vote was effected approving the proposed corporate action by the shareholders of the corporation in which the dissenting shareholder owns shares or, in the case of a merger pursuant to s. 607.227, as of the day prior to the date on which a copy of the plan of merger was mailed to each shareholder of record of the subsidiary corporation. In any case, the fair value of shares shall be computed by excluding any appreciation or depreciation in anticipation of such corporation action. Any shareholder failing to make demand within the applicable 10-day or 15-day period shall be bound by the terms of the proposed corporation action. Any shareholder making such demand shall thereafter be entitled only to payment as provided in this section and shall not be entitled to vote or to exercise any other rights of a shareholder.

(4) No such demand may be withdrawn unless the corporation shall consent thereto. However, the right of such shareholder to be paid the fair market value of his shares shall cease, and his status as a shareholder shall be restored without prejudice to any corporate proceedings which may have been taken in the interim, if:

(a) Such demand shall be withdrawn upon consent.

(b) The proposed corporate action shall be abandoned or rescinded or the shareholders shall revoke the authority to effect such action.

(c) In the case of a merger, on the date of the filing of the articles of merger the surviving corporation is the owner of all the outstanding shares of the other corporations, domestic and foreign, that are parties to the merger.

(d) No demand or petition for the determination of fair value by a court shall have been made or filed within the time provided in this section.

(e) A court of competent jurisdiction shall determine that such shareholder is not entitled to the relief provided by this section.

(5) Within 10 days after such corporate action is

effected, the corporation or, in the case of a merger or consolidation, the surviving or new corporation, domestic or foreign, shall give written notice thereof to each dissenting shareholder who has made demand as herein provided, and shall make a written offer to each such shareholder to pay for such shares at a specified price deemed by such corporation to be the fair value thereof. Such notice and offer shall be accompanied by:

(a) A balance sheet of the corporation, the shares of which the dissenting shareholder holds, as of the latest available date and not more than 12 months prior to the making of such offer; and

(b) A profit and loss statement of such corporation for the 12-month period ended on the date of such balance sheet.

(6) If within 30 days after the date on which such corporate action was effected the fair value of such shares is agreed upon between any such dissenting shareholders and the corporation, payment therefor shall be made within 90 days after the date on which such corporate action was effected, upon surrender of the certificate or certificates representing such shares. Upon payment of the agreed value, the dissenting shareholder shall cease to have any interest in such shares.

(7) If within such period of 30 days a dissenting shareholder and the corporation do not so agree, then the corporation, within 30 days after receipt of written demand from any dissenting shareholder given within 60 days after the date on which such corporate action was effected, shall, or at its election at any time within such period of 60 days may, file an action in any court of competent jurisdiction in the county in this state where the registered office of the corporation is located requesting that the fair value of such shares be found and determined. If, in the case of a merger or consolidation, the surviving or new corporation is a foreign corporation without a registered office in this state, such petition shall be filed in the county where the registered office of the domestic corporation was last located. If the corporation shall fail to institute the proceeding as herein provided, any dissenting shareholder may do so in the name of the corporation. All dissenting shareholders, wherever residing, shall be made parties to the proceeding as an action against their shares quasi in rem. A copy of the initial pleading shall be served on each dissenting shareholder who is a resident of this state and shall be served on each dissenting shareholder who is a nonresident. The jurisdiction of the court shall be plenary and exclusive. All shareholders who are parties to the proceeding shall be entitled to judgment against the corporation for the amount of the fair value of their shares. The court may, if it so elects, appoint one or more persons as appraisers to receive evidence and recommend a decision on the question of fair value. The appraisers shall have such power and authority as shall be specified in the order of their appointment or an amendment thereof. The judgment shall be payable only upon and concurrently with the surrender to the corporation of the certificate or certificates representing such shares. Upon payment of the judgment, the dissenting shareholder shall cease to have any interest in such shares.

(8) The judgment shall include an allowance for interest at such rate as the court may find to be fair and equitable in all the circumstances from the date on which the vote was taken on the proposed corporate action to the date of payment.

(9) The costs and expenses of any such proceeding shall be determined by the court and shall be assessed against the corporation, but all or any part of such costs and expenses may be apportioned and assessed as the court may deem equitable against any or all of the dissenting shareholders who are parties to the proceeding, to whom the corporation shall have made an offer to pay for the shares, if the court shall find that the action of such shareholders in failing to accept such offer was arbitrary or vexatious or not in good faith. Such expenses shall include reasonable compensation for, and reasonable expenses of, the appraisers, but shall exclude the fees and expenses of counsel for, and experts employed by, any party. If the fair value of the shares, as determined, materially exceeds the amount which the corporation offered to pay therefor or if no offer was made, the court in its discretion may award to any shareholder who is a party to the proceeding such sum as the court may determine to be reasonable compensation to any expert or experts employed by the shareholder in the proceeding.

(10) Within 20 days after demanding payment for his shares, each shareholder demanding payment shall submit the certificate or certificates representing his shares to the corporation for notation thereon that such demand has been made. His failure to do so shall, at the option of the corporation, terminate his rights under this section unless a court of competent jurisdiction, for good and sufficient cause shown, shall otherwise direct. If shares represented by a certificate on which notation has been so made shall be transferred, each new certificate issued therefor shall bear similar notation, together with the name of the original dissenting holder of such shares, and a transferee of such shares shall acquire by such transfer no rights in the corporation other than those which the original dissenting shareholder had after making demand for payment of the fair value thereof.

(11) Shares acquired by a corporation pursuant to payment of the agreed value thereof or to payment of the judgment entered therefor, as provided in this section, may be held and disposed of by such corporation as in the case of other treasury shares, except that, in the case of a merger or consolidation, they may be held and disposed of as the plan of merger or consolidation may otherwise provide. The shares of the surviving or resulting corporation into which the shares of such dissenting shareholders would have been converted had they assented to the merger or consolidation shall have the status of authorized but unissued shares of the surviving or resulting corporation.

**Note.**—Former s. 608.23.

(1) Before the organizational meeting of the di-

rectors named in the articles of incorporation by the incorporator or incorporators.

(2) At or after the organizational meeting of said directors by the director or directors in the following manner:

(a) Articles of dissolution shall be executed by the incorporator or by the director or a majority of the directors, as the case may be, and acknowledged by him or them, and shall set forth:

1. The name of the corporation.

3. That none of the corporation's shares have been issued.

6. That no debts of the corporation remain unpaid.
7. That the incorporator or a majority of the incorporators, or the director or a majority of the directors, as the case may be, elect that the corporation be dissolved.

If the Department of State finds that the articles of dissolution conform to law, it shall, when all fees and taxes have been paid as prescribed in this chapter, file the articles of dissolution in accordance with this chapter.

(c) Upon the filing of such certificate of dissolution by the Department of State, the existence of the corporation shall cease.

*Note.*—Former s. 608.31.

#### **607.254 Voluntary dissolution by consent of shareholders.—**

(1) A corporation may be voluntarily dissolved by the written consent of all of its shareholders.

(2) Upon the execution of such written consent and after compliance with other provisions of this chapter, the corporation shall file articles of dissolution as provided in this chapter.

*History.*—s. 84, ch. 75-250.

#### **607.257 Voluntary dissolution by act of corporation.—**A corporation may be dissolved by the act of the corporation, when authorized in the following manner:

(1) The board of directors shall adopt a resolution recommending that the corporation be dissolved and directing that the question of such dissolution be submitted to a vote at a meeting of shareholders, which may be either an annual or a special meeting.

(2) Written notice shall be given to each shareholder of record entitled to vote at such meeting within the time and in the manner provided in this chapter for the giving of notice of meetings of shareholders and, whether the meeting be an annual or special meeting, shall state that the purpose, or one of the purposes, of such meeting is to consider the advisability of dissolving the corporation.

(3) At such meeting a vote of shareholders entitled to vote thereat shall be taken on a resolution to

dissolve the corporation. Such resolution shall be adopted upon receiving the affirmative vote of the holders of a majority of the shares of the corporation entitled to vote thereon, unless any class of shares is entitled to vote thereon as a class, in which event the resolution shall be adopted upon receiving the affirmative vote of the holders of a majority of the shares of each class of shares entitled to vote thereon as a class and of the total shares entitled to vote thereon.

(4) Upon the adoption of such resolution and after compliance with other provisions of this chapter, the corporation shall file articles of dissolution as provided in this chapter.

*History.*—s. 85, ch. 75-250.

#### **607.261 Procedure before filing articles of dissolution.—**Before filing articles of dissolution and after the vote authorizing dissolution:

(1) The corporation shall cease to carry on its business, except insofar as may be necessary for the winding up thereof.

(2) The corporation shall immediately cause notice thereof to be mailed to each known creditor of, and claimant against, the corporation.

(3) The corporation shall proceed to collect its assets, convey and dispose of such of its properties as are not to be distributed in kind to its shareholders, pay, satisfy, or discharge its liabilities and obligations or make adequate provision for payment and discharge thereof, and do all other acts required to liquidate its business and affairs. After paying or discharging all its obligations or making adequate provision for payment and discharge thereof, the corporation shall then distribute the remainder of its assets, either in cash or in kind, among its shareholders according to their respective rights and interests.

(4) The corporation, at any time during the liquidation of its business and affairs, may apply to a circuit court to have the liquidation continued under the supervision of the court as provided in this chapter.

*History.*—s. 86, ch. 75-250.

#### **607.264 Revocation of voluntary dissolution proceedings.—**

(1) At any time prior to the filing of articles of dissolution by the Department of State, a corporation may revoke voluntary dissolution proceedings:

(a) By the written consent of all of its shareholders.

(b) By the act of the corporation in the following manner:

1. The board of directors shall adopt a resolution recommending that the voluntary dissolution proceedings be revoked and directing that the question of such revocation be submitted to a vote at a special meeting of shareholders.

2. Written notice, stating that the purpose or one of the purposes of such meeting is to consider the advisability of revoking the voluntary dissolution proceedings, shall be given to each shareholder of record entitled to vote at such meeting within the time and in the manner provided in this chapter for the giving of notice of special meetings of shareholders.

3. At such meeting, a vote of the shareholders entitled to vote thereat shall be taken on a resolution to revoke the voluntary dissolution proceedings, which shall require for its adoption the affirmative vote of the holders of a majority of the shares entitled to vote thereon.

(2) Upon the revocation of voluntary dissolution proceedings, whether by consent of shareholders or by act of the corporation, the corporation may again carry on its business.

*History.*—s. 87, ch. 75-250; s. 12, ch. 76-209.

(1) If voluntary dissolution proceedings have not been revoked, then, when all liabilities and obligations of the corporation have been paid or discharged, or adequate provision has been made therefor, and all of the remaining property and assets of the corporation have been distributed to its shareholders according to their respective rights and interests, articles of dissolution shall be executed by the corporation by its president or a vice president and by its secretary or an assistant secretary, and acknowledged by one of the officers signing such statement, which statement shall set forth:

(a) The name of the corporation.

(b) The names and respective addresses of its officers.

(c) The names and respective addresses of its directors.

(d) That all debts, obligations, and liabilities of the corporation have been paid or discharged or that adequate provision has been made therefor.

(f) That there are no actions pending against the corporation in any court or that adequate provision has been made for the satisfaction of any judgment, order, or decree which may be entered against it in any pending action.

(g) If the corporation elected to dissolve by written consent of all shareholders, a copy, which need not be an executed copy, of the written consent to dissolve and a statement that such written consent has been signed by all shareholders of the corporation or signed in their names by their attorneys thereunto duly authorized.

(2) Articles of dissolution shall be delivered to the Department of State. If the Department of State finds that such articles of dissolution conform to law, it shall, when all fees and taxes have been paid as prescribed in this chapter, file the articles of dissolution in accordance with this chapter.

(3) Upon the filing of the articles of dissolution by the Department of State, the existence of the corporation shall cease, except for the purpose of suits,

other proceedings, and appropriate corporate action by shareholders, directors, and officers as provided in this chapter.

*History.*—ss. 88, 89, ch. 75-250; s. 13, ch. 76-209.

**607.271 Involuntary dissolution.—**

(1) A corporation may be dissolved involuntarily by a decree of the circuit court for the county in which the registered office of the corporation is situated in an action filed by the Department of Legal Affairs when it is established that:

(a) The corporation procured its articles of incorporation through fraud.

(b) The corporation has exceeded the authority conferred upon it by law; violated any provision of law whereby it has forfeited its charter; carried on, conducted, or transacted its business in a persistently fraudulent or illegal manner; or has, by the abuse of its powers contrary to the public policy of the state, become liable to be dissolved.

(2) A corporation may be dissolved involuntarily by order of the Department of State when the Department of State has determined that:

(a) The corporation has failed to file its annual report or pay the annual report filing fee within the time required by this chapter.

(b) The corporation has failed for 30 days to appoint and maintain a registered agent in this state.

(c) The corporation has failed for 30 days after change of its registered office or registered agent to file in the office of the Department of State a statement of such change.

(3) No corporation shall be involuntarily dissolved under subsection (2) unless the Department of State gives the corporation not less than 90 days' notice of the proposed dissolution, stating the reasons therefor, addressed to its registered office or to its principal place of business and the corporation has failed prior to such involuntary dissolution to correct the reasons for the proposed involuntary dissolution.

(4) If the Department of State shall involuntarily dissolve any corporation under the provisions of subsection (2), it shall issue a certificate to such effect and mail the certificate to the corporation at its registered office or its principal place of business. Upon the issuance of such certificate of involuntary dissolution, the existence of the corporation shall cease, except as otherwise provided by law.

(5) Any corporation dissolved by the Department of State under the provisions of subsection (2) or prior law may be reinstated by the Department of State at any time upon approval of an application for reinstatement signed by an officer or director of the dissolved corporation. Such application shall be filed by the Department of State whenever it is established to its satisfaction that in fact there was no cause for the dissolution or that the reasons for the dissolution have been corrected and all fees, computed at the rate provided by law at the time the corporation applies for reinstatement, have been paid. If the name of the dissolved corporation has been lawfully assumed in this state by another corporation, the Department of State shall require the dissolved corporation to amend its articles of incorporation to change its name before accepting its application for reinstatement. Whenever the application for rein-

statement is approved and filed by the Department of State, the corporate existence shall be deemed to have continued without interruption from the date of dissolution. The reinstatement shall have no effect upon any personal liability of the directors, officers, or agents of the corporation on account of actions taken during the period between dissolution and reinstatement, but the power of the corporation to indemnify such directors, officers, or agents shall extend to actions taken during such period.

(6) The enumeration in subsections (1) and (2) of grounds for involuntary dissolution shall not exclude actions or special proceedings by the Department of Legal Affairs or any state officials for the annulment or dissolution of a corporation for other causes as provided in any other statute of this state.

History.—s. 90, ch. 75-250; s. 1, ch. 77-174.

#### **607.274 Jurisdiction of court to liquidate assets and business of corporation.—**

(1) The circuit courts shall have full power to liquidate the assets and business of a corporation:

(a) In an action by a shareholder when it is established:

1. That the directors are deadlocked in the management of the corporate affairs and the shareholders are unable to break the deadlock and that irreparable injury to the corporation is being suffered or is threatened by reason thereof.

2. That the shareholders are deadlocked in voting power and have failed to elect successors to directors whose terms have expired or would have expired upon qualification of their successors.

3. That the corporate assets are being misapplied or wasted.

(b) In an action by a creditor:

1. When the claim of the creditor has been reduced to judgment and an execution thereon returned unsatisfied and it is established that the corporation is insolvent.

2. When the corporation has admitted in writing that the claim of the creditor is due and owing and it is established that the corporation is insolvent.

(c) Upon application by a corporation to have its liquidation continued under the supervision of the court.

(d) When an action has been filed by the Department of Legal Affairs to dissolve a corporation and it is established that liquidation of its business and affairs should precede the entry of a decree of dissolution.

(2) Proceedings under paragraph (1)(a) shall be brought in the county in which the last known principal office of the corporation, as shown by the records of the Department of State, is situated. It shall not be necessary to make shareholders parties to any such action or proceeding unless relief is sought against them personally.

History.—s. 91, ch. 75-250.

#### **607.277 Procedure in liquidation of corporation by court.—**

(1) In proceedings to liquidate the assets and business of a corporation, the court shall have power:

(a) To issue injunctions.

(b) To appoint a receiver or receivers pendente lite with such powers and duties as the court, from

time to time, may direct.

(c) To take such other proceedings as may be requisite to preserve the corporate assets, wherever situated, and carry on the business of the corporation until a full hearing can be had.

(2) After a hearing had upon such notice as the court may direct to be given to all parties to the proceedings and to any other parties in interest designated by the court, the court may appoint a liquidating receiver or receivers with authority to collect the assets of the corporation, including all amounts owing to the corporation by subscribers on account of any unpaid portion of the consideration for the issuance of shares. Such liquidating receiver or receivers shall have authority, subject to the order of the court, to sell, convey, and dispose of all or any part of the assets of the corporation, wherever situated, either at public or private sale. The assets of the corporation or the proceeds resulting from a sale, conveyance, or other disposition thereof shall be applied to the expenses of such liquidation and to the payment of the liabilities and obligations of the corporation, and any remaining assets or proceeds shall be distributed among its shareholders according to their respective rights and interests. The order appointing such liquidating receiver or receivers shall state their powers and duties. Such powers and duties may be increased or diminished at any time during the proceedings.

(3) The court shall have power to allow, from time to time as expenses of the liquidation, compensation to the receiver or receivers and to attorneys in the proceeding and to direct the payment thereof out of the assets of the corporation or the proceeds of any sale or disposition of such assets.

(4) A receiver of a corporation appointed under the provisions of this section shall have authority to sue and defend in all courts in his own name as receiver of such corporation. The court appointing such receiver shall have exclusive jurisdiction of the corporation and its property, wherever situated.

(5) The circuit court shall have jurisdiction to appoint an ancillary receiver for the assets and business of such corporation, to serve ancillary to the receiver for the assets and business of the corporation acting under orders of a court having jurisdiction to appoint such a receiver for the corporation, located in any other state, whenever circumstances exist deemed by the court to require the appointment of such ancillary receiver. Moreover, such court, whenever circumstances exist deemed by it to require the appointment of a receiver for all the assets in and out of this state, and the business, of a foreign corporation doing business in this state, in accordance with the ordinary usages of equity, may appoint such a receiver for all its assets in and out of this state, and its business, even though no receiver has been appointed elsewhere. Such receivership shall be converted into an ancillary receivership when deemed appropriate by such circuit court in the light of orders entered by a court of competent jurisdiction in some other state, providing for a receivership of all assets and business of such corporation.

History.—s. 92, ch. 75-250.

**607.281 Qualifications of receivers.**—A receiver shall in all cases be a natural person or a corporation authorized to act as receiver, which corporation may be a domestic corporation or a foreign corporation authorized to transact business in this state, and shall in all cases give such bond as the court may direct, with such sureties as the court may require.

*History.*—s. 93, ch. 75-250.

**607.284 Filing of claims in liquidation proceedings.**—In proceedings to liquidate the assets and business of a corporation, the court may require all creditors of the corporation to file with the clerk of the court or with the receiver, in such form as the court may prescribe, proofs under oath of their respective claims. If the court requires the filing of claims, it shall fix a date, which shall be not less than 4 months from the date of the order, as the last day for filing of claims, and shall prescribe the notice of the date so fixed that shall be given to creditors and claimants. Prior to the date so fixed, the court may extend the time for the filing of claims. Creditors and claimants failing to file proofs of claim on or before the date so fixed may be barred, by order of court, from participating in the distribution of the assets of the corporation. Nothing in this section affects the enforceability of any recorded mortgage or lien or the perfected security interest or rights of a person in possession of real or personal property.

*History.*—s. 94, ch. 75-250; s. 14, ch. 76-209.

**607.287 Discontinuance of liquidation proceedings.**—The liquidation of the assets and business of a corporation may be discontinued at any time during the liquidation proceedings when it is established that cause for liquidation no longer exists. In such event, the court shall dismiss the proceedings and direct the receiver to redeliver to the corporation all its remaining property and assets.

*History.*—s. 95, ch. 75-250.

**607.291 Judgment of involuntary dissolution; entry; filing.**—

(1) In proceedings to liquidate the assets and business of a corporation, when the costs and expenses of such proceedings and all debts, obligations, and liabilities of the corporation shall have been paid and discharged and all of its remaining property and assets distributed to its shareholders or, in case its property and assets are not sufficient to satisfy and discharge such costs, expenses, debts, and obligations, all the property and assets have been applied so far as they will go to their payment, the court shall enter a judgment dissolving the corporation, whereupon the existence of the corporation shall cease.

(2) In case the court shall enter a judgment dissolving a corporation, it shall be the duty of the clerk of such court to cause a certified copy of the judgment to be filed with the Department of State. No fee shall be charged by the Department of State for the filing thereof.

*History.*—ss. 96, 97, ch. 75-250.

**607.294 Deposit of amount due certain creditors or shareholders with Department of Banking and Finance.**—Upon the voluntary or involuntary dissolution of a corporation, the portion of the assets that is distributable to a creditor or shareholder who is unknown or cannot be found, or who is under disability without any person being legally competent to receive such distributive portion, shall be deposited, within 6 months from the date fixed for the payment of the final liquidating distribution, with the Department of Banking and Finance, where such funds shall be held as abandoned property and shall be paid over to such creditor or shareholder or to his legal representative upon proof satisfactory to the Department of Banking and Finance of his rights thereto.

*History.*—s. 98, ch. 75-250; s. 1, ch. 77-174.

**607.297 Survival of remedy after dissolution.**—The dissolution of a corporation either:

- (1) By the issuance of a certificate of dissolution by the Department of State;
- (2) By a decree of court; or
- (3) By expiration of its period of duration

shall not take away or impair any remedy available to or against such corporation or its directors, officers, or shareholders for any right or claim existing, or any liability incurred, prior to such dissolution if action or other proceeding thereon is commenced within 3 years after the date of such dissolution. Any such action or proceeding by or against the corporation may be prosecuted or defended by the corporation in its corporate name. The shareholders, directors, and officers shall have power to take such corporate or other action as shall be appropriate to protect such remedy, right, or claim. If such corporation was dissolved by the expiration of its period of duration, such corporation may amend its articles of incorporation at any time during such period of 3 years so as to extend its period of duration.

*History.*—s. 99, ch. 75-250.

**607.301 Transfer of property after dissolution; powers and duties of directors as trustees.**—

(1) The directors of the corporation at the time of its dissolution shall thereafter be and constitute a board of trustees for any property owned or acquired by the dissolved corporation. If any such trustee shall be unwilling or unable to serve, any vacancy may be filled by the surviving trustees. In the event there be no surviving trustees or none can be located, the circuit court may appoint a trustee or trustees for the purposes of this section.

(2) Notwithstanding the obligation of any corporation to collect its assets, pay, discharge, or make provision for all of its debts, obligations, and liabilities, and distribute any remaining property to its shareholders prior to dissolution, the trustees for a dissolved corporation shall have the power to convey any property or interest therein remaining in the corporation after dissolution or acquired by it thereafter. If the trustees of any dissolved corporation learn that the corporation continues to own any property or interest therein, the trustees shall apply the property or interest therein to the payment of

any corporate debts, liabilities, or obligations known to them and, if there be none, they shall distribute the property or interest therein or the proceeds of the sale therefrom to the shareholders of the corporation at the time of dissolution.

(3) The trustees shall continue as trustees of the property of the dissolved corporation so long as it holds of record in this state any right, title, interest, claim, lien, or demand in, to, or upon real property or for a period of 3 years after dissolution, whichever shall be longer.

(4) The acts of a majority of the trustees, or of a majority of the surviving trustees, constitute the acts of the board of trustees. The trustees executing any instrument may append thereto an affidavit stating in substance that they are duly qualified to act as the trustees and that they constitute a majority of the trustees then existing. The affidavit, as to purchasers without notice, is conclusive as to the facts stated therein.
